Source: WASTE WATER Tributary To MALAD RIVER
Use: 01/01 To 12/31
IRRIGATION STORAGE (74 AFA)
IRRIGATION FROM STORAGE (74 AFA)
Total Diversion: 74 AFA
Place Of Use: IRRIGATION STORAGE within NWSE, S35, T06S, R13E; IRRIGATION FROM STORAGE of 90 acres within SWNE, Lot 2; NWSE, Lot 3; SWSE, Lot 4, S34, T06S, R13E.
Remark: This application proposes to store additional wastewater from the W Canal in a reservoir to be built on the Malad Gorge State Park. Permit 37-21486 covers the first 25 acre feet of storage, and this application adds 74 af due to the selection of a better reservoir site than what was originally proposed. The stored water will be used to irrigate existing farm land while reducing the quantity of waste water entering the Malad River. The reservoir will be located about 3 miles north of Hagerman and 1/4 mile west of Hwy. 30. Protests may be submitted based on the criteria of Sec 42-203A, Idaho Code. The applicants have also filed an application to **AMEND Permit No. 37-21456** on 07/31/2006. This amendment proposes to change the point of diversion for waste water and the location of the storage reservoir due to the development of a better site where a single larger reservoir can be built. The new site is about 1/4 miles SE of the original point of diversion, and still on the grounds of the Malad Gorge State Park. The permit authorizes diversion of (1.8 CF) for irrigation of 90 acres within parts of Sections 34 & 35, T06S, R13E. Protests may be submitted based on the criteria of Sec 42-211, Idaho Code.
