RE: Snake River Basin Adjudication (SRBA), Claim to Water Right A29-04178

Dear Sir:

I have started review of the SRBA water right claims in the Portneuf River area. The above referenced claim is for part of the water system of the Lava Hot Springs Foundation.

This claim is based on beneficial use dating to 1908. This type of claim requires flow measurements to confirm quantity claimed for beneficial use. In this case, pumping or flow records, which date from 1980 to 1987, will satisfy this requirement. Therefore, by this letter, I am requesting copies of the flow records for this source. I have enclosed a copy of the claim referenced for your perusal.

Please provide the documentation requested showing the basis for the SRBA claim referenced above within the next 30 days. Without the requested data the claims will be recommended as disallowed.

I look forward to your timely response, should you have questions regarding this matter please feel free to contact this office.

Respectfully submitted,

Allen B. Ruberry
Sr. Water Resource Agent
Adjudication Bureau

Subject: Lava Hot Springs Foundation - B31

Hi, Al. I pulled statutes, read the Atty Gen opinion, and talked to Carter F. I can't find any info that indicates that commercial use cannot be claimed by a state agency or department, and is only available to a private or for profit business/organizations. Carter concurs that commercial use is appropriate and can be recommended for the Lava Hot Springs Foundation per the SRBA claim. Bye now.

ATTORNEY GENERAL OPINION NO. 97-1

RECEIVED
JAN 17 1997
Department of Water Resources
Eastern District Office

RECEIVED
JAN 13 1997
Department of Water Resources

To: Robert I. Meline, Executive Director
Lava Hot Springs Foundation
P.O. Box 669
Lava Hot Springs, Idaho 83246

Per Request for Attorney General's Opinion

QUESTIONS PRESENTED

1. Does the Lava Hot Springs Foundation, under the terms of title 67, chapter 44, Idaho Code, have authority to control the use of hot springs and hot waters located on lands under the control of the Foundation?
2. If the Foundation has the authority to control the use of hot springs and hot waters on lands under the control of the Foundation, is such control exclusive, or is the use of such waters subject to the provisions of title 42, Idaho Code?
3. If the Foundation has authority to control the use of hot springs and hot waters on lands under the control of the Foundation, does such authority extend to authorizing the use of such hot springs and hot waters by private parties on private lands in exchange for an easement across such lands for a pipeline used for the discharge of the Foundation's waste water, or would such a use have to be licensed by the Idaho Department of Water Resources?

CONCLUSION

1. Yes, the Lava Hot Springs Foundation (Foundation) maintains authority to manage and control the use of all hot waters lawfully appropriated under state law that rise and flow on the Foundation's lands.
2. The rights to the use of all hot waters that rise and flow at Lava Hot Springs are water rights that have been appropriated under state law and are subject to regulation by the Idaho Department of Water Resources (Department) under the provisions of title 42 of the Idaho Code.

3. The Foundation has the authority under title 67, chapter 44, Idaho Code, to enter into agreements involving easements with private parties to discharge the Foundation's waste water. However, the Foundation may not authorize the use of any portion of its water in a manner that is inconsistent with its state water right. Other parties seeking to use the Foundation's waste water for new uses or on lands other than the authorized place of use must file for a permit from the Idaho Department of Water Resources.

BACKGROUND

Lava Hot Springs was acquired from the United States under an act of Congress in 1902 which conveyed certain lands to the state of Idaho for public use subject to state regulation. The Act reads as follows:

Chapter 1076. -- An Act to grant certain lands to the State of Idaho. Be it enacted by the Senate and the House of Representatives of the United States of America in Congress assembled, That lots seven and eight in section twenty-one, the northwest quarter of the southwest quarter, and lots nine and ten in section twenty-two, all in township nine south, range thirty-eight east, base meridian, in the State of Idaho, are hereby ceded, granted, relinquished, and conveyed unto said State of Idaho for public use under such regulations as said State may prescribe. 32 Stat. 330 (1902)

Seventeen years later, in 1919, the state of Idaho passed Senate Bill No. 9 vesting in the department of welfare the responsibility to manage the lands and property at Lava Hot Springs. 1919 Idaho Sess. Laws 108. The Lava Hot Springs Foundation was created in 1935 and the statutes were amended to make the Foundation responsible for the management and control of the lands and property at Lava Hot Springs. 1935 Idaho Sess. Laws 16. The Foundation, operating as an agency within the department of parks and recreation, continues to manage the lands at Lava Hot Springs today.

