DEPARTMENT OF WATER ADMINISTRATION

CLAIM TO A WATER RIGHT

Established by Diversion and Application to Beneficial Use

Under the provisions of Section 42-225a, Idaho Code, a person may file a claim to a right to use water which has been established by diversion and application to beneficial use. The filing of this claim does not confirm the water right but will serve for information purposes only. It may, however, become the basis for future adjudication of the water right by the Court.

(Please refer to the instructions on the back of this form)

1. Name of claimant CHARLES F. BULLOCK
 post office address Route #1, Box 9 McCammon, Idaho 83250
See Remarks, Section
2. The point of diversion is in 1/4 of 1/4 Section 34 Township 8S
Range 36E B.M. located on Belle Marsh Creek
(name of source)
 tributary to Marsh Creek in Bannock County.
3. Dates of priority claimed: list the priority for each separate quantity that you claim. Priority dates should be based upon the earliest diversion of the water which has resulted in continued beneficial use since that time. If there has been an interval of five years or greater when the water was not beneficially used for the same purpose as originally appropriated, the priority that you claim should date from the time that the water was again beneficially applied following the period of non-use.
 - a. Date of priority claimed: June 1, 1962 amount: 2.4 c.f.s. or _____ acre feet
June 1, 1962 amount: _____ c.f.s. or _____ acre feet
 _____ amount: _____ c.f.s. or _____ acre feet
 Total claimed 2.4 c.f.s. or _____ acre feet.
 - b. Explain the purpose for which the water has been used and the time during the year when you have used the right claimed:
 use irrigation period of use from May 1 to Nov. 1 (both dates inclusive)
 use stockwatering period of use from Jan. 1 to Dec. 31 (both dates inclusive)
 use _____ period of use from _____ to _____ (both dates inclusive)
 use _____ period of use from _____ to _____ (both dates inclusive).
4. Description of diverting works:
 - a. Surface water diversion dam and/or headgate: material is composed of temporary dam each year consisting of rocks, earth, etc. _____; length is 10 feet; height is 2 feet; width at bottom is 10 feet; with at top is _____ feet; explain any increase in diversion capacity since structure was first built, giving dates and estimated capacities if known NONE
 - b. Underground water diverting works: is well flowing or pumped N.A.; depth of well is _____ feet; diameter of well is _____ inches; type of pump is _____ capacity of pump is _____ g.p.m.; name and address of well driller is _____

29 4020

attach well logs if available; has there been any change in pump or motor since well was first completed
 _____; if so, give dates and explain _____

c. Conveying works: length of ditch to place of use is variable 0 to 2500 feet; width of ditch at top is 2 feet; width of bottom of ditch is 2 feet; depth of water is 1 1/2 feet; grade of ditch per 1000 feet is _____ feet; material through which ditch passes is earth; maximum length of pipe line to first place of use is -- feet; diameter of pipe line is _____ inches; type of pipe _____; grade of pipe per 1000 feet is _____

Please explain any changes or increase in size of conveying system since water was first appropriated, giving date and dimensions if possible _____

d. If water is stored: name of reservoir N.A.
total capacity of reservoir is _____ acre feet; active capacity of reservoir is _____ acre feet,
year construction commenced _____; year completed _____; date first used _____
period of storage is from _____ to _____; is reservoir drained each year _____;
is reservoir on or off stream _____ explain _____

if feeder canal is used give maximum carrying capacity _____ c.f.s.; if reservoir is off stream, describe location of reservoir by 40-acre subdivisions _____

has there been any enlargement of the reservoir since it was first built_____, if so, give dates and describe_____

5. a. Where water is used for irrigation, describe area irrigated by 40-acre subdivisions and give total acres:

[illegible]

Total number of acres to be irrigated 202

Explain any significant increase in area irrigated since first use, give dates and acreages if known. _____

b. Do you get water through a ditch owned by several users? NO if yes, the name of the ditch . The other users and their respective interests in the ditch are (if known)

6. Where water is used for stock watering, give number of each kind of stock watered 100 head of beef cattle

7. Where water is used for domestic or municipal purposes give number of families served N.A.
name of town supplied

8. Where water is used for other purposes not above enumerated, give the nature of use, the extent of use, and any details regarding the initiation of the right or subsequent later expansion. Be as specific as possible, giving dates and quantities

INSTRUCTIONS

Your claim should set forth all necessary information to describe your claimed right. Failure to give enough information may make your claim of little value. Some of the items in the form may not apply to your situation. Please use additional sheets if space provided is not sufficient to fully answer the questions.

