2. The Lessor has filed a completed application to lease water rights described below into the Water Supply Bank on forms supplied by the Idaho Department of Water Resources and received by the Department on December 30, 2020.

3. The Director of the Idaho Department of Water Resources has reviewed the application for compliance with the Water Supply Bank rules and has approved the Lease subject to conditions listed below.

NOW, THEREFORE, in consideration of the mutual covenants and contracts herein contained, and other good and valuable consideration, the receipt of which is hereby acknowledged, the parties hereto agree as follows:

1. **WATER RIGHTS**: The Lessor shall lease and the Board shall accept into the Bank the Applicant's water rights described as follows:

   Minimum Payment Acceptable: Current Rental Rate

3. **TERM OF LEASE**: The term of this lease shall be January 1, 2021 to December 31, 2025. This Lease shall bind the parties and take effect when both parties have signed it.

During the term of this lease, if a water right is administratively changed due to a water right split and renumbering, this lease may be reduced by an equal amount to reflect the water right elements as legally defined under the water right. If a lease contract cannot be reduced sufficient to reflect the legal definition of a water right as amended through a water right split and/or water right transfer, the Board may release the water right from the Water Supply Bank.

Memorandum

To: Water Right 61-7067
From: Justin Ferguson
Date: March 1, 2021
Re: Water Supply Bank Lease Application 1916

Purpose/Narrative: An application was received December 30, 2020 from Mr. Vic Conrad, on behalf of J R Simplot, offering the entire portion of water right 61-7067 for lease to the Bank through the end of 2025. Initially the water right had been leased to the Bank in 2003, three years after the right had been decreed through the SRBA.

Authority to File: The lease was prepared and submitted on behalf of Simplot by Mr. Vic Conrad and signed by Mr. James Alderman, Senior Vice President and Secretary for J R Simplot. Review of current IDWR records indicate J R Simplot as the water right holder. No concerns at this time.

Water Right Validity/Forfeiture Evaluation: Lease extension requests were received in 2005 & 2006 at which time the right was updated to be accepted on an indefinite term. A final extension was received in 2015 when the Water Resource Board ended indefinite term leases, keeping the right leased to the Bank through the end of 2020.

Injury Evaluation: This water right was decreed through the SRBA for industrial use within the chemical plant operated by J R Simplot. Any rental requesting the use of this water right for commercial use should not be a cause for concern and, with a proper review in the change in nature of use, there are not any immediate concerns to the water users within the Mountain Home Ground Water Management Area and the Cinder Cone Butte Critical Ground Water Area.

Enlargement of Use: No enlargement is evident as the plant has opted to idle this water right prior to comingling it with any other source. Additionally, should the water right be the subject of a rental request for a beneficial use having a greater consumptive use than industrial, further review may be necessary as the water right falls within the Cinder Cone Butte Critical Ground Water Area.

Local Public Interest: Staff are unaware of any local public interests that are averse to the lease.

Beneficial Use/Conservation of Water Resources: The lease appears consistent with the conservation of water resources in Idaho.

Department/Watermaster Comments: Watermaster for District 161 were requested March 1, 2021.

Water Supply Bank Evaluation: Based on the information presented by the applicant, staff recommend the proposal be approved for J R Simplot through the end of 2025
