

IN THE DISTRICT COURT OF THE FIFTH JUDICIAL DISTRICT OF THE STATE OF IDAHO,
IN AND FOR THE COUNTY OF TWIN FALLS

IN RE THE GENERAL ADJUDICATION
OF RIGHTS TO THE USE OF WATER FROM
THE SNAKE RIVER BASIN WATER SYSTEM.

CIVIL CASE NUMBER: 39576

Ident. Number: A25-12646
Date Received: 8/16/1989
Receipt No: E009870
Received By: _____

NOTICE OF CLAIM TO A WATER RIGHT
ACQUIRED UNDER STATE LAW

1. Name: ELIZABETH A. DAY 208-522-5853
Address: 283 4TH ST.
IDAHO FALLS, ID 83401

OR
Name: WENDELL DAY 208-522-5853
Address: 283 4TH ST.
IDAHO FALLS, ID 83401

2. Date of Priority: JAN 4, 1915

3. Source: SPRINGS Trib. to: TWIN CREEK

4. Point of Diversion:

Township	Range	Section	1/4 of	1/4 of	1/4 of	Lot	County
01S	40E	31	NE	SE			BONNEVILLE
		32	SW	NW			BONNEVILLE

5. Description of diverting works:
RESERVOIRS AND BEAVER PONDS

6. Water is used for the following purposes:

Purpose	From	To	C.F.S.	(or)	A.F.A.
IRRIGATION	04/01	11/01	1.300		
IRRIGATION STORAGE	11/01	04/01	1.300		

7. Total Quantity Appropriated is:
1.300 C.F.S. (and/or) A.F.A.

8. Total consumptive use is 100.0 Acre Feet Per Annum.

9. Non-irrigation uses:
NA

10. Place of Use:

Township	Range	Section	1/4 of 1/4	Lot	Use	Acres
01S	40E	32	SW NW		IRR	40.0
Section Acres						40.0
Total Acres						40.0

11. Place of use in counties: BONNEVILLE

12. Do you own the property listed above as place of use? YES

13. Other Water Rights Used:
NONE

14. Remarks:

CERTIFICATE OF COMPLETION OF DIVERTING WORKS WAS SUBMITTED 5/24/1917 TO STATE ENGINEER
BEAVER POND RESERVOIR: NESE SEC. 31, T1S, R40E
RESERVOIR: NESE SEC. 31, T1S, R40E (130' X 320' X 8')
RESERVOIR: SWNW SEC. 32, T1S, R40E (25' X 75' X 8')
WATER FLOWS FROM BEAVER POND RESERVOIR INTO LARGE RESERVOIR, THENCE, INTO TWIN CREEK FOR 1/4 MILE TO SMALLER RESERVOIR.
RESERVOIR IN SEC. 31 CONTINUOUSLY REPAIRED AND CLEANED UNTIL 1949
RESERVOIRS IN SEC. 31 ENLARGED IN 1949. RESERVOIRS IN SEC. 31 ENLARGED AND RESERVOIR IN SEC. 32 CONSTRUCTED IN 1967.
BASED ON CLAIM 25-04004

15. Basis of Claim: BENEFICIAL USE

16. Signature(s)

(a.) By signing below, I/We acknowledge that I/We have received, read and understand the form entitled "How you will receive notice in the Snake River Basin Adjudication." (b.) I/We do _____ do not _____ wish to receive and pay a small annual fee for monthly copies of the docket sheet.

RE: Water Right Claims

Dear Mr. or Mrs. Day:

Enclosed are the water right claims I prepared from the information submitted to me on 11/10/88 and previous filings. The previous filings do not precisely coincide with the acreage currently being irrigated, so I made a few adjustments to the previously documented land descriptions.

There appears to be three separate irrigation rights.

- Jan. 4, 1915: Certificate of Completion of Works for Permit #10956 is for 1.3 cfs to irrigate 40 acres in the SW 1/4 of NW 1/4, Sec. 32, T1S, R40E.
- May 31, 1949: Irrigated acreage expanded 15.5 acres for a total of 55.5 acres. Refer to claim 25-4004 (attached).
- May 31, 1967: Sprinkler system installed - irrigated acreage expanded 51.8 acres for a total of 107.3 acres. Refer to claim 25-4004 (attached).

After plotting the 40 acres of the 1915 water right, I compared the acreage previously documented, to the acreage currently irrigated. Some of the described parcels do not agree with the currently irrigated acreage, so I re-arranged some of the described parcels to match the 107 acres outlined 11/10/88.