Paragraph No.

1. Give full name and post office address of person or company making the claim.
2. Describe the point of diversion by 40-acre subdivision. Give the name of the source, the drainage to which it is tributary if surface water, and the county in which the point of diversion is located. If there is more than one point of diversion, list others in the remarks section.
3. Give the priority dates and the quantities of water that you claim. You should accurately list the dates that you initiated each new use of the water. List separately the dates and amounts of water involved in each enlargement of the diversion. (Example: If you diverted 0.8 c.f.s. of water for irrigation on May 18, 1871, for the first time for use on 40 acres of land, and then later you enlarged the diversion by diverting an additional 0.4 c.f.s. of water to irrigate an additional 20 acres of land on June 1, 1901, your right should be described as follows:

Date of priority claimed:	May 18, 1871	amount:	0.8 c.f.s. or	_____	acre feet
	June 1, 1901	amount:	0.4 c.f.s. or	_____	acre feet
	Total claimed:		1.2 c.f.s. or	_____	acre feet

Since the water was used for irrigation between April 1 and October 31 on that particular farm, part b. would be completed as follows:

use irrigation period of use from April 1 to October 31 (both dates inclusive). If the water had been used for any other purpose, you would have described the priority date, amount, use, and period of use in a similar manner.

4. Describe the diversion works and explain any changes since the right was first initiated.
5. If the water is used for irrigation, give the total acreage and list the lands irrigated by 40-acre subdivisions and complete the other questions.
- 6, 7, & 8. Describe any other uses of water.
9. In the remarks section, give any information or details that you feel are not fully covered or that need clarifying. You might explain your operation, where the water is returned to if for an industrial or non-consumptive right, the condition and temperature of the returned water, and any other information to help explain your claim.

You may wish to include as a part of your claim, affidavits of witnesses who are familiar with your right and who have a personal knowledge of the circumstances which you have described in your claim. You may submit maps, drawings, certified copies of posted notices which may have been filed in the county courthouse, water measurement records, or any other document which you feel will support your claim.

Your claim will be advertised in a county newspaper for two weeks. Exceptions to your claim which dispute the water right that you have described may be received by the Department of Reclamation and you will be provided a copy of such exceptions.

The fee for filing this claim with the Department of Water Administration, Statehouse, Annex 2, Boise, Idaho, 83707, is \$10.00.

I do own the Bell Marsh Ranch described as follows; (see attached description #A29-04020). We do use said water of Bell Marsh Creek from the first day of May (5/1), to the thirty first day of December (12/31), for the use of raising crops and live stock water, and for the irrigation of pasture lands. We have fully utilized this water since 1967 when we purchased the Ranch from Lew and Wilda Carlile.

We have also used the water of Saxon Spring (described in attached profile report #A29-10716) for domestic purposes, irrigation of yard garden, trees and pasture, since January 1, 1967 (1/1/67).

I can also testify that Lew Carlile used the water from about July 20, 1921 (7/20/21) at which time Mr. Carlile and wife Wilda Carlile purchased the land from Christine Lavatta Kniffin and Philip Kniffin, husband and wife.

My husband, C.F. Bullock worked on the farm as a boy and as a man, for the Carlile's and as friends we witnessed the fruits of their labor over the years, so I know of their works and dedication to the building up of this beautiful ranch of which I am now the sole owner.

Mr. and Mrs. Carlile and my husband Mr. Bullock are now deceased but the fruits of their labor is still evident. The ranch is now leased to a very capable renter. Randall Morris runs the ranch below the road and my son La Mar Bullock runs the ranch above the road. The water is used to good advantage each year.

I solemnly swear that these statements are true and correct to the best of my knowledge.
