Re: Designation of "service area" as place of use
All SRBA Claims for the City of Pocatello (see attached)

Dear Adjudication Agent:

We request that this letter be included in the adjudication files for the City of Pocatello regarding the designation of place of use for the City's municipal water rights. Specifically, due to statutory amendments in 1996 addressing municipal water rights, the City of Pocatello believes it would be more accurate to describe the place of use of its municipal water rights as "within the service area for the City of Pocatello." This is based upon our review of *Idaho Code* § 42-202B, which provides that the service area can be designated as a place of use for a municipal water right when the service area, although in part outside the corporate limits for the city, is within the city's established planning area and shares a common water distribution system with lands located within the corporate limits. This is true for the City of Pocatello because the areas served outside the corporate limits are within the impact area recognized in the City's comprehensive plan, the State Local Planning Act, and share a common distribution system with lands located within the corporate limits. Although the 1996 statutory change occurred after the filing of the City's municipal water rights in the Snake River Basin Adjudication, the City believes the term "service area" would more accurately define the place of use when these rights are recommended in a Director's Report to the SRBA Court.

IDWR Adjudication Bureau
Re: City of Pocatello
May 11, 1998
Page 2

The City of Pocatello believes that the SRBA is an appropriate forum to state the municipal place of use as accurately as possible. The statutes adopted in 1996 represent a codification of the common law and are not a change in the law applicable to municipal water rights existing before the statutory codification. I.C. § 42-202(11); Statement of Purpose, S.B. 1535 (Idaho 1996); Meyer, Christopher H., *Municipal Water Rights in Idaho: The Growing Communities Doctrine and Its Recent Codification*, Idaho Water Law News, Vol. 4, No. 1 Spring/Summer 1996, p. 5-6. See *Preliminary Special Master's Report for Water Right 34-10030* (City of Arco), p. 2, n.1 (dated March 18, 1997), *In Re: SRBA* (Twin Falls County Case No. 39576). Since the City's place of use for its municipal water rights has historically also included areas adjacent to the corporate limits, it is appropriate to designate its service area as the place of use in its SRBA claims.

Please call me with any questions regarding this matter.

Sincerely,

BEEMAN & HOFSTETTER, P.C.

Re: Case No. 39576 and Subcases mailing lists

Dear Diana:

Please revise all court certificates of mailing, labels and service lists which include Josephine P. Beeman to reflect the following address change:

Josephine P. Beeman
Dillion, Bosch, Daw & Bock, Chtd.
Fidelity Building
243 N. 8th St., Suite 200
Boise, ID 83702

records modified by
Danni 8-1-95.

This change reflects a change in the law firm Ms. Beeman is associated with, but she remains legal counsel for all clients previously represented in SRBA matters.

By copy of this letter, I request counsel to similarly modify their service lists and labels.

Sincerely,

Dillion, Bosch, Daw & Bock

Re: City of Pocatello Reservoir List
MTBR&F File No. 15863.0000

Dear Shelley:

Enclosed is a copy of the City of Pocatello's reservoir list. Carter Fritschle reviewed the City's SRBA claims last summer and requested the reservoir list to confirm that the City's reservoir and tank storage facilities are capable of being fully recharged by the quantity of water available in a 24 hour period from all of the City's sources of water.

If you have any questions, do not hesitate to call.

Yours very truly,

Re: City of Pocatello Contracts for Water From the Fort Hall
Irrigation Project

Dear Mr. Collins:

We represent the City of Pocatello in the Snake River Basin Adjudication (SRBA). Earlier this month, the City Attorney for Pocatello forwarded to us letters which describe city acreage to be deleted from the SRBA claim for the Fort Hall Irrigation Project (Project). The letters explain that non-Indian land within the Project must have been irrigated between 1983 and 1987 in order to be included in the state law portion of the Project water right. The City of Pocatello's letters list 102.97 acres currently assessed by the Project. Based on actual irrigation between 1983 and 1987, the acreage would be reduced to 47.68 acres.

As a result of receiving these letters, the City of Pocatello has asked us to determine how many acres the City has under contract with the Fort Hall Irrigation Project and whether the amount of water under those contracts might be preserved for the City's use because of the unique status of municipal water rights under Idaho law. Generally, when a city acquires a water right, it can "grow into" the full amount of the water right and the water right is not subject to forfeiture.

In our efforts to understand the nature of the water right that the City of Pocatello holds within the Project (in direct contracts or assigned contracts), we have examined City records and we have asked for help from the Project (Alan Oliver), the Bureau of Indian Affairs (Robert Fenton), and the Idaho State law library to obtain historical documents regarding Project contracts held by Pocatello. We have also talked with David Shaw at the Idaho Department of Water Resources who directed us to you.

