_____)

INTERLOCUTORY ORDER

On February 8, 1999, the Department of Water Resources ("department") issued a PRELIMINARY ORDER approving Transfer No. 5335 filed in the name of Owsley Canal Company ("applicant").

On December 19, 2000, the department amended Transfer No. 5335 by issuing a PRELIMINARY ORDER AMENDING TRANSFER APPROVAL.

On January 2, 2001, the applicant filed a PETITION FOR RECONSIDERATION ("petition") with the department advising that the applicant had information to support different dates of priority of use than shown for some of the water rights that are included in the amended transfer approval.

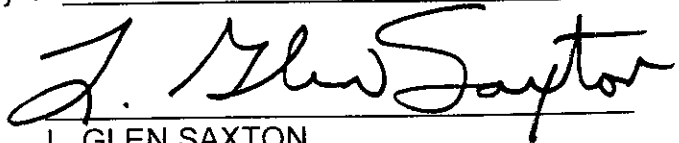

On January 3, 2001, the department issued an ORDER GRANTING PETITION FOR RECONSIDERATION.

On March 12, 2001, the applicant withdrew its petition.

ORDER

IT IS THEREFORE HEREBY ORDERED that the PRELIMINARY ORDER AMENDING TRANSFER APPROVAL issued by the department on December 19, 2000, be considered the **FINAL ORDER** in the matter as provided in Section 67-5246, Idaho Code.

Dated this 16th day of March, 2001.

**RE: PETITION FOR RECONSIDERATION – TRANSFER NO. 5335 IN THE NAME
OF OWSLEY CANAL COMPANY**

Dear Mr. Foster:

On February 8, 1999, the department approved transfer no. 5335 in the name of Owsley Canal Co. ("applicant"). Even though the order had become final, on December 19, 2000, the department issued a preliminary order amending the February 8, 1999 transfer approval to facilitate some changes to the rights involved for the benefit of the applicant and the recommendation of the transfer in the SRBA. On January 2, 2001, you filed a Petition for Reconsideration seeking changes to the preliminary order.

On January 3, 2001, the department granted your petition for reconsideration in order to provide you the opportunity to submit evidence to the department to show that the priority dates shown in the preliminary order are not correct. To date neither the regional office in Idaho Falls nor this office has received any evidence from you in this regard. Please submit the information to me within twenty-one (21) days of the date of this letter. If you do not timely submit the information, the department will issue a final order based on the information in department files.

If you have questions, please feel free to contact me.

Sincerely,

L. GLEN SAXTON, P.E.

bcontor	12/16/00	POD	Per Draft Preliminary Order Amending Transfer 5335, to get proposed PDs into electronic format. Other elements of review not data entered as of 12/16/2000. Note that PODs do not match field work.
bcontor	12/30/00	POD continued	POD recommended per Preliminary Order Amending Transfer Approval 5335. Note that amendment did not rectify differences between original transfer and AJ field work.
bcontor	12/30/00	POD cont. 2	Three sprinkler PODs are not added to 31-11430 because there is no diversion to storage from those PDs. Claimant is aware of need to file transfer to add these PDs to water rights. Ben use claims 31-11430 and 31-11432 match field work otherwise.
bcontor	1/1/01	Recommendation	All elements except POD and Period of Use recommended per post-1987 transfer 5335. POD and period of use modified by Preliminary Order 12/19/2000, recommended per that Preliminary Order.
bcontor	1/1/01	storage	right lists diversion to storage as a use, but no storage nor irrigation from storage, per T 5335. Irr. storage is authorized under 31-332, irr. from storage is authorized under 31-332, 31-11430.
bcontor	1/1/01	shoulder remark	No shoulder remark applied, as recommended season conforms to amended transfer and Bauerly decree. Shoulder remark would violate intent of Bauerly and amendment.
bcontor	1/1/01	tributary	Somehow source was listed as trib to mud lake, which is incorrect. This will need to be corrected.
bcontor	1/2/01	volume	Some rights in T5335 have no volumes assigned. For these, volume is calculated based on provisions of Bauerly Decree. Diversion volume of 31-2239 adjusted to capacity within period of use, 31-7005 adjusted to reflect license. Others per T 5335.
bcontor	1/2/01	Volume 2	Note that these volumes will sum to 3.5 afa. See paper file "Mud Lake Storage" showing that these volumes are appropriate for seepage and evaporation losses in lake and canals.

CONDITIONS OF APPROVAL AND REMARKS

1. Use of water under this water right will be regulated by the watermaster of State Water District No. 31.
2. The right holder shall use the full allotment of appurtenant surface water rights in conjunction with groundwater diverted under this right and shall only divert groundwater under this right when water from the appurtenant surface water rights cannot be delivered to the right holder.
3. This right shall not be used if the surface water right(s) appurtenant to the place of use is sold, transferred, leased or used on any other place of use.
4. This right when combined with all other rights shall provide no more than 0.02 cfs per acre nor more than 3.5 afa per acre at the field headgate for irrigation of the lands above.
5. The right holder shall accomplish the change authorized by this transfer within one (1) year of the date of this approval.
6. Failure of the right holder to comply with the conditions of this transfer is cause for the Director to rescind approval of the transfer.
7. Approval of this transfer does not preclude the opportunity for review of the validity of the water right(s) in the ongoing Snake River Basin Adjudication.
8. Prior to diversion of water under this approval, the right holder shall provide a means of measurement and lockable controlling works from all authorized points of diversion that is acceptable to the watermaster and will provide suitable control of the diversions.
- *** 9. The total instantaneous diversion of water from all points of diversion under Transfer 5335 shall not exceed 503.21 cfs during the irrigation season.
10. Approval of Transfer 5335 does not grant any right-of-way or easement for use of a delivery system owned by person(s) other than the right owner.
- ** 11. Rights 31-00327, 31-00328, 31-00329 and 31-00330 when combined shall not exceed a total diversion rate of 200.00 cfs during the irrigation season, and may be diverted at their full authorized rate of diversion into Mud Lake for storage purposes during the non-irrigation season.
- * 12. Right 31-02289 is limited to irrigation of 160.0 acres in the place of use described above in a single irrigation season.
- * 13. Right 31-02290 is limited to irrigation of 240.0 acres in the place of use described above in a single irrigation season.
- * 14. Right 31-02297 is limited to irrigation of 340.0 acres in the place of use described above in a single irrigation season.

Thanks for the additional info, Glen.

In accordance with our standard procedure, I anticipate that we will file our Director's Report based on the most current IDWR action -- in this case the amended transfer. If the transfer is pending due to a petition for reconsideration we can also file a Notice of Administrative Procedure (NAP) with the Court, which will stay their process and allow us to complete our transfer process and amend our recommendation to the Court if need be.

Subject: RE: Preliminary Order Amending Transfer 5335

Dear Lady and Gentlemen,

It seems at times that the best plans of mice, men and women fall apart. If the Owsley Canal Company ("Owsley") files a petition for reconsideration of Amended Transfer No. 5335, it does not look like this matter will be resolved in time to meet the filing date with the SBA court of recommendations for Basin 31. We all tried, however.

If I understand Bryce's e-mail, the basis of filing a petition for reconsideration appears to be that since the department approved a transfer in the past without sufficient information relative to the date of priority of a water right, that the department is obligated to not check any further into the date of priority of similar rights which also lack information relative to priority.

I checked the microfilm for cancelled Permit No. 17763/31-02254 and determined that proof of completion of works was submitted to the department on February 23, 1938. Since permit 17763 was cancelled, the right holder either has to rely upon the decree or a use right. The decree does not establish a priority and a use right is not entitled to the date of the filing of an application if the requirements of the application are not completed. Hence, if Owsley files a petition for reconsideration, I intend to grant it allowing the petitioner time to provide hard evidence showing when the water was first diverted and beneficially used. In the case of water right nos. 17611/31-00327 and 17612/31-00328, the priority that can be established probably is sometime after the application was filed and at the latest probably is the date of the decree. The department may provide the opportunity for hearing to Owsley if they wish. We may also want to require the same information for 17763/31-02254 which is the basis for 31-00337. lgs

Subject: Preliminary Order Amending Transfer 5335

This morning I met with Mud Lake Water Users and the watermaster, at the request of MLWU. We can probably expect a petition for reconsideration on the priority date of the cancelled and relinquished permits; they seek the original permit priority dates.

The grounds will be the precedent set by the department in recognizing the original permit date as the priority date for 31-00337A and 31-00337B, in transfers 2303 and 5335. This right was originally issued as permit 17763, which was cancelled by the department.

Re: Application for Transfer No. 5335, in the name of Owsley Canal Company

Dear Interested Parties:

The Department of Water Resources (department) has issued the enclosed **Preliminary Order Amending Transfer Approval** pursuant to section 67-5243, Idaho Code. **It can and will become a final order without further action of the Department unless a party petitions for reconsideration or files an exception and/or brief as described in the enclosed information sheet.**

Please note that water right owners are required to report any change of water right ownership and/or change of mailing address to the department within 120 days of the change. Failure to report these changes could result in a \$100 late filing fee. Contact any office of the department or visit our homepage on the Internet to obtain the proper reporting form.

If you have any questions, please call me at (208)327-7953.

Sincerely,

EXPLANATORY INFORMATION TO ACCOMPANY A PRELIMINARY ORDER

(Required by Rule of Procedure 730.02)

The accompanying order or approved document is a "**Preliminary Order**" issued by the Department of Water Resources (Department) pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action of the Department unless a party petitions for reconsideration, files an exception and brief, or requests a hearing as further described below:

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the department within fourteen (14) days of the service date of this order. The department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See Section 67-5243(3) Idaho Code.

EXCEPTIONS AND BRIEFS

Within fourteen (14) days after a) the service date of a preliminary order, b) the service date of a denial of a petition for reconsideration from this preliminary order, or c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding with the Director. Otherwise, this preliminary order will become a final order of the agency.

REQUEST FOR HEARING

Unless a right to a hearing before the Department or the Water Resource Board is otherwise provided by statute, any person aggrieved by any final decision, determination, order or action of the Director of the Department and who has not previously been afforded an opportunity for a hearing on the matter may request a hearing pursuant to section 42-1701A(3), Idaho Code. A written petition contesting the action of the Director and requesting a hearing shall be filed within fifteen (15) days after receipt of the denial or conditional approval.

ORAL ARGUMENT

If the Director grants a petition to review the preliminary order, the Director shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Director will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Director orders otherwise, all oral arguments will be heard in Boise, Idaho.

This matter having come before the Department of Water Resources (Department) as a result of an application for transfer of water rights, the Department makes the following Findings of Fact, Conclusions of Law, and Order:

FINDINGS OF FACT

1. On December 23, 1998, Owsley Canal Company (applicant) filed Application for Transfer No. 5335 (transfer) to change the points of diversion and places of use for the following water rights:

31-00327	31-0336B	31-02290	31-02341
31-00328	31-0337B	31-02297	31-02342
31-00329	31-00371	31-02310	31-02343
31-00330	31-02239	31-2317A	31-02344
31-00331	31-02265	31-2317B	31-02345
31-00332	31-02289	31-02321	31-07005

2. On February 8, 1999, the Department approved the transfer with conditions.

3. The transfer approval listed the period of use for diversion to storage purposes on the following water rights as October 16 to April 14.

31-00327	31-00329
31-00328	31-00330

4. Delivery of water for the rights listed below is regulated by the watermaster of Water District 31. Review of water district records and discussion with the watermaster indicate that the historic period of use for diversion to storage purposes for those rights is May 1 to November 1.

31-00327	31-00329
31-00328	31-00330

5. The transfer approval listed the period of use for irrigation purposes on each of the water rights as April 15 to October 15 in conformance with the existing Department standards for the area where the water rights are used.

6. The period of use for irrigation purposes for each of the following rights was previously decreed as May 1 to November 1.

31-00327	31-00332
31-00328	31-00336B
31-00329	31-00337B
31-00330	31-00371
31-00331	

7. The period of use for irrigation purposes for each of the following licensed rights was not established on the licenses issued by the Department, but the historic period of use has been May 1 to November 1.

31-02239	31-02317B
31-02265	31-02321
31-02289	31-02341
31-02290	31-02342
31-02297	31-02343
31-02310	31-02344
31-02317A	31-02345

8. On July 24, 1973, the Department issued License No. 31-07005 with a period of use for irrigation purposes from April 1 to November 15.

9. The applicant did not request a change in the period of use for any of the rights on the transfer.

10. The transfer approval listed the authorized diversion rate for irrigation purposes for right no. 31-00328 as 110.00 cfs.

11. Water right no. 31-00328 was previously decreed with a diversion rate for irrigation purposes of 100.00 cfs.

12. The Department did not intend to increase the diversion rate for irrigation purposes for right no. 31-00328 to 110.00 cfs. The change was a typographical error.

13. The transfer approval did not make a determination of the priority date for the rights listed below. The priority date for those rights was listed on the transfer approval as 00/00/0000.

31-00327
31-00328

31-00329
31-00330

14. On October 14, 1940, Permit Nos. 17611 and 17612 were decreed in the case Owsley Canal Company, a Corporation, v. Ernest Bauerle, et. al., without a priority date. Those decreed rights were renumbered by the Department as 31-00327 and 31-00328 respectively.

15. According to Department records, Permit No. 17611 was cancelled on March 6, 1939.

16. According to Department records, Permit No. 17612 was relinquished with a date unknown.

17. Absent any other evidence, it is reasonable to describe the priority date of a water right as the date of the decree from which it arises.

18. On October 14, 1940, Permit Nos. 17640 and 18378 were decreed in the case Owsley Canal Company, a Corporation, v. Ernest Bauerle, et. Al., without a priority date. Those decreed rights were renumbered by the Department as 31-00329 and 31-00330 respectively.

19. According to Department records, Permit No. 17640 was licensed on February 24, 1938. The license listed the priority date as January 8, 1932.

20. According to Department records, Permit No. 18378 was licensed on January 8, 1942. The license listed the priority date as June 26, 1936.

21. The transfer approval was issued with one of the points of diversion described as being within Lot 4 (SESW), Sec. 18, Township 07N, Range 35E.

22. Lot 4 in Sec. 18, Township 07N, Range 35E, actually corresponds to the SWSW of the section.

23. The transfer approval was issued with one of the points of diversion described as being within the SWNW, Sec. 19, Township 07N, Range 35E.

24. The SWNW, Sec. 19, Township 07N, Range 35E, is more accurately described as Lot 2.

CONCLUSIONS OF LAW

1. The transfer approval should accurately describe each established water right as changed by the transfer pursuant to Section 42-222, Idaho Code.

2. The Department should amend the transfer approval to show the previously decreed period of use of May 1 to November 1 for diversion to storage purposes for the following water rights.

31-00327	31-00329
31-00328	31-00330

3. The Department should amend the transfer approval to show the period of use for irrigation purposes as May 1 to November 1 for the following water rights.

31-00327	31-0336B	31-02290	31-02341
31-00328	31-0337B	31-02297	31-02342
31-00329	31-00371	31-02310	31-02343
31-00330	31-02239	31-2317A	31-02344
31-00331	31-02265	31-2317B	31-02345
31-00332	31-02289	31-02321	

4. The Department should amend the transfer approval to show the licensed period of use for irrigation purposes on right no. 31-07005 as April 1 to November 15.

5. The Department should amend the transfer approval to authorize the diversion rate for irrigation purposes as 100.00 cfs under right no. 31-00328.

6. The Department should amend the transfer approval to show the priority dates for right nos. 31-00327 and 31-00328 as October 14, 1940, which is the date of the final decree in the case of Owsley Canal Company, a Corporation, v. Ernest Bauerle, et. al.

7. The Department should amend the transfer approval to show the priority date for right no. 31-00329 as January 8, 1932.

8. The Department should amend the transfer approval to show the priority date for right no. 31-00330 as June 26, 1936.

9. The Department should amend the transfer approval to show Lot 4 (SWSW), Sec. 18, Township 07N, Range 35E as one of the points of diversion, instead of Lot 4 (SESW), Sec. 18, Township 07N, Range 35E.

10. The Department should amend the transfer approval to show Lot 2 (SWNW), Sec. 19, Township 07N, Range 35E as one of the points of diversion, instead of SWNW, Sec. 19, Township 07N, Range 35E.

ORDER

IT IS HEREBY ORDERED that Transfer Approval No. 5335 issued by the Department on February 8 1999 is **AMENDED** as described below.

1. The period of use for diversion to storage purposes shall be May 1 to November 1 for the following water rights.

Ernie, the data entry for this list of PDs took me an hour and a half, and the proof-reading and error correction took another hour and forty minutes. All the rights on transfer 5335 need the same list of PDs data entered and connected to SDE. I sure hope Ciscell is still planning (and able) to help me out. If not, I better get started...

Version 1 of eCVR for 31-327 correctly represents the PDs per transfer 5335, and is linked to SDE and proof read.

The attached word document identifies the PODID numbers associated with each PD.

Active PDs have been recommended to the 10-acre tract. The two marked "unused" have an unused PD located within the QQ, and the SDE shape is on the unused PD. The others recommended only to the 40-acre tract have no physical PD within the QQ. The SDE shape is approximately in the center of the QQ, moved if necessary to avoid overlap.

**PRELIMINARY ORDER
AMENDING TRANSFER
APPROVAL**

This matter having come before the Department of Water Resources (Department) as a result of an application for transfer of water rights, the Department makes the following Findings of Fact, Conclusions of Law, and Order:

FINDINGS OF FACT

1. On December 23, 1998, Owsley Canal Company (applicant) filed Application for Transfer No. 5335 (transfer) to change the points of diversion and places of use for the following water rights:

31-00327	31-0336B	31-02290	31-02341
31-00328	31-0337B	31-02297	31-02342
31-00329	31-00371	31-02310	31-02343
31-00330	31-02239	31-2317A	31-02344
31-00331	31-02265	31-2317B	31-02345
31-00332	31-02289	31-02321	31-07005

2. On February 8, 1999, the Department approved the transfer with conditions.

3. The transfer approval listed the period of use for diversion to storage purposes on the following water rights as October 16 to April 14.