ANALYSIS

A. Introduction

The threshold issue raised by the questions presented is whether the unique language in title 67, chapter 44, Idaho Code, creates a special type of water right for the benefit of the Foundation that is different from all other state water rights acquired under the appropriation process. An underlying legal issue is whether it is possible in this state for another type of state water right to exist other than one acquired by appropriation under Idaho law.

Idaho Code § 67-4401 provides: "All rights to the operation, management and control, and to the maintenance and improvement of the lands and property belonging to the state of

Idaho situated within and near the city of Lava Hot Springs, in Bannock County, state of Idaho, hereinafter more particularly described is vested in the Lava Hot Springs Foundation which shall be an agency within the department of parks and recreation"

Idaho Code § 67-4403 describes the lands and property placed under the jurisdiction and control of the Foundation. Idaho Code § 67-4403 provides:

Description of property: The property hereinbefore referred to, and herewith placed under the jurisdiction and control of the said foundation, is described as follows: The northwest quarter (1/4) of the southwest quarter (1/4), and lots nine (9) and ten (10) in section twenty-two (22), and lots seven (7) and eight (8) in section twenty-one (21) in township nine (9), south, range thirty-eight (38) east of the Boise meridian, together with all and singular the tenements, hereditaments and appurtenances thereunto belonging, or in any wise appertaining, and the hot springs and hot waters arising and flowing thereon, in Bannock County, state of Idaho.

Upon further analysis of Idaho's Constitution and related water statutes, the language in Idaho Code § 67-4403 placing jurisdiction and control of the hot springs and hot waters under the direction of the Foundation is intended to refer to only those waters lawfully appropriated under state law.

B. The Right to Use Water at Lava Hot Springs is Sanctioned under Water Rights Acquired by Appropriation

All rights to water under state law in Idaho are acquired by appropriation. Article 15, § 3 of the Idaho Constitution provides: "The right to divert and appropriate the unappropriated waters of any natural stream to beneficial uses, shall never be denied, except that the state may regulate and limit the use for power purposes" Idaho Code § 42-101 provides: "All the waters of the state, when flowing in their natural channels, including the waters of all natural springs and lakes within the boundaries of the state are declared to be the property of the state, whose duty it shall be to supervise their appropriation and allotment to those diverting the same therefrom for any beneficial purpose" Idaho Code § 42-103, prior to the 1971 amendments, provided: "The right to the use of the waters of rivers, streams, lakes, springs, and of subterranean waters, may be acquired by appropriation." Idaho Code § 42-104 provides: "The appropriation must be for some useful or beneficial purpose, and when the appropriator or his successor in interest ceases to use it for such purpose, the right ceases." Idaho Code § 42-106 provides: "As between appropriators, the first in time is the first in right."

The consistent thread in Idaho's Constitution and water statutes is that the right to use water must be acquired by appropriation. The Idaho Supreme Court has long held that the method to acquire water in Idaho is by appropriation and that the state may regulate the means of appropriating water within the state. Speer v. Stephenson, 16 Idaho 707, 102 P. 365 (1909).

