Counsel for the United States of America

IN THE DISTRICT COURT OF THE FIFTH JUDICIAL DISTRICT OF THE STATE OF IDAHO, IN AND FOR THE COUNTY OF TWIN FALLS

In Re SRBA	)	Subcase No. 31-11201
	)	
Case Number: 39576	)	AFFIDAVIT OF GREGORY S. LEWIS
_____	)	

State of: IDAHO
County of: CLARK

Gregory S. Lewis, being first duly sworn upon oath, deposes and says:

1. I am currently employed by the United States Department of Agriculture,

Agriculture Research Service (ARS) as the Research Leader at the U.S. Sheep Experiment Station (Station) near Dubois, Idaho. I received a Ph.D. degree in reproductive physiology in 1978. I was a research physiologist at the USDA, ARS, Beltsville Agricultural Research Center. I became a Professor of Physiology in the Department of Animal and Poultry Sciences at Virginia Polytechnic Institute and State University before assuming my current position. I have been employed by the ARS for a total of 11 years.

2. As part of my duties and responsibilities as the Research Leader at the U.S. Sheep Experiment Station, I am familiar with the daily management operations and research at the Station.

3. I have reviewed reserved water right claim number 31-11201 (Claim), as amended and submitted by the ARS for the Station. Attached as Exhibit 1 is a true and correct copy of the Claim.

4. The Claim was prepared by Station personnel as part of their regular responsibilities. I verified the legal locations as set forth and described in Exhibit 1 and have personal knowledge that the elements of the Claim are true and correct as described in Exhibit 1.

5. The Claim is situated on federal lands reserved from the Public Domain by Executive Order as the U.S. Sheep Experiment Station. It is currently utilized by the ARS at the Station in the daily operation, administration and research conducted by the Station on Station lands.

6. The Claim is necessary for the administration of the Station pursuant to Executive Orders 2268 and 2491. These lands were withdrawn from the Public Domain for use by the Department of Agriculture of the United States as a sheep-breeding and grazing experimental station. See Exhibit 2.

7. The United States filed this Claim for use in association with the U.S. Sheep Experiment Station. Water is used at this site for administrative purposes related directly to the reservation under the Executive Orders listed in no. 6 above. The United States owns and manages between 4,000 and 7,000 sheep for research purposes at the Station. Water is used every year by the sheep, horses, guard dogs, herding dogs, herders and any other activity associated with sheep production, herding, grazing, management and research. Water is essential for the overall management, administration and research at the Station.

8. The Station also uses water at it's administrative headquarters facilities, which are located on the land reserved by Executive Order 2268. This includes 10 research buildings with offices (including the main administrative headquarters building), 15 residences with garages, a dormitory, a primary maintenance warehouse, 7 secondary sheds and shops, 2 pump houses, a kennel, corrals, outbuildings and other capital improvements.

9. I have reviewed ARS historical records describing the establishment of the U.S. Sheep Experiment Station. Based upon my review, the lands upon which the reserved water right claim is located, including both the legal locations of the point of diversion and place of use as described in Exhibit 1, are reserved from the Public Domain by Executive Orders 2268 and 2491. This is substantiated in historical documents maintained by the Idaho State Office of the United States Bureau of Land Management in Boise, Idaho. Attached as Exhibit 2 are copies of the above referenced Executive Orders establishing the U.S. Sheep Experiment Station.

10. The priority date, October 30, 1915, for this reserved water right claim corresponds to the date of Executive Order 2268, which first reserved from the Public Domain the land at the point of diversion for this water right. *See* Exhibit 2.

11. Based upon personal experience and knowledge, discussions with ARS and other personnel at the Station and review of relevant ARS records, including but not limited to on-site administrative, management and research records, water has been historically, and is presently utilized at the Station in quantities up to and including 0.27 c.f.s. during the period of January 1 through December 31, as described in Exhibit 1.

12. Based upon the forgoing, I have personal knowledge of the following elements of the reserved water right claim number 31-11201:

a. The name and address of the claimant is:

UNITED STATES OF AMERICA acting on behalf of the USDA ARS,

U.S. Sheep Experiment Station, 550 W. Fort Street, MSC033, Boise, ID 83724.

b. The source of water is:

Groundwater

c. The priority date is:

October 30, 1915

c. The location is:

1) point of diversion:

B.M., T. 11 N, R.36 E, S. 34 NENE

2) place of use:

All land reserved by Executive Orders 2268 and 2491 as the United States Sheep Experiment Station.

d. The quantity of water is:

0.27 c.f.s.

e. The period of use is:

January 1 through December 31

f. The purpose of use is:

Administrative purposes at the U. S. Sheep Experiment Station

Dated this 25 day of April, 2003.
