

IN THE DISTRICT COURT OF THE FIFTH JUDICIAL DISTRICT OF THE STATE OF IDAHO,
IN AND FOR THE COUNTY OF TWIN FALLS

IN RE THE GENERAL ADJUDICATION
OF RIGHTS TO THE USE OF WATER FROM
THE SNAKE RIVER BASIN WATER SYSTEM.

CIVIL CASE NUMBER: 39576

Ident. Number: A29-00188
Date Received: 4/24/1990
Receipt No: EU 3584
Received By: [Signature]

NOTICE OF CLAIM TO A WATER RIGHT
ACQUIRED UNDER STATE LAW

1. Name: KENNETH ANDRUS 208-776-5380
Address: 6948 E. OLD OREGON TRAIL RD.
LAVA HOT SPRINGS, ID 83246
AND/OR
Name: COLLEEN L. ANDRUS 208-776-5380
Address: 6948 E. OLD OREGON TRAIL RD.
LAVA HOT SPRINGS, ID 83246
AND/OR
Name: JIM ANDRUS 208-776-5380
Address: 6948 E. OLD OREGON TRAIL RD.
LAVA HOT SPRINGS, ID 83246

A2900188

2. Date of Priority: JUL 01, 1902

3. Source: EAST BOB SMITH CREEK Trib. to: PORTNEUF RIVER
Springs East Bob Smith Creek

4. Point of Diversion:

Township	Range	Section	1/4 of	1/4 of	1/4 of	Lot	County
09S	37E	12	NE	SE	SW		BANNOCK

5. Description of diverting works:

DITCH; ALSO, PORTABLE PUMP INTO SPRINKLER SYSTEM AT VARIOUS PTS.

6. Water is used for the following purposes:

Purpose	From	To	C.F.S.	(or)	A.F.A.
IRRIGATION	04/15	09/15	0.800		

7. Total Quantity Appropriated is:

0.800 C.F.S. (and/or) A.F.A.

8. Total consumptive use is 870.0 Acre Feet Per Annum.

9. Non-irrigation uses:

A29-00188

● Lava Hot Springs, Idaho
April 9, 1980

Idaho State Water
Resources Board:

I am writing this as a member of The Lava Irrigation Co., or the Sunny Side Ditch as it is commonly known; and also as a member of the Kidd family. We are the only family to still own our original homesteads, all the rest have changed ownership times without number. I am the oldest living person to have known constantly about the irrigation situation in this community.

I went to college with Elmo Hyggenson, in Pocatello in 1929 and 1930. He was your hydrologist and I believe his son is your hydrologist now.

Our project is small, only slightly more than a thousand acres in the beginning. Highway 30 has

MICROFILMED

NOV 13 1992

Taken away some of our lands
there was plenty of water, for
every one in the beginning. They
turned what water they needed
into our canal and turned it
back into the river when they were
through using it. They always tried
to keep some water in the canal
through the winters for livestock.
Sheep men would buy hay from the
farmers and feed the sheep in the
fields and have canal water
for the sheep to drink.

They built the reservoir at
Chesterfield, they tried turning the
stored water down the Portneuf
River, which would not carry the
extra water. They paid damages
for several years to farmers
downstream for flooding the fields.
They then built the long outlet canal
to bypass the farms. In the beginning
the canal would not carry the

MICROFILMED

NOV 13 1992

water, but the canal eroded until we have the bad situation we have today.

The McCammon Mill sued to get its water, and they won the lawsuit, and a decree was handed down about the various water rights. Since then, the McCammon Mill sold its water right, I believe to either the McCammon Canal Co., or to some of its members.

Ever since, our project has had less and less water, so we have tried to get water into our canal before the irrigation season began, and also after the irrigation season had ended, to soak up our fields for the next season. I personally have watered fields when several inches of snow were on the ground. I have done this all through my life time. Nobody has ever tried to stop me, and I feel that

MICROFILMED

NOV 13 1992

4

we have established a right to do this.

Now, companies have planned to build hydropower plants in the river, and they intend to demand the entire river flow when the irrigation season ends until the spring when the season begins again. The way things are shaping up, we will have scarcely any water at all. They should not be allowed to do this to us. The plants are not needed at all, and the Federal Government should never have approved their building.

Sincerely

P.O. Box 137 William Kidd

TO WHOM IT MAY CONCERN:

I, Fred G. Walker, would like to say, I was born and raised on the Walker Ranch located near Lava Hot Springs, Idaho, and lived there until February 1953. I was also the Ditch Checker for one summer while living there. There was plenty of water for all of the ranches in the area before the Chesterfield Dam was constructed, no one in the area had any water problem until after the construction of that Dam. Then the situation seemed to change a very great deal. The Sunnyside Ditch Company had plenty of water for all users at the beginning as well as at the ending of the season. They all irrigated and used the water all season until it froze up in the winter. We had all the water for all the ranchers in the area all season long. Everyone had all the water needed to irrigate their land from early in the spring until it all froze up with the winter. My folks before me had plenty and I had plenty for the same acres and the same farm from early spring until it froze up with the winter.

Signed Fred G. Walker
Fred G. Walker

Subscribed and sworn to before me this 4th day of April 1990, at Cokeville, Lincoln County, State of Wyoming.

My Commission expires: Dec. 1, 1993

(50 miners inches)
source being that certain Spring which rises 700 feet East of the West quarter corner of Section 13, Township 9 South, Range 38 East

Said waters to be diverted through the following described ditches:

Through a ditch having its intake North 15 degrees West, 1090 feet from the South quarter corner of Section 12, Township 9 South, Range 37 E. B. M.

Through a ditch having its intake South 86 degrees and 30 minutes East, 1275 feet from the Northwest corner of Section 13, same Township and Range.

Through a ditch having its intake South 34 degrees and 30 minutes East, 330 feet from the West quarter corner of said Section 13, same Township and Range.

Through a ditch having its intake South 25 degrees East, 770 feet from the West quarter corner of Section 13, same Township and Range.

Through a ditch having its intake North 2 degrees East, 960 feet from the Southwest corner of Section 13, same Township and Range.

Through a ditch having its intake 700 feet East of the West quarter corner of Section 13, same Township and Range.

For the irrigation of two parcels of land described as follows: Beginning at the South 1-16 section corner on the section line between Sections 13 and 14, thence South along section line of Sections 13 and 14, 262.5 feet, thence North 20 degrees and 34 minutes East, 230.5 feet to the South 1-16 Section line of said Section 13, thence West along the 1-16 section line of said Section 13, 98.5 feet to the place of beginning; Also, the Northeast quarter, the North half of the Southeast quarter, the Southeast quarter of the Southeast

APPENDAGE TO THE FILING OF WATER OF Kenneth, Colleen, & Jim Andrus

Our present decreed water rights are jeopardized by

1. Illegal loss free transportation of storage water in the river channel. We ask the adjudication process to correct this situation by requiring the users of the storage water to stand the loss or require all the water users in the river district to share in the loss on a percentage basis according to the cubic feet of water they have decreed to them.
2. Many years after established use rights and decreed rights numerous wells have been allowed in the upper basin area, draining the aquifer. We ask an in depth study be made to determine the affect on the river flow before a decision is made.

Historically the amount of our water has been cut down during the irrigation season because there is not enough water to fill all the rights. Of necessity we have used the water at any time during the non irrigating season in any amount needed first come first serve down the river. We request this use right recognized and established as a legitimate water right.
