Hello Emalee,

I'm finally getting back to you with what I hope is the required information. I've attached your letter to me, dated January 6, 2011. It's possible this may have slipped your mind since then. I called you last spring to let you know I'm still on this. I think I may have made it more complicated than it is. I spoke with the title company regarding a chain of title back to the 1924 ownership of John Amblie, but she thought this attached information was all that you are requesting.

I have attached the deed for the property when my former husband and I bought it. I have also attached the complete quit claim deed signing my portion of the property over to me when Manfred and I divorced. I hope this is all you need to complete the Change in Water Right ownership and Assignment of Permit.

If you need the hard copies I'd by happy to send them to you.
Please let me know if this information will suffice.

Thanks for your patience,
Rebecca Gordon
