Gentlemen:

We are enclosing on behalf of the Gini Ditch Company, Inc., three Notices of Claim, together with our check for the filing fee in the amount of \$3,065.40. The filing fee includes a \$50.00 flat fee for each claim, and \$1.00 per acre for the 2,915.4 acres.

Previously, we discussed with one of your office personnel the fact that some of the stockholders of the Gini Ditch Company had filed individual claims and that this would need to be adjusted when the time came for the filing on behalf of the company. We think that those who got ahead of themselves include Ray and Gladys Laverty, but there may have been others as well. We might suggest that one way their claims could be handled would be just to return to them their claims which cover the same land and their filing fees. If you prefer to handle this in another manner, please let us know and we will be happy to adjust in any appropriate fashion. Thank you for your assistance with this matter.

Yours very truly,

Kent W. Foster

RE: GINI DITCH CLAIMS

DEAR MR. FOSTER,

You were correct in your letter, the Laverty's have filed for portions of the claims under Gini Ditch Co. The best way to resolve this situation is to have Mr. Laverty relinquish his claim on those water rights and request a refund. However, he may claim whatever he chooses and his claims are valid as filed.

Your firm paid the total fees as listed by the Gini Ditch Co. claims. I ran a Place of Use Comparison Report to determine the acres that may have been paid for by other claimants and I have reduced the list to 22 claims.

Here are two options you may want to consider since I do not have the necessary information to determine the relationship between the remaining claimant's place of use acres and the Gini Ditch Co.'s place of use acres.

OPTION #1: TO DO NOTHING AT THIS TIME. All the claims filed appear to be correctly filed and valid. Your claims are accepted and valid as filed. There is no deadline for requesting refunds and you could initiate Option #2 at some point in the future if you choose. If problems should arise during the Adjudication process there are provisions to resolve them.

OPTION #2: TO PURSUE THE REFUND FOR OVERLAPPING ACRES. The question arises, who should request the refunds, the individual claimants or the Gini Ditch Co.? In either case, someone who is very familiar with irrigation systems in the Gini Ditch delivery area will need to meet with a representative from our office; probably with me.

MICROFILMED
MAR 18 1993

Based on what I have reviewed, there may not be a significant overlap involved. However, assuming the maximum possible rate of overlap, there would be \$354.00 worth of refunds available; the Ray Lavery duplicate claims on A72-04148A and A72-04148B would account for \$146.00 of the refunds. See the attached documents for further details.

The final decision is yours and the Gini Ditch Co.'s. Please advise me of your decision. If you have further questions please contact me at our office.

SINCERELY,

STEVE CLELLAND
WATER RESOURCE AGENT

RE: Notice of Claims on behalf of Gini Ditch Company, Inc.

Dear Steve:

We have now had an opportunity to review the land list and the maps we sent with the claims on behalf of the Gini Ditch Company. We are enclosing three new land lists and three new maps which should be substituted for the originals enclosed with the claims when filed. I believe they now match and are consistent with the information provided by the stockholders of the Gini Ditch Company.

In the meantime, we have reviewed your letter of April 18, 1990, and have contacted the Gini Ditch Company officers for their input as to how they wish to proceed. We will be in touch with you as soon as we have something further.

As always, we appreciate your assistance and consideration.

