Re: Withdrawal Request- Water Right Transfer # 74480.

Dear Jeff,

This letter serves as a request to withdrawal water right transfer application # 74480 from processing by IDWR. The intent to transfer 16.1 acres of water right 36-7267 by the applicant as described in transfer # 74480 no longer exists and therefore we ask that IDWR withdraw the water right transfer application.

16.1 acres of water right 36.7267 is now being proposed to be transferred from its present place of use, to a new permissible place of use owned by WG Farms LLC, as described in the amended water right transfer application # 74429 that has been submitted to Jeanie Robertson at the IDWR Southern Regional Office. We ask that the $100.00 filing fee associated with water right transfer # 74480 (receipt # S029961) be applied to the amended water right transfer # 74429 to cover the inclusion of water right 36-7267 on the application. Additionally, because we overpaid IDWR for water right transfer application #'s 74404, 74480 and two others with numbers unknown to us at this time, we ask that $120.00 be refunded to Brockway Engineering PLLC (receipt # S029905- personal correspondence with you on 6/23/09). It is my understanding that with the submission of this letter, processing may continue on all of the water right transfers referenced above.

Please copy our office on all correspondence dealing with these water right transfer applications. Don't hesitate to contact our office with questions or comments regarding these water right transfer applications. Thanks for your time and have a great day.

Regards,

Zach Latham, M.S., Hydrologist
