COMMUNICATION DOCUMENTATION

A47-10180

Claim No. A47-10181

This form is to be used to document public record information requests regarding any SRBA claim or claims. The form may also be used to document IDWR communications requesting information regarding any SRBA claim or claims when the request is not made in writing or the claim verification report is not readily available to document the request. This form is to be filed in all relevant claim files or a central office file.

IDWR Employee/Agent Jeanie Robertson Date 1/20/95

Contact Person(s) David Singman

Nature of Contact office visit

Substance of Communication he came in with a couple of written notarized notes hoping they would substantiate his priority dates for these wastewater claims. The notes merely stated how the water was used - nothing about priority. I asked him who this person was - he said the renter. I asked how long he'd rented the place and he said 3 years. Told him he might check with the canal company to see if they had any old records and gave him an affidavit from that perhaps he or his brother (both born on the place) could fill out, or maybe a neighbor...

Mr. Francis G. Hitchcock
Idaho Department of Water Resources
Sr. Water Resource Agent
222 Shoshone Street East
Twin Falls, Idaho 83301

Dear Mr. Hitchcock:

Re: Waste Water Application of David Dingman

I am writing this letter on behalf of my client David Dingman who owns a farm in Section 34, Township 10 South, Range 17 East of the Boise Meridian. He has been unable to get anything from the Department of Water Resources up to this point. I give you the following historical facts:

Mr. Dingman irrigates his farm from waste water out of a pond. This waste water comes from the surrounding neighbors but runs under the low line canal and fills his pond. This farm began irrigating from the pond in 1906. In 1968 they extended the use of the waste water by adding a pipe across one of their fields. Since 1968 they have had the same point of application. They have had the same point of diversion since 1906. They use .20 c.f.s. on a 10-acre parcel and .24 c.f.s. on a 12-acre parcel. This total of .44 c.f.s. irrigates 22 acres.

Enclosed are copies of some forms that he has completed for your department that may give you ready reference.

In 1985 he filed an application to establish this water right on the waste water. He paid the fee and got a permit, or whatever other document the department issued at that time for waste water. The department no longer has its record and Mr. Dingman does not have his. He needs something from your department in the way of a permit or a confirmation of this water right to waste water in the total amount of .44 c.f.s. I would appreciate your looking into this and taking some action to protect this right of Mr. Dingman's.

Director

January 25, 1995

Mr. Leon E. Smith, Jr.
Smith & Beeks
PO Box 508
Twin Falls, ID 83303-0508

Dear Mr. Smith:

Re: Snake River Basin Adjudication Claims A47-10180/A47-10181

Thank you for taking time from your deposition to visit with me about your client David Dingman and his concerns regarding this department's request for evidence of priority for the above claims.

As we discussed in our phone conversation yesterday there are two distinct issues with regard to Mr. Dingman's water usages. In order to help you present them to your client I have, as we discussed, put the results of my research into two packets of paperwork for ease of review.

The first packet contains copies of the materials sent to Mr. Dingman which I think may help you explain to him what his responsibility is in providing the evidence of priority. The enclosed pamphlet was sent to all recipients of the cover letter and should take care of the priority date business. If it doesn't please call me and I'll do whatever is necessary to be of help.

The second packet is made up of the copies of claims to water made in the past which I described to you as unclaimed in the lawsuit. Please note that the first usage of record is 47-07557 which has lapsed for failure to perform the work required to divert the water as described in the application for permit. The microfilm copies are marginal but show notice to the applicants.

The other claims are for your information and review. The usages were filed under I.C. 42-243 and remain in department records as water rights 47-04121 and 47-04213 claimed as historical usages not perfected through the department's review process. Please refer to the Evidence of Priority pamphlet again for a description of this type of usage. They haven't been claimed in the Snake River Basin Adjudication although they could be as we discussed subject to late fees.

MICROFILMED

NOV 29 1996

COPY

Page 2
Smith
January 25, 1995

I don't find any record of a usage such as the one you describe as having been applied for in 1985. Perhaps the lapsed permit is the one Mr. Dingman has in mind although the elements of the usage aren't as you suggest.

