Department of Water Resources
Eastern District Office

3-3-95
A29-10927
Evidence of Priority

State of Idaho Dept. of Water Resources:

My grandparents, Theodore and Effie Swanson, were owners of this land in 1906. In 1910, my grandfather built a diversion dam in the Portneuf river in T6S, R34E, S16, SE1/4SW1/4. At the same time he also built an irrigation canal to irrigate the property indicated in the deed record, a portion of which is indicated on the adjudication claim report.

In the late 1950's, the J.R. Simplot Co. purchased most of this property from the Swanson Ranch, the rest of the property, which is indicated on this adjudication claim remained in my fathers name Raymond V. Swanson. He in turn deeded this property to Michaud Creek Ranch Inc., a family corporation that we both owned.

The property described on the adjudication claim has been irrigated or controlled by a member of the Swanson family since the diversion dam was built in 1910.

Robert W. Swanson

Re: Adjudication Claim 29-10927

Dear Water User:

Attached is a copy of an Adjudication Claim for a water right near American Falls or Pocatello, Idaho. This claim is based upon "beneficial use." This means that the underlying water right was perfected by the original user simply developing a diversion and using the right. This was completely legal and appropriate up until March 25, 1963, for ground water uses, or up until May 20, 1971 for surface water uses. However, this method of perfecting a water right did not result in a paper record of the water right with the department.

In order to recommend your adjudication claim to the court, I need you to supply "evidence of priority" and "evidence of beneficial use." The enclosed pamphlet describes some typical sources that may be used. If an affidavit is used, it must clearly show that the person making the affidavit personally observed the water use. The more detail the affidavit gives, indicating dates, circumstances, amounts and details of water use, the better. As I review the documentation provided, my standard will be:

The documentation should tend to indicate that diversion works were in place and had adequate capacity for the claimed use. The documentation should also tend to indicate that water was applied to the claimed beneficial use on the claimed place of use.

Please review these documents, and provide documentation of the historical use of this right. Feel free to call me if you have questions. You should be able to reach me Thursday or Friday mornings.

Sincerely,

Bryce A. Contor
Senior Water Resource Agent