31-00327	31-00329
31-00328	31-00330

4. Delivery of water for the rights listed below is regulated by the watermaster of Water District 31. Review of water district records and discussion with the watermaster indicate that the historic period of use for diversion to storage purposes for those rights is May 1 to November 1.

31-00327	31-00329
31-00328	31-00330

5. The transfer approval listed the period of use for irrigation purposes on each of the water rights as April 15 to October 15 in conformance with the existing Department standards for the area where the water rights are used.

6. The period of use for irrigation purposes for each of the following rights was previously decreed as May 1 to November 1.

31-00327	31-00332
31-00328	31-00336B
31-00329	31-00337B
31-00330	31-00371
31-00331	

7. The period of use for irrigation purposes for each of the following licensed rights was not established on the licenses issued by the Department, but the historic period of use has been May 1 to November 1.

31-02239	31-02317A	31-02344
31-02265	31-02317B	31-02345
31-02289	31-02321	
31-02290	31-02341	
31-02297	31-02342	
31-02310	31-02343	

8. On July 24, 1973, the Department issued License No. 31-07005 with a period of use for irrigation purposes from April 1 to November 15.

9. The applicant did not request a change in the period of use for any of the rights on the transfer.

10. The transfer approval listed the authorized diversion rate for irrigation purposes for right no. 31-00328 as 110.00 cfs.

11. Water right no. 31-00328 was previously decreed with a diversion rate for irrigation purposes of 100.00 cfs.

12. The Department did not intend to increase the diversion rate for irrigation purposes for right no. 31-00328 to 110.00 cfs. The change was a typographical error.

13. The transfer approval did not make a determination of the priority date for the rights listed below. The priority date for those rights was listed on the transfer approval as 00/00/0000.

31-00328

31-00327

31-00329
31-00330

14. On October 14, 1940, Permit Nos. 17611 and 17612 were decreed in the case Owsley Canal Company, a Corporation, v. Ernest Bauerle, et. al., without a priority date. Those decreed rights were renumbered by the Department as 31-00327 and 31-00328 respectively.

15. According to Department records, Permit No. 17611 was cancelled on March 6, 1939.

16. According to Department records, Permit No. 17612 was relinquished with a date unknown.

17. Absent any other evidence, it is reasonable to describe the priority date of a water right as the date of the decree from which it arises.

18. On October 14, 1940, Permit Nos. 17640 and 18378 were decreed in the case Owsley Canal Company, a Corporation, v. Ernest Bauerle, et. Al., without a priority date. Those decreed rights were renumbered by the Department as 31-00329 and 31-00330 respectively.

19. According to Department records, Permit No. 17640 was licensed on February 24, 1938. The license listed the priority date as January 8, 1932.

20. According to Department records, Permit No. 18378 was licensed on January 8, 1942. The license listed the priority date as June 26, 1936.

21. The transfer approval was issued with one of the points of diversion described as being within Lot 4 (SESW), Sec. 18, Township 07N, Range 35E.

22. Lot 4 in Sec. 18, Township 07N, Range 35E, actually corresponds to the SWSW of the section.

23. The transfer approval was issued with one of the points of diversion described as being within the SWNW, Sec. 19, Township 07N, Range 35E.

24. The SWNW, Sec. 19, Township 07N, Range 35E, is more accurately described as Lot 2.

CONCLUSIONS OF LAW

1. The transfer approval should accurately describe each established water right as changed by the transfer pursuant to Section 42-222, Idaho Code.

2. The Department should amend the transfer approval to show the previously decreed period of use of May 1 to November 1 for diversion to storage purposes for the following water rights.

4. The Department should amend the transfer approval to show the licensed period of use for irrigation purposes on right no. 31-07005 as April 1 to November 15.

5. The Department should amend the transfer approval to authorize the diversion rate for irrigation purposes as 100.00 cfs under right no. 31-00328.

6. The Department should amend the transfer approval to show the priority dates for right nos. 31-00327 and 31-00328 as October 14, 1940, which is the date of the final decree in the case of Owsley Canal Company, a Corporation, v. Ernest Bauerle, et. al.

7. The Department should amend the transfer approval to show the priority date for right no. 31-00329 as January 8, 1932.

8. The Department should amend the transfer approval to show the priority date for right no. 31-00330 as June 26, 1936.

9. The Department should amend the transfer approval to show Lot 4 (SWSW), Sec. 18, Township 07N, Range 35E as one of the points of diversion, instead of Lot 4 (SESW), Sec. 18, Township 07N, Range 35E.

10. The Department should amend the transfer approval to show Lot 2 (SWNW), Sec. 19, Township 07N, Range 35E as one of the points of diversion, instead of SWNW, Sec. 19, Township 07N, Range 35E.

ORDER

IT IS HEREBY ORDERED that Transfer Approval No. 5335 issued by the Department on February 8 1999 is **AMENDED** as described below.

1. The period of use for diversion to storage purposes shall be May 1 to November 1 for the following water rights.

31-00327	31-00329
31-00328	31-00330

2. The period of use for irrigation purposes shall be May 1 to November 1 for the following water rights.

31-00327	31-0336B	31-02290	31-02341
31-00328	31-0337B	31-02297	31-02342

Subject: Trasnfer 5335

The attached shape "MLWU pod" is the actual PD's identified by field work, for reference only. Per Norm, since the inaccuracies are from data provided by the applicant, we will recommend per the transfer and not per field work.

The attached shape "T5335pods" is the POD's recognized by the transfer. Those marked "Active" are those that agree with field work, GPS or inspection. I digitized those by hand, visually overlaying over the GPS shapes from "MLWU pod."

Those marked "No Well" are PDs recognized by the transfer in a given quarter-quarter, above the number of actual wells in that quarter-quarter. I tried to digitize those more or less in the center of the qq. Note that there may be other wells in the same qq, either wells of other users, or wells of MLWU already recognized.

Those marked "Unused" are those where field work showed no active wells, but the USGS topos indicate that there was at one time a well there. Those were digitized by hand, visually overlaying the USGS map.

The water rights to which these PODs apply are:

31-327, 31-328, 31-329, 31-330, 31-331, 31-332, 31-336B, 31-337B, 31-371, 31-2239, 31-2265, 31-2289, 31-2290, 31-2297, 31-2310, 31-2317A, 31-2317B, 31-2321, 31-2341, 31-2343, 31-2344, 31-2345, 31-7005.

I'm sending this stuff along in case it helps solve the puzzle of how to automate this process, both the process of copying the list of PDs to the individual recommendations and the process of performing the SDE linkage. If our network link comes to life before the allocations database testing, I'll try to start on 31-327 so there will be a pattern.

Thanks, Bryce.

ARTICLES OF MERGER
OF DOMESTIC CORPORATIONS
INTO
OWSLEY CANAL COMPANY

Pursuant to the provisions of Section 30-1-74 of the Idaho Business Corporation Act, the undersigned corporations adopt the following Articles of Merger for the purpose of merging them into one of such corporations.

FIRST: The following Plan of Merger was approved by the shareholders of each of the undersigned corporations in the manner prescribed by the Idaho Business Corporation Act:

I.

RECITALS

A. Owsley Canal Company is validly organized, existing and in good standing under the laws of the State of Idaho. All of the merging corporations are validly organized, existing and in good standing under the laws of the State of Idaho.

B. Owsley Company Canal, the surviving Corporation, has an authorized capital of 17,818 shares of Common Stock, irrigating 17,818 acres of land. One share per acre. Par value of \$1.00 each.

C. Holley Water Users Association, Inc., has 2,978 shares of Common Stock, irrigating 2,978 acres. One share each acre. Par value of \$1.00 per share.

D. Jackett Canal Company has 3,107.3 shares of Common Stock irrigating 3,107.3 acres of land. One share per acre. Par value of \$1.00 each.

E. The Board of Directors of the Constituent Corporations will consider the proposed plan, and if they determine that it is in the best interests of their respective corporations and stockholders that the Merging Corporations merge with and into Owsley Canal Company in accordance with the provisions of applicable statutes of the State of Idaho, they will submit the same to the stockholders of the respective Merging Corporations.

II.

PLAN OF MERGER

The plan is to have the Constituent Corporations agree, each with the other, to merge into a single corporation which shall be Owsley Canal Company the Surviving Corporation, (whose name shall not be changed and whose Articles of Incorporation shall not be amended in any respect as provided herein) pursuant to the laws of the State of Idaho, and shall agree upon and prescribe the terms and conditions of the statutory merger, the mode of carrying it into effect and the manner and basis of converting the shares of the Merging Corporations into shares of the Surviving Corporation, as herein set forth:

On the effective date of the merger, the Merging Corporations shall be merged with and into Owsley Canal Company an Idaho Corporation, and the separate existence of the Merging Corporations shall cease; the Constituent Corporations shall become a single corporation named Owsley Canal Company, an Idaho corporation, which shall be the Surviving Corporation.

III.

ARTICLES OF INCORPORATION OF SURVIVING CORPORATION

The Articles of Incorporation of Owsley Canal Company, the Surviving Corporation, which are set forth in Exhibit "A" to this Plan, shall not be amended, and shall continue to be the Articles of Incorporation of the Surviving Corporation until further amended in accordance with the Corporation Laws of the State of Idaho.

Such Articles of Incorporation, as thus set forth, were certified by the Secretary of State of the State of Idaho on April 7, 1994.

IV.

BY-LAWS OF SURVIVING CORPORATION

The By-Laws of the Owsley Canal Company, in effect immediately prior to the effective date of the merger shall continue to be the By-Laws of the Surviving Corporation, until altered or repealed in the manner provided by law and such By-Laws.

V.

DIRECTORS AND OFFICERS OF SURVIVING CORPORATION

The Directors and Officers of the Owsley Canal Company, immediately prior to the effective date of the merger shall continue to be the Directors of the Surviving Corporation, to hold office for the terms specified in the By-Laws of the Surviving Corporation and until their respective successors are duly elected and qualified.

VI.

MANNER AND BASIS OF CONVERSION OF SHARES

A. All shares of the merging companies, (a) Owsley Canal Company, (17,818 shares); (b) Holley Water Users Association, Inc., (2,978 shares); and (c) Jackett Canal Company (3,107.3 shares) have been filed in the Water Right Adjudication claims files of the Idaho Department of Water Resources as required by law. The water rights so claimed by these companies, as being equal, on a basis of one full share per one acre of ground.

B. Each share of the Merging Corporation's Common Stock which is issued and outstanding immediately prior to the effective date of the merger, shall by virtue of the merger be converted into and become, without action on the part of the holder of such Common stock, fully paid and assessable shares of a Class of the Common Stock of the Surviving Corporation. Each outstanding certificate for Common Stock of the Merging Corporations shall thereupon be deemed for all purposes to evidence ownership of the number of shares of Common Stock of the Surviving Corporation into which the same shall have been converted at the rate set forth above.

C. As soon as practicable after the effective date of the merger, each holder of outstanding certificates for Common Stock theretofore issued by the Merging Corporations shall be entitled, upon surrender of the same by such holder for cancellations, as directed by the Surviving Corporation to receive new certificates for the number of shares of Common Stock of the Surviving Corporation to which he is entitled.

VII. EFFECT OF MERGER

A. On the effective date of the merger, the Surviving Corporation shall possess all the rights, privileges, powers, and franchises of a public as well as a private nature of each of the Constituent Corporations, and shall become subject to all the restrictions, disabilities and duties of each of the Constituent Corporations and all of the singular rights, privileges, powers and franchises of each of the Constituent Corporations. All water rights, canals, diversionary works, cash, bank, checking and savings accounts, and all other property, real, personal and mixed and debts due to each of the Constituent Corporations of whatever account, as well as all other things in action or belonging to each of the Constituent Corporations shall be vested in the Surviving Corporation; and all property, assets, rights, privileges, powers, franchises and immunities, and all and every other interest shall be thereafter as effectually the property of the Surviving Corporation as they were of the respective Constituent Corporations; and the title to any real estate vested by deed or otherwise, in either of the Constituent Corporations, shall not revert or be in any way impaired by reason of the merger; provided, however, that all of the creditors and liens upon any property of either of the Constituent Corporations shall be preserved unimpaired, and all debts, liabilities, obligations and duties of the respective Constituent Corporations shall thenceforth attach to the Surviving Corporation, and may be enforced against it to the same extent as if said debts, liabilities, obligations and duties had been incurred or contracted by it.

B. If at any time after the merger becomes effective it shall appear to the Surviving Corporation that any further assignments or assurances are necessary or desirable to evidence the vesting in the Surviving Corporation of the title to any of the property or rights of the Merging Corporations, those persons who were proper officers and directors of the Merging Corporations as of the effective date of the merger shall execute, acknowledge and deliver such assignments or other instruments and do such acts as may be necessary or appropriate to evidence the vesting of title to such property or rights in the Surviving Corporation. For such purposes the capacity and authority of the Merging Corporations and their officers shall be deemed to be continuing.

C. The Surviving Corporation shall agree that it may be served with process in the State of Idaho and shall irrevocably appoint the Secretary of State of Idaho as its agent to accept service of process, in any proceeding for the enforcement of any obligation of the Merging Corporations arising in the State of Idaho prior to the effective date of the merger, and in any proceedings for the enforcement of the rights of a dissenting shareholder of the Merging Corporations against the Surviving Corporation.

VIII.

ACCOUNTING AND STATE CAPITAL

When the merger becomes effective, subject to such changes, adjustments or eliminations as may be made in accordance with generally accepted accounting principles, (a) the assets and liabilities of the Constituent Corporations shall be recorded in the accounting records of the Surviving Corporation at the amounts at which they shall be carried at that time in the accounting records of the Constituent Corporations, (B) the amount of stated capital with which the new Surviving Corporation shall begin business immediately after the effective date of the merger is \$1,323,499.00.

IX.

ABANDONMENT

This plan and Agreement of Merger may be abandoned by action of the Board of Directors of either Owsley Canal Company, or the Merging Corporations at any time prior to the effective date of the merger, whether before or after submission to their respective stockholders, upon the happening of the following:

1. If the merger fails to obtain the requisite vote of stockholders of Owsley Canal Company, or of Stockholders of the Merging Corporations not later than January 20, 1998.

X.

REPRESENTATIONS AND WARRANTIES

Owsley Canal Company, and the Merging Corporations shall each represent and warrant to the other that between the date hereof and the time when the merger becomes effective they will not enter into any employment contracts, grant any stock options or issue any stock or securities, or declare or pay any dividends in stock or cash or make any other distribution on or with respect to their outstanding stock.

XI.

EFFECTIVE DATE

The effective date of the merger provided for by this Agreement shall be the date on which the last act prior to recording required to complete the merger under the respective laws of the State of Idaho is performed.

SECOND: As to each of the undersigned corporations, the total number of shares voted for and against such Plan, respectively, and, as to each class entitled to a vote thereon as a class, the number of shares of such class voted for and against such Plan, respectively, are as follows:

	<u>Number of Shares</u>

APPROVED
FEB 11 1989

D. Jackett Canal Company has 3,107.3 shares of common stock, irrigating 3,107.3 acres of land. Par value of \$1.00 per share.

E. The Boards of Directors of the Constituent Corporations will consider the proposed plan and if they determine that it is in the best interests of their respective corporations and stockholders that the Merging Corporations merge with and into Owsley Canal Company, in accordance with the provisions of applicable statutes of the States of Idaho, they will submit it to the stockholders of the respective Merging Corporations

SECOND

PLAN OF MERGER.

The plan is to have the Constituent Corporations agree, each with the other, to merge into a single corporation which shall be Owsley Canal Company, the Surviving Corporation, (whose name shall not be changed and whose Articles of Incorporation shall not be amended in any respects as provided herein) pursuant to the laws of the State of Idaho, and shall agree upon and prescribe the terms and conditions of the statutory merger, the mode of carrying it into effect and the manner and basis of converting the shares of the Merging Corporations into shares of the Surviving Corporation, as herein set forth:

On the effective date of the merger, the Merging Corporations shall be merged with and into Owsley Canal Company, an Idaho Corporation, and the separate existence of the Merging Corporations shall cease; the Constituent Corporations shall become a single corporation named Owsley Canal Company, an Idaho Corporation, which shall be the Surviving Corporation.

RECORDED
FEB 11 1993

THIRD

ARTICLES OF INCORPORATION OF SURVIVING CORPORATION

The Articles of Incorporation of Owsley Canal Company, the Surviving Corporation, which are set forth in Exhibit "A" to this Plan, shall not be amended, and shall continue to be the Articles of Incorporation of the Surviving Corporation until further amended in accordance with the Corporation Laws of the State of Idaho.

Such Articles of Incorporation, as thus set forth, were certified by the Secretary of State of the State of Idaho on April 7, 1994.

FOURTH

BY-LAWS OF SURVIVING CORPORATIONS

The By-Laws of Owsley Canal Company, in effect immediately prior to the effective date of the merger shall continue to be the By-Laws of the Surviving Corporation, until altered or repealed in the manner provided by law and such By-Laws.

FIFTH

DIRECTORS AND OFFICERS OF SURVIVING CORPORATION

The Directors and Officers of the Owlsey Canal Company, immediately prior to the effective date of the merger shall continue to be the Directors of the Surviving Corporation, to hold office for the terms specified in the By-Laws of the Surviving Corporation and until their respective successors are duly elected and qualified.

SIXTH

DIRECTORS OF THE MERGING CORPORATIONS

A. Two new directors, one each from the Merging Corporations, (a) the Jackett Canal Company, and (b) the Holley Water Users Association, Inc. shall be added to the present five member Board of the Surviving Corporation. The two new Board members shall be elected in the manner provided by the By-Laws of the Surviving Corporation. One new member shall be elected from the geographical location within the boundaries of the present boundaries of the Holley Water Users Association, Inc.. One new member shall be elected from the present boundaries of the Jackett Canal Company.