Unquestionably, the law of prior appropriation is specified as the method to establish the right to use water in Idaho. Absent a clear statutory expression by the legislature to create an exception to the appropriation statutes, all rights to the use of water in Idaho must be acquired by appropriation. The language in Idaho Code §§ 67-4401 and 67-4403 is not a clear expression that the legislature intended to create an exception from the appropriation process for the waters at Lava Hot Springs. The most reasonable interpretation of this language is that the Foundation's jurisdiction and control over waters at Lava Hot Springs refers to those waters that have already been appropriated or that will be appropriated in the future. The legislature has had several opportunities over the years to pass laws regarding the use of water by the state acting through the governor or a state board for a special purpose. In every instance there is a clear expression in the statutes that the water for the special purpose should be appropriated in trust for the people of the state of Idaho.¹ Additionally, Idaho Code § 42-1503 requires that an application to appropriate water be filed by the Idaho Water Resource Board before a minimum stream flow can be established under Idaho law.

Other statutory authority as well as past actions on the part of the Foundation and the Department indicate that the use of the water at Lava Hot Springs was based upon appropriative water rights developed under state law. Perhaps most instructive on the nature of the Foundation's water rights is the language contained in Idaho Code §§ 58-703 and 58-704, passed in 1931, which addressed cessions to the United States for the construction of a national veterans' sanatorium or hospital at Lava Hot Springs. Idaho Code § 58-703 provides: "The state board of land commissioners, acting for and on behalf of the state of Idaho, is hereby authorized, empowered and directed to cede, grant, relinquish and convey to the government of the United States, . . . such portion of the hot mineral and cold water and water rights appurtenant to said lands as may be necessary and convenient [for the operation of a national veterans' sanatorium or hospital]." The description of the lands provided in section 58-704 again refers to waters and water rights appurtenant thereto. The use of the terms "water rights" and "appurtenant" in sections 58-703 and 58-704 is a strong indicator that the Foundation merely controlled the use of the water under a traditional state water right that is appurtenant to lands at Lava Hot Springs.

The grant from the United States in 1902 provided that title to Lava Hot Springs was to be held by the state of Idaho under such regulations as the state may prescribe. In 1919, the Idaho Legislature passed laws directing the department of welfare to manage and control the hot springs and hot waters at Lava Hot Springs. It appears that the department of welfare was directed to manage and control the hot springs and the same hot waters that had been used for many years at Lava Hot Springs prior to the passage of the 1919 Act. In fact, the Foundation recognized this earlier use and claimed a 3 cfs year round water right with a 1902 priority when it filed a Claim to a Water Right with the Idaho Department of Water Resources in 1980. The Foundation filed applications for additional water rights as its needs increased over the years and the Department has processed the applications and issued two water right licenses authorizing the use of additional waters at Lava Hot Springs.

Refers to Statute,
Claim 29-4178

C. The Water at Lava Hot Springs is Subject to State Regulation under Title 42 and must be Applied in a Manner Consistent with the Underlying Water Right

Idaho Code § 67-4401 places a duty on the Foundation to manage and control the hot springs and hot waters arising from lands at Lava Hot Springs. The most reasonable interpretation of this statute is that jurisdiction and control is limited to those waters appropriated under state law. The Foundation's water rights acquired under the appropriation process are the same type of water rights held by other water users in the state and are subject to regulation under title 42 of the Idaho Code.

Finally: under Idaho Code § 67-4402, the Foundation is authorized to exercise such powers as are incidental or conducive to the attainment of the purposes of the Foundation. The authority granted to the Foundation in Idaho Code § 67-4402 appears sufficient to allow the Foundation to enter into agreements pertaining to easements, provided the purpose of the agreement is incidental or conducive to the attainment of the purposes of the Foundation. An agreement which pertains to an easement to discharge waste water from lands managed by the Foundation appears to fall within the grant of authority under Idaho Code § 67-4402. However, as with all appropriators of water, the Foundation must use its water in a manner that is consistent with its underlying water rights. The Foundation's water rights are appurtenant to the lands described in Idaho Code § 67-4403 and should not be applied to other lands. If an adjacent property owner desires to make beneficial use of the Foundation's waste water, that person needs to file an application for permit to appropriate water with the Idaho Department of Water Resources. The Foundation does not have the ability to enter into contracts authorizing the use of its waste water on lands not authorized under the water right.

