EVIDENCE OF PRIORITY

Dear Mr. Carlson:

To the best of my knowledge, the school was built in the early 1900's. A 4 inch well was later drilled in 1925 with a hand pump installed for domestic water. With the anticipation of electricity being brought into the valley in 1948, a new 6-inch well was drilled in 1947. a submergible pump was installed and indoor plumbing was put into the school. The well has a one-horse submergible pump which delivers about 35 gallons of water per minute. The well is used for domestic purposes and to irrigate the school yard.

I came to the valley in 1941 and have been a resident since that time.

I make a sworn statement that these facts are true and correct.