Please review the claims. Make any changes necessary to document the historical irrigation, domestic, or stock water use. Note: If you alter the location of the irrigated acreages on any of the claims, you must also change the attached map, or prepare a new map, to agree with the claim.

MICROFILMED

NOV 11 1988

A volume (acre feet) must be claimed for the irrigation storage in Item #6 of each irrigation claim. The storage volume should be limited to the reservoir storage capacities that existed at the time of the claimed priority date. For example, if two reservoirs with a capacity of 5 acre-feet existed in 1920 and, in 1940, the capacities were doubled by enlargements plus a third reservoir was added: The storage volume for the 1920 water right would be 5 acre-feet and the storage volume for the 1940 right would be the enlarged 5 acre-feet plus the capacity of the third reservoir.

I couldn't find any reference to water right for fisheries in the previous filings. If the fisheries water right mentioned 11/10/88 has the same priority date as one of the irrigation claims, you must add the purpose, dates, and amounts required, in Item #6 of the appropriate claim. The place of use (location of pond) must also be indicated in Item #10. The filing fee for fisheries purposes is \$100.00 per each claimed cfs for that purpose.

If the fisheries water right has a different priority date than the irrigation claims, and was before 5/20/1971, a separate claim form must be completed. If the fisheries use didn't begin until after 5/20/1971, a permit or license is required.

The claims must be signed, notarized, and returned to the Idaho Department of Water Resources (IDWR) along with the appropriate filing fees before the tentative 9/7/1989 Bonneville County deadline. The domestic/stock claims are \$25.00 each. The irrigation claims are \$50.00 each plus \$1.00 per irrigated. The total fee for the five prepared claims is \$307.00. If fisheries purposes are added to a claim, or an additional claim is submitted, the total fee will increase.

If you wish to discuss the claims further, please call the IDWR to make an appointment at 1-525-7161.

Sincerely,

Tony Olenichak
Water Right Agent, SR

NOV 11 1992

EXPLANATION OF CLAIM TO WATER RIGHT

Claimant, Wendell A. Day, and his wife, Elizabeth A. Day, started purchasing the following described lands (and other lands) from his father and mother, Abraham J. Day, also known as A. J. Day, and Lucy May Day, under written Sale Agreement, dated December 20, 1949, and now are the exclusive owners of said land, to-wit:

Township 1 South, Range 40, EBM.

Section 31: E $\frac{1}{4}$ NE $\frac{1}{4}$, E $\frac{1}{4}$ SE $\frac{1}{4}$.

Section 32: W $\frac{1}{4}$ NW $\frac{1}{4}$, W $\frac{1}{4}$ SW $\frac{1}{4}$, SE $\frac{1}{4}$ NW $\frac{1}{4}$.

Claimant is advised that the said Abraham J. Day commenced watering about 10 acres of land to pasture in the SE $\frac{1}{4}$ NE $\frac{1}{4}$ and about 5 to 10 acres in the NE $\frac{1}{4}$ SE $\frac{1}{4}$, of said Section 31, and also watered livestock in those quarter sections, all from the waters of what formerly known as North Twin Creek Spring and South Twin Creek Spring, the first of which said Springs is located in the SE $\frac{1}{4}$ NE $\frac{1}{4}$ and the second of said Springs is located in the NE $\frac{1}{4}$ SE $\frac{1}{4}$, of said Section 31; that the works by means of which the water was taken for such irrigating purposes consisted of small dams at the Springs creating two small reservoirs from which the water was taken by ditch onto the lands; that the waters from this North Twin Creek Spring were also used to water some 20 acres of lands to crops in the SW $\frac{1}{4}$ NW $\frac{1}{4}$, of said Section 32;

That his father obtained Water Permit No. 9629 in the year 1913, from the Idaho State Reclamation Department, for 30" of water to be used on the above described quarter sections of land and for domestic purposes, and that subsequent thereto, and in the year 1915, he obtained Water Permit No. 10956 from such Department for 65" of water from those Springs; for watering 160 acres of land in said Sections 31 and 32;

CERTIFICATE OF COMPLETION
FOR PERMIT 10956 SUBMITTED
MAY 24, 1917, FOR 1.3 CFS
ON 40 ACRES IN SW $\frac{1}{4}$ NW $\frac{1}{4}$
SECTION 32.