B. After the effective date of the merger, the Surviving Corporation's By-Laws shall be amended or altered to reflect the changes of the two new Board member additions. The amended By-Laws shall also describe the lands that will be used as a geographical area to be represented by the new additional directors. The By-Law changes shall be in the merger provided by law, and the By-Laws of the Surviving Corporation.

SEVENTH

MANNER AND BASIS OF CONVERSION OF SHARES

A. All shares of the Merging Corporations, (a) The Owsley Canal Company, (17,818 shares); (b) The Holley Water Users Association, Inc., (2,978 shares); (c) The Jackett Canal Company (3,107.3 shares) have been approved by the Idaho Department of Water Resources as being equal. One share of water per one acre of ground.

B. No shares of the capital stock of the Surviving Corporation have been issued. All stock to be issued by the Surviving Corporation, at the time of this merger, shall be issued to the shareholders of the Merging Corporations.

C. Each share of the Merging Corporation's Common Stock, which is issued and outstanding immediately prior to the effective date of the merger, shall by virtue of the merger be converted into and become, without action on the part of the holder of such Common Stock, fully paid and assessable shares of a Class of the Common Stock of the Surviving Corporation. Each outstanding certificate for Common Stock of the Merging corporations shall thereupon be deemed for all purposes to evidence ownership of the number of shares of Common Stock of the Surviving Corporation into which the same shall have been converted at the rate set forth above.

D. As soon as practicable after the effective date of the merger, each holder of outstanding certificates for Common Stock theretofore issued by the Merging Corporations shall be entitled, upon surrender of the same by such holder for cancellation, as directed by the Surviving Corporation, to receive new certificates for the number of shares of Common Stock of the Surviving Corporation to which he is entitled.

EIGHTH

EFFECT OF MERGER

A. On the effective date of the merger, the Surviving Corporation shall possess all the rights, privileges, powers, and franchises of a public as well as a private nature of each of the Constituent Corporations, and shall become subject to all the restrictions, disabilities, and duties of each of the Constituent Corporations and all of the singular rights, privileges, powers and franchises

MICROFILMED

of each of the Constituent Corporations. All water rights, canals, diversionary works, cash, bank, checking and savings accounts, and all other property, real personal and mixed, and debts due to each of the Constituent Corporations on whatever account, as well as all other things in action or belonging to each of the Constituent Corporations shall be vested in the Surviving Corporation; and all property, assets, rights, privileges, powers, franchises and immunities, and all and every other interest shall be thereafter as effectually the property of the Surviving Corporation as they were of the respective constituent Corporations; and the title to any real estate vested by deed or otherwise, in either of the Constituent Corporations, shall not revert or be in any way impaired by reason of the merger; provided, however, that all of the creditors and liens upon any property of either of the Constituent Corporations shall be preserved unimpaired, and all debts, liabilities, obligations and duties had been incurred or contracted by it.

B. If at any time after the merger becomes effective it shall appear to the Surviving Corporation that any further assignments or assurances are necessary or desirable to evidence the vesting in the Surviving Corporation of the title to any of the property or rights of the Merging Corporations, those persons who were proper officers and directors of the Merging Corporations as of the effective date of the merger shall execute, acknowledge and deliver such assignments or other instruments and do such acts as may be necessary or appropriate to evidence the vesting of title to such property or rights in the Surviving Corporation. For such purposes the capacity and authority of the Merging Corporations and their officers shall be deemed to be continuing.

C. The Surviving Corporation shall agree that it may be served with process in the State of Idaho and shall irrevocably appoint the Secretary of State of Idaho as its agent to accept service of process, in any proceeding for the enforcement of any obligation of the Merging

Corporations arising in the State of Idaho prior to the effective date of the merger, and in any proceedings for the enforcement of the rights of a dissenting shareholder of the Merging Corporations against the Surviving Corporation.

NINTH

ACCOUNTING AND STATE CAPITAL

When the merger becomes effective, subject to such changes, adjustments or eliminations as may be made in accordance with generally accepted accounting principles, (a) the assets and liabilities of the Constituent Corporations shall be recorded in the accounting records of the Surviving Corporation at the amounts at which they shall be carried at that time in the accounting records of the Constituent Corporations, (b) the amount of stated capital with which the Surviving Corporation shall begin business immediately after the effective date of the merger is \$1,323,499.00.

TENTH

ABANDONMENT

This plan and Agreement of Merger may be abandoned by action of the Board of Directors of either Owsley Canal Company, or the Merging Corporations at any time prior to the effective date of the merger, whether before or after submission to their respective stockholders upon the happening of any one of the following events:

1. If the merger fails to obtain the requisite vote of stockholders of Owsley Canal Company, Inc., or of Stockholders of the Merging Corporations not later than January 20, 1998.

2. If, in the judgment of the Board of Directors of Owsley Canal Company, Inc., or of the Merging Corporations, the merger would be impracticable because of the number of stockholders of either thereof who assert their right to have their stock appraised and to receive payment therefore as provided in the Corporation Law of the State of Idaho.

ELEVENTH

REPRESENTATIONS AND WARRANTIES

The Owsley Canal Company, and the Merging Corporations shall each represent and warrant to the other that between the date hereof and the time when the merger becomes effective they will not enter into any employment contracts, grant any stock options or issue any stock or securities, or declare or pay any dividends in stock or cash or make any other distribution on or with respect to their outstanding stock.

TWELFTH

EFFECTIVE DATE

The effective date of the merger provided for by this Agreement shall be the date on which the last act prior to recording required to complete the merger under the respective laws of the State of Idaho is performed.

THE OWSLEY CANAL COMPANY, a Corporation,
Plaintiff.

IV.

That plaintiff is the owner of the following water permits issued to it by the Department of Reclamation of Idaho for the diversion by means of wells of underground waters in the vicinity of Mud Lake:

PERMIT NUMBER	AMOUNT.	PERMIT NUMBER	AMOUNT
31-0327 17611	110 cubic feet per second.	17640	50 cubic feet 31-0329 per second.
31-0328 17612	100 cubic feet per second.	18378	80 cubic feet 31-0330 per second.

V.

(a) That the defendant Holley Water Users Association is the owner of water permit No. 16979, issued to Bessie Hutchison (now Bessie Hutchison Ellis) by the Department of Reclamation of Idaho, for the diversion by means of wells of 25 cubic feet per second of underground water in the vicinity of Mud Lake; and is also the owner of water permit No. 17276, issued to R.P.Cope by the Department of Reclamation of Idaho, for the diversion by means of wells of 24 cubic feet per second of underground water in the vicinity of Mud Lake; and is also the owner of water permit No. R-528, issued by the Department of Reclamation of Idaho, for the diversion by means of wells and the storage of 5,000 acre feet annually of underground water in the vicinity of Mud Lake.

31-0333 (b) That the defendant Bessie M. Jackett is the owner of water permit No. 17263, issued to her by the Department of Reclamation of Idaho, for the diversion by means of wells of 10 cubic feet per second of underground waters in the vicinity of Mud Lake.

31-0334 (c) That the defendant Frank S. Jackett is the owner of water permit No. 17264, issued to him by the Department of Reclamation of Idaho, for the diversion by means of wells of 10 cubic feet per second of underground water in the vicinity of Mud Lake; and is also the owner of water permit No. 17347, issued by the Department of Reclamation of Idaho, to H.R.Jackett for the diversion by means of wells of 10 cubic feet per second of under-ground water in the vicinity of Mud Lake; and said defendant Frank S.Jackett is also the owner of certain wells whereby he obtains 15.2 cubic feet per second of water decreed in the case of *Sauve*

3. MICROFILMED

FEB 11 1993

That the water withdrawn from the respective wells hereinbefore mentioned, whether withdrawn by natural flow or by pumping (but only up to and not exceeding the amounts as limited in the succeeding paragraph hereof) during each irrigation season; that is to say, during the period from May 1st to November 1st of each year, shall be dealt with and distributed as if said waters were derived from sources wholly independent of Mud Lake and its tributaries.

During the said irrigation season of each year the right to the use of the water withdrawn from said wells, whether natural flow or pumped water (but not exceeding the amount hereinafter limited) shall belong solely to the respective owners of such wells, and said waters shall be distributed to the said respective well-owners as they and each of them may respectively elect; and the withdrawal and use of said waters from said wells by the respective owners thereof during said irrigation season of each year in an amount up to, but not exceeding the flow thereof as hereinafter limited, does not affect or impair the water right of any other party to this suit.

III

The provisions of this decree apply to withdrawals of water during the irrigation season from the wells of the respective owners thereof up to, but not exceeding, the following amounts:

(a) For all or any of the plaintiff's wells constructed or to be constructed under its said water permits Nos. 17611, 17612, 17640 and 18378, an amount not exceeding in the aggregate the equivalent of 200 cubic feet per second flowing continuously during the irrigation season from May 1st to November 1st of each year. $\Sigma = 340 \text{ cfs}$

(b) For all or any of the wells constructed or to be constructed under water permit No. 16979, water permit No. 17276, and water permit No. R-528 (all belonging to Holley Water Users Association), an amount not exceeding in the aggregate the equivalent of 50 cubic feet per second, flowing continuously during the irrigation season from May 1st to November 1st of each year. $\Sigma = 11$

Each of the parties hereto, and his or its agents, officers, and employees, is hereby enjoined and restrained from interfering with the free flow of water from said wells or any of them into Mud Lake during the non-irrigation season as herein directed, or from interfering during the irrigation season with the withdrawal and use of water from said wells by the respective owners thereof up to the amount of water withdrawn therefrom as limited by this decree.

XV.

The administration of this decree is hereby committed to the water-master of District No. 66.

XVI.

Each of the parties hereto shall bear his own costs,

Dated this 14th day of October, 1940.

C. J. TAYLOR, District Judge.

We hereby consent to the entry of the foregoing final decree; and hereby waive findings of fact and conclusions of law herein, and we hereby agree that the above entitled cause may be heard by the Judge of the above entitled court at any time upon motion of the plaintiff, either in open court or before the Judge at chambers.

**NOTICE OF PROPOSED CHANGE
OF A WATER RIGHT
NO. T5335**

Notice is hereby given that Owsley Canal Company, PO Box 68, Terreton ID 83450 represents that a consolidation of the Jackett, Holley and original Owsley Canal Companies has taken place.

The new company intends to incorporate all 35 groundwater sources (wells) that are points of diversion for a combined 24 water rights as the sources for an integrated land list representing the place of use of the 3 original companies.

The new company can route the water to all areas of the 24,070 acres combined land list of the 3 original companies. This land list will represent a permissible place of use for the rights involved. Specific information on these water rights and land list can be obtained from the IDWR office at 900 N Skyline Dr., Ste A, Idaho Falls ID 83402.

Any protest against approval of the proposed change must be filed with the Idaho Department of Water Resources, 900 N Skyline Dr., Ste A, Idaho Falls ID 83402, together with a protest fee of \$25.00 on or before November 30, 1998. The protestant must also send a copy of the protest to the applicant.

NOTICE OF PROPOSED CHANGE OF A WATER RIGHT NO. T5335

Notice is hereby given that
Owsley Canal Company, PO Box 68,
Terreton, ID 83450, represents that
a consolidation of the Jackett,
Holley, and Owsley Canal Companies
has taken place.

The new company intends to
incorporate all 35 groundwater
sources (wells) that are points of
diversion for a combined 24 water
rights as the sources for all integrat-
ed land list representing the place of
use of the 3 original companies.

The new company can route the
water to all areas of the 24,070
acres combined land list of the 3
original companies. This land list will
represent a permissible place of use
for the rights involved. Specific
information on these water rights
and land list can be obtained from
the IDWR office at 900 N Skyline Dr,
Ste A, Idaho Falls, ID 83402.

Any protest against approval of
the proposed change must be filed
with the Idaho Department of Water
Resources, 900 N Skyline Dr, Ste A,
Idaho Falls, ID 83402, together with
a protest fee of \$25.00 on or before
November 30, 1998.

The protestant must also send a
copy of the protest to the applicant.

RE: Application for Transfer #5335

Dear Applicant:

This office is currently in the process of advertising the application in the Post Register, Times News, Idaho Statesman and the Lewiston Tribune on November 12 and 19, 1998. The advertisement will be published once a week for two consecutive weeks, and a period of ten days following the second publication will be allowed for the submittal of protests.

If the application is protested, you will be sent a copy of the protest. The protest must be resolved before the application is approved or denied. If the protest is not resolved voluntarily, this Department will conduct a conference and/or hearing on the matter.

Please feel free to contact this office if you have any questions regarding this procedure.

Dear Mr. Soderquist:

I received your inquiry letter of August 27, 1998, about the status of the joint canal transfer to incorporate all the wells on all the canal's places of use. We have requested the rectified NAPP air photos (infra-red) of the areas you gave us on the 1987 overflight.

We expect them from Boise sometime in the next two weeks. I will then construct the transfer based on the correct land list the NAPP photos provide. The transfer will have to be signed and the fee paid and then sent to advertising.

As I told Dan Shenton, the backlog of transfers in Boise precluded getting approval of your application for the 1998 irrigation season. I have no way of validating your use of all the wells on all the property without said approved transfer.

When the transfer is finally written up I will send it directly to you for your review, signature and fee.

Sincerely,

Harold W. Jones

RE: Water Right Transfer

In Reference to your letter dated 7/6/98 in which you suggested if we could provide the data needed, mainly ASCS maps, this process could be speeded up. We did furnish you the maps shortly after your request and at this time are in need of returning them to the lender.

We have also furnished you maps recently developed by our company which are updated to the reality of operation and historical practice. This same map shows all our diversions including sub pumps.

At what point of progress are we now?

We are still concerned about the legality of operation since our merger of several canal companies. We feel this transfer is imperative for our continued operation.

If this transfer is not going to be processed quickly, we would feel more comfortable if we had a letter from your department, from the proper authority, stating our right to legally divert the waters of all our wells to any and all of our merged lands on a CO-mingled basis for both water sources and lands to be irrigated.

We would appreciate a letter or update from you addressing our concerns.

Sincerely,

Garth Soderquist

Enclosed is the copy of your approved Transfer of Water Right for the above referenced water rights (Transfer 5335). Please be sure to thoroughly read the Conditions and Remarks listed on the transfer. Also, please be advised that the accompanying transfer approval should be considered and treated as a **preliminary order** of the department issued pursuant to section 67-5243, Idaho Code. Enclosed are instructions for responding to **Preliminary Orders** if you are in disagreement with the approved transfer.

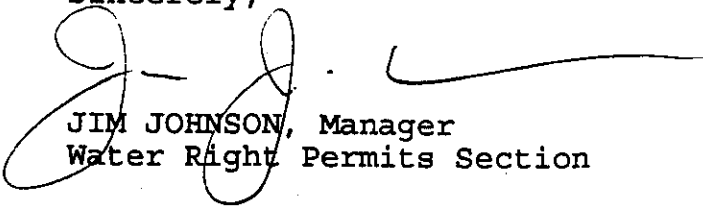

As of July 1, 1996, all water right owners are required to report any change in water right ownership and any change of mailing address to the department.

If you have acquired any other water right or have changed your mailing address **PRIOR TO** July 1, 1996, you have until July 30, 1998, to record the ownership and/or address change with the department.

If you acquired other water rights or changed your mailing address **AFTER** July 1, 1996, you must notify the department within 120 days of the change.

Failure to report these changes in a timely manner could result in a \$100 late filing fee. You can contact any office of the department for more information. If you have any questions concerning your water right listed above you can contact me at (208) 327-7947.

Responding to Preliminary Orders Issued by the Idaho Department of Water Resources

The Idaho Department of Water Resources (Department) issues water right permits, licenses, and transfers as preliminary orders pursuant to section 67-5243, Idaho Code. A preliminary order can and will become a final order without further action of the department unless a party petitions for reconsideration or files an exception and/or brief as further described below:

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the Department within fourteen (14) days of the service date of the order. The Department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See section 67-5243(3), Idaho Code.

EXCEPTIONS AND BRIEFS

Within twenty-one (21) days after (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from a preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding. Otherwise, a preliminary order will become a final order of the Department.

If any party appeals or takes exceptions to a preliminary order, opposing parties shall have twenty-one (21) days to respond to any party's appeal. Written briefs in support of or taking exceptions to the preliminary order shall be filed with the Department. The Department retains the right to review the preliminary order on its own motion.

ORAL ARGUMENT

If the Department grants a petition to review a preliminary order, the Department shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Department will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Department orders otherwise, all oral arguments will be heard in Boise, Idaho.

SUBJECT: Transfer 5335

DATE: February 9, 1999

Transfer 5335 combines the groundwater rights of the Holley Water Users, Jackett Canal Co, and Owsley Canal company. These three companies have combined under the Owsley Canal Company name and will operate a single combined system.

The application identifies 34 points of diversion and a combination of the land lists evidenced under each company's SRBA claims or 24261.3 acres. The decreed rights are vague, while the licensed rights identify specific acres and limits. SRBA review of all these rights through the adjudication process will provide specifics and verify the validity of all of these rights.

Review of these rights found that Right 31-02317 was actually licensed in two parts with separate rates and priority dates. These rights were more accurately entered as Parts A & B on the database and the additional 8.08 cfs added to the total diversion rate under this transfer. Also, a combined limit of 200.00 cfs during the irrigation season was identified under Rights 31-00327/00328/00329 & 00330. Right 31-02259 was listed on the application, however this right was superseded by Right 31-00330. After making these adjustments, the total rate of diversion under these rights is 643.21 cfs limited to 503.21 cfs during the irrigation season and 5,000 af storage.

