RE: NOTICE(S) OF CHANGE OF WATER RIGHT OWNERSHIP
NOTICE(S) OF CLAIM TO A WATER RIGHT 25-265, 25-13413

Dear Mr. & Mrs. Crawford:

The request for Change of Water Right Ownership concerning the above-referenced Notice(s) of Claim has been processed and the Department's records updated to reflect you as the new claimant.

However, these claims include 20 acres in the SE of the NW of Section 11 that are not listed in the deed you submitted. The county assessor says this property is owned by a Mr. Nuffer. If Mr. Nuffer is not entitled to the water under these rights, then I suggest you amend your claims to remove this 20 acres.

Permit 25-7559 is already in your name and 25-13414 and 25-13415 has been forwarded to our state headquarters in Boise for processing.

If you have any questions about these matters, please do not hesitate to call.

Respectfully yours,

Jennifer Crabtree
Technical Records Specialist

IDAHO DEPARTMENT OF WATER RESOURCES
NOTICE OF CHANGE OF WATER RIGHT OWNERSHIP

Please print or type. Attach pages with additional information. Instructions are on the back of this page.
Incomplete forms will be returned.

1. Water Right No(s): 25-07559-permit 100%
 Adjudication Claim No(s): 25-13414-1st, 25-13415-1st, 25-13413
25-00265
2. The following REQUIRED information must be submitted with this form:

A. A copy of the most recent DEED, TITLE POLICY, CONTRACT OF SALE or other legal document indicating your ownership of the property and water rights or claims in question, WITH ATTACHED LEGAL DESCRIPTION.

AND

B. PLAT OF PROPERTY or SURVEY MAP showing the location of the place of use of the water right(s) or claim(s). (These are usually attached to your deed or on file with the county.)

OR

C. If your water right or adjudication claim is for ten or more acres of irrigation, you must submit a USDA Farm Service Agency AERIAL PHOTO with the irrigated acres outlined and point(s) of diversion clearly marked. The AERIAL PHOTO should be submitted in place of the PLAT OF PROPERTY or SURVEY MAP.

3. Name and Address of Former Owner/Claimant

James Daniel Morgan

4. New Owner/Claimant(s)

James E and Earlene L Crawford

Name Connector (Check one): ☐ and, ☐ or, ☐ and/or

New Mailing Address

3724 Lanes Creek Rd

City, State and ZIP Code

Wayan Idaho 83285

New Telephone Number

(208) 574-2166

5. Date you acquired the property

6. Did you acquire all of the former owner's property? If you did, skip this item and go to item 7. If you acquired only a portion of the former owner's property, IDWR may need to split the water right(s) or adjudication claim(s). Describe in detail your portion of each water right or adjudication claim in the spaces in the box below only if the water right(s) or claim(s) need to be split between owners. If necessary, attach additional pages. If a water right or adjudication claim is being split and you are not sure how to identify your portion of the original right or claim, please contact the nearest IDWR office for assistance.

Number of acres you irrigate with this water right _____ Number and type of stock _____

Diversion rate in CFS _____ Number of homes you acquired _____ Other uses _____

7. Signature of New Owner(s) or Claimant(s)

James E Crawford
Earlene L Crawford

Corporations or other organizations must submit a list of directors and/or officers demonstrating authority to sign form.

8. For Snake River Basin Adjudication Claims: Please attach a Notice of Appearance completed by your attorney, if you wish IDWR to correspond with him or her for all matters related to your claims.

WAYAN ID 83285

RE: NOTICE OF CLAIM A25-13413

Dear Mr. Morgan:

While doing the initial comparison between computer generated Notices and hard copy Notices filed by claimants in Basin 25, it has come to our attention that a signed and notarized copy of your notice is not in our files.

Although a Notice of Claim to your water right has been data entered in our computer system, it is necessary that we have a signed and notarized Notice before we can process the Notice and make recommendations to the court. Since your name is the only one listed on the Notice, you are the one who must sign it.

I have enclosed for your convenience a typed Notice of Claim that must be signed in the presence of a Notary and returned to this department within 10 days (September 14, 1992). If the signed Notice is not returned by this date, this office will initiate procedures for refunding the filing fee paid in conjunction with the Notice of Claim form you submitted for the Snake River Basin Adjudication (SRBA).

The effect of this action will be to remove this Notice from the Department's records. Should you decide to refile this Notice once the refund has been issued, the new filing will be subject to a late fee of \$50.00

I will keep your Notice of Claim in my office until September 14, 1992. If we have not heard from you, the refund process will be initiated.

Dept. of Water Resources
150 Shoup Ave. Suite 15
Idaho Falls, I.D. 83402

Department of Water Resources
Eastern District Office

Dear Mr. Carlsen,

In refrence to Claim Number A25-13413, of the Dan Morgan property, I would like to submit the following as evidence of priority.

Inclosed is Posted Notice of water location for David Lewis. The Township location number 6 is in error. It should read Township 5, whereas Township 6, Section 11 is located on U.S. Forrest property and the terrain is such that irrigation would be unlikely for agriculture purposes.

The second notice is of water location for George A. Lincoln and Albert Raymond, along with a map showing location of the afore mentioned properties.

Having lived neighbors to the Morgan property from 1932 to 1945 I can recall ditches in place and water being used during this time and since.

