Jeff-
Thanks for contacting me regarding the acreage to be transferred on 2 of the Grant transfers.

The transfer dealing with water rights 36-2198 and 36-2199, the amount of water right 36-2198 to be transferred should have been 59 acres, (1.07 cfs/236 AFA) instead of 58 acres as outlined on the front page of the transfer application and on the accompanying map. The total amount transferred under both rights should have been 126.7 acres, instead of 125.7 acres. Please see the attached map and amended transfer application.

The transfer dealing with water right 36-7267, the amount of water to be transferred should have been 126.7 acres, (1.23 cfs/506.8 AFA) instead of 125.7 acres as outlined on the front page of the transfer application. The portion of 36-7267 remaining at the present place of use should be 28.3 acres instead of 29.3 acres. Please see the amended transfer application.

Thanks again for your help and give me a call if you have further comments or questions. Also attached is the shapefile and associated files for the portions of 36-2198 and 36-2199 to be transferred/swapped with 36-7267 (12 files total).

Subject: Leftover 36-7267

Zach-

Here are the amounts I get. Feel free to check my math.

36-7267 originally 155 acres, 1.5 cfs, 620 AFA

Jeanie's transfer (36-16549) takes 16.1 acres, 0.2 cfs, 64.4 AFA
Transfer going north (36-16800) takes 125.7 acres, 1.22 cfs, 502.8 AFA
Leftover at original POU (36-16801) 13.2 acres, 0.08 cfs, 52.8 AFA

Let me know if you have any other questions.
