RE: Notice(s) of Claim to a Water Right Returned

Dear Claimant:

The Idaho Department of Water Resources (IDWR) is returning your check #1697 (\$25.00) and Notice(s) of Claim to a Water Right because of insufficient information and/or fees. All items on the notice(s) must be correctly completed and fees submitted before the IDWR can process the claim(s).

Please correct the items identified below and return the forms to the IDWR within 30 days of the date of this letter. Failure to return the corrected notice(s) within the 30-day period may result in an assessment of an additional \$50.00 late-fee.

- Wrong form submitted: A water right for a well used for commercial purposes must be claimed on a "long form" Notice of Claim (black ink). The filing fee for a commercial water right is \$50.00 plus \$100.00 per cfs claimed. Note: 20 gallons per minute is equal to 0.045 cfs.

If the date of priority (Item #2) is after March 25, 1963, an approved "Permit to Appropriate Water" should have been obtained from the IDWR. The IDWR permit number should be entered in Item #15 of the Notice of Claim, if applicable.

If the date of priority is after March 25, 1963, and a "Permit to Appropriate Water" was never completed, you should complete the enclosed permit application instead of the Notice of Claim to establish the water right. The fee schedule for the application is on the back of the application instructions.

RE: Evidence of Priority

Dear Mr. Wright:

The Notice of Claim identified with the number shown at the end of this letter has been filed in the Snake River Basin Adjudication (SRBA). The Notice indicates the water usage is based on "Beneficial Use" or a "Statutory Claim". Water rights of this type are established by the historical use of water, dating back to when water was first used for the purpose claimed, at or on the place of use identified on the Notice. The date the water was first put to use, known as the priority date, has not been confirmed by a License, Decree, or Permit. For this reason, proof must be provided supporting the priority date.

For your reference I have provided a printout of your Notice and the pamphlet entitled "Evidence of Priority". The pamphlet describes the types of evidence required and suggests which documents will fulfill this requirement. While I encourage you to read all of the pamphlet, I direct your attention to the two sections entitled "What Kind of Evidence is Required" and "Some Examples of Documents Which May Be Evidence of the Priority Date".

It is our goal to recommend this historical water rights within the Snake River Basin as accurately as possible. Field exams to verify other items of the Notice have been or soon will be conducted by Department personnel. But, the Department will not recommend the Notice be decreed by the court if no evidence of a priority date is submitted.

Please submit the required evidence supporting the priority date by **June 3, 1991**, referencing all documents with the corresponding Notice number. If you have any questions not covered by this letter or the enclosed pamphlet, please contact this office.

MICROFILMED

NOV 12 1992

Gene Wright

All Notices required to submit this evidence are currently being reviewed for recommendation to the court. Hence, the need for expediency on your part or your agency. Every effort should be made to submit this information within 30 days of the date of this letter.

Respectfully submitted,

Ernest Carlsen
Water right Supervisor, Adjudication
