Water - Blaser Spring.....

State Reclamation Engineer,
Department of Reclamation,
Boise, Idaho.

File with

A29-02258
02098

Dear Sir:

This refers to the application of Mrs. Tekla (Steve) James, Box 25, Lava Hot Springs, Idaho for water from a spring commonly known as Blaser Spring. All of the water from Blaser Spring was appropriated by the Union Pacific Railroad Company and its predecessors in interest the Oregon Short Line Railroad Company and the Utah and Northern Railway Company commencing in 1880, and the spring itself and a right of way leading from the spring to the railroad right of way was granted by Act of Congress dated July 3, 1882. The waters from said spring have been used by these railroad companies ever since and have not been abandoned nor is there any intent to abandon the waters.

Any use of any water from the spring, either the overflow thereof or from connections with the pipe line installed by the railroad companies, has been permissive and such permissive use includes any interest claimed by Mr. and Mrs. White or the Hogans prior to them, to Mrs. James and to any other person or company other than the railroad companies mentioned above.

Respectfully yours,

E. C. Phoenix