Yours very truly,

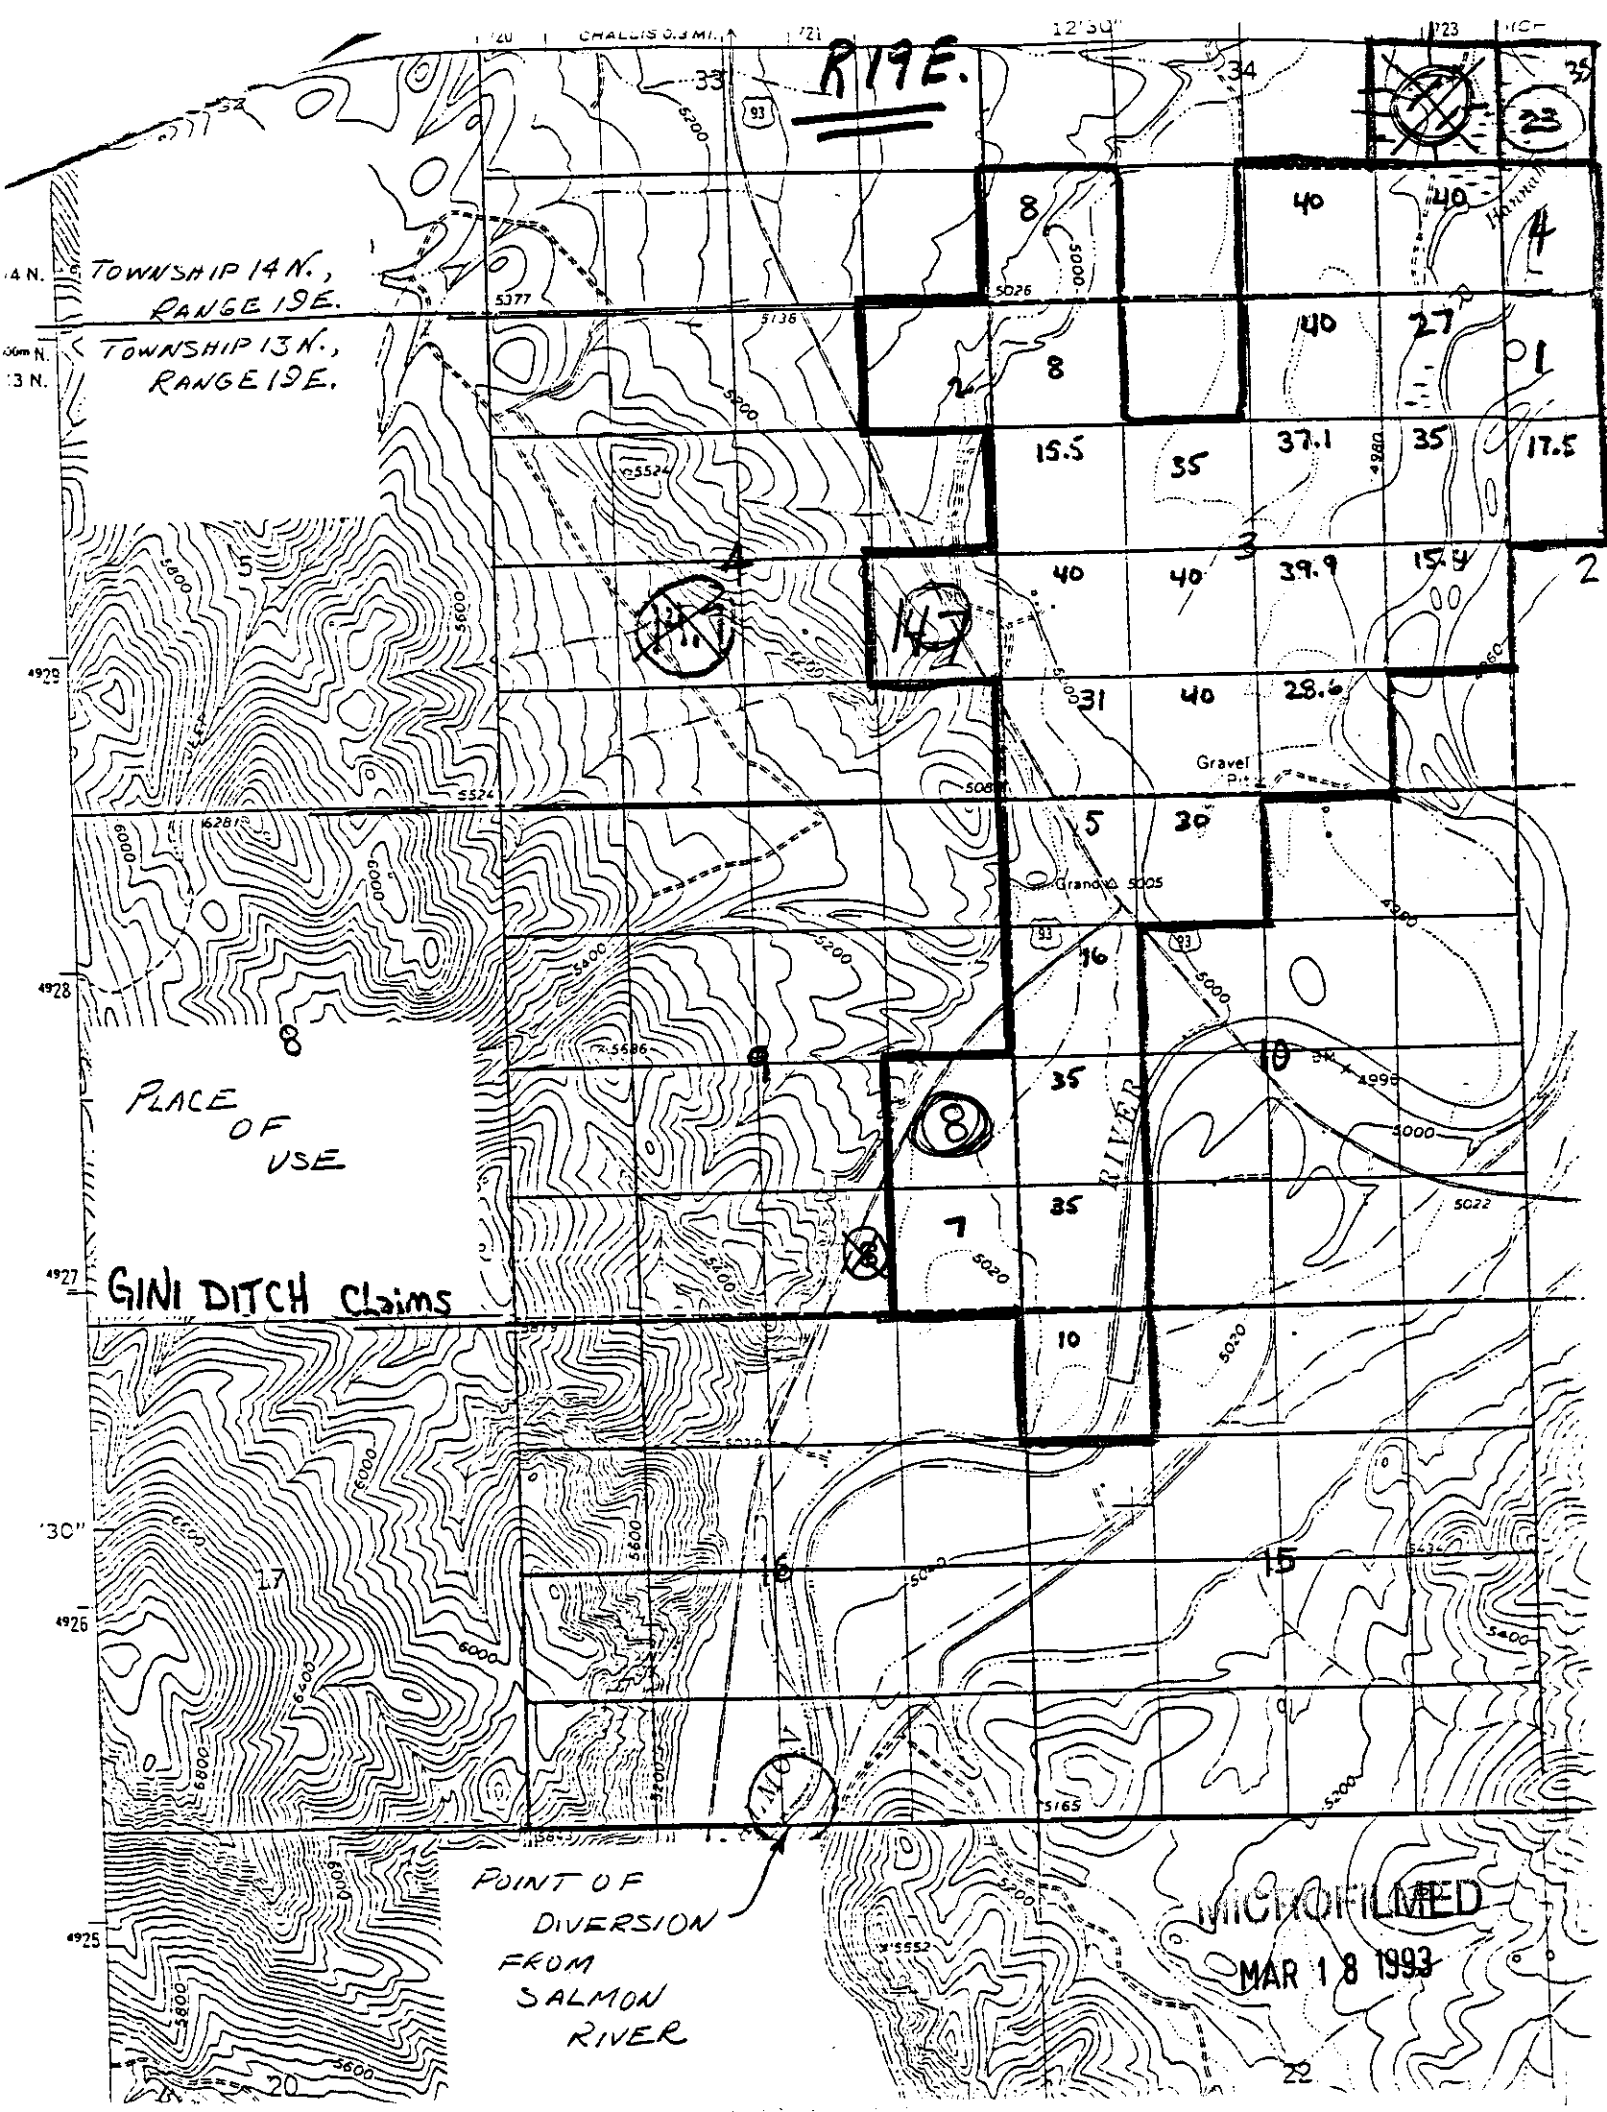

Kent W. Foster

MEMORANDUM

DATE: 08-May-1990

FROM: Allen Merritt

TO: STEVE CLELLAND AND A72-10480, A72-10481 & A72-10482

SUBJECT: MEETING WITH JOHNNE HAMMOND AND KENNETH BRADBURY

THIS DAY I MET WITH THESE REPRESENTATIVES OF THE GINI DITCH TO DISCUSS YOUR 4/18/90 LETTER TO MR. FOSTER. I WENT OVER THE FILE WITH THEM AND WE DISCUSSED THE CONCERNS OF THE OVERLAPS. THEY GAVE ME A LIST OF THE SHAREHOLDERS IN THE COMPANY AND THEY INDICATED THAT THESE PEOPLE WERE THE ONLY POSSIBLE OVERLAPS. WE TALKED ABOUT GETTING AN ACTUAL MAP OF THEIR SYSTEM AND THEY WERE GOING TO WORK ON IT. ADDITIONALLY IN REVIEWING THE CLAIMS THEY INDICATED THAT THE LANDS AND WATER WERE DEVELOPED IN THREE STAGES WHICH WERE DIFFERENTLY REPRESENTED IN THE CLAIMS FILED. THEY WERE GOING TO TALK TO THEIR ATTORNEY TO POSSIBLY FILE AMENDMENTS TO THE CLAIMS. I MADE NOTES ON THE SHAREHOLDERS LIST TO SHOW HOW THEY REPRESENTED HOW THE CLAIMS SHOULD READ. THE STORY THEY TOLD WAS THAT THE ORIGINAL DITCH WAS CONSTRUCTED TO CONVEY 6000 INCHES OF WATER TO THE ORIGINAL LANDS. (BLUE) THE CANAL WAS THEN ENLARGED TO SERVE ADDITIONAL LANDS SHOWN IN ORANGE AND ALSO SERVE ADDITIONAL WATER TO THE ORIGINAL LAND. (ORANGE) LATER ON THE LAVERTY PLACE WAS ADDED TO THE DITCH. (PINK)

IF YOU HAVE QUESTIONS LET ME KNOW.

RE: Evidence of Priority

RESPONSE DEADLINE

MAY 1, 1992

Dear Claimant:

The Notice(s) of Claim identified with the number shown above your name on the mailing label has been filed in the Snake River Basin Adjudication (SRBA). The Notice(s) indicate your water usage is based on "Beneficial Use" or a "Statutory Claim". Water rights of this type are established by the historical use of water, dating back to when water was first used for the purpose claimed. **The date of first use, known as the priority date, has not been confirmed by a License, Decree or Permit.** The Department will soon conduct reviews &/or field exams for the claims in your area. Since the priority date of a beneficial use water right can not be confirmed by field examination, **proof must be provided supporting the priority date you have claimed.**

The Department will not recommend the Notice(s) be decreed by the court as claimed if no evidence of a priority date is submitted.

Please find enclosed a computer printout of your Notice(s) and the pamphlet entitled "Evidence of Priority". The pamphlet describes the types of evidence required and suggests which documents will fulfill this requirement. I direct your attention to the two sections entitled "What Kind of Evidence is Required" and "Some Examples of Documents Which May Be Evidence of the Priority Date".

Please submit the required evidence supporting the priority date(s) by **May 1, 1992**, referencing all documents with the corresponding Notice number(s). If you have any questions not covered by this letter or the enclosed pamphlet, please contact this office.

Respectfully submitted,

Allen Merritt, P.E.
Water Rights Supervisor

 Southern Region Office

Dear Mr. Merritt:

You have requested proof of priority for the Gini Ditch Company Claims Nos. A72-10480, A72-10481 and A72-10482. We have tried to enclose the information available to us with this letter.

By way of background, the Gini Ditch canal system and the acreage served appears to have evolved over a significant period of time. When our office was contacted in 1989, the canal system had been operated and managed for its entire history up to that point with no formal organizational structure. One of our first assignments was to form a formal ditch company to which all claimed water rights and rights of way were conveyed. Then, pursuant to the request of the stockholders, an engineer was hired to measure the capacity of the canal system with its diversion works and all delivery structures. Maps were made of all lands irrigated under the system and we made an effort to document, so far as we could, the historical development of the system.

The tradition among most of the "old-timers" on the system was that it was developed in essentially three major steps. Some could recall what was done about 1950, but we had to rely on old abstract documents for any specifics of the earlier history.

The first of the land now served by the system appears to have been patented in 1896. See, Attachment Nos. 1 and 2. There is some indication that the land was being irrigated at that time. See, Attachment No. 3.

MICROFILMED

MAR 18 1993

Allen Merritt, P.E.
May 14, 1992
Page 2

Apparently by 1901, one A. L. Small had conceived the idea of constructing a ditch from the Salmon River to this same land. See, Attachment No. 4. But by July of that same year, the ditch concept had expanded. See, Attachment No. 5. The ditch, as constructed, conformed pretty much to the description contained in the July 27, 1901, notice. When the construction was actually completed, or when water was first used from the canal, is not known. It appears clear that it was done some time before 1907. See, Attachment Nos. 6a, 6b and 6c.

Albert L. Small, also known as A. L. Small, conveyed all his rights (water rights, ditch rights and canal rights) related to the "Small Canal" to Andrea (or Andrew) Gini on December 1, 1922. See, Attachment No. 7. This appears to be the genesis of the name "Gini Ditch".

On November 9, 1937, an agreement for the enlargement of the diversion works and canal was signed which called for the work to be completed so water could be turned back into the canal by April 15, 1938. See, Attachment No. 8. The enlargement of the diversion works and canal was to increase water flow from a stream 18 inches deep and 12 feet wide to a stream 21 inches deep and 16 feet wide. Assuming the ditch, as originally constructed (18 inches deep and 12 feet wide) had a capacity of 120 cfs, the enlargement would have proportionately increased the capacity by an approximate additional 67 cfs.

In the fall of 1949, the users of the Gini Canal and others contracted among themselves for another enlargement of the canal, this time to accommodate a stream 21 inches deep and 17 feet wide. See, Attachment No. 9. We have been unable to locate a signed copy of the written agreement, but the remaining "old-timers" who recall the enlargement, say it was done in the fall of 1949 just as the agreement describes and requires. If the increase in flow was proportionate to the proposed enlargement, the flow would have increased to approximately 198.3 cfs, or an additional 11.3 cfs. However, the engineer hired in 1989 measured the flow at 212.3 cfs. See, Attachment No. 10. To the knowledge of the stockholders, the ditch capacity has been the same and essentially all of the same lands have been irrigated continuously since 1950.

It is entirely possible that the original ditch capacity was more or less than 120 cfs, although the only evidence available states it was 120 cfs. It is also possible that the

MICROFILMED

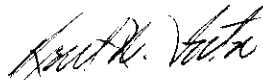

MAR 18 1993

Allen Merritt, P.E.
May 14, 1992
Page 3

1938 enlargement was more or less than an additional 67 cfs, but that is the figure most consistent with the information available. We do know the present capacity, since the 1950 enlargement, is about 212.3 cfs, and that there have been no significant changes since then. We, therefore, claimed 120 cfs with a 1901 priority, and an additional 67 cfs with a 1938 priority, and the balance of 25.3 cfs with a 1950 priority.

You are of course welcome to visit with the officers and shareholders of the company and to see and inspect the system at your convenience.

Yours very truly,

Kent W. Foster

NOTICE OF WATER RIGHT LOCATION

To Whom it may concern, Notice is hereby given that I, A. L. Small of Challis, County of Custer, State of Idaho, have this 25th day of February, 1901 appropriated and hereby claim the use of the waters of Salmon River to the extent of Twenty cubic feet per second flowing at the point of intended diversion which said point of intended diversion is particularly described as follows, about 3/4 of a mile below the head of the ditch now owned by Thos. Jose and D. Tewalt and within the enclosure of C. Jensen, on the West bank of Salmon River in Round Valley about 2 miles below the Calvin bridge, Custer County.

That the special purpose, or purposes for which said water is claimed, irrigation.

That the place of intended use is all of Lots 6 & 7 in Sec. 23, Lots 2 & 3 in Sec. 26, in Tp. 14 N. and SW $\frac{1}{4}$ of Sec. 23. Lot 6, N $\frac{1}{2}$ of SW $\frac{1}{4}$ and NW $\frac{1}{4}$ of Sec. 26 and NE $\frac{1}{4}$ of NE $\frac{1}{4}$ of Sec. 27 in Tp. 14 N. of R. 19 E of Boise Meridian in Idaho.

That the general course of the proposed canal or conduit is northerly. That the length of said canal or conduit is 2 $\frac{1}{2}$ miles more or less.

A copy of this notice was duly posted at or near the point of intended diversion on the 25th day of February 1901.

