Dear Water Right Holder(s):

The Department of Water Resources (Department) acknowledges the receipt of correspondence changing ownership of the above referenced water right(s) to you. The Department has modified its records and has enclosed a computer-generated report for you.

Updating the ownership record for a water right does not reconfirm the validity of the right. When processing a Notice of Change in Water Right Ownership, the Department does not review the history of water use to determine if the right has been forfeited or deliberately abandoned through five years or more of non-use. To read more about water right forfeiture, including how to protect a water right from forfeiture, please see Idaho Code §§ 42-222 and 42-223.

Please note, water right owners are required to report any change of water right ownership and any change of mailing address to the Department within 120 days of the change. Reporting forms are available from any office of the Department, or from the Department's website.

If you have any questions concerning the enclosed information, please contact me at (208) 287-4942.

Sincerely,

Jean Hersley

Water Bank Lease and Rental Applications - BLM

Dear Justin,

In accordance with our discussion, enclosed on behalf of the Bureau of Land Management (BLM) and Big Creek Ranch LLC (BCR) are the following:

Notice of Change in Water Right Ownership – BCR

Pursuant to Stipulation to Resolve Objections, SRBA Case No. 39576, BLM has quitclaimed to BCR water rights 73-12212 through 73-12217. These rights are currently appurtenant to BCR lands and irrigated with BCR's irrigation conveyance system per approved transfer no. 78574. (IDWR filing fee $175)

Water Bank Lease Application (1) – BCR

Including the quitclaimed BLM rights above, BCR has 12 water rights that, when combined, authorize irrigation of 469.5 acres within a 572.9-acre permissible place of use (ppu). The water rights each have acre limits and are not considered stacked. For simplicity, water right 73-12181 was chosen for lease of 35.6 of the 469.5 acres to the water bank for three years. The 35.6 acres, along with 26.4 acres leased under BLM water rights described below, will be rented by BLM to establish native seedlings within a 62-acre restoration project area. Upon lease approval, BCR's remaining 11 associated water rights will be limited to irrigation of 433.9 acres within the 572.9-acre ppu for the 3-year requested lease period. (IDWR filing fee $250)

In compliance with water rights' condition no. 206, the enclosed aerial photo map for the lease application can serve as an updated "206 map" indicating the 469.5-acres to be irrigated for the next 3 years upon lease approval. Electronic shape files can be provided upon request.

Water Bank Lease Applications (6) – BLM

As described above, BLM wish to lease all the 26.4 acres authorized under water rights 73-12182, 73-12184, 73-12186, 73-12188, 73-12190 and 73-12192 to the water bank for 3 years to be rented for the restoration project area. The 26.4 acres are currently irrigated with the BCR irrigation system. (IDWR filing fee $500)

Water Bank Rental Application – BLM

To complete the lease/rental package, BLM wish to rent the 35.6 Big Creek Ranch acres proposed for lease and the 26.4 BLM acres proposed for lease to allow irrigation of native seedlings within a 62-acre restoration project area. The same irrigation conveyance system used for all BLM/BCR leased acres will be used for the project area acres. Per agreement between BLM and BCR, costs associated with rental of this water will be paid by BCR and only include the Department's administrative costs.

Check no. 3931 for $175 is enclosed for the ownership change notice and check no. 3961 for $750 is enclosed for the BLM and BCR water bank lease applications. Thank you very much for your consideration and assistance in this matter. Please call me if you have any questions.