That in the year 1917, his father amended Permit No. 10956 to change the acreage to be irrigated under the permit to the 40 acres of land located in the SW $\frac{1}{4}$ NW $\frac{1}{4}$, of said Section 32;

That subsequently, his father relinquished his right under said Water Permits No. 9629 and No. 10956 insofar as either of them pertained to using the water from the Twin Creek Springs on the E $\frac{1}{4}$ SE $\frac{1}{4}$, of said Section 31, and the W $\frac{1}{4}$ SW $\frac{1}{4}$, of said Section 32, Township and Range aforesaid;

That notwithstanding cancellation of certain of his father's water permits and his father's relinquishment of certain lands from the permits, his father did receive desert entry patent to the E $\frac{1}{4}$ NE $\frac{1}{4}$, of said Section 31, and the W $\frac{1}{4}$ NW $\frac{1}{4}$, of said Section 32, in the year 1921, which patents are recorded in the Records of Bonneville County, Idaho, and his wife, Lucy May Day, received desert entry patent to the E $\frac{1}{4}$ SE $\frac{1}{4}$, of said Section 31, and the W $\frac{1}{4}$ SW $\frac{1}{4}$, of said Section 32, also in the year 1921, and claimant is advised that such patents would not have been granted if water had not been placed on the respective lands covered by those patents; that the only water available for those lands came from the aforementioned Twin Springs through the said reservoirs;

A photostatic copy of each of said Water Permits No. 9629 and No. 10956 are attached hereto and made a part hereof;

That affiant, during his boyhood in the 1910's and 1940's, up until he started purchasing the farm, worked summers on his father's ranch and personally observed the irrigation from these Springs and reservoirs of about 40 acres or more of that farm, same being about 5 acres in the NE $\frac{1}{4}$ SE $\frac{1}{4}$ and 10 acres in the SE $\frac{1}{4}$ NE $\frac{1}{4}$, of said Section 31, 20 acres in the SW $\frac{1}{4}$ NW $\frac{1}{4}$ and 5 acres in the NW $\frac{1}{4}$ SW $\frac{1}{4}$, of said Section 32;

That his father used those waters for raising diversified crops of hay, grain, lettuce and potatoes, and that other of said lands were irrigated for pasture through the various years up until the time claimant purchased the lands, and used all the waters during such times from both the Twin Creek Springs;

INCREASED ACREAGE
IN 1949 FROM
40 ACRES TO APPROX.
55.5 ACRES (ADDED
15.5 ACRES).

When claimant took over possession of the lands under his Sale Agreement in 1949, he cleaned out the two Twin Creek Springs and developed the reservoir storage from the waters obtained therefrom and increased the irrigated acres considerably; that he increased to about 15 $\frac{1}{2}$ acres the previous 10 irrigated acres in the SE $\frac{1}{4}$ NE $\frac{1}{4}$, and re-claimed and started irrigating to crops from the North Spring 5 acres in the NE $\frac{1}{4}$ NW $\frac{1}{4}$, of said Section 31, and brought 5 more irrigated acres to crops in the SW $\frac{1}{4}$ NW $\frac{1}{4}$, in said Section 32, thereby increasing the irrigated crop acreage on the farm to around 55.5 acres;

INCREASED ACREAGE
IN SPRING 1967 FROM
55.5 ACRES TO
107 ACRES (ADDED
~~107~~ 51.8 ACRES)

That in the spring of 1967, claimant purchased a used portable sprinkler system, consisting of a borrowed portable pump, and about 800 feet of 4" aluminum lateral used pipe, which pipe was purchased at a cost of around \$300.00 to \$350.00, and was thus enabled by such portable system to water most of the 55.5 acres;

That also because of such portable system, he was then enabled that year to bring into cultivation for crops around 18.8 acres of land in the NW $\frac{1}{4}$ SW $\frac{1}{4}$, 18 new acres in the SE $\frac{1}{4}$ NW $\frac{1}{4}$ and 15 more additional acres in the SW $\frac{1}{4}$ NW $\frac{1}{4}$, all in said Section 32, bringing into crop and pasture cultivation for that year a total of some 107.3 acres, all watered entirely and exclusively by the waters from the said Twin Creek Springs, and it took all of the water output therefrom during the irrigation season;

That in the year 1968, claimant purchased about 400 odd feet of 4" aluminum portable sprinkler pipe and a portable pump, for about \$1,100.00, and used them during the irrigation season for that year for watering his crops from the waters from the Twin Creek Springs;

That subsequently, in the year 1969, claimant purchased about 1,100 feet of 5" aluminum mainline pipe with valves at a cost of around \$1,500.00, and when installed watered pasture, hay and grain crops on the place with the waters from the Twin Creek Springs;