Witness my hand at Challis, State of Idaho this 6th day of March 1901

NOTICE OF WATER RIGHT LOCATION

To Whom it may concern:

Be it known that A. L. Small of _____ County of Custer, State of Idaho do hereby give notice

1. That he has a legal right to the use, possession, control of and claim 120 cubic feet per second of time or 6000 inches of the waters of Salmon River in said County and State measured under a four inch pressure and flowing at the point of diversion, which point of diversion is described as follows: about one hundred yards above the Colvin Bridge spanning Salmon River 4 miles south of Challis. On west bank of said Salmon River

11. That the special purpose for which said water is intended to be used is irrigation and domestic use. That the place of intended use is Lots 6 and 7 in Sec. 23, Lots 2 and 3 in Sec. 26 in Tp. 14 N and SW $\frac{1}{4}$ of Sec. 23 Lot 6 NE $\frac{1}{2}$ of SW $\frac{1}{4}$ and NW $\frac{1}{4}$ of Sec. 26 and NE $\frac{1}{4}$ of NE $\frac{1}{4}$ of Sec. 27 in Tp. 14 N. of R. 19 E. of Boise Meridian in Idaho with the possible use of said water on all land under said ditch and also beyond the land above described.

111. It is intended to divert said water from said river by means of a ditch which said ditch is about 5 to 7 miles running in a north and south course.

IV. This notice was duly posted at the point of intended diversion on the 27th day of July 1901..

JUDGMENT.

Lynn Wilkinson,

Defendants

This cause came on regularly for trial on the 6th day of April, 1915, W. W. Adamson appearing as counsel for plaintiff and Milton A. Brown, Esq., and George E. Keyes, Esq., for the defendant, and it appearing from the complaint and answer herein that the defendant admits judgment and confesses the complaint except as to the damages therein asked and said damage being waived by the plaintiff and defendant consenting that the temporary injunction herein issued may be made permanent, and the cause being submitted to the court for consideration and decision, the court files its findings and decisions in writing, and orders that judgment be entered herein in favor of plaintiff in accordance therewith.

WHEREFORE, by reason of the law and the findings aforesaid, it is ordered, adjudged and decreed that Lynn Wilkinson, his agents, servants, attorneys, employees and all persons acting under control, authority or direction of him or either of them, do absolutely refrain and desist from interfering with digging trenches or otherwise interfering with or injuring what is known as the Small Ditch or canal and the Tewalt-McKinney Ditch or Canal described in the complaint, and that the injunction

AGREEMENT

MEMORANDUM OF AGREEMENT, Made and entered into this 9th day of November, in the year of our Lord one thousand nine hundred and thirty-seven between Andrew Gini and Michael Gini, Floyd Bradbury, Frank Bradbury and Ernest Cobbley all of Challis, Custer County, Idaho, the parties hereto of the first part, and Peter Fiva and Everett Baxter, of the same place parties of the second part,

WITNESSETH: That whereas the said parties of the first part have heretofore constructed and are now using a canal which diverts water for the irrigation of their lands from the Salmon River in Custer County, Idaho, and extends from its diversion to and upon the lands of the parties of the first part a distance of about 5 3/4 miles, which ditch has an approximate present capacity to deliver a flow of water 18 inches in depth and 12 feet wide at the point of diversion, and

WHEREAS the parties of the second part are the owners of certain lands, the boundary of which commences about 1 1/3 miles from the terminus of the canal as at present constructed, and they desire to obtain a right in the said canal to convey water for the irrigation of their lands to the extent of a one-fourth interest in said canal when enlarged as hereinafter provided, and the said Andrew Gini and Michael Gini now have a one-half interest in the said canal as now constructed with the right to flow their water therein to that extent, and the said Floyd Bradbury has a one-twelfth interest and the said Frank Bradbury a one-sixth interest, and the said Ernest Cobbley a one-fourth interest therein and to the waters flowing therein, and the said parties of the first part are willing to permit the said parties of the second part to

ATTACHMENT NO. 8

MICROFILMED

MAR 18 1933

increase the capacity of the said canal to deliver a flow of water 21 inches in depth and 16 feet wide at said point of the first diversion, and to extend the same to their premises for the irrigation thereof, and to take through the said canal their proportionate amount of water based upon a one-fourth right to the use of the water thus delivered at the point of the first diversion, and the parties of the second part desire to enlarge the capacity of said canal in order to acquire a right to convey water for the irrigation of their lands through the said canal to the extent of One-fourth interest in the canal as enlarged,

NOW, THEREFORE, THIS AGREEMENT WITNESSETH: That the said parties of the second part shall without delay undertake the construction work in the enlargement of the said canal, and shall repair and reconstruct the bridges and divider gates over and in the said canal, and enlarge and build the said canal so that the same shall have a safe capacity and shall safely carry from its head to the point of the first diversion a flow of water 21 inches in depth and 16 feet wide at the point of the first diversion, and shall proportionately enlarge the said canal and do such construction work from such point on through the full length of same to have a capacity and to convey the proportionate part of the waters delivered less the proper diversions made therefrom by each party of the first part, and such construction work and such enlargement shall be done in a good and workman-like manner, and the said work shall be prosecuted diligently until completed, and the said parties of the second part, upon the completion of said construction work and the enlargement of said canal in the manner herein specified, shall have the right to convey through the said canal from its head to the present

MICROFILMED
MAR 18 1955

terminus the proportionate part of the waters flowing therein based upon the right to the use of the one-fourth of the waters thereof.

AND IT IS MUTUALLY AGREED between the parties hereto that each party shall be entitled to his proportionate part of the increased capacity of said canal over and above the present flow represented by the first parties present rights, which is a flow 18 inches in depth and 12 feet in width at the point of the first diversion, and the 4 foot increase in width at the point of the first diversion representing the right of the parties of the second part, and the safe capacity of the canal as enlarged, and after the same is so constructed and enlarged, the said canal shall be owned and controlled and used in the following proportions: The said Andrew Gini and Michael Gini shall have an undivided 6/16th interest therein and to the waters flowing therein, and the said Floyd Bradbury shall have an undivided 1.16th interest in said canal and the waters flowing therein, and the said Frank Bradbury shall have an undivided 2/16th interest in said canal and the waters flowing therein, and the said Ernest Cobbley shall have an undivided 3/16 interest in said canal and the waters flowing therein, and the said Peter Piva shall have an undivided 3/16th interest in said canal and the waters flowing therein, and the said Everett Baxter shall have an undivided 1/16th interest in said canal and the waters flowing therein and after the terms and conditions hereof have been complied with by the parties of the second part, and after said canal shall have been so constructed and enlarged, the said parties hereto shall use the same in the proportion and manner set forth, and each party hereto shall thereafter pay such proportionate part of the cost of maintenance, op-

MAR 18 1993

eration and repair of said canal according to his interest therein as herein set forth.

It is agreed that second parties shall widen the present dividing gate at the point of the first diversion, known as the Floyd Bradbury diversion, by four feet, that they shall re-build and widen by four feet the dividing gate at the Cobbley diversion, and shall build a new divider at a point approximately 50 feet up stream from the last or Gini-Bradbury diversion which shall be 12 feet in width.

The parties of the second part shall do and perform, or have done and performed all of said construction work, and all that may be necessary in order to fully comply with the terms and conditions hereof on their part at their own cost and expense, and they shall promptly pay for all materials used in said work, and for all labor done, and shall protect and save the parties of the first part free from any liability on account thereof, and shall protect them in keeping the said irrigation works free and clear from any liens or claims or demands for said work or materials used in and about the said system in the performance hereof on their part. The parties of the first part reserves the right to turn water into the canal on or after the 15th day of April, 1938.

This contract is executed in duplicate by the parties hereto the day and year first above written.

DITCH AND WATER AGREEMENT

THIS INDENTURE, Made and entered into in duplicate this 10th day of November, in the year of our Lord one thousand nine hundred and forty-nine, by and between CHARLEY J. VANCE and ANNA M. VANCE, husband and wife, JESS PIERSON and HELLIS V. PIERSON, husband and wife, FLOYD M. BRADBURY and VIOLET BRADBURY, husband and wife, LYNN WILSON and VIOLA WILSON, husband and wife, ARNOLD LEATCH and RUTH LEATCH, husband and wife, FRANK BRADBURY and MILLIE BRADBURY, husband and wife, PETE PIVA and LOUISA PIVA, husband and wife, and EVERETT F. BAXTER and ELEANOR F. BAXTER, husband and wife, all of Challis, County of Custer, State of Idaho, hereinafter referred to as the parties of the first part, and RAY LAVENTY and GLADYS LAVENTY, husband and wife, of Challis, County of Custer, State of Idaho, hereinafter referred to as the parties of the second part,

W I T N E S S E T H :

That WHEREAS, the parties of the first part, in varying proportions, have heretofore become joint owners of and are presently using one certain canal, commonly known as the "Gini Ditch," which diverts water for the irrigation of their lands, respectively, from the Salmon River in Custer County, State of Idaho, and extends from its point of diversion from said Salmon River to and upon the lands, respectively, of the parties of the first part, and which said Gini Ditch, hereinafter referred to as the "Gini Canal," has an approximate present capacity to deliver a flow of water twenty-one (21) inches in depth and sixteen (16) feet wide at the point of first diversion therefrom; and

WHEREAS, the parties of the second part are the owners of certain lands situated near the point where said Gini Canal diverts water from the Salmon River in Custer County, and which said lands may be brought to irrigation from said Gini Canal; and

WHEREAS, the parties of the second part desire to obtain a right in the said Gini Canal and to the waters flowing therein to the extent of a one-seventeenth (1/17) interest in said Gini Canal when enlarged as hereinafter provided, in order to convey water for the irrigation of the lands of the said parties of the second part; and

WHEREAS, the said parties of the first part are willing to permit an increase in the capacity of the said Gini Canal to deliver a flow of water twenty-one (21) inches in depth and seventeen (17) feet wide at said point of first diversion as intended from the said Gini Canal for the said parties of the second part, and to permit the parties of the second part to take through the said Gini Canal the proportionate share of said parties of the second part, based upon and determined by a one-seventeenth (1/17) right in said Gini Canal and the equivalent right to the use of the waters flowing therein at the point of intended first diversion for the parties of the second part, and the parties of the second part desire to acquire a right in said Gini Canal and an equal proportionate right to convey water in said Gini Canal for the irrigation of the lands of the parties of the second part through the said Gini Canal to the extent of a one-seventeenth (1/17) interest in said Gini Canal as enlarged:

NOW, THEREFORE, for and in consideration of the covenants, promises and agreements on the part of the parties of the first part hereinafter contained, to be kept and performed, and in consideration of the covenants, promises and agreements on the part of the parties of the second part hereinafter contained, to be kept and performed, and in further consideration of ONE and No/100 DOLLARS (\$1.00), by each and all of said parties paid to the other, the receipt whereof each and all parties hereby acknowledge, each and all parties mutually agree as follows, to-wit:

1. That the parties of the first part hereby agree to sell,

grant and convey to the parties of the second part and the parties of the second part agree to purchase from the parties of the first part, subject to the terms and conditions hereinafter contained, to be kept and performed by all parties hereto, an undivided one-seventeenth ($1/17$) interest in said Gini Canal, as enlarged, and to the waters flowing therein from the point where said Gini Canal diverts water from the Salmon River in Gustar County, Idaho, to the point in said Gini Canal, as enlarged, wherein said parties of the second part will place a division and turn-out box in said Gini Canal as hereinafter specified, approximately one and one-half ($1-1/2$) miles from the head of said Gini Canal.

2. That the parties of the second part for the purpose of measuring the water corresponding to and equaling the right in said Gini Canal hereby conveyed and granted to them shall construct a seventeen (17) foot wide division box at the point in said Gini Canal where the parties of the second part will divert their proportionate share of the waters flowing therein for irrigation purposes, as herein determined and set forth; said division box to be approximately one and one-half ($1-1/2$) miles from the river head of said Gini Canal.