MICROFILMED

NOV 14 1996

Mr. Lynn Collins
October 20, 1993
Page 2

The City of Pocatello has records which indicate that some Project contracts were deeded to the City by individuals in exchange for municipal water when structural problems made Project water difficult to deliver within the City. The City has always understood that it would have a right to use the Project water, particularly since its own municipal supplies were used as a replacement for Project water.

We also have in our possession a 1936 contract between the City of Pocatello and the project engineer for the Fort Hall Irrigation Project which identifies 602.42 Project acres within the corporate limits of the City of Pocatello. The contract is a supplemental repayment contract and identifies earlier repayment contracts from 1907 and 1922 for the same land. We have obtained copies of the 1907 and 1922 Acts of Congress, but have not been able to obtain any of the rules, regulations, or contracts under those earlier Acts. The 1907 Act does state, "any town or city embraced within the project may acquire water rights sufficient for its needs on such terms and condition as the Secretary of the Interior may impose." Senator Dubois of Idaho provided a letter (to the Senate Committee on Indian Affairs) to accompany the 1907 bill which states that "the city of Pocatello, with a population now of 8,000, will be supplied with water at a price to be fixed by the Secretary of the Interior." The letter also explains that the City's price is different from the price for water to supply the agricultural lands of the Project.

We do not know if the 102.97 acres in the recent Project letters represent all of the Pocatello contracts, or whether the 1936 contract, which describes 602.42 acres may be one of a series of contracts representing assignments to the City when individual users switched from Project water to City water. Mr. Oliver is checking Project billing records to determine current Project acreage for Pocatello and to determine past assignment of contract rights to or from the City.

Pocatello would use the Project water within the city limits for existing and future needs, just as the City uses its other municipal water rights. The Project water is particularly suited for uses which do not require potable water.

I understand that you will arrive in Boise this evening for meetings Thursday and Friday related to the Fort Hall reserved right and the Fort Hall state-based water right. Due to your travel schedule, Mr. Fenton offered to deliver this fax to you.

Mr. Lynn Collins
October 20, 1993
Page 3

The City of Pocatello would like me to discuss their contract rights with you. I would welcome the opportunity to meet with you and can meet at your convenience. My office is across the street from the Attorney General's office and I can be reached at 338-8233.

Sincerely yours,

DAVIS WRIGHT TREMAINE

Re: Designation of "service area" as place of use
All SRBA Claims for the City of Pocatello (see attached)

Dear Adjudication Agent:

We request that this letter be included in the adjudication files for the City of Pocatello regarding the designation of place of use for the City's municipal water rights. Specifically, due to statutory amendments in 1996 addressing municipal water rights, the City of Pocatello believes it would be more accurate to describe the place of use of its municipal water rights as "within the service area for the City of Pocatello." This is based upon our review of *Idaho Code* § 42-202B, which provides that the service area can be designated as a place of use for a municipal water right when the service area, although in part outside the corporate limits for the city, is within the city's established planning area and shares a common water distribution system with lands located within the corporate limits. This is true for the City of Pocatello because the areas served outside the corporate limits are within the impact area recognized in the City's comprehensive plan, the State Local Planning Act, and share a common distribution system with lands located within the corporate limits. Although the 1996 statutory change occurred after the filing of the City's municipal water rights in the Snake River Basin Adjudication, the City believes the term "service area" would more accurately define the place of use when these rights are recommended in a Director's Report to the SRBA Court.

IDWR Adjudication Bureau
Re: City of Pocatello
May 11, 1998
Page 2

The City of Pocatello believes that the SRBA is an appropriate forum to state the municipal place of use as accurately as possible. The statutes adopted in 1996 represent a codification of the common law and are not a change in the law applicable to municipal water rights existing before the statutory codification. I.C. § 42-202(11); Statement of Purpose, S.B. 1535 (Idaho 1996); Meyer, Christopher H., *Municipal Water Rights in Idaho: The Growing Communities Doctrine and Its Recent Codification*, Idaho Water Law News, Vol. 4, No. 1 Spring/Summer 1996, p. 5-6. See *Preliminary Special Master's Report for Water Right 34-10030* (City of Arco), p. 2, n.1 (dated March 18, 1997), *In Re: SRBA* (Twin Falls County Case No. 39576). Since the City's place of use for its municipal water rights has historically also included areas adjacent to the corporate limits, it is appropriate to designate its service area as the place of use in its SRBA claims.

Please call me with any questions regarding this matter.

Sincerely,

BEEMAN & HOFSTETTER, P.C.

Re: City of Pocatello Reservoir List
MTBR&F File No. 15863.0000

Dear Shelley:

Enclosed is a copy of the City of Pocatello's reservoir list. Carter Fritschle reviewed the City's SRBA claims last summer and requested the reservoir list to confirm that the City's reservoir and tank storage facilities are capable of being fully recharged by the quantity of water available in a 24 hour period from all of the City's sources of water.

