IN THE MATTER OF PERMIT NO. 29681/13-2232 in the name of UTAH POWER & LIGHT COMPANY	ORDER OF REINSTATEMENT

WHEREAS, on May 1, 1961, Utah Power & Light Company applied to the Department of Water Resources (formerly the Department of Water Administration) for a permit to appropriate 0.1 cubic feet per second of groundwater within the SE¼NW¼, Sec. 12, Twp. 14S, Rge. 39E, B.M., Franklin County, to be used for industrial purposes; and,

WHEREAS, on May 3, 1961 the Department approved said application and issued Permit No. 29681/13-2232 with the condition that one-fifth (1/5) of the work be completed on or before November 3, 1963, and that the whole of said work and proof of beneficial use be made on or before May 3, 1966; and,

WHEREAS, on March 28, 1966, the Department extended the time within which to submit proof of beneficial use to May 3, 1969; and,

WHEREAS, notice was not given to the permit holder 60 days prior to the date that proof was due, and therefore, the Department extended the time within which to submit proof of beneficial use to July 20, 1974; and,

WHEREAS, on May 20, 1974, the Department notified the permit holder that proof of beneficial use was due and instructed the permit holder as to the steps to be taken to make said proof; and,

WHEREAS, on July 20, 1974, Permit No. 29681/13-2232 automatically lapsed for failure to submit the required proof; and,

WHEREAS, on July 22, 1974, the Department received the required proof; and,

WHEREAS, Section 42-218a of the Idaho Code provides that a permit may be reinstated upon a showing of reasonable cause within 60 days from the date of lapsing; and,

WHEREAS, the permit holder has provided a reasonable showing as to why said permit should be reinstated;

IT IS, THEREFORE, HEREBY ORDERED that Permit No. 29681/13-2232 be REINSTATED and the priority advanced to May 3, 1961.

	)	ORDER MODIFYING REQUIREMENTS
in the name of UTAH POWER & LIGHT COMPANY	)	FOR COMPLETION OF PERMIT TO
	)	APPROPRIATE WATER

WHEREAS, the 39th Idaho Legislature made certain amendments to the Idaho Water Law; and,

WHEREAS, these changes raised questions as to the procedures to be followed by holders of permits issued prior to the effective date of the amendments, May 31, 1967; and,

WHEREAS, on August 1, 1968, the Department of Water Administration (formerly the Department of Reclamation) adopted Rules of Practice and Procedure for the processing of such permits issued prior to May 31, 1967; and,

WHEREAS, Permit No. 29681/13-2232 was issued previous to that date;

NOW THEREFORE, the requirements for completion of the above numbered permit are hereby modified to conform to the adopted Rules of Practice and Procedure as follows:

1. The above numbered permit will be completed under the terms of Title 42 Chapter 2, Idaho Code, as amended by the 39th Idaho Legislature.

2. The conditions of the above numbered permit are modified as follows:

   a. Notice of the issuance of the permit will be published at the permit holders expense for two weekly issues in a newspaper of general circulation in the county in which the point of diversion lies.

   b. The permittee will not be required to submit proof of completion of works as originally specified, but will be required to submit proof to the Department of Water Administration of the application of the water to beneficial use on or before July 20, 1974. The permit holder should be aware that failure to complete one-fifth of the works within one-half of the time originally set for completion of works may be grounds for cancellation at the instance of the Department.

Gentlemen:

One of the conditions of approval of your water Permit No. 29681/13-2232 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before July 20, 1974. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

Gentlemen:

During the 1967 session of the Idaho Legislature, certain amendments were made in the law pertaining to the procedures for making proof of beneficial use of water. In order for the Department to comply with these changes, Rules of Practice and Procedure were adopted on August 1, 1968. Generally, these procedures and the amended law make it simpler for a permit holder to make proof of beneficial use of water.

The enclosed Order modifies your permit to comply with these rules and regulations. Also enclosed is an Order which extends the time within which to submit proof of beneficial use to July 20, 1974, along with the proof due notice and a proof affidavit for your use in submitting the proof.

As a part of the new procedure, you will be required to publish a notice at your expense for two consecutive weeks in a newspaper as prescribed by the Department. If you will sign and return the enclosed advertisement authorization we will cause the notice to be published.

If you have any questions concerning these matters, please do not hesitate to contact us.

Sincerely,

D. Darlene Reich

Home Ownership -- A Tax Paying Company -- Local Control

TO OUR SHAREHOLDERS:

About two weeks ago you received our 1960 Annual Report. We hope that you found it informative and interesting.

The enclosed little booklet clearly shows that America's investor-owned utilities have fully met the challenge of this nation's expanding economy; that they are carefully planning for increased usage of electricity in the future. Our Company is gearing its plans toward a load of two million kilowatts by 1975 — nearly three times that of today — to serve a population increase of over 50% and a far greater electricity use per capita. Experience thus far in this decade — new industry, including further development of our many natural resources, new homes, new commercial buildings, greater use of pumped water through sprinklers for farming, and increased employment of air conditioning — indicate that our estimates are within range.

While gross revenues continue to grow at a satisfactory pace, the amount we are able to take down to net income is suffering from the gradual accumulation of increased costs of doing business. It is becoming more and more difficult to continue to absorb these cost increases, and to finance new facilities necessary to meet our substantial growth, under our nine year old rate schedules.

Respectfully,

E. M. NAUGHTON
President

Dear Mr. Tappan:

This will acknowledge receipt of your notice dated March 1, 1966, by which you notified us that proof was due under this application by May 3, 1966. May we advise that this well has been drilled and the water put to use but the quantity available is not satisfactory.

It is our intention to attempt to secure a larger flow of water by improving and deepening the well and, for that purpose and in accord with Section 42-234 of the Idaho Code, request is hereby made for an extension of time to May 3, 1969, in which to complete our development and submit proof of application of the water to a beneficial use.

We trust that you may process this request in due course and, should you require further information or should this request be submitted in any different manner, we will be pleased to comply upon receipt of your advice and instruction.

Gentlemen:

The date for proofs of Completion of Works and Application of water to beneficial use, as set out under terms of Permit No. G- 29681 are due not later than May 3, 1966

Before these proofs can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county in which the land is located. In completing the Notice of proof for publication, the information should be taken from your Permit, including any amendments made in connection with a change of point of diversion or land list, which has been recorded in this department. If changes have been made and no amendments are on record, we advise you request a form for this purpose before your Notice is published.

We enclose Form 36, in duplicate, which is to be filled out and returned to this department at least FORTY (40) DAYS BEFORE THE MENTIONED DATE, (allowing for four weeks publication). Please give the name of the town, the address of the place where the depositions will be executed, and, the name of the notary public before whom you will appear to make the depositions of proof (this may be at any place convenient for you and your two witnesses), the quantity of water filed; for what purpose it is used; the point, or points, of diversion; and the location of use or the lands which are irrigated - - all by legal land description.

Enclosed also is Form 11, which is the authorization for us to have the notice published in the designated county newspaper at your expense. This is to be returned with two Forms 36.

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, at the place named, and before the notary public, as advertised in the publication notice.
