NOTICE OF CLAIM
TO A
WATER RIGHT
ACQUIRED UNDER STATE LAW

Please type or print clearly

1. Name of Claimant (s) Conant Creek Canal Company, an
Idaho corporation Phone (208) 652-3538
c/o Roger Bratt, Secretary
Mailing Address 630 North 6th West, St. Anthony, Idaho Zip 83445

2. Date of Priority (Only one (1) per claim) February 25, 1910

3. Source of water supply (a) Conant Creek
which is tributary to (b) Fall River, tributary to Henry's Fork - Snake River

4. a. Location of existing point of diversion is: Township 8N Range 44E Section 28,
1/4 of SE 1/4 of NW 1/4, Govt. Lot, B.M., County of Fremont

Additional points of diversion if any: All the following points are in Twp. 8N, Rge. 43EBM:
SE1/4SW1/4, Sec. 15; SW1/4NE1/4, Sec. 18; and NE1/4SW1/4, Sec. 17.

b. If instream flow, beginning point of claimed instream flow is:

Township _____ Range _____ Section _____, _____ 1/4 of _____ 1/4 of _____ 1/4,

Govt. Lot _____ B.M., County of _____

ending point is: Township _____ Range _____ Section _____, _____ 1/4 of _____ 1/4 of _____

_____ 1/4, Govt. Lot _____ B.M., County of _____

5. Description of existing diversion works (Dams, Reservoirs, Ditches, Wells, Pumps, Pipelines, Headgates, Etc),
including the dates of any changes or enlargements in use, the dimensions of the diversion works as
constructed and as enlarged and the depth of each well. A diversion dam and gate at the head of the
Conant Creek Canal through a lateral ditch to the Shareholders who either take the water
through lateral ditches to their farms or pump with electrical pumps, except for one diesel
pump, from the canal itself or from the lateral ditches or from Conant Creek or from
Fall River.

RE: Irrigation Pump located in Sec 23 Twp 8N Rge 42E

Dear Ms. King:

The pump described in your correspondence, dated February 10, 1999, is not the same Curtis Loosli pump I discussed with you over the telephone. The three pumps claimed by the Conant Creek Canal in Snake River Basin Adjudication (SRBA) claims A21-00083, A21-00141, A21-02035, and A21-02037, correspond with the locations for the Jay Hill pump, Dan Zundell pump, and Curtis Loosli pump. The Curtis Loosli pump identified on these SRBA claims and Water District #1 records is located on Conant Creek in Sec 17 Twp 8N Rge 42E.

The pump described in your correspondence in Sec 23 Twp 8N Rge 42E is also identified in Water District #1 records as a Curtis Loosli pump located on the Henrys Fork. Annual water diversions from this pump (13048440) have been recorded since 1978 when Water District #1 first inventoried the irrigation pumps on the Henrys Fork and its tributaries. It doesn't appear that a water right has ever been documented for this pump. Water District #1 records indicate only reservoir storage has been delivered to this pump since 1978.

If this pump replaced the ditches that conveyed Conant Creek Canal water to your property, then it appears you have three options that may secure a water right with a point of diversion for the pump:

- Request that Conant Creek Canal Company amend their SRBA claims to include a point of diversion for your pump along with your supporting documentation that evidences when the pump was added to the system;
- Request Conant Creek Canal Company file a *Transfer of Water Right* with the Idaho Department of Water Resources moving a portion of their water right from their canal headgate to your pump. (This procedure was done to secure a water right for the Jay Hill and Dan Zundell pumps);
- Or, file an SRBA claim for your pump in your name for the portion of the original Conant Creek Canal water right that should go to your pump.

Page -2-
Joyce King

Each of these options has its advantages and disadvantages as we discussed over the telephone. If Conant Creek Canal Company amends its claims adding your pump as an additional point of diversion, it may not be necessary to complete a *Transfer of Water Right*. However, if a *Transfer of Water Right* were filed and approved by the Department of Water Resources, the effect of securing a water right for the pump would be more immediate and certain. If Conant Creek Canal Company only amended their SRBA claims instead of filing a transfer, Water District #1 would continue delivering only reservoir storage to the pump until the SRBA claims are decreed several years from now.

If Conant Creek Canal company does not want to either amend their SRBA claims and/or file a *Transfer of Water Right* to add their water right to your pump, it appears your only option would be to file an SRBA claim in your name for the portion of the water right historically moved from the canal headgate to your pump. These options should be discussed with your attorney to determine the most appropriate procedure for your situation.