3. That the parties of the second part shall pay annually a one-seventeenth ($1/17$) portion of the cost of enlarging, maintaining, and cleaning said Gini Canal, down to the turn-out box of the parties of the second part, to the extent of an increased capacity of said Gini Canal to deliver a flow of water at least twenty-one (21) inches in depth and seventeen (17) feet wide at the said point of first diversion on the premises of the parties of the second part, and shall pay in addition a one-seventeenth ($1/17$) portion of the cost of head-gate and wing-dam repair, but only to the extent of work done in the fall of the year 1949.

4. That the parties of the second part shall pay the further sum of One Thousand Dollars (\$1,000.00) to the parties of the

first part, or their legal representatives, and within a reasonable time after completion of the above-mentioned work being performed in the fall of the year 1949.

5. That the parties of the first part shall have the right to remove all but three (3) of the flumes and underpasses of the parties of the second part which at present are over and under the said Gini Canal, and agree further that if any of the last three (3) of said flumes and underpasses are removed by the parties of the first part, that the same will be replaced at the expense of the parties of the first part; but nothing herein shall be construed to prevent the parties of the second part from constructing at their expense all flumes and underpasses desired, relative to said Gini Canal.

6. That the parties of the first part shall have the right to clean, maintain and enlarge said Gini Canal at any point within the premises of the parties of the second part during the fall of the year 1949, and shall have the right to place on the bank of said Gini Canal and within the premises of the parties of the second part any and all dirt and debris, the result of said cleaning, maintaining, and enlarging; but nothing herein contained shall give to the parties of the first part, their successors or assigns, the right to enlarge said Gini Canal within the premises of the parties of the second part after January 1, 1950, other than by agreement satisfactory to the parties of the second part, duly and regularly entered into.

7. Pursuant to the Ditch Agreement herein contained, the parties of the second part shall use said Gini Canal in the proportions and manner heretofore set forth, and shall thereafter pay their proportionate part of the cost of maintenance, cleaning and repairing of said Gini Canal, as equals their parties' interest therein as herein set forth.

8. It is further mutually understood and agreed that the

premises and covenants herein contained on the part of the parties of the first part and the parties of the second part to be done and performed shall become annexed to, inherit in, connected and run with the lands and premises of the parties of the second part, said lands and premises being situate in the County of Custer, State of Idaho, and more particularly described as follows, to-wit:

NE 1/4, Section 9; Lots 9 and 10, NE 1/4, Section 10; SE 1/4, Section 10; Lot 3 and 4, Section 10; Lot 2, Section 15; Lots 1 and 2, Section 16, all in Township 13 North, Range 19, 6th Boise Meridian,

and shall extend to and include, and be binding not only on the parties hereto, but also upon their respective successors, heirs, executors, administrators and assigns, and all parties shall be entitled to injunctive relief to enforce any and all of the provisions and premises herein contained.

IN WITNESS WHEREOF, The parties hereto have hereunto set their hands the day and year in this instrument first above written.

Parties of the First Part

Parties of the Second Part

STATE OF IOWA
County of Ouster.

CONSULTING ENGINEERS AND LAND SURVEYORS

December 12, 1989

Mr. Ron Wilson, Chairman
Gini Ditch Water Users Association
Box 118
Challis, Idaho 83226

Re: Gini Ditch Water Measurements

Dear Mr. Wilson:

The following is a summary of our findings in measuring the various water flows within the Gini Ditch System on October 21, 1989. Flows in the ditch at that time were reported to be set as they would be during the summer irrigation season. Subsequent to that two (2) diversions were located that were not measured. Flows in these locations were estimated by waterline marks.

We would note that all water measurements of this nature are subject to error in varying amounts ranging from 1% to 5% of the total measurement. We feel good about a majority of the information presented herein and feel that all flow information developed will fall into the above range. (Copies of all calculations are included for your information as well as copies of all original field measurements.) After you have had a chance to review this information we would be happy to discuss our findings with the association members and/or answer any questions that you may have.

Thank you for the opportunity to be of service.

Yours truly,

MOUNTAIN RIVER, INC.

Rance Bare, P.E.

Re: Request for Quarter-Quarter Acre Listing on Gini Ditch

Dear Mr. Foster,

Enclosed are some maps I created using IDWR GIS software that will show the approximate acres per $\frac{1}{4}$ - $\frac{1}{4}$ tract. I also included another set of maps that show the acres per shape for comparison. Please keep in mind the Director's Report using the Boundary description is the actual recommendation of the water rights.

Please feel free to contact me if you have further questions on this matter.

Sincerely,

Steve Clelland

Re: Preliminary Recommendation of SRBA Claims 72-10480, 72-10481 & 72-10482

Dear Mr. Kent Foster,

Enclosed please find the recommendations of the claims you filed in the SRBA. Also attached is a color GIS layout that illustrates the irrigation uses. If you have any disputes with these recommendations, you need to contact our office or me as soon as possible. The reports will be submitted for final recommendation next week.

If you disagree with IDWR's recommendations, you will have an opportunity to file an objection to the Director's Report with the court. When the Director's Report is filed with the court, you will be mailed a notice that will contain more information about the objection process.

Please feel free to contact this office or me if you have further questions or need additional assistance.

Sincerely,

STEVE CLELLAND

Sr. Water Resource Agent

RIGHT NUMBER: 72-10480

NAME AND ADDRESS: GINI DITCH COMPANY INC
HOLDEN KIDWELL HAHN & CRAPO
PO BOX 50130
IDAHO FALLS ID 83405

SOURCE: SALMON RIVER TRIBUTARY: SNAKE RIVER

QUANTITY: 120.00 CFS

PRIORITY-DATE: 07/27/1901

POINT OF DIVERSION T13N R19E S16 LOT 6 (SWSWSE) Within CUSTER County

PURPOSE AND PERIOD OF USE:	PURPOSE OF USE	PERIOD OF USE	QUANTITY
	IRRIGATION	04-01 10-31	120.00 CFS

PLACE OF USE:

PLACE OF USE WITHIN THE BOUNDARY OF THE GINI DITCH COMPANY
TOTAL IRRIGATED ACRES: 2271 ACRES.
THIS RIGHT IS LIMITED TO THE IRRIGATION OF 1283 ACRES WITHIN
THE PLACE OF USE DESCRIBED ABOVE IN A SINGLE IRRIGATION SEASON.

OTHER MATTERS NECESSARY FOR DEFINITION OR ADMINISTRATION OF THIS WATER RIGHT:

THE FOLLOWING WATER RIGHTS FROM THE FOLLOWING SOURCES OF WATER
IN BASIN 72 SHALL BE ADMINISTERED SEPARATELY FROM ALL OTHER WATER
RIGHTS IN BASIN 72:

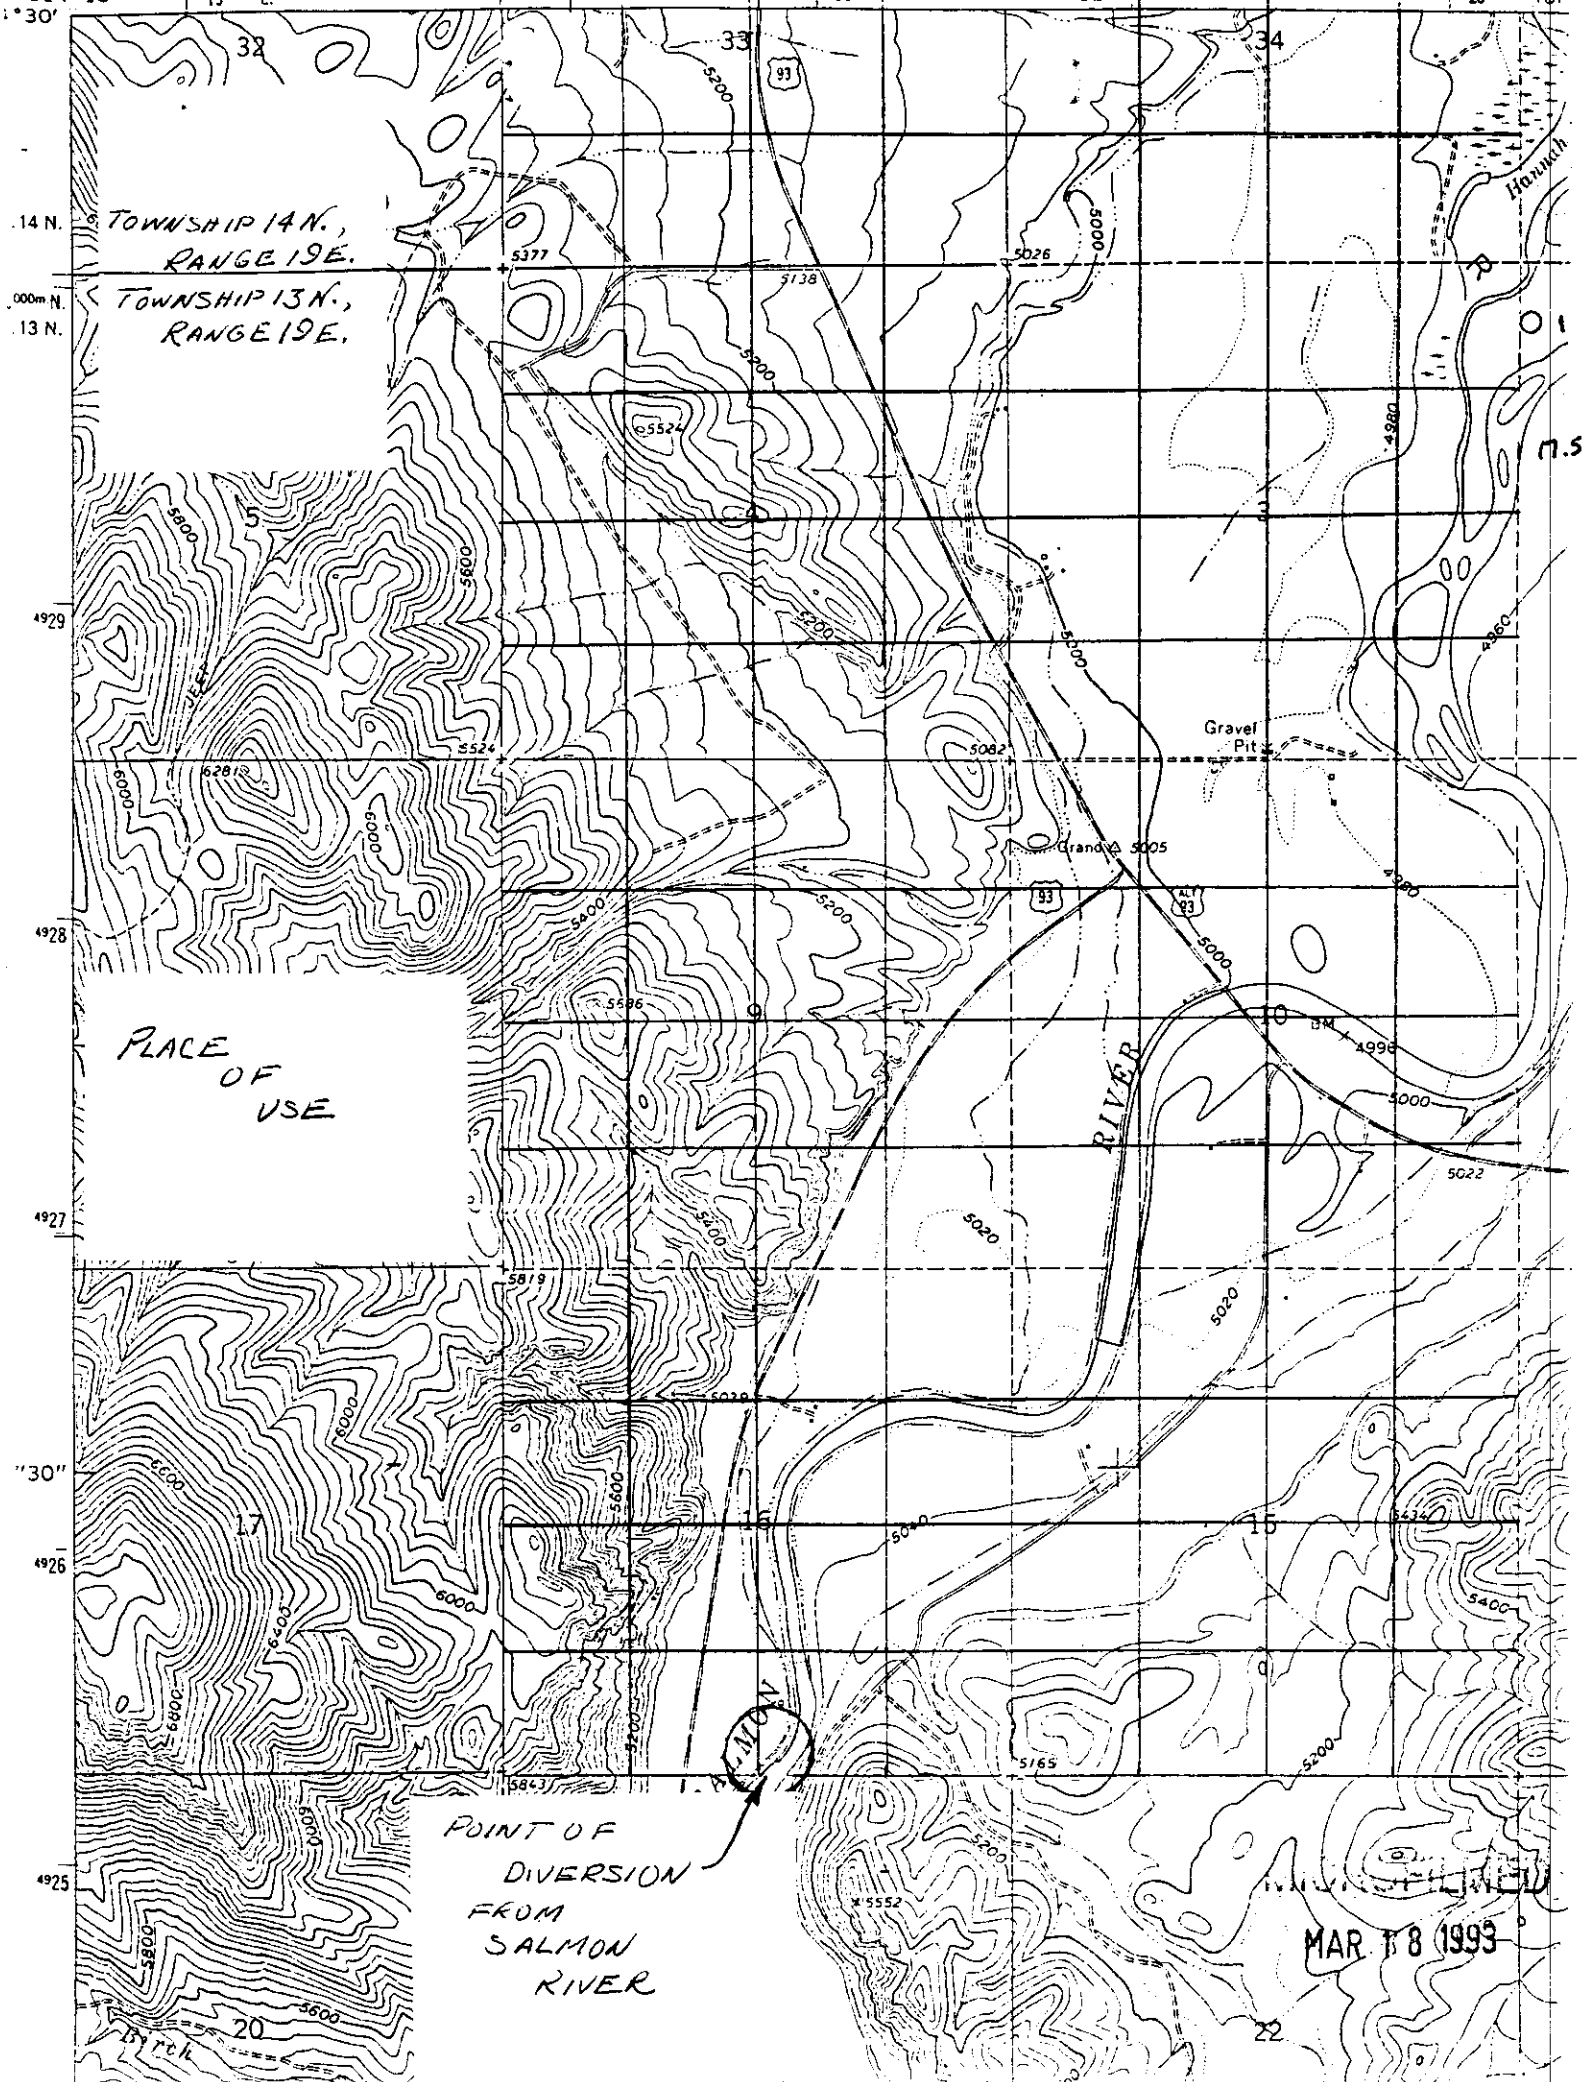

WATER RIGHT NO.	SOURCE
NONE	NONE

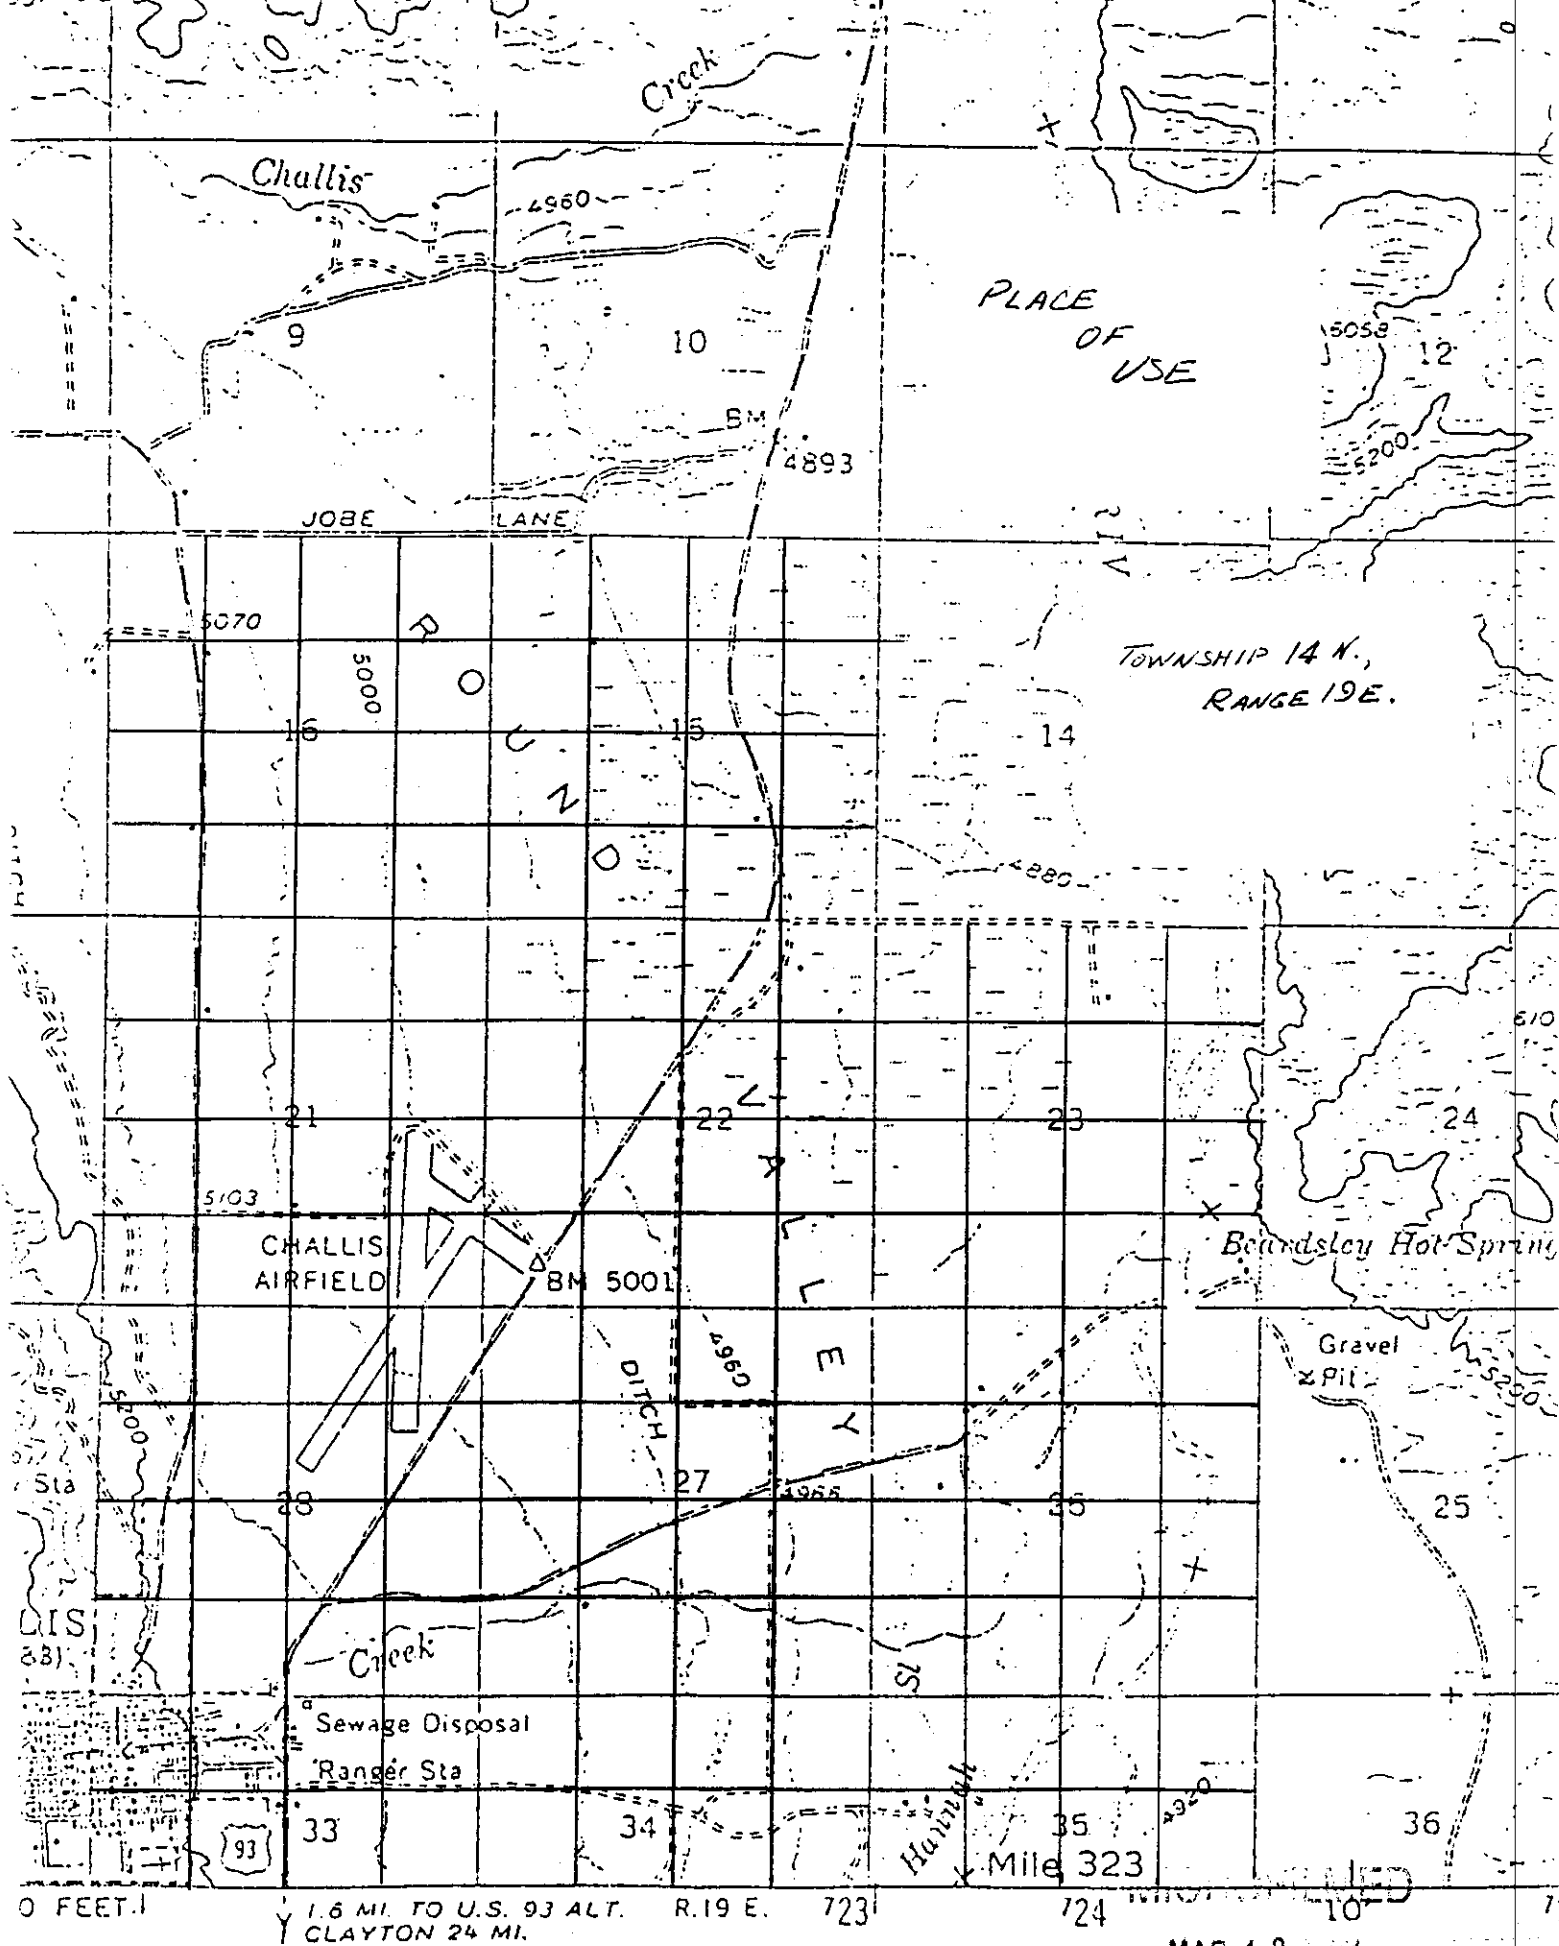

THE FOLLOWING WATER RIGHTS FROM THE FOLLOWING SOURCES OF WATER
IN BASIN 72 SHALL BE ADMINISTERED SEPARATELY FROM ALL OTHER WATER
RIGHTS IN THE SNAKE RIVER BASIN:

WATER RIGHT NO.	SOURCE
NONE	NONE

ALL WATER RIGHTS WITHIN BASIN 72 ARE FROM CONNECTED SOURCES
OF WATER IN THE SNAKE RIVER BASIN AND SHALL BE ADMINISTERED
CONJUNCTIVELY.

NAME :

RE:

CHARLES BOGE

CALLIN

GINI DITCH ACRES

He called to coordinate a meeting again... I told him I was not planning on being in Challis again. However, I will be going through there on personal business in October (13th) and may be able to arrange something with that date.

I explained the resolution I made with the Kindt/Frost recommendation from the Jose Ditch. I asked if the land in the City's sewer ponds was irrigated... he said it was historically from the Gini Ditch and at times came from the Jose Ditch too. It appears only the Gini Ditch is claiming any acres there.

Re: SRBA Claim 72-10480, 72-10481 and 72-10482-Gini Ditch Company

Dear Steve:

As you are aware, we have received the final recommendations on these water rights together with some maps. The acreage indicated on the claims is 2,271 and in the company bylaws we had listed 2,915.4. We will need to change our bylaws to conform to the recommendations of IDWR, but we do not have a land list on the recommendations we have been furnished. We did receive maps, but it is not possible to tell from the maps how many acres go in each quarter-quarter section. Would it be possible for you to print up a land list for us showing the 2,271 acres so that we can revise our bylaws in accordance with it. Thank you for your kind assistance.

Very truly yours,

Kent W. Foster

Subject: RE: Gini Ditch place of use [72-10480 et al]

Steve, I would keep the existing POU language to the effect that the POU is within the boundaries of the service area of the Gini Ditch Company. I would then add on a statement to the effect that the boundaries of the service area of the Gini Ditch Company are delineated in the Affidavit Identifying Location of Real Property ...[etc.]. NBS

Subject: Gini Ditch place of use [72-10480 et al]

Hey Steve! FYI - I received the recorded document today re the above, so we can wrap up these subcases! Will you please prepare SF5s with a pou remark something like:

The place of use is delineated in the Affidavit Identifying Location of Real Property, Instrument No. 0223257, filed with the Custer County Recorder on August 8, 2001.

If you or Nick prefer other wording, go for it. No need to email them to me now since you are in the neighborhood. Will you please print them and then I can pick them up, and prepare cover sheets for your and Nicks signatures? Thanks!!

RE: Potential illegal water use

Dear Mr. Boge:

Our office has become aware of a potential water development for irrigation of land within NE $\frac{1}{4}$ SE $\frac{1}{4}$, Section 4, Twp.13N, Rge.19E, B.M., Custer County above the Gini Ditch just south of Challis. One of our agents has viewed the property and it appears the land is intended to be irrigated by a recently constructed pivot. Our water right records show no water right for these lands.

I request your cooperation in:

-identifying what water right covers your development if our records are not correct.

-do not start the diversion for irrigation of the above described lands if you have no right.

-&/or obtain a valid water right for your development.

Please respond to our office within 14 days of the date of this letter as to the status of your project.

Please note that to divert water in Idaho without a valid water right is illegal pursuant to §42-351, Idaho Code and subject to civil penalties of up to \$100 per day. Please also note that recent legislation passed and effective July 1, 1998 provides in §42-1701B that the civil penalties for illegal irrigation may be \$300 per acre.

If you have questions regarding this matter please feel free to contact our office.

Sincerely,

Allen Merritt, PE
Southern Region Manager

Re: Request for Quarter-Quarter Acre Listing on Gini Ditch

Dear Mr. Foster,

Enclosed are some maps I created using IDWR GIS software that will show the approximate acres per $\frac{1}{4}$ - $\frac{1}{4}$ tract. Please keep in mind the Director's Report is using the Boundary description for the actual recommendation of these water rights.

