Claimed acreage: 77.5
Claimed cfs: 2.088

Recommended acreage: 42.9
Recommended cfs: 1.06

Acreage un-recommended:	**13.9**
CFS un-recommended:	**0.64**

MVB notes 4/4/2007:
74-15442 - I think cfs is over-recommended. 1 inch per acre would be 0.08 cfs.
74-2047E - Not in decreed QQ. Recommended for stock. Already partially decreed.
74-2047G - is currently disallowed. Can find about 4 acres of irrigated land in taxlot. Mr. and Mrs. Guth have filed an objection.
74-2047P - is recommended at greater cfs than claimed (0.09 v. 0.056)