If you need any other assistance or have questions concerning the delivery of water in Water District #1, please give me a call.

Sincerely,

Tony Olenichak
Deputy Watermaster

Idaho Falls, Idaho 83402

Dear Mr. Olenichak,

This letter is in regard to a conversation we had on February 10, 1999. To refresh your memory please Recall that I had left my nephew's telephone number with your secretary along with some information on Some copies of water right claims for Conant Creek Canal Company on Thursday February 4, 1999. I spoke with you today and as I understand from your conversation you had already done some research On this and provided me some information.

My understanding from you was that you had some records, which had shown delivery of Conant Creek Water through what I understood to be at a diversion point located at 8N range 44E Section 28. You mentioned two separate diversion sites, which Conant Creek Water was delivered under the names of Dan Zundell and Jay Hill. I asked you if you had records which would have shown other names in past Years and my understanding was that you had checked and had not found any evidence of this.

However, as I then understood you mentioned that Conant Creek Canal Company had listed some pumps Which received some Conant Creek water and my understanding was a pump with the name of Curtis Loosli at which point I said, "That's it." As I understood you this claim was filed in 1973 but I am Somewhat unclear about who actually filed it. My understanding is that Conant Creek Canal Company Did this for Curtis. Is this a correct understanding?

Because I specifically asked you if it was Conant Creek water I would assume that to accomplish this Feat that Conant Creek Canal Company would have to have some method of delivery to the pump of Curtis Loosli and I will seek out what that method was.

Nevertheless I find it prudent to obtain one more piece of information from you which would be a property Description of this said pump as shown on your records. It was my understanding that said description Existed but as I understood you did not have it available at that particular moment in time. As I understood You this description would be the land description to which the pump was attached. Please understand that As I mentioned to you Curtis Loosli was a former renter who rented our property. The reason the actual Description of the location of the pump becomes important is that there existed a situation which could have presented some possible misunderstanding and I want to ensure that this did not take place.

In our conversation I mentioned that an individual named Ray Crouch had property right next to my Property which was dry farm but he placed this property under water and to do this he rented my fathers Water resources which occurred for some time and Mr. Crouch eventually purchased some of my father's Property by the river bank in order to access the water for his own property next to my father. Mr. Crouch Had his own pump and eventually he sold his property and most likely his pump to our renter Curtis Loosli. It is my understanding that this purchase had been completed by the time Mr. Loosli became our renter Which was around 1972. My father did not have his own pump and therefore used Mr. Loosli's pump to Water our land. In other words my father KR Henry had the water right and the water resources but Ray Crouch had the dry farm and the pump and rented the water resources from my father later selling His pump and land to our renter Curtis Loosli who then used our water right and water resources for our Land.

I will list the land description of the land the pump should have been attached which you can check against

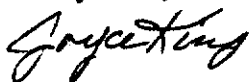

Your records. This land description would be Sec 23 TWP 8 RGE 42 lot seven Tax 1-2-3 however because I stated that Mr. Crouch purchased a small section of my property to water his dry farm property Above the river he would have his land description as follows. Sec 23 TWP 8 RGE 42 Tax 4 I do not Have his dry farm land description available but it would seem reasonable that the description the pump Was at would be the description used. My question would be, would Curtis Loosli or Conant Creek Canal Company use the land which had the right and which the storage water was attached or would They use the description where the pump was placed which more than likely would have been on Tax 4 because it was property actually owned by Curtis Loosli but Curtis may have placed his pump on our Portion of land?

I hope I have not confused you and you can well understand that the wrong description could result in Much confusion. May I ask you check this description and sent it to me or to my attorney. My address Would be Joyce King/ 2382 Broderick Dr./ West Jordan, Ut. 84084. My attorney's address would be Gordon Thatcher Esq./ 25 North Second East/ Rexburg, Id 83440.

In addition may I also request some documentation in regard to what you indicated to me, that is if my Understanding concerning what you said is correct. I feel I would require such documentation to Proceed with implementing changes needed in regard to my properties.

Thank you very much for your attention in this matter.

Sincerely Yours,

cc: Gordon Thatcher Esq.

MEMORANDUM

TO: Files A21-00083, A21-00141, A21-02035, A21-02037
FROM: Tony Olenichak, Water District #1
DATE: February 8, 1999
SUBJECT: Conant Creek Canal Water Rights

Water rights 21-02035 (old #4357) and 21-02037 (old #5803) are described differently in the IDWR water right database than in the current Water District #1 and water right transfer records. Water rights 21-00083, 21-00141, 21-02035, and 21-02037 have also been claimed differently in the SRBA than the water district and transfer records indicate.