Season of use and diversion volume were adjusted to current standards where specific acres were identified. Recommended conditions include watermaster control, supplemental groundwater, irrigation overlap, measuring/lockable controlling works, right-of-way, permissible place of use, combined limits and standard transfer conditions.

Dear Mr. Jones

I have researched license # 31 - 02259 as per your request. I am in agreement with you. Decree #31-00330 does supersede license 31-02259 and only 31-00330 should be part of our pending transfer.

Respectfully
Garth Soderquist

President Owsley Canal Co.

CONDITIONS OF APPROVAL AND REMARKS

1. Use of water under this water right will be regulated by the watermaster of State Water District No. 31.
2. The right holder shall use the full allotment of appurtenant surface water rights in conjunction with groundwater diverted under this right and shall only divert groundwater under this right when water from the appurtenant surface water rights cannot be delivered to the right holder.
3. This right shall not be used if the surface water right(s) appurtenant to the place of use is sold, transferred, leased or used on any other place of use.
4. This right when combined with all other rights shall provide no more than 0.02 cfs per acre nor more than 3.5 afa per acre at the field headgate for irrigation of the lands above.
5. The right holder shall accomplish the change authorized by this transfer within one (1) year of the date of this approval.
6. Failure of the right holder to comply with the conditions of this transfer is cause for the Director to rescind approval of the transfer.
7. Approval of this transfer does not preclude the opportunity for review of the validity of the water right(s) in the ongoing Snake River Basin Adjudication.
8. Prior to diversion of water under this approval, the right holder shall provide a means of measurement and lockable controlling works from all authorized points of diversion that is acceptable to the watermaster and will provide suitable control of the diversions.
- *** 9. The total instantaneous diversion of water from all points of diversion under Transfer 5335 shall not exceed 503.21 cfs during the irrigation season.
10. Approval of Transfer 5335 does not grant any right-of-way or easement for use of a delivery system owned by person(s) other than the right owner.
- ** 11. Rights 31-00327, 31-00328, 31-00329 and 31-00330 when combined shall not exceed a total diversion rate of 200.00 cfs during the irrigation season, and may be diverted at their full authorized rate of diversion into Mud Lake for storage purposes during the non-irrigation season.
- * 12. Right 31-02289 is limited to irrigation of 160.0 acres in the place of use described above in a single irrigation season.
- * 13. Right 31-02290 is limited to irrigation of 240.0 acres in the place of use described above in a single irrigation season.
- * 14. Right 31-02297 is limited to irrigation of 340.0 acres in the place of use described above in a single irrigation season.

CONDITIONS OF APPROVAL

Transfer of Water Right Nos. 31-0331 & 31-0371

Transfer No. 3787

1. Use of water under this water right is subject to control by the watermaster of State Water District No. 31, Mud Lake and tributaries.
2. A measuring device of a type approved by this Department shall be installed and maintained as part of the diverting works.
- ~~3.~~ 3. The director retains jurisdiction of this transfer up to 5 years for the purpose of determining potential injury to existing rights, both junior and senior, and for the purpose of modifying the conditions of transfer approval as necessary to prevent such injury.
4. The cumulative rate of diversion and annual volume under Right Nos. 31-0331 and 31-0371 shall be appurtenant to the place of use so that each irrigated acre will receive an equal portion of water from the same source identified under both rights. Unless and until the Department imposes a different restriction, Holley shall reduce its pumping from the Holley wells by the same cumulative amount that the applicants propose to divert at their new points of diversion. The Department reserves the right to impose additional or different conditions on this transfer based on evidence provided during the period of retained jurisdiction or otherwise.
5. As specified by the court decree of Owsley Canal Co. vs. Ernest Bauerle, October 14, 1940, the period of use under Right Nos. 31-0331 and 31-0371 is limited to the period from May 1 to November 1.
6. The change authorized by this transfer shall be accomplished within (1) year of the date of this approval.
7. Failure to comply with the conditions of this transfer is cause for the director to issue an order to show cause why the approval of the transfer should not be rescinded.
8. Approval of this transfer does not preclude the opportunity for review of the validity of the water right(s) in the ongoing Snake River Basin Adjudication.

RECEIVED

MAY 30 1991

9. This permit is subject to the agreement dated March 11, 1991 between permit holder and protestant(s) to the extent such agreement covers matters within the jurisdiction of the Department of Water Resources.
10. Transfer Nos. 3680 & 3787 add place of use descriptions to Right Nos. 31-0331 & 31-0371, but do not expand the amount of irrigated acreage authorized under the rights.

Dated this 17th day of May, 1991.

POINTS OF DIVERSION:

There are 8 wells referred to as the "Holley Wells". They all discharge into an open ditch which commences near the wells in the SESE § 26, SWSW § 25 and the NWNW § 36, T.7N., R.35E. The ditch proceeds generally south, crosses Camas Creek by means of a flume and then continues in a southerly direction to the place of use.

In recent years, wells have been drilled on a number of farms served by this system to provide for more efficient irrigation of the lands by means of pivot and other types of sprinkler systems. The 8 old wells, or some of them, do not need to be pumped nearly as much and the transmission losses through the ditch system have been substantially reduced.

Such additional wells have been drilled or are proposed by Carl Hoggan, Sterling Murdock, Sid Ashcraft, Robert Bybee and Ron Torgerson. Some have been approved and some have not. We have listed below all points of diversion for such wells, and those not yet approved have been designated "New":

T.6N., R.35E.	S. 2	NESE	Ashcraft Well T3517
	S. 10	SWSW	Torgerson Well (New)
	S. 15	NWNE	Bybee Well T3654
	S. 22	SWNE	Murdock Well T3645
T.7N., R.35E.	S. 25	SWSW	Holley Wells
	S. 26	SESE	Holley Wells
	S. 35	NESE	Hoggan Well (New)
		SESW	Hoggan Well T3517/T3645
	S. 26 36	NWNW	Holley Wells

MAY 30 1991

PLACE OF USE:

The specific places of use to be irrigated from the proposed new wells are shown in PART 1, page 1, under No. 5. However, such places of use are included within the place of use for all the water rights of the Holley Water Users Association, so this application is really only for the purpose of adding points of diversion under the 2 groundwater rights of the company, 31-0331 and ~~31-0332~~, and there is no proposed change in place of use. The place of use for Rights Nos. ~~31-0331~~ and ~~31-0332~~ is as follows:

6. General Information:

a. Description of diversion system This is to add in a p.d. owned by Sid Ashcraft which will irrigate lands under a pivot. This ground has been irrigated out of the ditch & will save us sending water down to this place of use.

N.A. b. Are the lands from which you propose to transfer the water right subject to any liens, deeds of trust, mortgages, or contracts? N.A. Yes No. If yes, provide a notarized statement from the holder of the lien, deed of trust, mortgage or contract agreeing to the proposed changes.

c. Describe the affect on the land now irrigated if the place of use is changed pursuant to this transfer:
N.A.

d. Remarks:

We are currently adding wells into the peripheral areas of our system to make our water use more efficient.

ACTION OF THE DIRECTOR, DEPARTMENT OF WATER RESOURCES

This is to certify that I have examined Application for Transfer of Water Rights No. 31-0371 & 31-0331

And said application is hereby APPROVED, subject to the following limitations and conditions:

See attached sheet for conditions of approval.

RECORDED

MAY 30 1991

Witness my hand this 17th day of May, 19 91

J. Shw Saylor
Chief, Water Allocation Bureau

CONDITIONS OF APPROVAL

Transfer of Water Right Nos. 31-0331 & 31-0371

Transfer No. 3680

1. Use of water under this water right is subject to control by the watermaster of State Water District No. 31, Mud Lake and tributaries.
2. A measuring device of a type approved by this Department shall be installed and maintained as part of the diverting works.
- ~~3.~~ The director retains jurisdiction of this transfer up to 5 years for the purpose of determining potential injury to existing rights, both junior and senior, and for the purpose of modifying the conditions of transfer approval as necessary to prevent such injury.
4. The cumulative rate of diversion and annual volume under Right Nos. 31-0331 and 31-0371 shall be appurtenant to the place of use so that each irrigated acre will receive an equal portion of water from the same source identified under both rights. Unless and until the Department imposes a different restriction, Holley shall reduce its pumping from the Holley wells by the same cumulative amount that the applicants propose to divert at their new points of diversion. The Department reserves the right to impose additional or different conditions on this transfer based on evidence provided during the period of retained jurisdiction or otherwise.
5. As specified by the court decree of Owsley Canal Co. vs. Ernest Bauerle, October 14, 1940, the period of use under Right Nos. 31-0331 and 31-0371 is limited to the period from May 1 to November 1.
6. The change authorized by this transfer shall be accomplished within (1) year of the date of this approval.
7. Failure to comply with the conditions of this transfer is cause for the director to issue an order to show cause why the approval of the transfer should not be rescinded.
8. Approval of this transfer does not preclude the opportunity for review of the validity of the water right(s) in the ongoing Snake River Basin Adjudication.

RECEIVED
MAY 30 1991

9. This permit is subject to the agreement dated March 11, 1991 between permit holder and protestant(s) to the extent such agreement covers matters within the jurisdiction of the Department of Water Resources.
10. Transfer Nos. 3680 & 3787 add place of use descriptions to Right Nos. 31-0331 & 31-0371, but do not expand the amount of irrigated acreage authorized under the rights.

Dated this 17th day of May, 1991.

No 21034

I, Linda Copps McQuinn being first duly sworn upon oath, depose
and say that I am Prints Clerk of the TIMES-NEWS, published daily, at
Twin Falls, Idaho, and do solemnly swear that a copy of the notice of advertisement, as per
clipping attached, was published in the regular and entire issue of said newspaper, and not in
any supplement thereof, for Two consecutive Weeks,
commencing with the issue dated April 5, 1990,
and ending with the issue dated April 12, 1990.

And I do further certify that said newspaper is a consolidation, effective February 16, 1942, of the Idaho
Evening Times, published theretofore daily except Sunday, and the Twin Falls News, published theretofore daily ex-
cept Monday, both of which newspapers prior to consolidation had been published under said names in said city and
county continuously and uninterruptedly during a period of more than twelve consecutive months, and said TIMES-
NEWS, since such consolidation, has been published as a daily newspaper except Saturday, until July 31, 1978, at
which time said newspaper began daily publication under said name in said city and county continuously and
uninterruptedly.

And I further certify that pursuant to Section 60-108 Idaho Code, Thursday of each week has been designated
as the day on which legal notice by law or by order of any court of competent jurisdiction within the state of Idaho,
to be published weekly, will be published; and that at the head of the editorial column of said combined newspapers,
and in each issue thereof, Thursday is announced as the day on which said legal notices will be published.

That the Court has jurisdiction over the parties and subject matter of this cause and can give the relief sought by the prayer of plaintiff's complaint.

CONCLUSION OF LAW

31-0332 As conclusions of law, the Court concludes that the plaintiff and its stockholders and water users are entitled to have the order and decree of this Court determining and declaring that the plaintiff is the owner of and entitled to the continuous use of 23 c.s.f. of subterranean water with a priority date of September 10th, 1928, and 24 c.s.f. of subterranean water with a priority date of January 25th, 1930, and as is evidenced by water permits Nos. 16979, 17276, respectively, as more fully set out in paragraphs VII and IX of the Findings of Fact; and also in like manner, of the respective amounts of water, with the respective dates of priority, as set forth in paragraph XII of Findings of Fact; and, also, the right to store and use 5,000 acre feet of water in Mud Lake, which was authorized by the Department of Reclamation of the State of Idaho, as evidenced by water permit No. R-528; that the plaintiff and its water users are entitled to the points of diversion of the aforesaid waters which have been established, to-wit, the Northwest Quarter of the Northwest Quarter (NW $\frac{1}{4}$ NW $\frac{1}{4}$) of Section 36; the Southwest Quarter of the Southwest Quarter (SW $\frac{1}{4}$ SW $\frac{1}{4}$), and the Southwest Quarter of the Southeast Quarter (SW $\frac{1}{4}$ SE $\frac{1}{4}$) of Section 25, Township 7 North, Range 35 East Boise Meridian; and the Southeast Quarter of the Southeast Quarter (SE $\frac{1}{4}$ SE $\frac{1}{4}$) of Section 2, Township 6 North, Range 34 East Boise Meridian; all being in Jefferson County, State of Idaho; that the said waters have been beneficially used upon the lands of the stockholders of said plaintiff corporation and which lands are described in paragraph V of Findings of Fact, and have also been used upon other lands nearby those herein described and owned by the aforesaid stockholders.

JUDGMENT AND DECREE

31-0371
31-0331 IT IS, THEREFORE, ORDERED, ADJUDGED, DECREED, DETERMINED AND DECLARED by the Court that the plaintiff is the owner of, and said plaintiff, its stockholders and water users have heretofore been using and are entitled to the continuous use of the following described water for irrigation and domestic purposes, with the dates of priority herein declared, to-wit: 23 c.s.f. of water from subterranean sources with a priority date of September 10th, 1928; 24 c.s.f. of water from subterranean sources with a priority date of January 25th, 1930; that all of said decreed water has been diverted from wells situated on the Southwest Quarter of the Southwest Quarter of Section 25, Township 7 North, Range 35 East Boise Meridian, and land adjacent and thereto; and also the following decreed rights, all of which have been transferred to the plaintiff corporation, with the dates of priority and in the amounts set opposite same, to-wit:

CONDITIONS OF APPROVAL

Transfer of Water Right No. 31-0331/0371.

1. Use of water under this right is subject to control by the watermaster of State Water District No. 31, Mud Lake and tributaries.
2. A measuring device of a type approved by this Department shall be installed and maintained as part of the diverting works.
3. The director retains jurisdiction of this transfer up to 5 years for the purpose of determining potential injury to existing rights, both junior and senior, and for the purpose of modifying the conditions of transfer approval as necessary to prevent such injury.
4. The cumulative rate of diversion and annual volume under Right Nos. 31-0331 and 31-0371 shall be appurtenant to the place of use so that each irrigated acre will receive an equal portion of water from the same source identified under both rights. Unless and until the Department imposes a different restriction, Holley shall reduce its pumping from the Holley wells by the same cumulative amount that the applicants propose to divert at their new points of diversion. The Department reserves the right to impose additional or different conditions on this transfer based on evidence provided during the period of retained jurisdiction or otherwise.
5. As specified by the court decree of Owsley Canal Co. v. Ernest Bauerle, October 14, 1940, the period of use under Right Nos. 31-0331 and 31-0371 is limited to the period from May 1 to November 1.
6. The change authorized by this transfer shall be accomplished within one (1) year of the date of this approval.
7. Failure to comply with the conditions of this transfer is cause for the director to issue an order to show cause why the approval of the transfer should not be rescinded.

Dated this 29th of October, 1990.

ATTACHMENT TO CONDITIONS OF APPROVAL
TRANSFER OF WATER RIGHT
NOS. 31-0331/0371

3. The director retains jurisdiction of this transfer up to five (5) years for the purpose of determining potential injury to existing rights, both junior and senior, and for the purpose of modifying the conditions of transfer approval as necessary to prevent such injury.
4. The cumulative rate of diversion and annual volume under these rights shall be appurtenant to the place of use so that each irrigated acre will receive an equal portion of water from the same source identified under both rights. Unless and until the Department imposes a different restriction, the right holder shall reduce pumping from the Holley wells by the same cumulative amount that the applicants propose to divert at their new points of diversion. The Department reserves the right to impose additional or different conditions on this transfer based on evidence provided during the period of retained jurisdiction or otherwise.
5. As specified by the court decree of Owsley Canal Co. v. Ernest Bauerle (10/14/1940), the period of use under these rights is limited to the period from May 1 to November 1.

And I do further certify that said newspaper is a consolidation, effective February 16, 1942, of the Idaho
Evening Times, published theretofore daily except Sunday, and the Twin Falls News, published theretofore daily ex-
cept Monday, both of which newspapers prior to consolidation had been published under said names in said city and
county continuously and uninterruptedly during a period of more than twelve consecutive months, and said TIMES-
NEWS, since such consolidation, has been published as a daily newspaper except Saturday, until July 31, 1978, at
which time said newspaper began daily publication under said name in said city and county continuously and
uninterruptedly.

And I further certify that pursuant to Section 60-108 Idaho Code, Thursday of each week has been designated
as the day on which legal notice by law or by order of any court of competent jurisdiction within the state of Idaho,
to be published weekly, will be published; and that at the head of the editorial column of said combined newspapers,

any supplement thereof, for Two consecutive Weeks,
commencing with the issue dated February 15, 1990,
and ending with the issue dated February 22, 1990.

And I do further certify that said newspaper is a consolidation, effective February 16, 1942, of the Idaho
Evening Times, published theretofore daily except Sunday, and the Twin Falls News, published theretofore daily ex-
cept Monday, both of which newspapers prior to consolidation had been published under said names in said city and
county continuously and uninterruptedly during a period of more than twelve consecutive months, and said TIMES-
NEWS, since such consolidation, has been published as a daily newspaper except Saturday, until July 31, 1978, at
which time said newspaper began daily publication under said name in said city and county continuously and
uninterruptedly.

And I further certify that pursuant to Section 60-108 Idaho Code, Thursday of each week has been designated
as the day on which legal notice by law or by order of any court of competent jurisdiction within the state of Idaho,
to be published weekly, will be published; and that at the head of the editorial column of said combined newspapers,
and in each issue thereof, Thursday is announced as the day on which said legal notices will be published.

02344/02345/07005

FROM: Pam Skaggs²⁸/State Office

SUBJECT: Transfer 5335

DATE: February 9, 1999

Transfer 5335 combines the groundwater rights of the Holley Water Users, Jackett Canal Co, and Owsley Canal company. These three companies have combined under the Owsley Canal Company name and will operate a single combined system.