Please feel free to contact me if you have further questions on this matter.

Sincerely,

Steve Clelland
Sr. Water Resource Agent

The following Place of Use listing is an estimation of the acreage and location of acres based on 1987-1993 SRBA examination and review. It was used to determine the total acreage covered under the Gini Ditch system that will now be allowed within the Boundary of the Company. The Boundary is defined with a map of the area on separate page.

Case No. 39576

ORDER GRANTING MOTION TO
FILE LATE OBJECTIONS

On May 25, 2000, a *Motion to File Late Objection* was filed by the claimant, Gini Ditch Company Inc., for each of the above water rights seeking to correct errors in the legal description of the place of use. The *Motions* were noticed on the Docket Sheet. No opposition has been filed to the *Motions*, and there was no opposition at the hearing held on June 20, 2000.

Therefore, IT IS ORDERED that for good cause shown, the *Motions to File Late Objection* are **granted**, and the Objections previously lodged for these water rights will be deemed filed as of this date.

IT IS FURTHER ORDERED that a Telephone Status Conference is set as follows:

Date: August 25, 2000 at 10:30 am

Location: SRBA District Court
253 Third Avenue North
Twin Falls, Idaho

DATED June 20, 2000.

THOMAS R. CUSHMAN, Special Master
Snake River Basin Adjudication

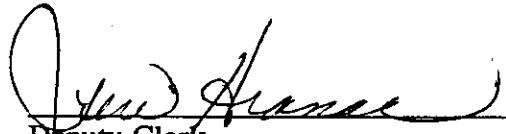

CERTIFICATE OF MAILING

I certify that a true and correct copy of the *Order Granting Motions to File Late Objections* was mailed on June 20, 2000, with sufficient first-class postage prepaid, to the following:

CONSOLIDATION**

CALLBACK

JOSE DITCH

I returned her call. She asked about the process to change the ownership from the individuals to the Jose Ditch Co. and then the transfer necessary to change the POD to the head of the Gini Ditch. We discussed the best sequence of events and the best position for the fees involved. I thought they should change ownership the file the transfer. John Rosholt is developing some form for the individuals to sign over the ownership; like a quitclaim.

She asked about the status of the claims for 1) Nick Piva - I told her the claim is here but not processed; 2) Stan Royce - I told her the recommendation is before the court; 3) Mike Rukavina - I saw some form of application come thru recently but don't know the details; and 4) Dean Peterson - I told her the recommendation is also before the court.

She requested a new listing of the rights from Jose Ditch; this will be a query on POD or similar. Fax to 879-2020. Callback when the best plan is determined from IDWR perspectives.

RE: Snake River Basin Adjudication, Water Right No. 72-16279A

Dear Mr. & Mrs. Stark:

Dear Mr. Hansen:

Last year the Idaho Department of Water Resources made a recommendation to the SRBA District Court regarding your above-referenced water right claim. Recently, we found that we could have recommended a longer season for your use based on Department guidelines. The purpose of this letter is to allow you to request that the season of use for your water right be extended.

The season that was recommended for your water right is 4/15 to 10/15, and the longest season that we could recommend for irrigation use in your area is 4/1 to 10/31. If you wish to file an objection to request that your season be extended to the longer dates, please write me a letter stating the season that you request. I will forward your request to the Idaho Office of the Attorney General, which has agreed to assist in the modification of your water right. While I do not anticipate that you will need legal counsel for this matter, you will need to participate in some additional steps with the SRBA Court to have the water right corrected.

Please feel free to contact me about this issue. I apologize for any inconvenience that this might cause.

Sincerely,

David R. Tuthill, Jr., P.E.
Chief, Adjudication Bureau

Re: Gini Ditch - Water Rights Nos. 72-10480, 10481 and 10482

Dear Steve:

I am enclosing documents which Dr. Boge has brought to me indicating that he promised he would get copies to you. They appear to be information furnished to him by Cal Helm by the Pivas and by Mrs. Wilson.

I am also filing motions and late objections. Copies of the motions and late objections are enclosed with this letter for your file.

Thank you for your kind attention to this matter and your assistance.

