Jim,
The 20 year term starts when the permit is issued (2003). Permits will be subject to the same public interest and water availability review as other water rights. Results of the review would take effect after the term ends.

Danni, could you copy this message to the water right file.

Jeff

Jeff,

I received your attached letter today. Please clarify how the letter applies to the Permit at this time. Proof of beneficial use was filed in 2008 but the beneficial use field exam has not yet been done and I understand the 20 year term does not start until the License is issued. If I am correct, what will happen on this front before the License is issued.

I look forward to hearing from you . Thanks.

Jim
