

IN THE DISTRICT COURT OF THE FIFTH JUDICIAL DISTRICT OF THE STATE OF IDAHO,
IN AND FOR THE COUNTY OF TWIN FALLS

IN RE THE GENERAL ADJUDICATION
OF RIGHTS TO THE USE OF WATER FROM
THE SNAKE RIVER BASIN WATER SYSTEM.

CIVIL CASE NUMBER: 39576

Ident. Number: A25-12222

Date Received: 3/02/1989

Receipt No: _____

Received By: _____

RECEIVED
JUL 07 1989

Department of Water Resources NOTICE OF CLAIM TO A WATER RIGHT
ACQUIRED UNDER STATE LAW

1. Name: UNITED STATES OF AMERICA, ACTING THROUGH 208-334-1165
Address: REGIONAL DIRECTOR, P.N. REGION
BUREAU OF RECLAMATION
BOX 043-550 WEST FORT STREET
BOISE, ID 83724

2. Date of Priority: JUL 31, 1987

3. Source: GROUNDWATER Trib. to:

4. Point of Diversion:

Township	Range	Section	1/4 of 1/4 of 1/4	Lot	County
02N	40E	16	NW SW		BONNEVILLE

5. Description of diverting works:
DOMESTIC & IRRIGATION WELL - RIRIE DAM SITE

6. Water is used for the following purposes:

Purpose	From	To	C.F.S (or)	A.F.A.
IRRIGATION	04/01	11/01	0.400	
DOMESTIC	05/01	10/01	0.040	

7. Total Quantity Appropriated is:
0.440 C.F.S. (and/or) A.F.A.

8. Total consumptive use is 0.4 Acre Feet Per Annum.

9. Non-irrigation uses:
DOMESTIC

RE: NOTICE OF CHANGE OF ADDRESS

Dear Sir or Madam:

Per your request, I have changed the address on the adjudication numbers listed on the following page.

Water right numbers A29-02262, A29-02306, A29-02307, A29-02310, A29-02341, A29-02567, A29-02568 and A29-02571 do not have Bureau of Reclamation as the current owner. The current owner in our database is Falls Irrigation District. Therefore, these rights have not been changed.

All other water right numbers not listed above or on the following page will be processed by our other regions and mailed to you at a later date.

If you have any questions feel free to contact this office at 208-525-7161.

Respectfully submitted,

Cheri Vandermeulen
Records Clerk

Subject: Snake River Basin Adjudication Water Right Claims, Minidoka Project,
Idaho (Water Rights)

Dear Mr. Verner:

By two letters, each dated June 25, 1991, you requested supplemental evidence of priority for several beneficial use claims lodged in the subject case. The attached table shows some additional information about these claims, including the date of patent of the lands. Our additional comments and recommendations are as follows:

A25-12222. This claim is for a ground water well with first use in about 1987. We understand a beneficial use claim is not appropriate for ground water diversions after 1962. Therefore, this should be withdrawn from the SRBA proceedings. A water right will be obtained through the permit procedure.

A25-12223. This claim was submitted for stock and wildlife use from 4 natural springs tributary to Tex Creek. The quantity claimed is .02 cfs at 4 locations for a total of .08 cfs. The locations are shown on the attached table. Perhaps it would have been more appropriate to submit a separate claim for each location.

A25-12224. This claim was submitted for .02 cfs for stockwater and wildlife uses from a natural spring tributary to Cove creek.

A25-12225. This claim was submitted for .08 cfs for stockwater and wildlife use from 4 natural springs tributary to Indian Fork. The quantity claimed is .02 cfs at 4 locations so a total of .08 cfs was claimed. Perhaps it would have been more appropriate to submit a separate claim for each location.

A25-12226. This claim was submitted for .02 cfs for stockwater and wildlife uses from a natural spring tributary to Hayshed Creek.

A25-12227. This claim was submitted for .02 cfs for stockwater and wildlife uses from a natural spring tributary to Willow Creek.

MICROFILMED

APR 12 1994

A25-12228. This claim was submitted for .02 cfs for irrigation and domestic uses from three springs tributary to Pipe Creek. There are three locations or points of diversion as listed on the attached table. The claim should have been for .02 cfs from each location for a total of .06 cfs. Again, perhaps separate claims should have been submitted for each location.

A25-12229. This claim was submitted for .02 cfs for stockwater and wildlife uses from a spring tributary to Spring Creek.

A25-12231. This claim was submitted for .02 cfs for stockwater and wildlife uses from two springs tributary to Dog Tooth Creek. The quantity claimed is .02 cfs at 2 locations for a total of .04 cfs. Again, perhaps separate claims should have been submitted for each spring.

A25-12234. This claim was submitted for .04 cfs for irrigation and wildlife uses from Indian Fork, a natural stream. The water is used to maintain 3 acres of ponds at the location shown on the attached table.

A25-12236. This claim was submitted for .05 cfs for irrigation, stockwater, and wildlife uses from Trail Creek, a natural stream. The water is used to maintain a two-acre pond at the location shown on the attached table.

The IDWR has advised that the existing evidence of priority is sufficient for claims not exceeding .02 cfs for domestic and stockwatering uses. All of the above claims except the last two fit into that category. The last two claims are for maintenance of ponds. A date of priority as of the date of patent of the lands is requested for each of these claims.

Please advise us of any action on our part that needs to be taken to separate the claims that were lumped together on the original filing.

Sincerely,

Regional Supervisor of
Water, Power, and Lands

RE: Evidence of Priority

Dear Regional Director:

The Notices of Claim identified with the numbers shown at the end of this letter has been filed in the Snake River Basin Adjudication (SRBA). The Notices indicate the water usage is based on "Beneficial Use" or a "Statutory Claim". Water rights of this type are established by the historical use of water, dating back to when water was first used for the purpose claimed, at or on the place of use identified on the Notice. The date the water was first put to use, known as the priority date, has not been confirmed by a License, Decree, or Permit. For this reason, proof must be provided supporting the priority date.

For your reference I have provided a printout of your Notices and the pamphlet entitled "Evidence of Priority". The pamphlet describes the types of evidence required and suggests which documents will fulfill this requirement. While I encourage you to read all of the pamphlet, I direct your attention to the two sections entitled "What Kind of Evidence is Required" and "Some Examples of Documents Which May Be Evidence of the Priority Date".

It is our goal to recommend this historical water rights within the Snake River Basin as accurately as possible. Field exams to verify other items of the Notices have been or soon will be conducted by Department personnel. But, the Department will not recommend the Notices be decreed by the court if no evidence of a priority date is submitted.

Please submit the required evidence supporting the priority date by July 25, 1991, referencing all documents with the corresponding Notice number. If you have any questions not covered by this letter or the enclosed pamphlet, please contact this office.

MICROFILMED

NOV 11 1992

Page 2

All Notices required to submit this evidence are currently being reviewed for recommendation to the court. Hence, the need for expediency on your part or your agency. Every effort should be made to submit this information within 30 days of the date of this letter.

Respectfully submitted,

Eric Verner
Senior Water Agent