Transfer #1676 moved 1.75 cfs of 21-00141, 2.19 cfs of 21-02035, and 2.19 cfs of 21-02037 from the Conant Creek Canal headgate to the Dan Zundel pump located in T8N, R43E, Sec15 SESW. Transfer #2158 moved 0.24 cfs of 21-00141, 0.29 cfs of 21-02035, and 0.29 cfs of 21-02037 from the Conant Creek Canal headgate to the J. Hill pump located in T8N, R43E, Sec 18 SWNE. The remaining portions of 18.01 cfs (21-00141), 22.52 cfs (21-02035), and 22.52 cfs (21-02037) would still be delivered to the Conant Creek Canal headgate according to the transfer records. Water District #1 has been delivering the water rights according to these transfer records.

The Conant Creek Canal Company claimed that all water rights, 21-00083, 21-00141, 21-02035, and 21-02037, include the point of diversion in T8N, R43E, Sec 17 NESW. I couldn't find a water right transfer that included this point of diversion for these four water rights and Water District #1 hasn't delivered any portion of these water rights to this point of diversion.

Additionally, I couldn't find any water right transfer documenting a new place of use or point of diversion for water right 21-00083 different from the place of use (upstream from the Conant Creek Canal) described in the Rexburg Decree and IDWR water right database.

POOR ORIGINAL

In light of what has been stated we cannot see why our request should be denied. If however, the Board feels that our request represents too much land. We would be willing to negotiate for adding only the 240 acres at N2N2; SE4NE4; NE4SE4; Sec 25 TWP 8 RGE 42.

Thankyou for your consideration in this matter.

Sincerely Yours,

Melila C. Henry

Aug 5, 1992.

To whom it may concern,

We the board of the Grant Creek Canal Company agree to amend the original application to include the parcels of land that Mrs. Henry has indicated in this letter. If there is anything we can do to help with this matter please call.

Dan Zundell (652-3734)

Sincerely

Don Zundell

CLAIMANT'S NAME CONANT CRAW CANAL CO. CLAIM NO. A21-02037

DATE RECEIVED	CK #	AMOUNT \$
3/23/89		

1. Is the name and address complete with zip code? YES ☒ NO ☐

2. Is a priority date entered? /

Is the water use exempt from the Permit requirements, or if it is not exempt, has a Permit been approved or a License issued?

A Permit is required: (1) for groundwater developed after March 25, 1963 (except single family domestic and stockwater wells using less than 13,000 gpd), or (2) for surface water developed after May 20, 1971 (except for instream stockwater). **USE CARE IF CLAIM IS RETURNED. REFER TO ADJUDICATION MEMOS # 1 (ADJ. CLAIMS/APPLICATIONS) AND # 9 (REJECTION OF CLAIMS). EXPLAIN IN COMMENTS.**

3. (a) Is a source entered? ✓

(b) Is a tributary to entered? (if required) N/A ✓

4. Is the legal description of the p.d. sufficient? ✓

5. Is there a description of the diverting works? ✓

6. Are the water uses appropriate for the form? The short form is limited to domestic and stockwater uses with direct diversion. All claims that include storage or instream stockwater must use long form. . . . ✓

Is the period of use included? ✓

Is a quantity claimed for each use? ✓

7. Is a total quantity claimed entered? /

8. If required is a consumptive use entered? N/A *[initials]* ✓

Is the consumptive use correct? N/A  

9. Are the non-irrigation uses listed properly? If this claim is on the short form, and more than one domestic use is listed, single ownership must be stated. If not under single ownership, see Adjudication Memo # 4. N/A ✓

10. Is (are) the place(s) of use entered? ✓

11. Is (are) the county(ies) entered? ✓

12. Is the ownership of p.u. checked? ✓

13. Are other water rights listed or "none" indicated? /

14. If required, are remarks correct? (If the claimant does not own the place of use, authority for filing the claim must be explained in the remarks.) N/A ✓

15. Is the basis of the claim checked? /

16. Is the claim signed by the claimant, and is the signature appropriate?
(If an individual is the claimant, has that individual signed the claim,
or if an organization is the claimant, is the organization signature
block complete?) ✓

Has the claim been signed, sealed, and dated by a notary? ✓

Was this claim filed on time, or was an extension granted? ✓

Is the fee enclosed correct? Exempt ☒

If this claim is based on an existing water right, has the identification number been entered? N/A ✓

Should this claim be receipted and data entered? ✓

Claim checked by: *TO*
