Re: Adjudication Claim 29-10990

Dear Water User:

Attached is a copy of an Adjudication Claim for a water right near American Falls or Pocatello, Idaho. This claim is based upon "beneficial use." This means that the underlying water right was perfected by the original user simply developing a diversion and using the right. This was completely legal and appropriate up until March 25, 1963, for ground water uses, or up until May 20, 1971 for surface water uses. However, this method of perfecting a water right did not result in a paper record of the water right with the department.

In order to recommend your adjudication claim to the court, I need you to supply "evidence of priority" and "evidence of beneficial use." The enclosed pamphlet describes some typical sources that may be used. If an affidavit is used, it must clearly show that the person making the affidavit personally observed the water use. The more detail the affidavit gives, indicating dates, circumstances, amounts and details of water use, the better. As I review the documentation provided, my standard will be:

The documentation should tend to indicate that diversion works were in place and had adequate capacity for the claimed use. The documentation should also tend to indicate that water was applied to the claimed beneficial use on the claimed place of use.

Please review these documents, and provide documentation of the historical use of this right. Feel free to call me if you have questions. You should be able to reach me Thursday or Friday mornings.

Sincerely,

George A. Connor