AFFIDAVIT

I CHARLES B. KUNZE THIS DATE: MAR 22-95 DO SOLEMNLY
STATE THAT THE NATURAL HOT MINERAL SPRINGS LOCATED IN LAVA HOT
SPRINGS IDAHO BY THE STATE FOUNDATION OFFICE FLOWING INTO THE
WORLD FAMOUS HOT POOLS HAVE BEEN UTILIZED FOR 65
YEARS FOR BENEFICIAL USE OF THE STATE OF IDAHO AND STATE
FOUNDATION.

MY KNOWLEDGE OF THIS HAS BEEN FORM PERSONAL OBSERVATION OF THE
FACILITY AND THE SPRINGS.

THE PURPOSE AND USE OF THESE WATERS HAS BEEN, HOT MINERAL
BATHS, THERAPY POOLS, IRRIGATION OF LAWNS AND ADJACENT
GARDENS, HEAT SOURCE FOR OFFICE BUILDING AND DRESSING ROOMS,
SHOWERS AND BATHROOM FACILITY USE, AND ALSO PUMPED OVER TO
THE OLYMPIC SWIMMING COMPLEX TO FILL AND HEAT THE BIG POOL,
AND UTILIZED AT THE POOL FOR THE SHOWERS, HEATING OF THE
POOL WATER, THE POOL BUILDING AND SOME IRRIGATION OF LAWNS AND
FLOWER BEDS SURROUNDING THE OLYMPIC POOLS.

THESE WATERS HAVE BEEN PUT TO BENEFICIAL USE BY THE STATE
FOUNDATION FOR MANY YEARS.

IN WITNESS HEREWITH I Charles B. Kunze
AFFIRM MY STATEMENT FOR PUBLIC RECORD THERE
AFOREMENTIONED FACTS PERTAINING TO THE NATURAL HOT SPRINGS,
LOCATED ON THE STATE FOUNDATION PROPERTY.

EVIDENCE OF PRIORITY

Dear Claimant:

The Notice of Claim identified above and or below has been filed in the Snake River Basin Adjudication(SRBA). The notice indicates a water usage of irrigation, or other commercial application that is based on **BENEFICIAL USE**. Water rights of this type are established by the historical use of water, dating back to when the water was first used for the purpose claimed. This date is know as the **PRIORITY DATE**, has not been confimed by a license, Decree, or Permit. For this reason, proof must be provided supporting the priority date. As the claimant, you are responsible for submitting the necessary proof to support the **PRIORITY DATE**.

For your reference, I have provided a printout of your Notice of claim and the pamphlet **EVIDENCE OF PRIORITY**. The pamphlet suggests which documents will fulfill this requirement.

The IDWR can not recommend the notice be decreed by the court if no evidence of a priority date is submitted.

Please submit the documentation supporting the priority date by March 31, 1995, referencing the information with the corresponding Water right number. If you have any questions, please contact this office.

RE: Claim No. 29-4178

Dear Claimant:

The Department of Water Resources has completed the advertising of your claim to a water right, and no further action is authorized under Section 42-243 and 42-244, IDAHO CODE. Your claim will be retained in our files and will be available at any time for use by you or the court.

The filing and advertising of the claim does not confirm the water right claimed, but will serve to record and preserve the information and the evidence which you included in your claim.

If, at a later date, you find that you have additional information or supporting evidence that you would like to have included with the claim, you may have that information or evidence added at any time. Please refer to the claim identification number when corresponding with this office.

We are enclosing a copy of your claim for your records. If you have questions, or if this office may be of further assistance, please feel free to contact us.