That there are two main reservoirs used in connection with the irrigating of lands with the waters from the North Twin Springs Creek, one of them being located right near such Spring in the SE 1/4 of said Section 31, is about 130 feet wide, 320 feet long and about 8 feet high, and the second and smaller of the reservoirs used, as aforesaid, is 25 feet wide, 75 feet long and about 8 feet high, and is located in the SW 1/4 of said Section 32; and that there are also certain of the unused waters from the South Twin Creek Spring that find their way to this second reservoir for watering certain of the lands;

That because all the waters from the Twin Creek Springs are used each irrigation season, there is no water remaining during any irrigation season to flow into what is known as Twin Creek, and, in fact, there would not be enough water to irrigate the acres irrigated each such season without the two reservoirs used by claimant for storage;

Claimant is advised that during the times his father farmed the place, there was no water from the Springs going into Twin Creek;

That now since claimant owns and farms the property, he, too, uses, as hereinbefore indicated, all the water output from both the Twin Creek Springs for his irrigation and domestic purposes, and consequently, there is no water going into Twin Creek therefrom during the irrigation seasons.

Dated and signed this 27th day of August, 1970.

Hendell A Day

County: Bonneville State: Idaho

- If applicant is a corporation, give:
- Date and place of incorporation:
 - The amount of capital stock:
 - The amount paid in:
 - Names and addresses of directors:

- II. The financial resources of the applicant are:
- Cash on hand:
 - Treasury stock:
 - Bonds to be issued:
 - Other resources:

2. The quantity of water claimed is One and three tenths cubic feet per second.

3. Source of water supply: 13/20 of 1 cubic foot from what is known as Box 1 Twin Creek Spring & 13/20 of 1 cu. ft. from South Twin Creek Springs.

4. Location of point of diversion: From North Spring Center of NE 1/4 NE 1/4 Sec. 31, From South Spring near the NW corner of the NW 1/4 Sec. 31, Tp. 1 South Range 40 E. D. M.

County of Bonneville.

5. To be used for: Irrigation and Domestic purposes.

- I. Irrigation and domestic use:
- Amount of land to be irrigated: One Hundred and Sixty acres.
 - In the following legal subdivisions: The NE 1/4 of the NE 1/4, the SE 1/4 of the SE 1/4 Sec. 31, the NW 1/4 of the NW 1/4, and the SW 1/4 of the SW 1/4 of Sec. 32, Township 1 South Range 40 E. B. M.

II. Mining, milling, power, manufacturing, transportation or other purposes:

(a) At what point:

(b) Amount of power to be generated:

H. P. Under

A. Head

(c) Is water to be returned to any stream? return:

(d) If so, name stream and locate point of return:

6. Estimated cost of works: \$600.00

7. Description of works for diversion:

I. Kind of works: Two reservoirs and two main ditches.

II. Dimensions of works:

(a) Height of dam 10 feet, length of dam at top 60 feet, length of dam at bottom 10 feet. Material used in construction: earth.

(b) Capacity of reservoir 80 acre feet (c) Size of diversion work: 1/2 ft.

Height 2 feet (d) Conduit ditch width at bottom 1 ft.

width at water line 1 1/2 feet, depth of water 3/4 feet, any dam or bridge

Inches; average grade per mile is 7 feet, length of conduit is 1/2 mile and it crosses the following quarter sections: Land embraced in entry as above

8. The time required for the completion of the construction of such work is two years.

9. Time required for the complete application of the water to the proposed use is two additional years.

BE IT KNOWN that the undersigned hereby make application for a permit to appropriate the public waters of the State of Idaho as herein set forth

Abraham J. Day,

By: Bridget A. Macdonnell, Agent

Original permit No. 10956, State Engineer, Idaho, approved January 4, 1916.
Corrected application received January 11, 1916.

APPROVAL OF STATE ENGINEER

The number of this permit is 10956.
Recorded in Book 37 Page 10956 Approved January 6, 1916.
This is to certify that I have examined the within application for a permit to appropriate the public waters of the State of Idaho, and hereby approve the same, subject to the following limitations and conditions:
Bond in the sum of _____ to be filed on or before _____
Work to begin on or before March 19, 1916 and to continue diligently and uninterruptedly to completion, unless temporarily interrupted by circumstances over which permit holder has no control.
One-fifth of the work above specified to be completed on or before January 18, 1916.
The whole of said work to be completed on or before January 18, 1917.
Beneficial use of water appropriated in accordance herewith, to be made on or before January 18, 1919.