If you have any questions, do not hesitate to call.

Yours very truly,

Josephine P. Beeman

Re: City of Pocatello Contracts for Water From the Fort Hall
Irrigation Project

Dear Mr. Collins:

We represent the City of Pocatello in the Snake River Basin Adjudication (SRBA). Earlier this month, the City Attorney for Pocatello forwarded to us letters which describe city acreage to be deleted from the SRBA claim for the Fort Hall Irrigation Project (Project). The letters explain that non-Indian land within the Project must have been irrigated between 1983 and 1987 in order to be included in the state law portion of the Project water right. The City of Pocatello's letters list 102.97 acres currently assessed by the Project. Based on actual irrigation between 1983 and 1987, the acreage would be reduced to 47.68 acres.

As a result of receiving these letters, the City of Pocatello has asked us to determine how many acres the City has under contract with the Fort Hall Irrigation Project and whether the amount of water under those contracts might be preserved for the City's use because of the unique status of municipal water rights under Idaho law. Generally, when a city acquires a water right, it can "grow into" the full amount of the water right and the water right is not subject to forfeiture.

In our efforts to understand the nature of the water right that the City of Pocatello holds within the Project (in direct contracts or assigned contracts), we have examined City records and we have asked for help from the Project (Alan Oliver), the Bureau of Indian Affairs (Robert Fenton), and the Idaho State law library to obtain historical documents regarding Project contracts held by Pocatello. We have also talked with David Shaw at the Idaho Department of Water Resources who directed us to you.

NOV 14 1996

Mr. Lynn Collins
October 20, 1993
Page 2

The City of Pocatello has records which indicate that some Project contracts were deeded to the City by individuals in exchange for municipal water when structural problems made Project water difficult to deliver within the City. The City has always understood that it would have a right to use the Project water, particularly since its own municipal supplies were used as a replacement for Project water.

We also have in our possession a 1936 contract between the City of Pocatello and the project engineer for the Fort Hall Irrigation Project which identifies 602.42 Project acres within the corporate limits of the City of Pocatello. The contract is a supplemental repayment contract and identifies earlier repayment contracts from 1907 and 1922 for the same land. We have obtained copies of the 1907 and 1922 Acts of Congress, but have not been able to obtain any of the rules, regulations, or contracts under those earlier Acts. The 1907 Act does state, "any town or city embraced within the project may acquire water rights sufficient for its needs on such terms and condition as the Secretary of the Interior may impose." Senator Dubois of Idaho provided a letter (to the Senate Committee on Indian Affairs) to accompany the 1907 bill which states that "the city of Pocatello, with a population now of 8,000, will be supplied with water at a price to be fixed by the Secretary of the Interior." The letter also explains that the City's price is different from the price for water to supply the agricultural lands of the Project.

We do not know if the 102.97 acres in the recent Project letters represent all of the Pocatello contracts, or whether the 1936 contract, which describes 602.42 acres may be one of a series of contracts representing assignments to the City when individual users switched from Project water to City water. Mr. Oliver is checking Project billing records to determine current Project acreage for Pocatello and to determine past assignment of contract rights to or from the City.

Pocatello would use the Project water within the city limits for existing and future needs, just as the City uses its other municipal water rights. The Project water is particularly suited for uses which do not require potable water.

I understand that you will arrive in Boise this evening for meetings Thursday and Friday related to the Fort Hall reserved right and the Fort Hall state-based water right. Due to your travel schedule, Mr. Fenton offered to deliver this fax to you.

Mr. Lynn Collins
October 20, 1993

Re: Designation of "service area" as place of use
All SRBA Claims for the City of Pocatello (see attached)

Dear Adjudication Agent:

We request that this letter be included in the adjudication files for the City of Pocatello regarding the designation of place of use for the City's municipal water rights. Specifically, due to statutory amendments in 1996 addressing municipal water rights, the City of Pocatello believes it would be more accurate to describe the place of use of its municipal water rights as "within the service area for the City of Pocatello." This is based upon our review of *Idaho Code* § 42-202B, which provides that the service area can be designated as a place of use for a municipal water right when the service area, although in part outside the corporate limits for the city, is within the city's established planning area and shares a common water distribution system with lands located within the corporate limits. This is true for the City of Pocatello because the areas served outside the corporate limits are within the impact area recognized in the City's comprehensive plan, the State Local Planning Act, and share a common distribution system with lands located within the corporate limits. Although the 1996 statutory change occurred after the filing of the City's municipal water rights in the Snake River Basin Adjudication, the City believes the term "service area" would more accurately define the place of use when these rights are recommended in a Director's Report to the SRBA Court.

