DEPARTMENT OF WATER RESOURCES

CLAIM TO A WATER RIGHT

Under the provisions of Section 42-243, Idaho Code, any person using or claiming rights to the public waters of Idaho established by diversion and application to a beneficial use must file a claim with the Department of Water Resources on or before June 30, 1983. Exempted from this filing are single family domestic uses as defined in Section 42-230(d), Idaho Code. Also exempted are rights represented by a permit, license, decree, adjudicated right, or a previously filed claim.

The filing of this claim does not confirm the water right claimed but failure to file may result in forfeiture of a water right.

Notice is hereby given that Nathaniel E. White

P. O. Box 1524, Pocatello, Idaho 83201

claims a right to the diversion and beneficial use of the surface or ground water. The extent and nature of said claim is as follows:

- (1) Date of priority: (When was the water first applied to a beneficial use) March 14, 1922

A claim is not acceptable on a ground water source with a priority later than March 25, 1963 or on a surface water source with a priority later than May 20, 1971. An exception is that a claim may be filed on single family domestic use from a ground water source.

- (2) Describe the source of water: (Name of stream, lake, spring, etc., or ground water)

Unnamed Stream tributary to Sinks

- (3) Describe the purpose for which the water has been used and the time during the year when you have used the right claimed:

The United States of America,

To all to whom these presents shall come, Greeting:

WHEREAS, a Certificate of the Register of the Land Office at Blackfoot, Idaho, has been deposited in the General Land Office, whereby it appears that, pursuant to the Act of Congress of May 20, 1862, "To Secure Homesteads to Actual Settlers on the Public Domain," and the acts supplemental thereto, the claim of William J. White has been established and duly consummated, in conformity to law, for the southwest quarter of the southwest quarter of Section thirty-four in Township six south of Range thirty-four east of the Boise Meridian, Idaho, containing forty acres,

According to the Official Plat of the Survey of the said Land, returned to the GENERAL LAND OFFICE by the Surveyor-General, NOW KNOW YE, That there is, therefore, granted by the UNITED STATES unto the said claimant the tract of Land above described TO HAVE AND TO HOLD the said tract of Land, with the appurtenances thereof, unto the said claimant and to the heirs and assigns of the said claimant forever, subject to any vested and accrued water rights for mining, agricultural, manufacturing, or other purposes, and rights to ditches and reservoirs used in connection with such water rights, as may be recognized and acknowledged by the local customs, laws and decisions of courts; and there is reserved from the lands hereby granted a right of way thereon for ditches or canals constructed by the authority of the United States.

IN TESTIMONY WHEREOF, I, Warren G. Harding,

President of the United States of America, have caused these letters to be made Patent, and the seal of the General Land Office to be hereunto affixed.

GIVEN under my hand, in the District of Columbia, the **FOURTEENTH** day of **MARCH** in the year of our Lord one thousand nine hundred and **TWENTY-TWO** and of the Independence of the United States, the one hundred and **FORTY-SIXTH**.

RE: White Springs Water Rights
Claim #29 4095 and #20 4096

From: Nina Isham

Date: January, 1994

I grew up with my parents, four sisters, and two brothers on 40 acres west of Pocatello, currently known as the property at the end of West White Road. In my childhood, the property was better known as the Maple Leaf Dairy. My parents obtained a deed of ownership for the 40 acres on West White Road on March 14, 1922, from President Taft, after they had fulfilled the homestead requirements. Part of this requirement was that a water source be developed in order to help establish property improvement. The water that was used for the household, barns, the dairy, livestock and crops was obtained from the canyon springs that are west of the property (SE 1/4 Section 33 and SW 1/4 Section 34).

In fact, in 1922, my brothers, Nathaniel "Todda" and William "Bill" dug the original trenches and ran the first pipe from the springs to the primary dwelling at the time. My family also diverted part of the water from all of the springs to a holding pond--that we created--which was used for irrigation and watering animals.

POOR ORIGINAL

Therefore, I have first-hand knowledge and I actually witnessed (or participated in) the improvements made on the property and the beneficial use made of the water sources that are included under Water Rights Claim Numbers 29 4095 and 29 4096.

When another house was added in the early 1930s, the same water source was used for this second house that had been used for the original dairy barn--from the aforementioned springs. Currently, the water from the springs is still being used by the two houses for domestic use, as well as for irrigation, watering purposes, and fire protection for the property.

If additional information or clarification is needed, please contact me.

EVIDENCE OF PRIORITY

Evidence of priority can be established in many ways. Tax records, aerial photos, power bills and affidavits are a few examples of evidence that can be submitted.

If an affidavit is used for evidence of priority the least amount of info. that is needed is as follows:

- 1) From whom is the affidavit
 - 2) How the person who signed the affidavit can be contacted (Phone # and/or address).
 - 3) When the water was first used; this date should be as specific as possible (month/day/year). 03/14/22
 - 4) The basis of the information; how this person has knowledge of the date and use. Example: "I lived next to Mr. Smith when he began using water from Willow Creek to irrigate 40 acres in the SW 1/4 of section 2 in 1936."
- * The more information that the affidavit has on the date and use, the better the evidence for support.

From: William White

Date: January, 1994

My family lived on the property that has been previously known as Maple Leaf Dairy. My parents gained ownership of the 40 acres where this Dairy was located (currently referred to as the property at the end of West White Road) on March 14, 1922, and the water that was used for houses, barns, the dairy, livestock and crops was obtained from the canyon springs that are directly above the property (SE 1/4 Section 33 and SW 1/4 Section 34).

In fact, when I was a young man in 1922, my brother, Nathaniel and me dug the original trenches and ran the first pipe from the springs to the primary dwelling at the time, and also to a holding pond that was used for irrigation and watering animals. So, I have first-hand knowledge and experience about the improvements made on the property and the beneficial use made of the water under Water Rights Claim Numbers 29 4095 and 29 4096.

When another house was added in the early 1930s, the same water source was used that had been used for the original dairy barn, from the aforementioned springs.

The springs were used prior to 1922
My Family Homesteaded the Forty Acres in 1915
we lived and developed a dairy - Built a house &
barn using the water from the springs all that time
My brother & I piped the water over a Quarter Mile
to a tank above the barn, to put water in the house
& barn. That left enough water in creek for
cattle & horses & birds.

As you know, cattle are just tolerant of springs
making water used below unfit for humans.

The land is in a narrow steep canyon
