Adam,

Thank you for calling on June 4 regarding the City of Moscow's transfer application. You had suggested that the City consider withdrawing the transfer (or requesting a hold on processing) in that the transfer is partially redundant with Palouse River Basin Adjudication claims (which will be submitted shortly).

However, the City requests that IDWR continue processing the transfer application, the purpose of which is to integrate the City's water rights so that the rights are consistent with the City's delivery system. The transfer includes Well 10 as a POD for all of the City's licensed water rights; Well 10 cannot be included in the claims because it was constructed after the adjudication commenced. The City understands that an additional transfer will be necessary after the adjudication is complete to authorize Well 10 as a POD on all of the City's newly decreed rights.

In advance, thank you for your efforts in processing the City' transfer. Please call Candice McHugh (208-287-0991) or me (208-869-4569) if you have any questions. Also, your confirming receipt of this email would be appreciated — thanks!
