Dear Mr. Carlson:

In establishing evidence for our two claims A29-10029 and A29-04069 the following documents are provided for our claimed priority dates.

A29-10029 A signed affidavit is enclosed which states that in 1928 water was pumped directly out of the Portneuf River and used for the production of Portland Cement.

A29-04069 A copy of an audit report is enclosed which states that well equipment was present during 1929.

If you need any additional information concerning these dates please do not hesitate to call me at (208) 775-3351.

RE: Personal affidavit establishing water priority rights for Ash Grove Cement Company.

Dear Mr. Carlson:

During my employment with Idaho Portland Cement and Oregon Portland Cement (now Ash Grove Cement Company), I witnessed that prior to the installation of the first well in 1929 we pumped water out of the Portneuf River to supply our process with the necessary water. The date in which we pumped water out of the river would have been during the year of 1928.

Sincerely,

Frank Whitworth

Board of Directors,
Idaho Portland Cement Company,
Inkom, Idaho.

Gentlemen:

At your direction we have audited the accounts and records of the Idaho Portland Cement Company for the period from the date of incorporation to December 31, 1929. The results of our audit are presented in this report, which includes: (1) text of comments and explanatory detail; (2) statement of financial condition at December, 31, 1929; (3) statement of profit and loss for the seven months ended December 31, 1929; (4) schedules supplementing the foregoing statements.

The company was incorporated under the laws of the State of Idaho on July 20, 1928. After acquiring quarry property and land for a mill site, construction of the plant was begun. The plant was first operated for a short time in June, 1929, and was placed in full operation in July, 1929. Since very little manufacturing was done in the month of June, the end of the construction period has been fixed as June 30, 1929. The operating statements, however, cover a period of seven months as a small amount of cement was manufactured and sold in June.

Re: A25-07306, A29-10029, A29-07076 and A29-04069

Dear Sir or Madam:

Enclosed is a New Property Owner Notice of Change of Water Right Ownership respecting certain claims currently registered under the name of Ash Grove Cement West, Inc., a Nevada corporation ("AGW"). This Notice is being filed in connection with the recent merger of AGW into its corporate parent, Ash Grove Cement Company, a Delaware corporation ("Ash Grove"). Prior to the merger, AGW was a wholly-owned subsidiary of Ash Grove. As a result of the merger, AGW was merged into and became a part of Ash Grove, and Ash Grove succeeded to all of the assets of AGW, including the subject claims.

As a result of the merger, business is now being conducted in the Ash Grove name. However, no change in facilities or operations occurred as a result of the merger.

Also enclosed is an Affidavit Respecting Water Rights executed on behalf of both corporations. A copy of the Articles of Merger, certified by the Delaware Secretary of State, is attached as an exhibit to the affidavit. A copy of each of the Notices of Claim to a Water Right is also enclosed.

If you require any further documentation respecting the merger, please contact the undersigned. Regular communication respecting the claims should continue to be addressed to the same address as before.

Sincerely,

Eileen F. Sollars
