Re: Adjudication Claim 29-10445, 29-10448, 29-10450

Dear Water Users:

Attached are copies of Adjudication Claims for water rights near American Falls, Idaho. These claims are based upon "beneficial use." This means that the underlying water rights were perfected by the original user simply developing diversions and using the rights. This was completely legal and appropriate at the time it occurred, but it did not result in paper records of the water rights with the department.

In order to recommend these rights, I need you to supply "evidence of priority" and "evidence of beneficial use." The enclosed pamphlet describes some typical sources that may be used. If an affidavit is used, it must clearly show that the person making the affidavit personally observed the water use. The more detail the affidavit gives, indicating dates, circumstances, amounts and details of water use, the better. As I review the documentation provided, my standard will be:

The documentation should tend to indicate that diversion works were in place and had adequate capacity for the claimed use. The documentation should also tend to indicate that water was applied to the claimed beneficial use on the claimed place of use.

Please review these documents, and provide documentation of the historical use of these rights. Feel free to call me if you have questions. You should be able to reach me Thursday or Friday mornings.

Sincerely,

Bryce A. Contor
Senior Water Resource Agent