Witness my hand this 18th day of January, 1916.

Herbert Wing,
Acting State Engineer.

Remarks:

The foregoing application is made for the waters of two springs known as North and South Twin Creek Springs both situate on the Desert Land Entry of Applicant. The springs constitute a part of what is known as the head waters of Twin Creek. All works for the diversion and conservation of the water will be situate on the land of Applicant. Applicant is the holder of permit No. 9629, which is for water to cover a former possessory claim of the applicant and is 160 acres of land lying between the two tracts, water for which is hereby applied for.

(See partial relinquishment recorded under Permit No. 9629.)

APPLICATION FOR AMENDMENT

TO PERMIT TO APPROPRIATE THE PUBLIC WATERS OF THE STATE OF IDAHO, NO. 10956.

Comes now Abraham J. Day, and represents to the State Engineer of the State of Idaho

That he is the owner and holder of Permit to appropriate the Public Waters of the State of Idaho, No. 10956, and requests that the list of lands to be irrigated, as described in said permit, be changed to read as follows: SW $\frac{1}{4}$ NW $\frac{1}{4}$ Sec. 32, Tp. 1 S., R. 40 E. B. M., making a total of 40 acres.

That an additional amount of water is not asked for, and that the rights of others will not be adversely affected by such change.

Signed at Idaho Falls, Idaho, this 14th day of May 1917.

Abraham J. Day.

Date of receipt at Office of State Engineer May 16th, 1917.

APPROVAL OF STATE ENGINEER.

I, J. H. Smith, State Engineer of the State of Idaho, hereby approve the above and foregoing application for amendment to Permit to appropriate the Public Waters of the State of Idaho, No. 10956. This approval constitutes a new permit and is issued as an amendment to the original permit, to which it refers and of which it becomes a part, and said application is approved only insofar as the rights of others will not be adversely affected thereby.

Witness my hand this 17th day of May, 1917.

J. H. Smith,
State Engineer.

Proof of Completion of Works made January 17, 1917.
Certificate of Completion of Works issued May 24th, 1917.

Permit No. 10956.

CERTIFICATE OF COMPLETION OF WORKS.

To All Whom It May Concern:

This is to certify that Abraham J. Day, of Idaho Falls, County of Bonneville, and State of Idaho, the holder of Permit No. 10956, issued upon Application No. 15998, bearing date of priority of January 4th, 1915, authorizing the diversion of 1.5 second feet of the waters of North and South Twin Creek Springs, County of Bonneville, State of Idaho, for irrigation and domestic purposes, has fully complied with the provisions of the laws of the State of Idaho relating to the proof of completion of the works of diversion set out and described in said Permit; that said works are adequate for diverting and conveying to the place of intended use 15/100 of 1 second feet of the waters of North Twin Creek Springs; that the point of diversion of said waters is at center of the NE $\frac{1}{4}$ of NE $\frac{1}{4}$, Sec. 31, T. 1 N., R. 40 E., B. M., and that the lands proposed to be irrigated by the use of said water are described as follows, to-wit: SW $\frac{1}{4}$ of NE $\frac{1}{4}$, Sec. 32, T. 1 N., R. 40 E., B. M., containing 2.40 acres.

Witness my hand this 24th day of May, A. D. 1917.

J. H. Smith,

State Engineer of the State of Idaho.

September 2, 1975 CERTIFIED MAIL # 32147

Re: Permit No. 10956 (New No. 25-2065)

Abraham J. Day
RFD # 3
Maho Falls, Idaho 83401

Dear Mr. Day:

It appearing to the Department of Water Resources (formerly the Department of Water Administration) that the terms and conditions of Permit 10956/25-2065 to appropriate the public waters of the State of Idaho have not been complied with as to failure to submit proof of beneficial use of water due on January 15, 1919, you are hereby notified that under the provisions of Section 42-311, Idaho Code, as amended, said permit is hereby held for cancellation, and you are required to show cause before the Director of the Department of Water Resources on or before October 15, 1975 why said permit should not be cancelled.

Permit 10956/25-2065 claims the use of 1.3 cubic feet per second of water from North Twin Creek Spring & South Twin Creek Spring, the point of diversion was to be located within the NE1/4 and SE1/4, Sec. 31, Twp. 1 S, Rge. 40 E, B. M. and the permit was approved Jan. 15, 1919.

s/ R. Keith Higginson