The application identifies 34 points of diversion and a combination of the land lists evidenced under each company's SRBA claims or 24261.3 acres. The decreed rights are vague, while the licensed rights identify specific acres and limits. SRBA review of all these rights through the adjudication process will provide specifics and verify the validity of all of these rights.

Review of these rights found that Right 31-02317 was actually licensed in two parts with separate rates and priority dates. These rights were more accurately entered as Parts A & B on the database and the additional 8.08 cfs added to the total diversion rate under this transfer. Also, a combined limit of 200.00 cfs during the irrigation season was identified under Rights 31-00327/00328/00329 & 00330. Right 31-02259 was listed on the application, however this right was superseded by Right 31-00330. After making these adjustments, the total rate of diversion under these rights is 643.21 cfs limited to 503.21 cfs during the irrigation season and 5,000 af storage.

Season of use and diversion volume were adjusted to current standards where specific acres were identified. Recommended conditions include watermaster control, supplemental groundwater, irrigation overlap, measuring/lockable controlling works, right-of-way, permissible place of use, combined limits and standard transfer conditions.

Gentlemen:

We have been contacted by the Holley Water Users Association and requested to formally withdraw its application for transfer of water right recently filed on August 1, 1990, for the purpose of transferring a portion of Rights Nos. 31-0371 and 31-0331 to lands known as the "Torgerson Place of Use", and for a portion of which is to be diverted out of the Ronald Torgerson well.

We understand that notice of this application is presently being published or has recently been published, The Association does not wish to protest its own application, but rather completely withdraw the application. The reasons for this action is that the preparation of the application for transfer has been found by the company to be inconsistent with its desires and agreement and even though the application was signed by the secretary of the company, it was done under circumstances where he was given information that caused him to misunderstand how the application had been prepared.

Thank you for your kind attention to this matter.

Yours very truly,

Kent W. Foster

4. The Application for Transfer does not contain sufficient information to determine the extent to which the transfer would result in a decrease in transmission loss, if any, and what effect this might have on other water rights;

5. The Application for Transfer does not contain sufficient information to determine the extent to which the right to divert under water rights 31-0371 and 31-0331 should be reduced as a result of decreasing transmission loss;

6. The Application for Transfer does not contain sufficient information to determine the effect of reducing transmission losses on the quantity, quality and location of return flows and location of discharge or the effects such reduction will have on other water rights; and

7. The proposed transfer involves projected diversion in excess of the duty of water for the acreage listed as the place of use.

Protestants reserve the right to state additional grounds as facts are adduced through discovery or otherwise.

For the foregoing reasons, the Application for Transfer No. 3654 should be denied.

PROTEST

Protestants Blaine Larsen, Larsen Farms, and Larsen of Idaho, by and through their attorneys Jeffrey C. Fereday and Michael C. Creamer of Givens, Pursley, Webb & Huntley, and pursuant to I.C. 42-222 and Department Rule 3, 1 hereby protest the Application submitted by the Holley Water Users Association to transfer Water Right Nos. 31-0371 and 31-0331 to a new point of diversion described as the Ronald Torgerson well. The grounds for this protest are as follows:

1. Protestant is the owner of surface and groundwater rights in Jefferson County, Idaho which may be materially injured either directly or indirectly by such transfer;
2. The transfer will result in enlargements of both the place and period of use of the water rights sought to be transferred;
3. The transfer will result in an increase in the consumptive use of water under water rights nos. 31-0371 and 31-0331;

4. The Application for Transfer does not contain sufficient information to determine the extent to which the transfer would result in a decrease in transmission loss, if any, and what effect this might have on other water rights;

5. The Application for Transfer does not contain sufficient information to determine the extent to which the right to divert under water rights 31-0371 and 31-0331 should be reduced as a result of decreasing transmission loss;

6. The Application for Transfer does not contain sufficient information to determine the effect of reducing transmission losses on the quantity, quality and location of return flows and location of discharge or the effects such reduction will have on other water rights; and

7. The proposed transfer involves projected diversion in excess of the duty of water for the acreage listed as the place of use.

Protestants reserve the right to state additional grounds as facts are adduced through discovery or otherwise.

For the foregoing reasons, the Application for Transfer No. 3654 should be denied.

RE: Transfer Applications of Holley Water Users' Ass'n Nos. 3654 and 3680

Dear Mr. Saxton:

We have received your letter of June 12, 1990. Based on our understanding of the Department's intent regarding the proposed conditions as stated in your letter, we would not object to their inclusion in approvals of the Holley transfers.

To clarify our understanding, the conditions would be applied to the Holley Water Users' Ass'n transfers involving the Holley, Murdock, Bybee, Hoggan and Ashcraft wells that are referenced in the stipulation between those parties and Mr. Larsen. Condition number 3 in your May 25 letter would follow the language which we proposed in our June 8, 1990 letter. Condition number four would contain the language which you originally proposed, supplemented by the last two sentences of our proposed language.

I will forward a copy of your letter to the other parties. Upon notification from them that they will agree with this language, we will forward an executed stipulation to the Eastern Region along with a withdrawal of the protests filed by Mr. Larsen.

Sincerely,

Michael C. Creamer

RE: Transfer Applications of Holley Water Users Association
Transfer Application No.s 3654 & 3680

Dear Mr. Creamer:

I have reviewed your letter of June 8, 1990 concerning the Department's proposed conditions for the above referenced transfers.

In response to your comments and concerns, I first wish to state that my previous correspondence did not reference transfer no. 3680 simply because the stipulation which you asked the Department to review did not reference this latter transfer application. Since both transfers are similar in nature and a protest is pending between the same parties, the Department will extend similar conditions to transfer no. 3680.

In regard to our proposed condition no.3, the five year period for retained Department jurisdiction is standard. The additional language which you proposed seems acceptable and can be incorporated with our proposed condition.

The language of our proposed condition no. 4 was chosen with the intent to prevent expansion by limiting the diversion rate and volume, without specifying exact measurements, to an amount commensurate with actual beneficial use. This condition is a variation of a more standard condition that the Department often uses when issuing licenses and approving transfers. The Department understands that one of the parameters of beneficial use is the total number of irrigated acres identified by the transfers. Holly Water Users will be required to reduce their pumping by the same amount that certain individuals (i.e. Bybee, Murdock etc.) propose to divert at their new points of diversion. The Department will add the last two sentences as you have proposed to condition no. 4.

RECEIVED

NOV 01 1990

of modifying the conditions of transfer approval as necessary to prevent such injury.

The language contained in proposed condition number 4 is unclear. If it is the Department's intent that approval of the transfers will not result in an expansion of the water right, we agree with that intent. However, the language is ambiguous in this respect and therefore would not provide the stipulated prerequisite for withdrawing our protest. We suggest that the following language be substituted for the Department's proposed condition no. 4:

The cumulative rate of diversion, annual volume diverted and acreage irrigated under Right Nos. 31-0331 and 31-0371 shall not be increased above the decreed rate and volume of diversion as a result of this transfer, nor shall the acreage irrigated be increased beyond that decreed under these rights. Unless and until the Department imposes a different restriction, Holley shall reduce its pumping from the Holley wells by the same cumulative amount that the applicants propose to divert at their new points of diversion. The Department reserves the right to impose additional or different conditions on this transfer based on evidence provided during the period of retained jurisdiction or otherwise.

Since this condition reflects the intent of the parties, I anticipate that they will agree to inclusion of this language in the transfer approvals. We hope that the Department can make these changes to its proposed order.

I look forward to your response.

Sincerely,

RE: Transfer Applications of Holley Water Users Ass'n

Dear Mr. Saxton:

I have reviewed your letter of May 25, 1990 regarding the proposed conditions for the Holley Water Users' Association transfers and have forwarded copies to Kent Foster and the landowners involved.

Let me first point out that the stipulation entered into by Mr. Larsen and the other parties encompasses Transfer Application Nos. 3654 and 3680 and also the Murdock well. Therefore, the Department should include the same conditions in each transfer approval.

Although the Department's retained jurisdiction language does not coincide with that contained in the stipulation which all the parties have now signed, Mr. Larsen would not object to the Department retaining jurisdiction for a period of not more than five years. We believe that the other parties likely would agree to this condition as well. We expect that if they do agree, they will write to me and convey their intention that the stipulation be considered amended to reflect the 5-year retained jurisdiction condition the Department has proposed.

We suggest, however, that your proposed condition no. 3 read as follows:

The director retains jurisdiction of this transfer for up to five years for the purpose of determining potential injury to existing rights, both junior and senior, and for the purpose

NOV 01 1990

5. As specified by the court decree of Owsley Canal Co. v. Ernest Bauerle, October 14, 1940, the period of use under right no.s 31-0331 and 31-0371 is limited to the period from May 1 to November 1.

I hope this response addresses your concerns and questions. Please feel free to contact this office if you have additional questions or would like further assistance in this matter.

RE: T1

Dear Mr. Creamer:

Department staff has received your letter dated May 21, 1990 and a copy of the proposed stipulation between Blaine Larsen and Holley Water Users Association.

The Department does not disagree with the general terms of the stipulation as it is currently proposed. Since the Department is not a party to the stipulation, the Department specifically requests that this stipulation not appear to be a matter before the Director of the Department. The heading of the stipulation therefore should exclude lines one and two which pertain to the Director of the Idaho Department of Water Resources.

Listed below are several proposed conditions which the Department will likely use as conditions of approval for this particular transfer application. I believe the conditions will satisfy the terms of the stipulation. I hope that our listing of proposed conditions at this time will assist the two parties in reaching an agreement and resolving the pending protest.

Proposed Conditions of Approval:

1. Use of water under this transfer is subject to control by the watermaster of State Water District No. 31, Mud Lake and tributaries.
2. A measuring device of a type approved by this Department shall be installed and maintained as a part of the diverting works.
3. The director retains jurisdiction of this transfer up to 5 years for the purpose of determining injury to existing rights, both junior and senior, in the vicinity of the transferred point of diversion.
4. The cumulative rate of diversion and annual volume under Right No.s 31-0331 and 31-0371 shall be appurtenant to the place of use so that each irrigated acre will receive an equal portion of water from the same source identified under both rights.

RE: Holley Water Users Ass'n Transfer Applications

Dear Harold:

As we discussed this morning, I am sending you copies of correspondence between myself and IDWR's Boise office regarding the language of conditions which I have understood would be included in any permits granted to the parties who entered into the stipulation with Mr. Larsen. I have corresponded with personnel at the Boise office at your suggestion since you had stated that ultimate approval of any conditions that might be imposed would come from that office. The series of letters should help you understand the evolution of the language in the stipulation and why we expect that the permit conditions would reflect that language.

I hope this will be of help to you. Please call immediately if you have any questions.

Sincerely,

Michael C. Creamer

Dear Mr. Barney:

Enclosed please find a copy of a protest filed against the above referenced application. You should be aware that the following are the items we can consider at a conference and/or hearing in either approving or denying an application for transfer:

1. Are other water rights injured by the transfer?
2. Does the change constitute an enlargement in the use of the original right?
3. Will the proposed use under this transfer conflict with the local public interest?

The applicant must be prepared to present evidence and/or testimony addressing each of the three items should an additional hearing be necessary. You will be notified at a later date as to the time and place set for conference and/or hearing. Although representation by legal counsel is not mandatory at a proceeding before the Department, you may retain an attorney in your behalf.

The cumulative rate of diversion and annual volume under Right Nos. 31-0331 and 31-0371 shall be appurtenant to the place of use so that each irrigated acre will receive an equal portion of water from the same source identified under both rights. Unless and until the Department imposes a different restriction, Holley shall reduce its pumping from the Holley wells by the same cumulative amount that the applicants propose to divert at their new points of diversion. The Department reserves the right to impose additional or different conditions on this transfer based on evidence provided during the period of retained jurisdiction or otherwise.
5. As specified by the court decree of Owsley Canal Co. v. Ernest Bauerle, October 14, 1940, the period of use under Right Nos. 31-0331 and 31-0371 is limited to the period from May 1 to November 1.
6. The change authorized by this transfer shall be accomplished within one (1) year of the date of this approval.

Department to evaluate potential injury to other water rights and to modify the transfer conditions as necessary to prevent injury. The stipulation among the parties also provided that Protestants have the right to inspect the Applicants' points of diversion and to investigate their use of water under water right Nos. 31-0371 and 31-0331 and the right to present information to the Department during the period of retained jurisdiction relevant to necessary conditions to prevent injury to other water rights.

On October 29, 1990, the Department approved Application No. 3654 with conditions substantially similar to those agreed to by the parties in their stipulation. The stipulation among the parties and the Department's approval of Transfer Application No. 3654 contemplate that the Protestants may submit information to the Department for the purpose of seeking a modification of the conditions imposed by the Department on the Applicants' diversion of water from the new points of diversion. Application No. 3680 has not yet been approved, but the Department has represented to Protestants that any approval of Application No. 3680 will contain the same conditions as were imposed in its approval of Application No. 3654.

Accordingly, Protestants hereby withdraw their Protest to Transfer Application Nos. 3654, while expressly reserving their right to request a hearing before the Department at any time during the period of retained jurisdiction for the purpose of presenting such information and seeking such modifications of conditions as the Protestants deem are appropriate. With regard to Transfer Application No. 3680, Protestants hereby conditionally withdraw their Protest, provided that the conditions imposed by the Department in any approval of such application conform to those

12. In entering into this stipulation, Larsen, Holley, Torgerson and Hoggan do not admit or confirm any fact concerning injury, expansion of use, historical use, forfeiture or abandonment that may be alleged with respect to the transfer, and reserve their rights to submit information on these and other relevant subjects during the period of retained jurisdiction.

13. This stipulation is distinct from, and does not affect, that stipulation between Larsen, Holley, Hoggan, Bybee, Murdock and Ashcraft regarding Holley's Application for Transfer Nos. 3654 and 3680, which was executed on August 8, 1990.

14. The Department may issue a well driller's permit to Torgerson and/or Hoggan pending resolution of the protest of Larsen. The permit shall state as a condition that the cumulative rate of diversion under such permit or permits shall be subject to the conditions of paragraph 7 of this stipulation.

jurisdiction.

8. Torgerson and Hoggan agree to make their wells and any diversion or irrigation records they may have available for inspection at all reasonable times by Larsen and the Department to assure that this condition is being met.

9. Holley agrees to make all diversion or irrigation records at their disposal available to the Department upon request of any party to this matter for review by any party. Holley further agrees that they will make available for inspection their wells and/or pumps upon reasonable notice and request by any party to this action. Inspection of Holley's wells and/or pumps may be made by any party to this action but in the event such inspection is desired by Larsen, then Larsen shall be accompanied either by the Department or by Torgerson and/or Hoggan in such inspection.

10. The Department or any court having jurisdiction shall be the decision maker in any factual dispute or difference between the parties to this agreement. Larsen shall not have the authority to dictate to Holley the manner in which Holley runs their irrigation system. Holley shall be the sole entity to determine their system, within the confines of Department directives and orders. Holley shall have the exclusive control of the hiring of their water master and the overseeing of the operation of their irrigation wells and canals, subject to orders of the Department or a court.

11. Holley, Torgerson and Hoggan acknowledge and agree that the Department may, as a result of information submitted by any party during the period of retained jurisdiction, or as a result of its own information, impose conditions beyond those specified

hearing before the Department at any time during the period of retained jurisdiction to present such information or seek such modifications as Larsen deems appropriate. During such five year period, the Department and the parties shall be entitled to investigate and submit information concerning issues such as the historical use under the Holley rights, forfeiture, abandonment, carriage looses and other factors relevant to establishing an appropriate amount of pumping reduction at the Holley Wells to cover the Torgerson and Hoggan transfers and to prevent an expansion of use under the Holley rights. Applicants stipulate to the inclusion of such a condition in the Department's order approving the transfer, and further agree that Larsen shall be entitled to continue his protest should the Department decline to include this condition.

7. The parties agree to the inclusion by the Department of a condition requiring that the cumulative rate of diversion and annual volume diverted under Right Nos. 31-0331 and 31-0371 shall be appurtenant to the place of use described in the transfer applications so that each irrigated acre will receive an equal portion of water from the same source identified under both rights. The parties also agree that such condition may also provide that unless and until the Department imposes a different restriction, Holley shall reduce its pumping from the Holley Wells by the same cumulative amount that the Applicants propose to divert at their new points of diversion, and that the Department may reserve the right to impose additional or different conditions on the transfers based on evidence provided during the period of retained

Water to irrigate this land has been diverted by Torgerson from the Holley Canal pursuant to Torgerson's ownership of 250 shares of stock in Holley. Water in the Holley Canal is provided from the Holley Wells.

4. Hoggan has historically flood irrigated lands located in the SE 1/4 of Sec. 35, T 7 N, R 35 E (the "Hoggan Place of Use"). Water to irrigate this land has been diverted by Hoggan from the Holley Canal pursuant to Hoggan's ownership of ____ shares of stock in Holley.

5. Torgerson, Hoggan and Holley agree that their respective transfers may be conditioned in quantity and time to avoid injury to other water rights or an enlargement in use under the Holley water rights as a result of such transfers, which conditions are set forth below. These transfers may be conditioned by such other terms and conditions to which the parties mutually agree in writing and which are accepted by the Department.

6. Larsen hereby stipulates that it will withdraw its protest to the transfer application upon the Department's approval of the transfers subject to the condition that the Department expressly retains jurisdiction over this matter for up to, but not more than five years to determine potential injury to existing rights, both junior and senior, and to modify the conditions of transfer approval as necessary to prevent such injury. 1. Holley, Torgerson, and Hoggan jointly filed an Application for Transfer of Water Right (the "Application") with the Idaho Department of Water Resources ("Department") on November 22, 1990. Larsen timely filed its protest to the application.

