Dear Mr. Hitchcock:

Re: Waste Water Application of David Dingman

I am writing this letter on behalf of my client David Dingman who owns a farm in Section 34, Township 10 South, Range 17 East of the Boise Meridian. He has been unable to get anything from the Department of Water Resources up to this point. I give you the following historical facts:

Mr. Dingman irrigates his farm from waste water out of a pond. This waste water comes from the surrounding neighbors but runs under the low line canal and fills his pond. This farm began irrigating from the pond in 1906. In 1968 they extended the use of the waste water by adding a pipe across one of their fields. Since 1968 they have had the same point of application. They have had the same point of diversion since 1906. They use .20 c.f.s. on a 10-acre parcel and .24 c.f.s. on a 12-acre parcel. This total of .44 c.f.s. irrigates 22 acres.

Enclosed are copies of some forms that he has completed for your department that may give you ready reference.

In 1985 he filed an application to establish this water right on the waste water. He paid the fee and got a permit, or whatever other document the department issued at that time for waste water. The department no longer has its record and Mr. Dingman does not have his. He needs something from your department in the way of a permit or a confirmation of this water right to waste water in the total amount of .44 c.f.s. I would appreciate your looking into this and taking some action to protect this right of Mr. Dingman's.

Dear Mr. Smith:

Re: Snake River Basin Adjudication Claims A47-10180/A47-10181

Thank you for taking time from your deposition to visit with me about your client David Dingman and his concerns regarding this department's request for evidence of priority for the above claims.

As we discussed in our phone conversation yesterday there are two distinct issues with regard to Mr. Dingman's water usages. In order to help you present them to your client I have, as we discussed, put the results of my research into two packets of paperwork for ease of review.

The first packet contains copies of the materials sent to Mr. Dingman which I think may help you explain to him what his responsibility is in providing the evidence of priority. The enclosed pamphlet was sent to all recipients of the cover letter and should take care of the priority date business. If it doesn't please call me and I'll do whatever is necessary to be of help.

The second packet is made up of the copies of claims to water made in the past which I described to you as unclaimed in the lawsuit. Please note that the first usage of record is 47-07557 which has lapsed for failure to perform the work required to divert the water as described in the application for permit. The microfilm copies are marginal but show notice to the applicants.

The other claims are for your information and review. The usages were filed under I.C. 42-243 and remain in department records as water rights 47-04121 and 47-04213 claimed as historical usages not perfected through the department's review process. Please refer to the Evidence of Priority pamphlet again for a description of this type of usage. They haven't been claimed in the Snake River Basin Adjudication although they could be as we discussed subject to late fees.

NOV 23 1996

Page 2
Smith
January 25, 1995

I don't find any record of a usage such as the one you describe as having been applied for in 1985. Perhaps the lapsed permit is the one Mr. Dingman has in mind although the elements of the usage aren't as you suggest.

Finally, I have enclosed a printout that shows a computer print of the records I reviewed to comply with your request that I look into Mr. Dingman's water usages. The first sheet is a report of the data in the water rights records (WRQ1) and the second sheet is a report of the claims filed in the SRBA (AJQ1) by Mr. Dingman. I have noted them and marked data where further explanation may be of help.

Please call me with questions as I know this is not immediately clear as Mr. Dingman has pointed out to you. I hope that the enclosures will be of immediate help in resolving the issues of priority evidence and that the water right records go to the problem of the 1985 usage that you asked me to look into.

Sincerely,

Francis G. Hitchcock
Water Resources Agent Sr.

Re: SRBA Claim Nos. A47-10180 and A47-10181

Dear Frank:

Pursuant to your January 25, 1995 letter to Leon E. Smith, Jr. and our telephone conversations, please find enclosed copies of three affidavits regarding SRBA Claim Nos. A47-10180 and A47-10181, providing evidence of the priority date for each of the waste water claims. We will retain the original affidavits in our files.

If you have any questions or feel additional evidence is warranted, please do not hesitate to contact me. Please direct any future correspondence regarding Mr. David R. Dingman's SRBA claims to our office.