Yours truly,

Ronald D. Carlson

NOV 13 1980

STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES

CLAIM TO A WATER RIGHT

Under the provisions of Section 42-243, Idaho Code, any person using or claiming rights to the public waters of Idaho established by diversion and application to a beneficial use must file a claim with the Department of Water Resources on or before June 30, 1983. Exempted from this filing are single family domestic uses as defined in Section 42-230(d), Idaho Code. Also exempted are rights represented by a permit, license, decree, adjudicated right, or a previously filed claim.

The filing of this claim does not confirm the water right claimed but failure to file may result in forfeiture of a water right.

Notice is hereby given that LAVA HOT SPRING FOUNDATION, an agency of the State of
(Name of Claimant) 776-5221 or

Idaho, Lava Hot Springs, ID 83246

(Mailing Address)

(Zip Code)

Telephone No. 232-4471

claims a right to the diversion and beneficial use of the surface or ground water. The extent and nature of said claim is as follows:

- (1) Date of priority: (When was the water first applied to a beneficial use) June 13, 1902 (see 8)

A claim is not acceptable on a ground water source with a priority later than March 25, 1963 or on a surface water source with a priority later than May 20, 1971. An exception is that a claim may be filed on single family domestic use from a ground water source.

- (2) Describe the source of water: (Name of stream, lake, spring, etc., or ground water)

Spring tributary to Portneuf River

- (3) Describe the purpose for which the water has been used and the time during the year when you have used the right claimed: Therapeutic, health, recreation, thermal, and all other related purposes.

(cfs, gpd, AFA)	(Domestic, Irrigation, Stock, Etc.)	(Both dates inclusive) (Mo., Day)	(Mo., Day)
Quantity <u>2-3 cfs of</u>	Use <u>recreational</u>	Period of Use From <u>full year</u>	<u>continuous</u>
Quantity <u>100° to 140°</u>	Use <u>thermal, therapeutic</u>	Period of Use From _____	To _____
Quantity <u>geothermal</u>	Use <u>tic and health</u>	Period of Use From _____	To _____
Quantity <u>water</u>	Use _____	Period of Use From _____	To _____
Quantity _____	Use _____	Period of Use From _____	To _____

- (4) 2-3 cfs TOTAL QUANTITY USED.
(cfs, gpd, AFA)

- (5) A) Point of diversion: (Location of point where water is diverted from its source)

SW ¼ SW ¼, Sec. 22' Twp. 9S Rge. 38 E B.M., County of Bannock

Additional points of diversion: _____

B) Describe means of diversion of water: (Pump and pipeline, well, diversion dam, reservoir, length of ditch and field, etc.). Give sizes and capacities: be as specific as possible. Describe any changes in the system and give the date of the change. spring

- (6) A) Describe location of use by listing number of irrigated acres within each 40-acre tract in appropriate box. If use is not for irrigation, place an "X" in appropriate box to show location.

T	R	SEC.	NE¼				NW¼				SW¼				SE¼				TOTAL
			NE¼	NW¼	SW¼	SE¼	NE¼	NW¼	SW¼	SE¼	NE¼	NW¼	SW¼	SE¼	NE¼	NW¼	SW¼	SE¼	
9S	38E	22											X						

No. of acres --0--

B) If water is used for other than irrigation, fully describe that use, being as specific as possible: The spring water is used for health, recreational, therapeutic, thermal and related purposes of the general public in the main hot baths operated by the Lava Hot Springs Foundation.

NOTE: Include here the type and number of stock watered: _____

- (7) If you are claiming water as a member of an organization, list name of organization: As Chairman of the Lava Hot Springs Foundation, which is charged with the management and control of the lands and property, etc. See Idaho Code §67-4401, etc.

(8) Remarks Prior to June 13, 1902, the people of the State of Idaho and the people of the Territory of Idaho used these springs for recreational, health, therapeutic, thermal, industrial and all related purposes. June 1902, is the date these waters and lands were conveyed to the State of Idaho for public use, and is the earliest verifiable date of use.

Scale: 4 inches equal 1 mile.

Map should show the location of the point of diversion and the place of use of the water by 40-acre subdivisions, section, township and range of the public land survey system.