2. The Application seeks, in part, to transfer the point of diversion for a portion of the water rights decreed to Holley from certain groundwater wells Holley owns or controls in the SW 1/4 of the SW 1/4 of Sec. 25, T 7 N, R 35 E, Boise Meridian (the "Holley Wells"), to a point of diversion for a well which Torgerson wishes to construct in the SW 1/4 of the SW 1/4, Sec. 10, T 6 N, R 35 E. The Application further seeks to transfer the point of diversion for a portion of the water rights decreed to the Holley Wells to a point of diversion for a well which Hoggan intends to construct in the NE 1/4 of the SE 1/4, Sec. 35, T 7 N, R 35 E, Boise Meridian.

Alt. cond. Conditions

CONDITIONS OF APPROVAL

<<20A>> This permit is subject to the agreement dated <date> between permit holder and protestant(s) to the extent such agreement covers matters within the jurisdiction of the Department of Water Resources.

1. Use of water under this right is subject to control by the watermaster of State Water District No. 31, Mud Lake and tributaries.
2. A measuring device of a type approved by this Department shall be installed and maintained as part of the diverting works.
3. The director retains jurisdiction of this transfer up to 5 years for the purpose of determining potential injury to existing rights, both junior and senior, and for the purpose of modifying the conditions of transfer approval as necessary to prevent such injury.
4. The cumulative rate of diversion and annual volume under Right Nos. 31-0331 and 31-0371 shall be appurtenant to the place of use so that each irrigated acre will receive an equal portion of water from the same source identified under both rights. Unless and until the Department imposes a different restriction, Holley shall reduce its pumping from the Holley wells by the same cumulative amount that the applicants propose to divert at their new points of diversion. The Department reserves the right to impose additional or different conditions on this transfer based on evidence provided during the period of retained jurisdiction or otherwise.
5. As specified by the court decree of Owsley Canal Co. v. Ernest Bauerle, October 14, 1940, the period of use under Right Nos. 31-0331 and 31-0371 is limited to the period from May 1 to November 1.
6. The change authorized by this transfer shall be accomplished within one (1) year of the date of this approval.
7. Failure to comply with the conditions of this transfer is cause for the director to issue an order to show cause why the approval of the transfer should not be rescinded.

Dated this 29th of October, 1990.

MEMORANDUM

TO: FILE

FROM: TIM LUKE

DATE: May 8, 1991

RE: TRANSFER APPS. 3680 & 3787/RIGHT NO.S 31-0331 & 31-0371
HOLLEY WATER USERS

=====

Both of the above transfer applications will add points of diversions to Holley Water Users rights 31-0331 and 31-0371. These transfers are the same as approved transfers 3654, 3645 and 3517. Wells are being drilled by individual users within the Holley group in order to reduce conveyance losses.

Since both transfers were protested by the same party that protested transfer no. 3654, I recommend using the same conditions that were used with approval of that transfer. These conditions are attached to this memo. There should also be three additional conditions. One is standard transfer condition no. T09 shown below. The second is proposed condition no. 20A on the attached list of conditions. This latter condition was recommended by the region (there is no need to add this condition to the permanent list of conditions).

The third condition is more of a remark and is shown below. This remark has been added in order to clarify the intent of the transfer and record place of use changes which will be accomplished.

<<T09>> Approval of this transfer does not preclude the opportunity for review of the validity of the water right(s) in the ongoing Snake River Basin Adjudication.

Transfer no.s 3680 & 3787 add place of use descriptions to right no.s 31-0331 & 31-0371, but do not expand the amount of irrigated acreage authorized under the rights.

RE: Transfer Application No. 31-0371 & 31-0331

Dear Water Right Applicant:

The Department of Water Resources acknowledges receipt of your transfer application. Please refer to the application number above in all further correspondence.

This office is currently in the process of advertising the application in Jefferson Star. The advertisement will be published for two consecutive weeks, and a period of ten days following the second publication will be allowed for the submittal of protests.

If the application is protested, you will be sent a copy of the protest. The protest must be resolved before final action is taken. If the protest is not resolved by the involved parties this Department will conduct a conference and/or hearing on the matter.

If the application is not protested, it will be forwarded to our state office in about five weeks. Department personnel will conduct a complete review prior to final processing of the application and will notify you of the outcome of this review. When final processing of the application is complete, you will be sent a copy. A typical processing time for an unprotested application is about eight weeks.

Please feel free to contact this office if you have any questions regarding this procedure.

Sincerely,

RE: Transfer Application No. 31-0371/31-0331

Dear Water Right Applicant:

The Department of Water Resources acknowledges receipt of your applications. Please refer to the application number above in all further correspondence.

This office is currently in the process of advertising the application Statewide. The advertisement will be published for two consecutive weeks, and a period of ten days following the second publication will be allowed for the submittal of protests.

If the application is protested, you will be sent a copy of the protest. The protest must be resolved before final action is taken. If the protest is not resolved by the involved parties this Department will conduct a conference and/or hearing on the matter.

If the application is not protested, it will be forwarded to our state office in about five weeks. Department personnel will conduct a complete review prior to final processing of the application and will notify you of the outcome of this review. When final processing of the application is complete, you will be sent a copy. A typical processing time for an unprotested application is about eight weeks.

Please feel free to contact this office if you have any questions regarding this procedure.

Holly Water USERS ASSOC.

WATER DISTRICT 31

WATERMASTER DONALD W. SHENTON

DATE: Dec 11, 1989

COMMENTS: This transfer should accomplish a big Savings

by eliminating a lot of bed losses by not having to

deliver this ^{water} way through this stretch of Ditch

on the end of the Canal System. It will MAKE

the delivery system much easier in short times also.

☒ I do endorse approval of this change.

☐ I do not endorse approval of this change.

I recommend the following conditions of approval:

I would suggest That the D.W.R. Should

investigate to see This well location would

not be too close to another well (maybe less

than 1/2 mile) So AS to maybe directly effect or

injure Another water Supply. Donald W. Shenton

MEMORANDUM

TO: FILE

FROM: TIM LUKE

DATE: January 26, 1990

RE: TRANSFER APPLICATION NO. 3645

This transfer seeks to add a point of diversion to two decreed rights which have historically been used to irrigate the 160 acre tract described as the place of use under item B5 of page 1 in the transfer application. The two decreed rights are held by Holley Water Users Association and are appurtenant to the Association's service area. Review of the applicable decrees confirms that the land under item B5 is included within the place of use description for both decreed rights.

Glen Saxton has advised me that the Mud Lake Moratorium does not prohibit the department from considering and approving this transfer application. The lands are already developed and the new well appears to have the effect of reducing total system diversion requirements.

The application may be approved with the following conditions:

<<R01>> A measuring device of a type approved by this Department shall be maintained as a part of the diverting works.

<<R04>> Use of water under this license is subject to control by the watermaster of State Water District No. 31, Mud Lake and Tributaries.

<<R29>> This right when combined with all other rights shall provide no more than .02 cfs per acre nor more than 3.0 afa per acre for the lands above.

Dear Mr. Creamer:

This is to acknowledge receipt of the protest filed in behalf of Blaine Larsen, Larsen Farms, and Larsen of Idaho against the above referenced application for transfer. The following are the principle items considered by the Department at a conference and/or hearing in either approving or denying an application for transfer:

1. Are other water rights injured by the transfers?
2. Does the change constitute an enlargement in the use of the original rights?
3. Will the proposed use under these transfers conflict with the local public interest?

The protestant must be prepared to present proof of the allegations involving one or more of the items. You will be notified at a later date as to the time and place set for conference and/or hearing.

If we may be of further assistance, please contact us.

Re: Application 31-0371 of Holley Water Users

Dear Harold:

This confirms our telephone conversation today that our clients, Blaine Larsen and his companies, have agreed to terms upon which their protest to this application would be withdrawn. We are expecting to obtain remaining signatures on the stipulation within the next day or two. Accordingly, the hearing scheduled for tomorrow, April 10, 1990, should be postponed or cancelled.

I am enclosing a copy of the stipulation which contains these terms. Please note that it contemplates that the Department will retain jurisdiction in this matter for one to three years in order to allow the parties to evaluate what measures should be taken to prevent injury. We would like to hear from you as soon as possible if the Department will have any problem including such a condition in the transfer approval.

Very truly yours,

4. The Application for Transfer is wholly inadequate and incomprehensible in that it fails to give reasonable notice to interested persons of the Applicant's intentions. The inadequacies of the Application include, but may not be limited to the following:

a. The Application states that it involves the transfer of rights to the Ashcraft-Hoggan, Murdock, Bybee and Hoggan points of diversion but only includes a diagram illustrating the Ashcraft-Hoggan place of use. The Application also fails to indicate what portion of the Holley rights will be diverted at the Ashcraft-Hoggan point of diversion or any other point of diversion. Protestants are therefore unable to discern what quantity of the Holley rights will be diverted where, or by whom. The Application therefore lacks even the barest of essential information necessary to provide adequate notice of the Applicant's intentions;

b. The Application for Transfer lacks sufficient information to enable Protestants to determine the extent to which the transfer would result in a decrease in transmission loss, if any, and what effect this might have on other water rights;

c. The Application for Transfer lacks sufficient information to determine the extent to which the right to divert under water rights 31-0371 and 31-0331 should be reduced as a result of decreasing transmission loss;

d. The Application for Transfer lacks sufficient information to determine the extent to which production of water from the original points of diversion for water rights 31-0371 and 31-0331 should, or will be curtailed as a result of the anticipated

The Murdock and Hoggan transfers

9. The application also seeks to transfer the point of diversion for a portion of the water rights decreed to Holley from the Holley wells to the site of a well Murdock wishes to construct in section 22, T 6N R 35E, B.M. The application further seeks to make such a transfer from the Holley wells to the proposed site of a well Carl Hoggan owns in section 35, T 7N R 35E. The application does not specify the acreage or location of the places of use for these wells but Murdock and Hoggan shall make this information. Larsen agrees to withdraw his protest as to these portions of the application, as he will with respect to the Bybee transfer, provided that all the above terms specified with respect to Bybee shall apply to the Hoggan and Murdock wells, including the condition that the Department shall retain jurisdiction over this matter and shall impose an inch-for-inch reduction in pumping from the Holley wells to correspond to pumping from the Murdock and Hoggan wells, pending further or different conditions as specified above.

Applicants agree to the inclusion of such a condition in the Department's order approving the transfer, and further agree that Larsen shall be entitled to cancel his withdrawal of protest should the Department decline to include this condition. The parties agree that, unless and until the Department imposes a different restriction, upon approval of the application Holley shall reduce its pumping from the Holley wells by the same 140 inches that Bybee proposes to take through his new well. Holley agrees to make its wells available for inspection by Larsen and the Department at all times in order to assure that this condition is being met.

In entering into this Stipulation, Larsen, Holley, Bybee, Hoggan and Murdock do not admit or confirm any fact concerning injury, expansion of use, historical use, forfeiture or abandonment that may be alleged with respect to the transfer, and reserve their rights to submit information on these and other relevant subjects during the period of retained jurisdiction.

RE: Blaine Larsen Protest of Holley Water Users Ass'n Transfer
Application No. 3654

Dear Harold:

As per our conversation today, I am forwarding a copy of the Stipulation which we had proposed to the Holley Water Users applicants for your information.

Withdrawal of the Larsen protest has been, and remains contingent not only upon the signing of the Stipulation by the parties, but also upon the imposition of the Stipulation's conditions by the Department in any transfer approval. Therefore, I would appreciate it if you could discuss the Stipulation conditions, including the condition relating to retained jurisdiction, with the appropriate people in the Department who would be responsible for approving the transfer and let us know as soon as possible if there will be a problem with any of the conditions.

I spoke with Mr. Murdock by phone today and he said that he had the Stipulation and would be bringing it to your office at the beginning of next week. Would you please notify us if and when you receive it?

Unfortunately, the stipulation has been held up by one of the parties and as of this writing has not been delivered to the Department. I have placed several calls and been told that the stipulation will be signed by all parties and delivered to the Eastern Region by the first part of this week. I have also learned that Mr. Bybee has his well and sprinkler installed, his ditches taken out and a crop in the ground.

Because of these facts, it is important that the Department give its immediate attention to whether or not it will agree to the conditions proposed in the stipulation of the parties. It is my understanding that when Jeff Fereday spoke with you about this you informed him that you did not believe that the Department would have a problem with the retained jurisdiction provision, but that you would have to review it. The question now is whether the Department agrees with the specific provision in the stipulation and if not, what conditions it will be willing to impose. If something other than the proposed retained jurisdiction provision is to be substituted in any transfer approval for Holley, Mr. Larsen would have to reconsider his proposal to withdraw the Protest -- potentially resulting in harmful delays to some of the applicants.

I have spoken with Harold Jones in the Eastern Region and he believes that this determination is one which will be made in Boise. I think it would be prudent for your offices to get their heads together on this issue as quickly as possible. I also would welcome your call so that we could discuss it further. I believe Jeff has already sent you a copy of the proposed stipulation but I am enclosing another for your reference.

I look forward from hearing from you.

RE: Blaine Larsen Protest of Holley Water Users Ass'n Transfer
No. 3654

Dear Norm:

I am writing with regard to the Protest of Blaine Larsen, Larsen Farms and Larsen of Idaho ("Larsen") to Transfer Application Nos. 3654 and 3680 of the Holley Water Users Association. I believe Jeff Fereday has spoken to you about this matter.

As I am sure Jeff explained, one of the reasons that Larsen has protested these applications is to insure that the transfers will not result in injury to his water rights. With regard to Application No. 3654, Larsen and the applicants have agreed to enter a stipulation by which Larsen would withdraw the protest to that application if the transfer approval contains certain conditions. These conditions are that the Department expressly retain jurisdiction over the matter for not less than one nor more than three years during which the Department and the parties shall be entitled to investigate issues such as historical use, abandonment, forfeiture, carriage losses and other factors relevant to establishing an appropriate amount of pumping reduction at the Holley wells to cover the Bybee transfer and to prevent an expansion of use under the Holley rights. A further condition is that until the Department imposes a different restriction, Holley is to reduce its pumping from the Holley wells by the same 140 inches that Bybee proposes to take through his new well.

The intent of the parties in entering this stipulation is to ensure that facts necessary to develop a proper transfer order can be generated during the period of retained jurisdiction while avoiding hardship to Mr. Bybee, to the extent he is relying on water from the new well to produce his 1990 crop.

As we discussed on Thursday, we are concerned that Mr. Bybee has been issued an expedited drilling permit based on the incorrect belief that Mr. Larsen had withdrawn his protest. As I explained, the protest will not be withdrawn until the parties reach an agreement and the Department has adopted the terms of that agreement in any transfer approval. In this case then, I believe the expedited drilling permit was issued prematurely. Since the Murdock well is also subject to Mr. Larsen's protest, any drilling permit issued for that well would be equally improper.

We have been working with the parties in a good faith effort to deal with the issues raised by the proposed transfer and with recognition of the hardship that might result to Mr. Bybee if he were prevented from pumping from his proposed well this season. We have made it clear to all of the parties that we would not object to Mr. Bybee pumping this year provided that the terms embodied in the stipulation were agreed to and also accepted by the Department. Assuming that this will be the ultimate result, then if either Mr. Bybee or Mr. Murdock have commenced drilling pursuant to drilling permits issued by the Department we would not object to them completing drilling. In doing so they should be aware that until the conditions referenced above are met, their transfers remain subject to the existing protest and that their right to divert at those points of diversion are by no means guaranteed. It should be made clear to both of them that they are proceeding at their own risk in light of the pendency of the transfer proceeding and that the permit to drill is not a permit to pump.

As an additional note, I would like to mention that all transfer applications should be subject to, and capable of, close scrutiny by the Department and the public whether they are protested or not. As the Larsen Protests have pointed out, the Holley applications provided more questions than answers - with the result that both the Department and the public remain uncertain as to what the applicant actually proposes to do.

The filing of an application should be more than an exercise of filling in the blanks using some previous application as a template. The application should contain hard information on what the applicant actually intends to do in each particular transfer. Likewise, applications which lack sufficient information to permit realistic evaluation of the proposed transfer should be returned to the applicant and should not be published by the Department until they are adequate to provide the required due notice to the public.

I would appreciate it if you could provide me with copies of any drilling permits which have been issued to Bybee, Murdock, Hoggan or the Holley Water Users Association relative to Application No. 3654 and any drilling permits which have been issued relative to the Ashcraft-Hoggan/Holley Water Users Association Application No.

RE: Blaine Larsen Protest of Holley Water Users Ass'n Transfer
Application No. 3654

Dear Harold:

I have had a chance to inquire at the IDWR Boise office regarding the Murdock well which was referenced in Application No. 3654. Your understanding was that Mr. Larsen's protest would not encompass the Murdock or Hoggan wells since they had been applied for under prior transfers and no protests had been filed against them.

According to the records of IDWR in Boise, the Murdock well was not the subject of any prior transfer application. The first reference to this well I am aware of is found in Application No. 3654 despite that fact that a handwritten notation on the application implies that approval of the well was pending at the time that Application No. 3654 was submitted. It appears that Application No. 3654 was the first notice and opportunity for protest of the Murdock well and therefore, Mr. Larsen's protest of Application No. 3654 encompasses both the Murdock and Bybee wells.

I am continuing to review available information and have not reached a conclusion as to the applicability of the Larsen protest to the Hoggan wells. I would point out that the Hoggan well, which according to Application No. 3517 was to be located in section 2, T6N,R35E does not appear in Application Nos. 3654 or 3680, thus preventing proper notice of the extent and nature of the Holley Water Users Association's proposed transfer.

9. In entering into this Stipulation, Larsen, Holley, Bybee, Hoggan and Murdock and Ashcraft do not admit or confirm any fact concerning injury, expansion of use, historical use, forfeiture or abandonment that may be alleged with respect to the transfer, and reserve their rights to submit information on these and other relevant subjects during the period of retained jurisdiction.