Sincerely,

NORMAN M. SEMANKO

16 COMES NOW, JAMES A. GRIFFITH, and being first duly sworn, states
17 as follows:

18 1. I am 75 years old and a lifelong resident of Twin Falls County,
19 Idaho. I am familiar with the irrigation, with waste water, of property located in the
20 W 1/2 of the SW 1/4 of Section 34, Township 10 South, Range 17 E.B.M., Twin Falls
21 County, Idaho, and also known as "The Old Huddleston Place".

22 2. Since 1906, waste water has been used to irrigate land on the north
23 side of the waste water ditch. I have personally observed the waste water ditch and
24 irrigation on the north side of the waste water ditch since 1926, when I was 6 years old,
25 and irrigated and farmed the property myself between 1976 and 1993, as a renter.

3. Since 1968, a pipeline has been used to irrigate additional acres on the south side of the waste water ditch. I have personally observed the irrigation on the south side of the waste water ditch since it was commenced in 1968, and irrigated and farmed the property myself between 1976 and 1993, as a renter.

4. I believe that the attached Exhibit "A" is an accurate portrayal of the acres irrigated by waste water in the W 1/2 of the SW 1/4 of Section 34.

5. If necessary, I could and would competently testify as to the aforementioned facts.

6. Further, your affiant sayeth naught.

Theodore E. Dingman being first duly sworn and deposed and says:

This affidavit is prepared in response to the State of Idaho Department of Water Resources' Letter of January 4, 1995 which is notification of actions to be taken in the Snake River Basin Adjudication (SRBA).

Regarding the use of waste water to irrigate portions of land in the W1/2 of the SW 1/4 of section 34, T.10S., R.17E of the Boise Meridian. in Twin Falls County Idaho, This property was known to me as "The Old Hudleston Place" and was acquired by my brother David R. Dingman and his wife, DeVau in the 1960's. I can attest that the waste water entering this property was used in part to irrigate the so called Hudleston property. Subsequently, a tile pipeline and a settling pond were installed to increase the amount of water available for irrigation of this property.

I am now the owner of part of our family farm to the north of the Hudleston place inherited from our mother. My property and my brothers property (with included the so called Hudleston place) are operated as a single entity know as "Dingman Farms".

RE: Evidence of Priority

* RESPONSE DEADLINE *
* MARCH 15, 1995 *

Dear Claimant:

The Notice of Claim identified with the number shown above your name on the mailing label has been filed in the Snake River Basin Adjudication (SRBA). The Notice indicates your water usage is based on "Beneficial Use" or a "Statutory Claim". Water rights of this type are established by the historical use of water, dating back to when water was first used for the purpose claimed. The date of first use, known as the priority date, has not been confirmed by a License, Decree or Permit. The Department will, at a later date, conduct reviews &/or field exams for the claims in your area. Since the priority date of a beneficial use water right can not be confirmed by field examination, **proof must be provided by the claimant** supporting the priority date claimed.

If you no longer own the property to which the claim is appurtenant please forward this correspondence to the present owner, or return it to the department. If you have received this correspondence from the previous owner of the property it is recommended that you file a Change of Ownership form with the Department in order to receive future mailings and to continue to be a party in the adjudication.

Please find enclosed a computer printout of your Notice of Claim and the pamphlet entitled "Evidence of Priority". The pamphlet describes the types of evidence required and suggests which documents will fulfill this requirement.

SPECIAL NOTE: The Department will not recommend the Notice be decreed by the court as claimed if no evidence of a priority date is submitted. It will be to your advantage to provide clear and convincing evidence. If you choose to submit statements from individuals as evidence, the statement must be in the form of a

January 10, 1995
page 2

notarized affidavit.

Please submit the required evidence supporting the priority date by March 15, 1995, referencing all documents with the corresponding Notice number. If you have any questions not covered by this letter or the enclosed pamphlet, please contact this office.

Sincerely,

Douglas Jones, P.E.

Substance of Communication he came in with a couple of written
notarized notes hoping they would substantiate his
priority dates for these wastewater claims. The notes
merely stated how the water was used - nothing about
priority. I asked him who this person was - he said
the renter. I asked how long he'd rented the place
and he said 3 years. Told him he might check
with the canal company to see if they had any
old records and gave him an affidavit from
that perhaps he or his brother (both born on the
place) could fill out, or maybe a neighbor...