Yours truly,

James E. Crawford
James E. Crawford

MICROFILMED

NOV 12 1992

WATER LOCATION OF WILLIAM JONES:

TERRITORY OF IDAHO, COUNTY OF BINGHAM: ss.

Notice is hereby given that William Jones a resident of Bingham County Idaho hereby claims and appropriates three hundred inches of water from the lakes known as Jones Lakes One Two and Three that I will divert the same at a point known as Lake No. 1. That I intend to use the water for agricultural purposes on my ranch described as follows: to-wit: W. 2 S. W. 4 S. E. 4 S. W. 4 & S. W. 4 S. E. 4 Section 3 T 8 S. R. 42 E. B. M. That I intend to divert and convey said waters to the place to be used by a ditch of the following dimensions to-wit: Three feet at the top and one foot deep. Said water so claimed to flow south from place of diversion about one fourth of a mile to the land claimed by the undersigned. Dated Dec. 31" A. D. 1887. William Jones.

Recorded at the request of Wm. Jones 12/31/87 at 1 P.M. Geo. A. Robethan, Recorder. Transcribed from Book B of Water Locations, Page 120, Records of Bingham County, Idaho.

Transcribed from Bannock County Records, Water Location Record No. 1, Page 213.

Notice is hereby given that I the undersigned have appropriated and do hereby claim of the water now flowing in what is known as Dry Creek or Lewis Creek in Bingham County Idaho Territory one hundred and sixty inches of water measured under a four inch pressure. Said water is now diverted at a point on Section 11 Township 6 S. Range 43 E. Boise Meridian about three quarters of a mile a little east of a straight north line from the house of said appropriator and about one quarter of a mile east of the public road as now located and where a dam with a ditch leading therefrom in a north-westerly direction is now located. Said dam and ditch having been made by this appropriator to appropriate and convey on to the land of said appropriator the water of said stream on or about the 17" day of May 1887. Also said water to diverted at another dam and running southwesterly of same style and size about 50 yards down said stream in a westerly direction and also by a dam about a quarter of a mile down said stream from said dam and ditch first above mentioned and near said road all of said dams and ditches being made about the same time and said last mentioned dam being for the express purpose of spreading water into onto the hay land of said appropriator and not requiring any ditch, said dams above mentioned being made of logs and earth and being sufficient to hold all the water of said stream in a dry time in the season and all of the waters of said stream in any ordinary season and said ditches being of the size of sixteen inches wide by ten inches deep and capable of carrying one hundred and sixty inches of water. Said ditches have a fall to conform to the surface of the ground so far as is practicable and at least one half inch to the rod and are of the length of about four rods and as much more to be built as may necessary to at all times irrigate the land of appropriator. Said water is now used by this appropriator for irrigation and for domestic purposes on the quarter claim now in possession of the said appropriator and supposed by him to be the N. E. 4 of N. W. 4 W. 2 of N. E. 3 & N. W. 4 of S. E. 4 of said Section 11 T. 6 S. of R. 43 E. B. M. Said land not now being open for settlement appropriator is not able to give a positive description by Government survey though as the land has been surveyed he think above to be correct. Said appropriator further states and gives notice that he done the work above specified and diverted said water as above stated before any right or title to any of said water had accrued that then were at that time no other dams or ditches on said stream that said stream is very small and inadequate to properly irrigate a quarter section of land and that he did divert and intended to dam hold and use and appropriate all the water of said stream to his own use as above stated on the land of said appropriator. In Witness Whereof he hereto sets his hand at Soda Springs in said County and Territory this thirty-first day of Jan. A. D. 1888

RE: Evidence of Priority

Dear Mr. Morgan:

The Notice of Claim identified with the number shown at the end of this letter has been filed in the Snake River Basin Adjudication (SRBA). The Notice indicates the water usage is based on "Beneficial Use" or a "Statutory Claim". Water rights of this type are established by the historical use of water, dating back to when water was first used for the purpose claimed, at or on the place of use identified on the Notice. The date the water was first put to use, known as the priority date, has not been confirmed by a License, Decree, or Permit. For this reason, proof must be provided supporting the priority date.

For your reference I have provided a printout of your Notice and the pamphlet entitled **"Evidence of Priority"**. The pamphlet describes the types of evidence required and suggests which documents will fulfill this requirement. While I encourage you to read all of the pamphlet, I direct your attention to the two sections entitled **"What Kind of Evidence is Required"** and **"Some Examples of Documents Which May Be Evidence of the Priority Date"**.

It is our goal to recommend this historical water rights within the Snake River Basin as accurately as possible. Field exams to verify other items of the Notice have been or soon will be conducted by Department personnel. But, the Department will not recommend the Notice be decreed by the court if no evidence of a priority date is submitted.

Please submit the required evidence supporting the priority date by **June 3, 1991**, referencing all documents with the corresponding Notice number. If you have any questions not covered by this letter or the enclosed pamphlet, please contact this office.

All Notices required to submit this evidence are currently being reviewed for recommendation to the court. Hence, the need for expediency on your part or your agency. Every effort should be made to submit this information within 30 days of the date of this letter.

Respectfully submitted,

Ernest Carlsen
Water right Supervisor, Adjudication