Applicants agree to the inclusion of such a condition in the Department's order approving the transfer, and further agree that Larsen shall be entitled to continue his protest should the Department decline to include this condition. The parties agree that, unless and until the Department imposes a different restriction, upon approval of the application Holley shall reduce its pumping from the Holley wells by the same 140 inches that Bybee proposes to take through his new well. RE: Holley Water Users' Ass'n Transfers

Dear Kent:

As per our conversation this morning, I am sending you a revised stipulation between Larsen, Holley, Murdock, Hoggan, Bybee and Ashcraft. As we discussed, I think it will be just as easy to revise the stipulation to include the Hoggan/Ashcraft application and have it resigned by each party as it will be to amend the prior stipulation and have it recirculated for initialization by each party.

The changes which you will find in the enclosed stipulation are intended to show that it encompasses both transfer applications and both protests. The legal descriptions have been changed to reflect those which were indicated by Mr. Bybee, Mr. Hoggan and Mr. Murdock. Additional language was added to paragraphs 1 and 8 to show that the stipulation applies to both applications. Paragraph 6 was modified slightly to clarify that the protests remain in effect so long as the Department has not yet approved the applications subject to the conditions contained in the stipulation.

We recognize that Mr. Bybee needs water from his well at the present time. However, without waiving our protests, we do not intend to object if the Department allows him to pump while it decides what course of action it will take regarding the stipulation.

I will be contacting Mr. Bybee and asking him to sign this stipulation to each of the parties for their signature and return it to you to avoid the delays which we experienced the last time around. If Mr. Bybee cannot do this I will let you know and

RE: TRANSFER APPLICATION 3654/LARSEN PROTEST AGAINST HOLLEY WATER
USERS ASSN.

=====

Attached is a letter I drafted as a response to the May 21 letter from Larsen's attorney concerning proposed stipulations on transfer 3654.

I have drafted a somewhat brief letter. I proposed conditions that read differently than those proposed by the stipulation, but which I think may satisfy the concerns raised by the stipulation.

I have left open the number of years for Director's jurisdiction under condition no. 3. This is a standard condition whereby the department uses 5 years as the period of retained jurisdiction. The stipulation requests 3 years. I am not certain as to which period we should use. Furthermore, this condition does not include language about forfeiture and expansion investigations during the retainment period as suggested by the stipulation. I think somewhere in the body of the letter we may need to say that condition no. 3 does not prohibit someone from submitting information concerning these issues. Perhaps a general condition could be added which states that the Director has the authority to void or further condition the rights if in fact an expansion does occur as a result of the transfer.

Condition no.4 is a modification of one of our license conditions (condition no. R38). I have used this condition because I think it may satisfy Larsen's concern about possible expansion. I also wanted to get away from using specific flow rates in the conditions because the transfer application lists less total acreage than that provided by the decree.

Finally, I inserted condition no. 5 because Larsen's protest alleged an expansion in period of use. My review of the decree revealed that the decree specifies a period of use less than that identified by the transfer. It appears that previous transfers recognized periods of use greater than that authorized by the decree. Perhaps condition no. 5 will correct these oversights and set the record straight for all parties involved.

5. As specified by the court decree of Owsley Canal Co. v. Ernest Bauerle, October 14, 1940, the period of use under right no.s 31-0331 and 31-0371 is limited to the period from May 1 to November 1.

I hope this response addresses your concerns and questions. Please feel free to contact this office if you have additional questions or would like further assistance in this matter.

RE: Transfer Application No. 3654/Holley Water Users Assn.

Dear Mr. Creamer:

Department staff has received your letter dated May 21, 1990 and a copy of the proposed stipulation between Blaine Larsen and Holley Water Users Association.

The Department does not disagree with the general terms of the stipulation as it is currently proposed. Since the Department is not a party to the stipulation, the Department specifically requests that this stipulation not appear to be a matter before the Director of the Department. The heading of the stipulation therefore should exclude lines one and two which pertain to the Director of the Idaho Department of Water Resources.

Listed below are several proposed conditions which the Department will likely use as conditions of approval for this particular transfer application. I believe the conditions will satisfy the terms of the stipulation. I hope that our listing of proposed conditions at this time will assist the two parties in reaching an agreement and resolving the pending protest.

Proposed Conditions of Approval:

1. Use of water under this transfer is subject to control by the watermaster of State Water District No. 31, Mud Lake and tributaries.

2. A measuring device of a type approved by this Department shall be installed and maintained as a part of the diverting works.

3. The director retains jurisdiction of this transfer up to 5 years for the purpose of determining potential ~~in the vicinity of the transferred point of diversion.~~

4. The cumulative rate of diversion and annual volume under Right No.s 31-0331 and 31-0371 shall be appurtenant to the place of use so that each irrigated acre will receive an equal portion of water from the same source identified under both rights.

of modifying the conditions of transfer approval as necessary to prevent such injury.

The language contained in proposed condition number 4 is unclear. If it is the Department's intent that approval of the transfers will not result in an expansion of the water right, we agree with that intent. However, the language is ambiguous in this respect and therefore would not provide the stipulated prerequisite for withdrawing our protest. We suggest that the following language be substituted for the Department's proposed condition no. 4:

The cumulative rate of diversion, annual volume diverted and acreage irrigated under Right Nos. 31-0331 and 31-0371 shall not be increased above the decreed rate and volume of diversion as a result of this transfer, nor shall the acreage irrigated be increased beyond that decreed under these rights. Unless and until the Department imposes a different restriction, Holley shall reduce its pumping from the Holley wells by the same cumulative amount that the applicants propose to divert at their new points of diversion. The Department reserves the right to impose additional or different conditions on this transfer based on evidence provided during the period of retained jurisdiction or otherwise.

Since this condition reflects the intent of the parties, I anticipate that they will agree to inclusion of this language in the transfer approvals. We hope that the Department can make these changes to its proposed order.

I look forward to your response.

RE: Transfer Applications of Holley Water Users Ass'n

Dear Mr. Saxton:

I have reviewed your letter of May 25, 1990 regarding the proposed conditions for the Holley Water Users' Association transfers and have forwarded copies to Kent Foster and the landowners involved.

Let me first point out that the stipulation entered into by Mr. Larsen and the other parties encompasses Transfer Application Nos. 3654 and 3680 and also the Murdock well. Therefore, the Department should include the same conditions in each transfer approval.

Although the Department's retained jurisdiction language does not coincide with that contained in the stipulation which all the parties have now signed, Mr. Larsen would not object to the Department retaining jurisdiction for a period of not more than five years. We believe that the other parties likely would agree to this condition as well. We expect that if they do agree, they will write to me and convey their intention that the stipulation be considered amended to reflect the 5-year retained jurisdiction condition the Department has proposed.

We suggest, however, that your proposed condition no. 3 read as follows:

The director retains jurisdiction of this transfer for up to five years for the purpose of determining potential injury to existing rights, both junior and senior, and for the purpose of

RE: Transfer Applications of Holley Water Users Association
Transfer Application No.s 3654 & 3680

Dear Mr. Creamer:

I have reviewed your letter of June 8, 1990 concerning the Department's proposed conditions for the above referenced transfers.

In response to your comments and concerns, I first wish to state that my previous correspondence did not reference transfer no. 3680 simply because the stipulation which you asked the Department to review did not reference this latter transfer application. Since both transfers are similar in nature and a protest is pending between the same parties, the Department will extend similar conditions to transfer no. 3680.

In regard to our proposed condition no.3, the five year period for retained Department jurisdiction is standard. The additional language which you proposed seems acceptable and can be incorporated with our proposed condition.

The language of our proposed condition no. 4 was chosen with the intent to prevent expansion by limiting the diversion rate and volume, without specifying exact measurements, to an amount commensurate with actual beneficial use. This condition is a variation of a more standard condition that the Department often uses when issuing licenses and approving transfers. The Department understands that one of the parameters of beneficial use is the total number of irrigated acres identified by the transfers. Holly Water Users will be required to reduce their pumping by the same amount that certain individuals (i.e. Bybee, Murdock etc.) propose to divert at their new points of diversion. The Department will add the last two sentences as you have proposed to condition no. 4.

RE: Transfer Applications of Holley Water Users' Ass'n Nos. 3654 and 3680

Dear Mr. Saxton:

We have received your letter of June 12, 1990. Based on our understanding of the Department's intent regarding the proposed conditions as stated in your letter, we would not object to their inclusion in approvals of the Holley transfers.

To clarify our understanding, the conditions would be applied to the Holley Water Users' Ass'n transfers involving the Holley, Murdock, Bybee, Hoggan and Ashcraft wells that are referenced in the stipulation between those parties and Mr. Larsen. Condition number 3 in your May 25 letter would follow the language which we proposed in our June 8, 1990 letter. Condition number four would contain the language which you originally proposed, supplemented by the last two sentences of our proposed language.

I will forward a copy of your letter to the other parties. Upon notification from them that they will agree with this language, we will forward an executed stipulation to the Eastern Region along with a withdrawal of the protests filed by Mr. Larsen.

1057 Holley shall reduce its pumping from the Holley wells by the same cumulative amount that the applicants propose to divert at their new points of diversion and that the Department may reserve the right to impose additional or different conditions on the transfers based on evidence provided during the period of retained jurisdiction. Holley agrees to make its wells available for inspection by Larsen and the Department at all times in order to assure that this condition is being met.

7. Holley and Bybee acknowledge and agree that the Department may, as a result of information submitted during the period of retained jurisdiction or as a result of its own information, impose conditions beyond those specified in this stipulation.

The Murdock and Hoggan/Ashcraft transfers

8. Application 3654 also seeks to transfer the point of diversion for a portion of the water rights decreed to Holley from the Holley wells to the site of a well Murdock wishes to construct in the NE 1/4 of section 22, T 6N R 35E, B.M. Application 3680 seeks to transfer the point of diversion for a portion of the water rights decreed to Holley from the Holley wells to the proposed site of a well to be located in the W 1/2, SE 1/4 of section 2, T 6N R 35E, BM, being land belonging to Ashcraft. (the "Hoggan/Ashcraft well"). The Hoggan/Ashcraft well will be used to irrigate land belonging to both Hoggan and Ashcraft. Larsen agrees to withdraw his protest as to these proposed transfers, as he will with respect to the Bybee transfer, provided that all the above terms specified

During such five year period, the Department and the parties shall be entitled to investigate, and the parties shall be entitled to submit information concerning, issues such as the historical use under the Holley rights, forfeiture, abandonment, carriage losses and other factors relevant to establishing an appropriate amount of pumping reduction at the Holley wells to cover the Bybee transfer and to prevent an expansion of use under the Holley rights. Applicants agree to the inclusion of such a condition in the Department's order approving the transfer, and further agree that Larsen shall be entitled to continue his protest should the Department decline to include this condition. The parties agree to the inclusion by the Department of 203A7 a condition requiring that the cumulative rate of diversion and annual volume diverted under Right Nos. 31-0331 and 31-0371 shall be appurtenant to the place of use described in the transfer applications so that each irrigated acre will receive an equal portion of water from the same source identified under both rights. The parties also agree that such condition may also provide that unless and until the Department imposes a different restriction,

Wells"), to the proposed site of a well Bybee wishes to construct on Bybee's property in section 15, T 6N R 35E.

3. Bybee holds 140 shares of stock in Holley, and flood irrigates approximately 140 acres in the S 1/2, SE 1/4 of section 10 and the N 1/2, NE 1/4 of section 15, T 6N, R 35E (the "Bybee farm"). The Bybee farm has been irrigated continuously for at least thirty years. Bybee has obtained his irrigation water under such shares from the Holley Canal, which has been supplied from the Holley Wells pursuant to the Holley water right.

4. Holley and Bybee agree that their respective transfers may be conditioned in quantity and time in order to avoid injury to other water rights or an enlargement in use under the Holley water rights as a result of this transfer. The initial condition is as specified in paragraph 6 below. These transfers may be conditioned by such other terms and conditions to which the parties mutually agree in writing and which are accepted by the Department.

5. Bybee already has purchased and installed a center-pivot sprinkler system and has obliterated the ditches formerly serving the land which he now plans to irrigate with a new well and the sprinkler system. He has made a considerable investment in these and other efforts to change his irrigation from flood to sprinkler. Bybee will suffer economic hardship if he is not allowed to begin immediately to construct the new well.

6. In order to allow Bybee to avoid suffering such hardship, Larsen hereby stipulates that he will immediately withdraw his

Dear Mr. Creamer:

I have reviewed the stipulation you sent in reference to transfers No.'s 3654 & 3680 for the Holley Water Users Association. In the Bybee action, I find that some of what the parties agreed to is probably not within the jurisdiction of the Department. One such item would be the inspection guarantee implied in the first paragraph of page 4.

I've included a list of conditions that I feel are necessary on the transfer and that also parallel most of your clients concerns. I would appreciate your review and response within 30 days in order to facilitate recommending approval of the transfer application or setting a conference/hearing date.

Sincerely,

HAROLD W. JONES

STANDARD CONDITIONS OF APPROVAL

1. A measuring device of a type approved by the Department shall be permanently installed and maintained as part of the diverting works.
2. The rate of diversion of water for irrigation under this permit and all other water rights on the same land shall not exceed 0.02 cubic feet per second for each acre of land.
3. Use of water under this permit is subject to control by the watermaster of State Water District No. 31.
4. This permit is subject to the agreement dated 8-8-90 between permit holder and protestant to the extent such agreement covers matters within the jurisdiction of the Department of Water Resources.
5. The Director retains jurisdiction of the permit and any license subsequently issued to incorporate the use into a water district, require streamflow augmentation or other action needed to protect prior surface water and groundwater rights.

RE: Application No. T31-0371/31-0331

Dear Water Right Applicant:

The Department of Water Resources acknowledges receipt of your water right permit. This office is currently in the process of advertising the application in the STATEWIDE on DECEMBER 20 & 27, 1990. The advertisement will be published for two consecutive weeks, and a period of ten days following the second publication will be allowed for the submittal of protests.

If the application is protested, you will be sent a copy of the protest. The protest must be resolved before the application is approved or denied. If the protest is not resolved voluntarily, this Department will conduct a conference and/or hearing on the matter.

If the application is not protested, it will be forwarded to our state office in about five weeks. State office personnel will conduct a complete review prior to final processing of the application and will notify you of the outcome of this review. When a permit is issued, you will be sent a copy. A typical processing time for an unprotested application is about eight weeks.

Please feel free to contact this office if you have any questions regarding this procedure.

Sincerely,

HAROLD W. JONES

RE: Amended Adjudication Claims for Holly Water Users
Association

Dear Mr. Hogan:

Enclosed are the amended adjudication claims for Holly Water Users Association. The place of use within the SE1/4 of Sec 35, T07N, R35E, has been changed to reflect the 132 acres that are to be irrigated by the pivot. Please sign the last page on each water right in front of a notary, then return the adjudication claims to me so that they can be properly filled.

Your prompt response will be appreciated.

Dear Mr. Creamer:

This letter acknowledges receipt of the protest filed in behalf of Blaine Larsen and Larsen Farms against the above referenced application for transfer. The following are the principle items considered by the Department at a conference and/or hearing in either approving or denying an application for transfer:

1. Are other water rights injured by the transfers?
2. Does the change constitute an enlargement in the use of the original rights?
3. Will the proposed use under these transfers conflict with the local public interest?

The protestant must be prepared to present proof of the allegations involving one or more of the items. You will be notified at a later date as to the time and place set for conference and/or hearing. We appreciate your support in this matter. If we may be of further assistance, please contact us.

Dear Mr. Barney:

Enclosed please find a copy of a protest filed against the above referenced application. You should be aware that the following are the items we can consider at a conference and/or hearing in either approving or denying an application for transfer:

1. Are other water rights injured by the transfer?
2. Does the change constitute an enlargement in the use of the original right?
3. Will the proposed use under this transfer conflict with the local public interest?

The applicant must be prepared to present evidence and/or testimony addressing each of the three items should an additional hearing be necessary. You will be notified at a later date as to the time and place set for conference and/or hearing. RE: Holley Water Users Association/Ron Torgerson

Dear Harold:

I understand from our conversation of January 24, 1991, that Blaine Larson Farms, the protestant in the application of Holley Water Users for change in point of diversion and Carl Hoggan Property and Ron Torgerson property has not filed a conditional withdrawal protest but, nevertheless, has suggested that a stipulation could be reached that would facilitate withdrawing the protest as was reached with the Holley Water Users Association by the protestant and other transfer applications. As I explained, the pending transfer application is for the benefit of Carl Hoggan and Ron Torgerson and that the issues as they pertain to each separate beneficiary may be different. I also explained that Ron was very anxious due to financial commitments to get his pivot system erected and be ready for irrigation this spring and of course he can't do that until he gets a permit for the drilling of a new well.

I understand you will speak with Mr. Carlson and will attempt to arrange a hearing on this matter at Mr. Carlson's earliest convenience. Hopefully that will precipitate further discussion between the water users association and counsel for the protestant that may result in a stipulation being executed. I also understand you will visit with Ron about the potential of some type of conditional approval for either Part A or Part B of the application so that if hearing in fact does take place issues not germane to both applicants would not hold the other approval up.

As indicated in our conversation, I will stop by the office this coming Monday between 3:00 and 3:30. If I get held up, I will try and give you a call so that you won't be delaying other pressing matters that I know you have. I appreciate the opportunity of meeting with you and having you help me with the transfer application.