Yours very truly,

Kent W. Foster

Gini Ditch Company
Challis, ID 83226

March 27, 2000

Gentlemen,

During the annual Gini Ditch Company (GDC) meeting on March 11, 2000, the ditch company president, Julian Piva, brought to the shareholders' attention a discrepancy between the recorded GDC irrigated acreage and the irrigated acreage recorded by the Idaho Department of Water Resources (IDWR.) Piva informed the shareholders of a 647.8 acre discrepancy. He provided the shareholders with an irrigated acreage breakdown by section and quarter section according to the GDC and IDWR records, as well as 1988 aerial photographs attempting to justify the IDWR irrigated acreage numbers. Piva asked each shareholder to review the photographs, the recorded acreage, and the landowners' legal descriptions, then to report errors in either the GDC or the IDWR records.

After reviewing these documents we have listed the following discrepancies that need to be addressed and the records that need to be changed by either the GDC and/or the IDWR:

1) Section 27: SE ¼ of the SE ¼ :

- GDC records 30 irrigated acres
- IDWR records 14.1 irrigated acres
- Actual irrigated acres are 30 acres
- Action: IDWR change irrigated acres to 30 acres

2) Section 27: NE ¼ of the SE ¼ :

- GDC records 40 irrigated acres
- IDWR records 39.9 irrigated acres
- Actual irrigated acres are 40 acres
- No action necessary

3) Section 27: SE ¼ of the NE ¼ :

- GDC records 36 irrigated acres
- IDWR records 38.8 irrigated acres
- Actual irrigated acres are 38.8 acres
- Action: GDC change irrigated acres to 38.8 acres

4) Section 26: SW $\frac{1}{4}$ of the SW $\frac{1}{4}$:

- GDC records 10 irrigated acres
- IDWR records 5.7 irrigated acres
- Actual irrigated acres are 10 acres
- **Action: IDWR change irrigated acres to 10 acres**

5) Section 26: NW $\frac{1}{4}$ of the SW $\frac{1}{4}$:

- GDC records 40 irrigated acres
- IDWR records 27.6 irrigated acres
- Actual irrigated acres are 40 acres
- **Action: IDWR change irrigated acres to 40 acres**

6) Section 26: SW $\frac{1}{4}$ of the NW $\frac{1}{4}$:

- GDC records 40 irrigated acres
- IDWR records 36.6 irrigated acres
- Actual irrigated acres are 39 acres
- **Action: IDWR and GDC change irrigated acres to 39 acres**

7) Section 26: SE $\frac{1}{4}$ of the NW $\frac{1}{4}$:

- GDC records 10 irrigated acres
- IDWR records 0.6 irrigated acres
- Actual irrigated acres are 5 acres
- **Action: IDWR and GDC change irrigated acres to 5 acres**

8) Section 26: NE $\frac{1}{4}$ of the SW $\frac{1}{4}$:

- GDC records 10 irrigated acres
- IDWR records 0.0 irrigated acres
- Actual irrigated acres are 20 acres
- **Action: IDWR and GDC change irrigated acres to 20 acres**

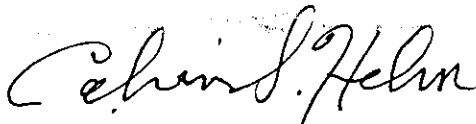

9) Section 26: SE ¼ of the SW¼ :

- GDC records 30 irrigated acres
- IDWR records 0.0 irrigated acres
- Actual irrigated acres are 20 acres
- **Action: IDWR and GDC change irrigated acres to 20 acres**

