I have witnessed the use of water by Elmer Stanger on his farm in Township 7S Range 36E section 20 and 29 since 1953. I am enclosing a letter from Rizdon W. Barron that I received from him in 1995 as to the water rights we applied for. In talking to Mr. Barron he informed me that our water in 1912 was diverted from the Portneuf River on the ground now farmed by Mr. Stanger. He also stated that the ground Mr Stanger farms was also irrigated out of the same ditch diversion.

Dear Sir:

Attention: J. P. Garner
Appraiser

This is in reply to your inquiry under date of September 3, 1952, in regard to water rights from the Portneuf River appurtenant to land owned by E. C. Stanger of Inkom, Idaho.

On going through our files we find no decreed water right for the land owned by Mr. Stanger that was formerly Indian allotted land; namely Allotment No. 13, embracing land described as SE/4 SW/4 Sec. 20; NE/4 NW/4 Sec. 29, T 7 S, R 36 E., B.M., Idaho, and Allotment No. 16 - SW/4 SE/4 Sec. 20; NE/4 NW/4 Sec. 29, T 7 S, R 36 E., B.M., Idaho.

However, although we have no record of any decreed water right, we know that for several years water has been diverted from the Portneuf River by means of pumping to irrigate Allotment No. 13 and several other former Indian allotments. It may be that there is a State decree covering this.

Please feel free to call on this office for any further information you feel we may be able to give you.

RE: EVIDENCE OF PRIORITY

Dear Claimant (s):

The Idaho Department of Water Resources has recently begun its water right review in Basin 29. The Notice(s) of Claim identified with the number shown **above in the "address" label and at the "end" of this letter** has been filed in the Snake River Basin Adjudication (SRBA). The Notice indicates water usage is based on "Beneficial Use". Water rights of this type are established by the historical use of water, dating back to when water was first used for the purpose claimed, at or on the place of use identified on the Notice. The date the water was first put to use, known as the priority date, has not been confirmed by a license, Decree, or Permit. For this reason, proof must be provided supporting the priority date. **As the claimant, you are responsible for submitting the necessary proof to support the priority date.**

It is important that each element of the Notice be substantiated. For instance, regarding claims for irrigation, the evidence should tend to show that diversion works were in place, that they were capable of diverting the claimed diversion rate, and that the diverted water was beneficially used on the entire claimed place of use on or before the claimed priority date.

For your reference, I have provided a printout of your Notice and the pamphlet entitled **"Evidence of Priority"**. The pamphlet describes the types of evidence required and suggests which documents will fulfill this requirement. While I encourage you to read the entire pamphlet, I direct your attention to the two sections entitled **"What Kind of Evidence is Required"** and **"Some examples of Documents Which May Be Evidence of the Priority Date"**.

It is our goal to recommend historical water rights within the Snake River Basin as accurately as possible. Field exams to verify other items of the Notice have been or soon will be conducted by Department personnel.

.....
The Department can not recommend the Notice be decreed by the court if no evidence of a priority date is submitted.
.....

Please submit the documentation supporting the priority date by May 21, 2001, referencing all documents with the corresponding Notice number. If you have any questions not covered by this letter or the enclosed pamphlet, please feel free to contact me at 525-7161.

Respectfully submitted,