Best regards,

Breck Barton

ASSOCIATION	)	NOTICE OF CONFERENCE

On August 8, 1990, Holley Water Users Association, Hamer, Idaho filed an application with the Department of Water Resources to add points of diversion and change places of use for Ron Torgerson and Carl Hoggan through Transfer No. 31-0371/31-0331 of the public waters of the State of Idaho. The application proposes to divert water from ground-water sources with a point of diversion within the SW1/4SW1/4, Sec. 10, T. 6N, R. 35E for the irrigation of 250 acres within the E1/2SE1/4, Sec. 9, W1/2SW1/4, SE1/4SW1/4, Sec. 10, N1/2NW1/4, Sec. 15, T. 6N, R. 35E, B.M. (Torgerson well); and within the NE1/4SE1/4, Sec. 35, T. 7N, R. 35E, for the irrigation of 132 acres within the SE1/4, Sec. 35, T. 7N, R. 35E, B.M. (Hoggan well). On December 21, 1990, the Department received a protest against approval of said application from Michael C. Creamer, Attorney at Law, in behalf of Blaine Larsen, Larsen Farms and Larsen of Idaho.

The Department has set the matter of protest for an administrative conference to be conducted at 10:00 a.m. on Thursday, February 14, 1991, in the Second Floor Conference Room, State Office Building, 150 Shoup, Idaho Falls, Idaho. The

12. In entering into this stipulation, Larsen, Holley, Torgerson and Hoggan do not admit or confirm any fact concerning injury, expansion of use, historical use, forfeiture or abandonment that may be alleged with respect to the transfer, and reserve their rights to submit information on these and other relevant subjects during the period of retained jurisdiction.

13. This stipulation is distinct from, and does not affect, that stipulation between Larsen, Holley, Hoggan, Bybee, Murdock and Ashcraft regarding Holley's Application for Transfer Nos. 3654 and 3680, which was executed on August 8, 1990.

14. The Department may issue a well driller's permit to Torgerson and/or Hoggan pending resolution of the protest of Larsen. The permit shall state as a condition that the cumulative rate of diversion under such permit or permits shall be subject to the conditions of paragraph 7 of this stipulation.

hearing before the Department at any time during the period of retained jurisdiction to present such information or seek such modifications as Larsen deems appropriate. During such five year period, the Department and the parties shall be entitled to investigate and submit information concerning issues such as the historical use under the Holley rights, forfeiture, abandonment, carriage looses and other factors relevant to establishing an appropriate amount of pumping reduction at the Holley Wells to cover the Torgerson and Hoggan transfers and to prevent an expansion of use under the Holley rights. Applicants stipulate to the inclusion of such a condition in the Department's order approving the transfer, and further agree that Larsen shall be entitled to continue his protest should the Department decline to include this condition.

■ The parties agree to the inclusion by the Department of a condition requiring that the cumulative rate of diversion and annual volume diverted under Right Nos. 31-0331 and 31-0372 shall be appurtenant to the place of use described in the transfer applications so that each irrigated acre will receive an equal portion of water from the same source identified under both rights. The parties also agree that such condition may also provide that unless and until the Department imposes a different restriction, Holley shall reduce its pumping from the Holley Wells by the same cumulative amount that the Applicants propose to divert at their new points of diversion, and that the Department may reserve the right to impose additional or different conditions on the transfers based on evidence provided during the period of retained

8. Torgerson and Hoggan agree to make their wells and any diversion or irrigation records they may have available for inspection at all reasonable times by Larsen and the Department to assure that this condition is being met.

9. Holley agrees to make all diversion or irrigation records at their disposal available to the Department upon request of any party to this matter for review by any party. Holley further agrees that they will make available for inspection their wells and/or pumps upon reasonable notice and request by any party to this action. Inspection of Holley's wells and/or pumps may be made by any party to this action but in the event such inspection is desired by Larsen, then Larsen shall be accompanied either by the Department or by Torgerson and/or Hoggan in such inspection.

10. The Department or any court having jurisdiction shall be the decision maker in any factual dispute or difference between the parties to this agreement. Larsen shall not have the authority to dictate to Holley the manner in which Holley runs their irrigation system. Holley shall be the sole entity to determine their system, within the confines of Department directives and orders. Holley shall have the exclusive control of the hiring of their water master and the overseeing of the operation of their irrigation wells and canals, subject to orders of the Department or a court.

11. Holley, Torgerson and Hoggan acknowledge and agree that the Department may, as a result of information submitted by any party during the period of retained jurisdiction, or as a result of its own information, impose conditions beyond those specified

Applicants Holley Water Users Association, an Idaho non-profit corporation ("Holley"), Ron Torgerson ("Torgerson") and Karl Hoggan ("Hoggan"), and Protestants Blaine Larsen, Larsen Farms, and Larsen of Idaho ("Larsen"), hereby stipulate and agree as follows:

1. Holley, Torgerson, and Hoggan jointly filed an Application for Transfer of Water Right (the "Application") with the Idaho Department of Water Resources ("Department") on November 22, 1990. Larsen timely filed its protest to the application.

The Application seeks, in part, to transfer the point of diversion for a portion of the water rights decreed to Holley from certain groundwater wells Holley owns or controls in the SW 1/4 of Sec. 25, T 7 N, R 35 E, Boise Meridian (the "Holley Wells"), to a point of diversion for a well which Torgerson wishes to construct in the SW 1/4 of the SW 1/4, Sec. 10, T 6 N, R 35 E. The Application further seeks to transfer the point of diversion for a portion of the water rights decreed to the Holley Wells to a point of diversion for a well which Hoggan intends to construct in the NE 1/4 of the SE 1/4, Sec. 35, T 7 N, R 35 E, Boise Meridian.

^ Attached Conditions

CONDITIONS OF APPROVAL

<<20A>> This permit is subject to the agreement dated <date> between permit holder and protestant(s) to the extent such agreement covers matters within the jurisdiction of the Department of Water Resources.

1. Use of water under this right is subject to control by the watermaster of State Water District No. 31, Mud Lake and tributaries.
2. A measuring device of a type approved by this Department shall be installed and maintained as part of the diverting works.
3. The director retains jurisdiction of this transfer up to 5 years for the purpose of determining potential injury to existing rights, both junior and senior, and for the purpose of modifying the conditions of transfer approval as necessary to prevent such injury.
4. The cumulative rate of diversion and annual volume under Right Nos. 31-0331 and 31-0371 shall be appurtenant to the place of use so that each irrigated acre will receive an equal portion of water from the same source identified under both rights. Unless and until the Department imposes a different restriction, Holley shall reduce its pumping from the Holley wells by the same cumulative amount that the applicants propose to divert at their new points of diversion. The Department reserves the right to impose additional or different conditions on this transfer based on evidence provided during the period of retained jurisdiction or otherwise.
5. As specified by the court decree of Owsley Canal Co. v. Ernest Bauerle, October 14, 1940, the period of use under Right Nos. 31-0331 and 31-0371 is limited to the period from May 1 to November 1.
6. The change authorized by this transfer shall be accomplished within one (1) year of the date of this approval.
7. Failure to comply with the conditions of this transfer is cause for the director to issue an order to show cause why the approval of the transfer should not be rescinded.

Dated this 29th of October, 1990.

DATE: May 8, 1991

RE: TRANSFER APPS. 3680 & 3787/RIGHT NO.S 31-0331 & 31-0371
HOLLEY WATER USERS

=====

Both of the above transfer applications will add points of diversions to Holley Water Users rights 31-0331 and 31-0371. These transfers are the same as approved transfers 3654, 3645 and 3517. Wells are being drilled by individual users within the Holley group in order to reduce conveyance losses.

Since both transfers were protested by the same party that protested transfer no. 3654, I recommend using the same conditions that were used with approval of that transfer. These conditions are attached to this memo. There should also be three additional conditions. One is standard transfer condition no. T09 shown below. The second is proposed condition no. 20A on the attached list of conditions. This latter condition was recommended by the region (there is no need to add this condition to the permanent list of conditions).

The third condition is more of a remark and is shown below. This remark has been added in order to clarify the intent of the transfer and record place of use changes which will be accomplished.

<<T09>> Approval of this transfer does not preclude the opportunity for review of the validity of the water right(s) in the ongoing Snake River Basin Adjudication.

Transfer no.s 3680 & 3787 add place of use descriptions to right no.s 31-0331 & 31-0371, but do not expand the amount of irrigated acreage authorized under the rights.

RE: Holley Water Users/Torgerson & Hoggan Transfers

Dear Mr. Jones:

I have received your letter of April 11, 1991 regarding the above-referenced transfers in which you state that, based on the stipulation between Mr. Larsen and the transfer applicants, the Department considers the Protest against the application resolved and has resumed processing their application.

I am assuming that this means that the Department will not require a Withdrawal of Protest to be filed. I see no problem with this approach, and agree that the application can be processed on the understanding that the processed application, if approved by the Department, will contain conditions that conform with those to which the parties stipulated, and the understanding that Larsen may request and obtain a hearing during the five year period of retained jurisdiction and submit additional information to the Department regarding conditions on the transfer.

If my understanding of the facts is not correct, please advise me immediately.

bcontor	12/30/00	POD continued	POD recommended per Preliminary Order Amending Transfer Approval 5335. Note that amendment did not rectify differences between original transfer and AJ field work.
bcontor	12/30/00	POD cont. 2	Three sprinkler PODs are not added to 31-11430 because there is no diversion to storage from those PDs. Claimant is aware of need to file transfer to add these PDs to water rights. Ben use claims 31-11430 and 31-11432 match field work otherwise.
bcontor	1/1/01	Recommendation	All elements except POD and Period of Use recommended per post-1987 transfer 5335. POD and period of use modified by Preliminary Order 12/19/2000, recommended per that Preliminary Order.
bcontor	1/1/01	storage	right lists diversion to storage as a use, but no storage nor irrigation from storage, per T 5335. Irr. storage is authorized under 31-332, irr. from storage is authorized under 31-332, 31-11430.
bcontor	1/1/01	shoulder remark	No shoulder remark applied, as recommended sesaon conforms to amended transfer and Bauerly decree. Shoulder remark would violate intent of Bauerly and amendment.
bcontor	1/1/01	tributary	Somehow source was listed as trib to mud lake, which is incorrect. This will need to be corrected.

			2. (NO) The basis of claim is not beneficial use.
			3. (YES) The Parent Right has a POU.
			4. (YES) The claimed POU can be verified using the water right file.
			12. (YES) POU remark was required.
			13. (NO) POU condition was not required.
Priority Date	12/27/00 4:07:44 PM	bcontor	1. (YES) There has been a later court decree of the water right(s) from the water source.
			2. (YES) The owner/owner's predecessor in interest of the place of use was joined in the later decree.
			3. (NO) The date of the decree was not after the mandatory permit date.
			4. (NO) The basis of claim is not beneficial use.
			5. (NO) The basis of claim is not a posted notice.
			6. (NO) Parent right does not have a priority date.
			12. (YES) The claim is recommended.
			13. (YES) The claim is coded correctly.
			14. (NO) Priority remark was not required.

Quantity	1/1/01 10:21:52 AM	bcontor	1. (NO) The basis of claim is not beneficial use.

Season	1/1/01 10:17:32 AM	bcontor	2. (NO) The basis of claim is not a posted notice. 3. (YES) The parent right has a diversion rate and/or diversion volume. 4. (YES) The claimed diversion rate and/or volume can be verified using the water right file. 6. (YES) The source is ground water and the purpose of use requires a diversion volume limit. 7. (NO) The parent right does not have an annual diversion volume limit. 8. (YES) Irrigation is a purpose of use. Comment for 8: As transfer does not impose a volume, this recommendation does not, either. Note that operation of Bauerly (and Transfer) combined diversion rate limitations will effectively limit volume to appropriate levels, see analysis in paper file "Mud Lake Storage." 9. (YES) Quantity remark was required. 10. (NO) Quantity condition was not required.
Source	12/27/00 4:08:53 PM	bcontor	1. (NO) The basis of claim is not beneficial use. 2. (YES) The parent right has a period of use. 3. (YES) The claimed Period of Use can be verified using the water right file. 12. (YES) Irrigation is the purposed use. 14. (YES) The period of use on the decree, license or transfer is shorter on either the start or end date than allowable under IDWR's current standard. 15. (NO) Period of Use remark was not required. 16. (NO) Period of Use condition was not required.
Summary	1/1/01 10:27:26 AM	bcontor	1. (NO) The basis is not beneficial use. 2. (YES) Parent right has a source. 3. (YES) The claimed source can be verified using the water right file. Comment for 7: Field inspection of PD 8. (NO) The source is not surface water. 10. (NO) Source remark was not required. 11. (NO) Source condition was not required.
Use	1/1/01 10:12:58 AM	bcontor	1. (NO) The basis of the claim is not beneficial use. 3. (NO) There is no indication that there has been a five year period of continuous nonuse that could result in a recommendation of forfeiture or partial forfeiture. 5. (NO) General remark was not required. 6. (NO) Explanatory remark was not required. 7. (YES) Additional condition was required. 8. (YES) Wanted to view the recommended right. 9. (NO) This is not a split right. 10. (NO) This is not a combined right. 11. (NO) Documents were not linked or attached to this file. 12. (YES) Set the verification date.
			1. (YES) The basis of claim is beneficial use. 4. (NO) There is not evidence that there has been a change to the purpose of use. 9. (YES) The file contains all the necessary information to verify the purpose of use. 11. (NO) Purpose of Use remark was not required. 12. (NO) Purpose of Use condition was not required.

DESCRIPTION OF
EXISTING DIVERSION WORKS

The Owsley Canal Company diversions fall into four categories:

1. Diversions from Mud Lake in Section 1, T6N, R34E.

Water under all rights to the natural flows of Mud Lake and its tributaries, water diverted by the Bybee wells, and at times much of the water diverted by the North Lake wells, as well as water under all storage rights in connection with such sources, flows from Mud Lake through the main intake canal of the company to the main lift pumping station located just south of Highway 28 in the NW1/4NW1/4 of Section 24, T6N, R34E. There are four pumps at the main lift station, three 200 HP pumps and one 150 HP pump. The pumps lift water about seventeen feet and produce some 329 cfs of flow in the canal system. In addition some water is diverted through the Level Canal Company intake from Mud Lake in the SW1/4SW1/4 Section 34, T7N, R34E and then recaptured by means of a pump located on the south bank of said canal in the SE1/4SE1/4 Section 33 of said township and range for the irrigation of some two hundred acres of farm land. This is referred to as the Shively (tenant) or Staley (landowner) diversion.

MICROFILMED

NOV 1 / 1992

2. Diversions of groundwater at the Bybee well field in Section 25, T7N, R35E.

When these wells were first drilled, the water flowed from them under pressure in the amount of about 200 cfs. Over the years the number of wells and the depth has been increased, and pumps have been installed to produce the 200 cfs. There are now eight wells with pumps. They range in depth from twenty-two feet to one hundred feet. There are six 100 HP pumps, one 75 HP pump and one 60 HP pump. Water from the wells is collected in a system of ditches with a large sump and discharged through a concrete and earthen structure into Camas Creek. It flows through the channel of Camas Creek to Mud Lake from which it is then rediverted as described above.

3. Diversions of groundwater at the North Lake well field in Sections 13, 18, 19 and 24 of T7N, R34E.

There are some sixteen drilled wells in this location, eleven are currently in use. Their combined maximum capacity is 197.66 cfs. The depth of nearly all eleven producing wells is one hundred feet. All but one of the pumps are 75 HP pumps; one is a 60 HP pump. These wells discharge into a system of collection ditches which feed a main ditch running in a generally southwesterly direction to a bifurcation structure in Section 34 of said township and range. From the bifurcation structure, water is either delivered south into Mud Lake for rediversion as described above, or in a southwesterly direction to the west lift pumps of the company, sometimes referred to as the "Sparks Pumps". This lift station is located in the

MICROFILMED

NOV 1 / 1992

SW1/4SW1/4 of Section 33, T7N, R34E where the water is lifted some fifteen feet into the Owsley Canal system.

4. Diversions of wastewater within the Owsley Canal system by means of subpumps.

There are twelve subpumps located strategically throughout the Owsley system for the purpose of pumping excess tailwater and subwater from irrigation of the lands back into either the canal system or Mud Lake for reuse. These are relatively smaller pumps ranging in size from 3 HP to 20 HP and lift water eight to eighteen feet.

STORAGE RIGHTS

IN

MUD LAKE

Under the federal court decree in the case of Ernest Sauve v. W. H. Abbott, et al., Case No. 635, entered November 1, 1930, the watermaster is charged with the responsibility of accounting for water stored in Mud Lake during the nonirrigation season on the basis of priorities to the use of the waters of Mud Lake and its tributaries during the irrigation season.

As a result of the drilling of wells which for many years resulted in the flow of significant amounts of water therefrom without the necessity of pumping, other court decrees have resulted which also impact such storage rights. Notable among such decrees is the one entered by the District Court of the Ninth Judicial District for Jefferson County in the case of Owsley Canal Company v. Ernest Bauerle, et al., Case No. 1739, on October 14, 1940.

By the early 1960's, most of such flowing wells had ceased to flow in average water years, either during the irrigation or nonirrigation season. Pumps were installed and in very recent years some wells have been deepened in order to provide the

MICROFILMED

NOV 17 1992

required amounts of water. Coincidentally with the increased number of groundwater diversions in the areas surrounding Mud Lake, wintertime flows from Camas Creek and the other tributaries have, in many of the past twenty to twenty-five years, been insufficient to fill Mud Lake.

In response to the need to fill Mud Lake during the nonirrigation season, for the benefit of all holders of natural flow and storage rights therein; a practice has developed of pre-irrigation season pumping from many of the same wells which are the subject of the Owsley v. Bauerle decree, as well as some other wells. The pre-season pumping has been done pursuant to an agreement entered into by all those who hold rights to the use of the waters of Mud Lake. A copy of the agreement currently in effect is attached hereto.

Claimant has made a claim for storage rights under each of its natural flow rights. The storage capacity of Mud Lake is only 45,000 acre feet, which is far less than the combined total of the potential storage rights of all holders of such rights. In addition to the limitations imposed upon such claimed storage rights by nature, by the size of the storage facility, by the applicable decrees of courts and the priorities provided therein, such storage rights have been and are presently subject to the practice described in the attached current pre-season pumping agreement.
