Application proposes changing the point of diversion and place of use of permit which allows for the diversion of 500 cfs of water from the Little Wood River for power use. The purpose of the amendment is to allow for the construction of a proposed power plant on the south side of the Little Wood River, rather than the currently permitted location on the north side of the Little Wood River. The proposed change in point of diversion results in moving the point of diversion approximately 300 feet upstream from the permitted location to the site of an existing irrigation diversion. The proposed change in place of use is to an adjacent 40 acre tract from the currently permitted location to reflect the power house being located on the opposite side of the river. The project location is approximately 5.7 - 6.4 miles west and 2.1 miles north of the center of Shoshone. Protests may be submitted based on the criteria of Idaho Code § 42-211. **BRENT A. & CHALET FUNK, 845 S 1800 W; MURTAUGH, ID 83344 have filed Application for Transfer No. 74277** which proposes to dry up land about 5 1/2 miles south of Murtaugh in order to provide water for a new dairy to be built 5 1/2 miles west of Murtaugh.