IDWR Adjudication Bureau

Re: City of Pocatello

May 11, 1998

Page 2

The City of Pocatello believes that the SRBA is an appropriate forum to state the municipal place of use as accurately as possible. The statutes adopted in 1996 represent a codification of the common law and are not a change in the law applicable to municipal water rights existing before the statutory codification. I.C. § 42-202(11); Statement of Purpose, S.B. 1535 (Idaho 1996); Meyer, Christopher H., *Municipal Water Rights in Idaho: The Growing Communities Doctrine and Its Recent Codification*, Idaho Water Law News, Vol. 4, No. 1 Spring/Summer 1996, p. 5-6. See *Preliminary Special Master's Report for Water Right 34-10030* (City of Arco), p. 2, n.1 (dated March 18, 1997), *In Re: SRBA* (Twin Falls County Case No. 39576). Since the City's place of use for its municipal water rights has historically also included areas adjacent to the corporate limits, it is appropriate to designate its service area as the place of use in its SRBA claims.

Please call me with any questions regarding this matter.

Sincerely,

BEEMAN & HOFSTETTER, P.C.

Re: City of Pocatello Reservoir List
MTBR&F File No. 15863.0000

Dear Shelley:

Enclosed is a copy of the City of Pocatello's reservoir list. Carter Fritschle reviewed the City's SRBA claims last summer and requested the reservoir list to confirm that the City's reservoir and tank storage facilities are capable of being fully recharged by the quantity of water available in a 24 hour period from all of the City's sources of water.

If you have any questions, do not hesitate to call.

Yours very truly,

Josephine P. Beeman

Re: City of Pocatello Contracts for Water From the Fort Hall
Irrigation Project

Dear Mr. Collins:

We represent the City of Pocatello in the Snake River Basin Adjudication (SRBA). Earlier this month, the City Attorney for Pocatello forwarded to us letters which describe city acreage to be deleted from the SRBA claim for the Fort Hall Irrigation Project (Project). The letters explain that non-Indian land within the Project must have been irrigated between 1983 and 1987 in order to be included in the state law portion of the Project water right. The City of Pocatello's letters list 102.97 acres currently assessed by the Project. Based on actual irrigation between 1983 and 1987, the acreage would be reduced to 47.68 acres.

As a result of receiving these letters, the City of Pocatello has asked us to determine how many acres the City has under contract with the Fort Hall Irrigation Project and whether the amount of water under those contracts might be preserved for the City's use because of the unique status of municipal water rights under Idaho law. Generally, when a city acquires a water right, it can "grow into" the full amount of the water right and the water right is not subject to forfeiture.

In our efforts to understand the nature of the water right that the City of Pocatello holds within the Project (in direct contracts or assigned contracts), we have examined City records and we have asked for help from the Project (Alan Oliver), the Bureau of Indian Affairs (Robert Fenton), and the Idaho State law library to obtain historical documents regarding Project contracts held by Pocatello. We have also talked with David Shaw at the Idaho Department of Water Resources who directed us to you.

The City of Pocatello has records which indicate that some Project contracts were deeded to the City by individuals in exchange for municipal water when structural problems made Project water difficult to deliver within the City. The City has always understood that it would have a right to use the Project water, particularly since its own municipal supplies were used as a replacement for Project water.

We also have in our possession a 1936 contract between the City of Pocatello and the project engineer for the Fort Hall Irrigation Project which identifies 602.42 Project acres within the corporate limits of the City of Pocatello. The contract is a supplemental repayment contract and identifies earlier repayment contracts from 1907 and 1922 for the same land. We have obtained copies of the 1907 and 1922 Acts of Congress, but have not been able to obtain any of the rules, regulations, or contracts under those earlier Acts. The 1907 Act does state, "any town or city embraced within the project may acquire water rights sufficient for its needs on such terms and condition as the Secretary of the Interior may impose." Senator Dubois of Idaho provided a letter (to the Senate Committee on Indian Affairs) to accompany the 1907 bill which states that "the city of Pocatello, with a population now of 8,000, will be supplied with water at a price to be fixed by the Secretary of the Interior." The letter also explains that the City's price is different from the price for water to supply the agricultural lands of the Project.

We do not know if the 102.97 acres in the recent Project letters represent all of the Pocatello contracts, or whether the 1936 contract, which describes 602.42 acres may be one of a series of contracts representing assignments to the City when individual users switched from Project water to City water. Mr. Oliver is checking Project billing records to determine current Project acreage for Pocatello and to determine past assignment of contract rights to or from the City.

Pocatello would use the Project water within the city limits for existing and future needs, just as the City uses its other municipal water rights. The Project water is particularly suited for uses which do not require potable water.

I understand that you will arrive in Boise this evening for meetings Thursday and Friday related to the Fort Hall reserved right and the Fort Hall state-based water right. Due to your travel schedule, Mr. Fenton offered to deliver this fax to you.
