RE: NOTICE OF CLAIM A25-10900

Dear Mr. and Mrs. Stone:

After reviewing the document you furnished as Evidence of Priority for Notice of Claim A25-10900, I get the impression there is a misunderstanding on the type of documentation needed.

Notice of Claim A25-10900 states groundwater was first used to irrigate 58 acres in the S1/2 SW1/4, Section 35 on November 1, 1984. Though the land may have been previously irrigated with surface water from Long Island Canal, the evidence needs to support use of groundwater on the 58 acres in 1984.

Naturally, if you have questions, feel free to contact this office.

Respectfully submitted,

Re: Evidence of Priority

I have spoken with Mrs. Seth Carpenter who indicated to me that they owned the above mentioned property in the 1950's and owned shares at that time in the long Island Canal Co. for irrigation purposes on the above property. We purchased the property in 1985 and have since used the water for irrigation purposes.

RE: **Evidence of Priority**

Dear Mr. Stone:

The Notice(s) of Claim identified with the number shown above you name has been filed in the Snake River Basin Adjudication (SRBA). The Notice(s) indicates the water usage is based on "Beneficial Use" or a "Statutory Claim". Water rights of this type are established by the historical use of water, dating back to when water was first used for the purpose claimed, at or on the place of use identified on the Notice. The date the water was first put to use, known as the priority date, has not been confirmed by a License, Decree, or Permit. For this reason, proof must be provided supporting the priority date.

For your reference I have provided a printout of your Notice(s) and the pamphlet entitled "**Evidence of Priority**". The pamphlet describes the types of evidence required and suggests which documents will fulfill this requirement. While I encourage you to read all of the pamphlet, I direct your attention to the two sections entitled "**What Kind of Evidence is Required**" and "**Some Examples of Documents Which May Be Evidence of the Priority Date**".

It is our goal to recommend this historical water rights within the Snake River Basin as accurately as possible. Field exams to verify other items of the Notice(s) have been or soon will be conducted by Department personnel. **But, the Department will not recommend the Notice(s) be decreed by the court if no evidence of a priority date is submitted.**

MICROFILMED

John Stone

Page 2

Please submit the required evidence supporting the priority date(s) by **May 28, 1991**, referencing all documents with the corresponding Notice number(s). If you have any questions not covered by this letter or the enclosed pamphlet, please contact this office.

All Notices required to submit this evidence are currently being reviewed for recommendation to the court. Hence, the need for expediency on your part or your agency. every effort should be made to submit this information within 30 days of the date of this letter.

Respectfully submitted,