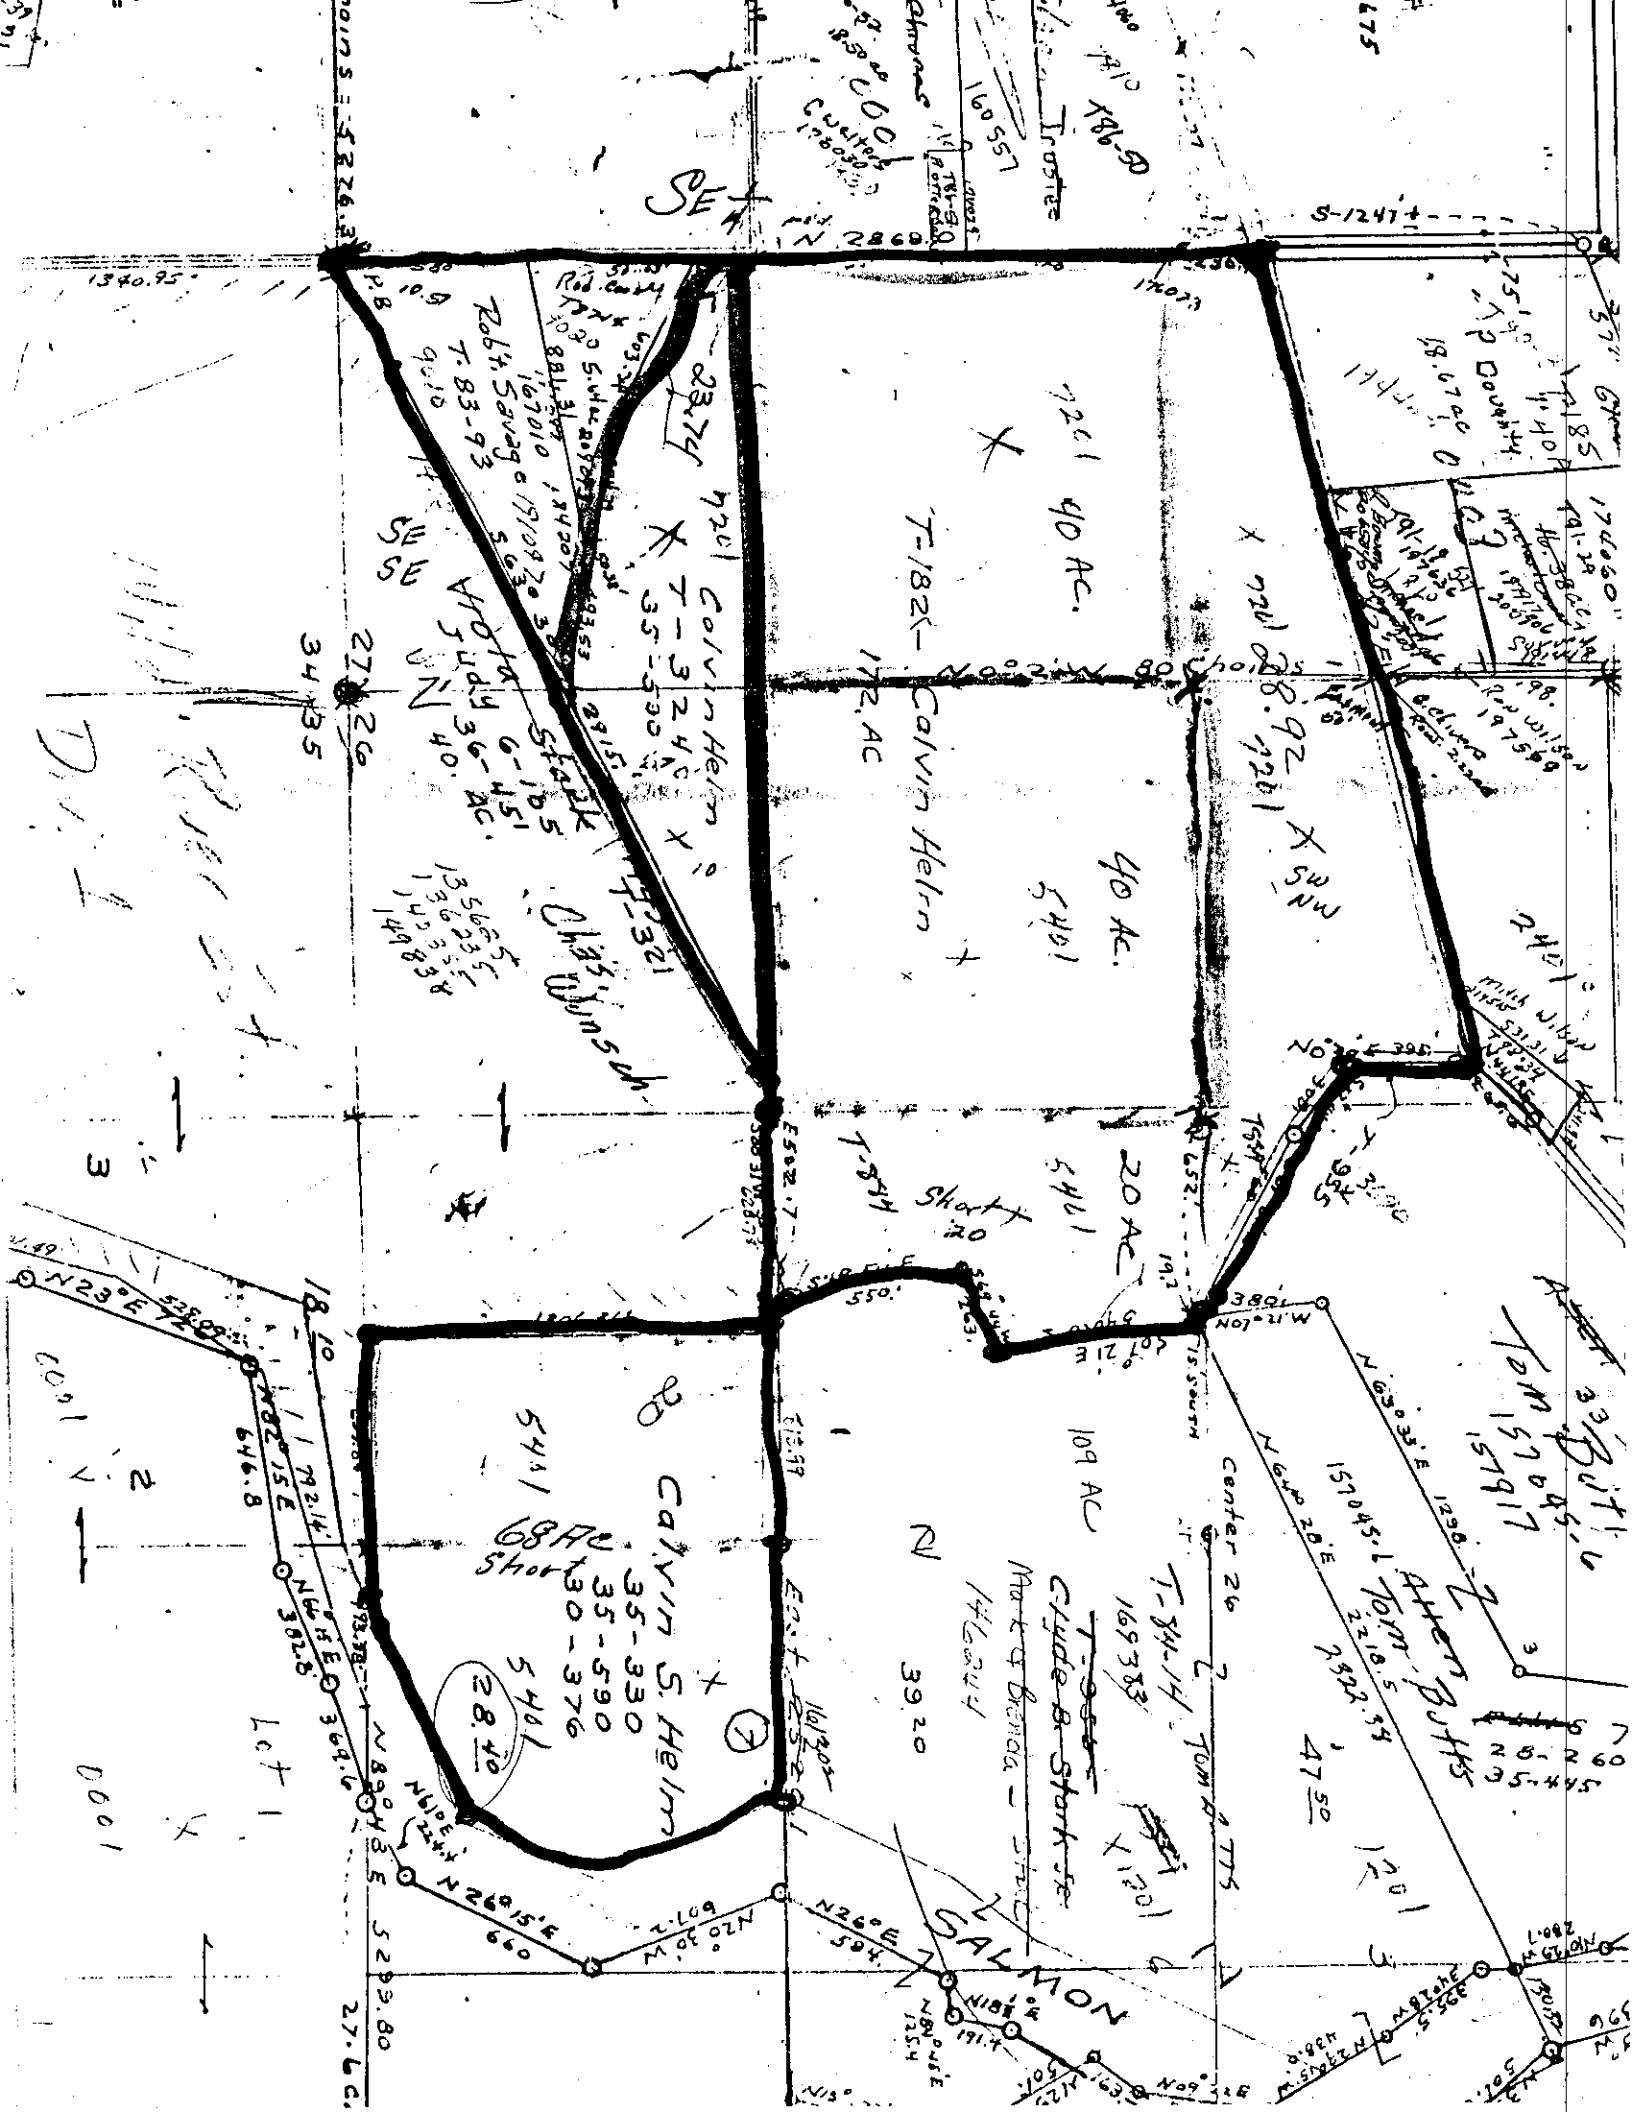

10) Section 26: SW ¼ of the SE ¼ :

- GDC records 0.0 irrigated acres
- IDWR records 0.0 irrigated acres
- Actual irrigated acres are 28.4 acres
- **Action: IDWR and GDC change irrigated acres to 28.4 acres**

We have included legal descriptions and a map of the properties owned by Calvin Helm, Robert Savage, and Rodney Cook. The map outlined in black shows irrigated land excluding roadways. Also provided are the tax assessments showing property being assessed as irrigated ground. In summary, a total of 25.2 irrigated acres need to be added to the GDC records and 107.8 irrigated acres need to be added to the IDWR records for these properties. Please change the GDC records and appeal to the IDWR to change their records to more accurately reflect the irrigated acres in these sections of land. If you have any questions regarding this information, we would be glad to discuss this with you at any time. Thank you.

Calvin S. Helm

The rate per acre calculations are based upon a 300 foot run at a 2% slope. An 8 hour set time was also used. Individual graded border evaluations, soil characteristics work sheets, and peak irrigation diversion requirement work sheets have been created and archived separately for each soil type.

Where actual rotation is shorter than the optimal rotation, optimal rotation is the criteria to be used for the recommendation analysis and, therefore, the rotation percentage adjustment is not necessary. The rate becomes the acres per soil type times the rate per acre from the above chart.

SOIL TYPE	OPTIMAL / ROTATION (chart)	ACTUAL / ROTATION (field)	* ACRES PER SOIL TYPE (field)	* RATE PER ACRE (chart)	= TOTAL DIVERSION RATE

Re: Distribution of water

Dear Ron:

Enclosed is a summary of the measurements made on the ditches on July 31, and an analysis of flows treating the flashboards as weirs.

Elevations were computed assuming an instrument elevation of 100.00 feet. When I computed elevations from the shots taken, it turned out that four of the seven headgates are operating with some degree of submergence, that is, with the downstream water level above the weir crest. In the analysis a correction factor based on the ratio of downstream to upstream head (d/H) is used to account for the effect of downstream submergence.

After computing the discharges based on the elevation shots, a second set of calculations was run making adjustments to weir crest elevations until the percentage of flow for each headgate matched the percentage of headgate width as closely as possible.

To make the calculations manageable I had to assume that the upstream and downstream water levels would remain constant. This is reasonable only as long as the changes are small and if the flashboards are in place to make the headgates behave as weirs.

To be able to distribute water with the head pool at a lower elevation, without flashboards, would require additional measurements and a different type of analysis.

If you have any questions regarding this information, please let me know.

Very Truly yours,

A handwritten signature in cursive script, reading 'Loren O. Holmes'.

Loren O. Holmes, P. E.
Southern Region Manager

IN THE DISTRICT COURT OF THE FIFTH JUDICIAL DISTRICT OF THE STATE OF IDAHO,
IN AND FOR THE COUNTY OF TWIN FALLS

IN RE THE GENERAL ADJUDICATION
OF RIGHTS TO THE USE OF WATER FROM
THE SNAKE RIVER BASIN WATER SYSTEM.

CIVIL CASE NUMBER: 39576

Ident. Number: A72-10480

Date Received: 4/13/1990

Receipt No: ~~DRAFT~~

Received By:

5012087

NOTICE OF CLAIM TO A WATER RIGHT
ACQUIRED UNDER STATE LAW

1. Name: GINI DITCH COMPANY INC. 208-523-0620
Address: C/O HOLDEN, KIDWELL,
HAHN & CRAPO
P.O. BOX 50130
IDAHO FALLS, ID 83405

2. Date of Priority: JUL 27, 1901

3. Source: SALMON RIVER Trib. to: SNAKE RIVER

4. Point of Diversion:

Township	Range	Section	1/4 of	1/4 of	1/4	Lot	County
13N	19E	16	SW	SW	SE	06	CUSTER

5. Description of diverting works:
HEADGATE, VIA GINI DITCH

6. Water is used for the following purposes:

Purpose	From	To	C.F.S.	(or)	A.F.A.
IRRIGATION	04/01	11/01	120.000		

7. Total Quantity Appropriated is:
120.000 C.F.S. (and/or) A.F.A.

8. Total consumptive use is 10200.0 Acre Feet Per Annum.

9. Non-irrigation uses:
S/INCIDENTAL USE

10. Place of Use:

Township	Range	Section	1/4 of	1/4	Lot	Use	Acres
13N	19E	2	NW	NW		IRR	1.0

RE: GINI DITCH CLAIMS

DEAR MR. FOSTER,

You were correct in your letter, the Laverty's have filed for portions of the claims under Gini Ditch Co. The best way to resolve this situatuion is to have Mr. Laverty relinquish his claim on those water rights and request a refund. However, he may claim whatever he chooses and his claims are valid as filed.

Your firm paid the total fees as listed by the Gini Ditch Co. claims. I ran a Place of Use Comparison Report to determine the acres that may have been paid for by other claimants and I have reduced the list to 22 claims.

Here are two options you may want to consider since I do not have the necessary information to determine the relationship between the remaining claimant's place of use acres and the Gini Ditch Co.'s place of use acres.

OPTION #1: TO DO NOTHING AT THIS TIME. All the claims filed appear to be correctly filed and valid. Your claims are accepted and valid as filed. There is no deadline for requesting refunds and you could initiate Option #2 at some point in the future if you choose. If problems should arise during the Adjudication process there are provisions to resolve them.

OPTION #2: TO PURSUE THE REFUND FOR OVERLAPPING ACRES. The question arises, who should request the refunds, the individual claimants or the Gini Ditch Co.? In either case, someone who is very familiar with irrigation systems in the Gini Ditch delivery area will need to meet with a representative from our office; probably with me.

Based on what I have reviewed, there may not be a significant overlap involved. However, assuming the maximum possible rate of overlap, there would be \$354.00 worth of refunds available; the Ray Lavery duplicate claims on A72-04148A and A72-04148B would account for \$146.00 of the refunds. See the attached documents for further details.

The final decision is yours and the Gini Ditch Co.'s. Please advise me of your decision. If you have further questions please contact me at our office.

SINCERELY,

A handwritten signature in black ink, appearing to read "Steve Clelland", written over the word "SINCERELY,".

STEVE CLELLAND
WATER RESOURCE AGENT

RE: Notice of Claims on behalf of Gini Ditch Company, Inc.

Dear Steve:

We have now had an opportunity to review the land list and the maps we sent with the claims on behalf of the Gini Ditch Company. We are enclosing three new land lists and three new maps which should be substituted for the originals enclosed with the claims when filed. I believe they now match and are consistent with the information provided by the stockholders of the Gini Ditch Company.

In the meantime, we have reviewed your letter of April 18, 1990, and have contacted the Gini Ditch Company officers for their input as to how they wish to proceed. We will be in touch with you as soon as we have something further.

As always, we appreciate your assistance and consideration.

Yours very truly,

Kent W. Foster

MEMORANDUM

DATE: 08-May-1990

FROM: Allen Merritt

TO: STEVE CLELLAND AND A72-10480, A72-10481 & A72-10482

SUBJECT: MEETING WITH JOHNNE HAMMOND AND KENNETH BRADBURY

THIS DAY I MET WITH THESE REPRESENTATIVES OF THE GINI DITCH TO DISCUSS YOUR 4/18/90 LETTER TO MR. FOSTER. I WENT OVER THE FILE WITH THEM AND WE DISCUSSED THE CONCERNS OF THE OVERLAPS. THEY GAVE ME A LIST OF THE SHAREHOLDERS IN THE COMPANY AND THEY INDICATED THAT THESE PEOPLE WERE THE ONLY POSSIBLE OVERLAPS. WE TALKED ABOUT GETTING AN ACTUAL MAP OF THEIR SYSTEM AND THEY WERE GOING TO WORK ON IT. ADDITIONALLY IN REVIEWING THE CLAIMS THEY INDICATED THAT THE LANDS AND WATER WERE DEVELOPED IN THREE STAGES WHICH WERE DIFFERENTLY REPRESENTED IN THE CLAIMS FILED. THEY WERE GOING TO TALK TO THEIR ATTORNEY TO POSSIBLY FILE AMENDMENTS TO THE CLAIMS. I MADE NOTES ON THE SHAREHOLDERS LIST TO SHOW HOW THEY REPRESENTED HOW THE CLAIMS SHOULD READ. THE STORY THEY TOLD WAS THAT THE ORIGINAL DITCH WAS CONSTRUCTED TO CONVEY 6000 INCHES OF WATER TO THE ORIGINAL LANDS. (BLUE) THE CANAL WAS THEN ENLARGED TO SERVE ADDITIONAL LANDS SHOWN IN ORANGE AND ALSO SERVE ADDITIONAL WATER TO THE ORIGINAL LAND.(ORANGE) LATER ON THE LAVERTY PLACE WAS ADDED TO THE DITCH. (PINK)

IF YOU HAVE QUESTIONS LET ME KNOW.

ALLEN