Finally, I have enclosed a printout that shows a computer print of the records I reviewed to comply with your request that I look into Mr. Dingman's water usages. The first sheet is a report of the data in the water rights records (WRQ1) and the second sheet is a report of the claims filed in the SRBA (AJQ1) by Mr. Dingman. I have noted them and marked data where further explanation may be of help.

Please call me with questions as I know this is not immediately clear as Mr. Dingman has pointed out to you. I hope that the enclosures will be of immediate help in resolving the issues of priority evidence and that the water right records go to the problem of the 1985 usage that you asked me to look into.

Sincerely,

Francis G. Hitchcock
Water Resources Agent Sr.

Re: SRBA Claim Nos. A47-10180 and A47-10181

Dear Frank:

Pursuant to your January 25, 1995 letter to Leon E. Smith, Jr. and our telephone conversations, please find enclosed copies of three affidavits regarding SRBA Claim Nos. A47-10180 and A47-10181, providing evidence of the priority date for each of the waste water claims. We will retain the original affidavits in our files.

If you have any questions or feel additional evidence is warranted, please do not hesitate to contact me. Please direct any future correspondence regarding Mr. David R. Dingman's SRBA claims to our office.

Sincerely,

NORMAN M. SEMANKO

15 COMES NOW, DAVID R. DINGMAN, and being first duly sworn, states
16 as follows:
17

18 1. I am 69 years old and a lifelong resident of Twin Falls County,
19 Idaho. Since 1963, I have owned property located in the W 1/2 of the SW 1/4 of Section
20 34, Township 10 South, Range 17 E.B.M., Twin Falls County, Idaho, and also known as
21 "The Old Huddleston Place". A copy of my deed is attached as Exhibit "A" and an
22 outline of the property is set forth in both Exhibit "B" and Exhibit "C". Exhibit "C", a
23 copy of an ASCS aerial photography map from between 1974 and 1979 and provided by
24 the Twin Falls County Assessor's office, also depicts the irrigated acres on the property,
25 including those irrigated by waste water.

2. Prior to my purchase of the property, a total of .2 cfs of waste water was diverted, with the aid of a waste water ditch, and used each year to irrigate a total of 10 acres in the NW 1/4 of the SW 1/4 of Section 34, and north of the waste water ditch depicted in Exhibits "B" and "C".

3. I have been familiar with the waste water ditch and personally observed the use of waste water for irrigation on the property since 1932, when I was 6 years old. Such waste water irrigation was commenced in 1906, shortly after the Twin Falls Canal Company system was first used and made waste water available, and was practiced by, among others, the McSloaines, Grahams, Blackburns, Neeleys, and the Huddlestons, who were tenant farmers for the Neeleys, until my purchase of the property. A copy of previous deeds to the property is attached as Exhibit "D".

4. Upon purchasing the property, I continued the practice of diverting and using .2 cfs of waste water each year to irrigate 10 acres in the NW 1/4 of the SW 1/4 of Section 34, and north of the waste water ditch depicted in Exhibits "B" and "C". The waste water is collected from the waste water ditch into a pond, depicted in Exhibit "B", that was constructed as part of a Rock Creek water quality improvement project.

5. Beginning in 1968, I diverted and used, with the aid of a 10-inch wide concrete underground pipeline, depicted in Exhibits "B" and "C", an additional .24 cfs of waste water to irrigate an additional 12 acres in the W 1/2 of the SW 1/4 of Section 34, and south of the waste water ditch depicted in Exhibits "B" and "C".

6. Since 1968, I have annually used .44 cfs of waste water to irrigate 22 acres in the W 1/2 of the SW 1/4 of Section 34, depicted in Exhibits "B" and "C".

7. If necessary, I could and would competently testify as to the aforementioned facts.

8. Further, your affiant sayeth naught.

AFFIDAVIT

IN THE MATTER OF:

waste water Rights

SRBA Claim Nos. A47-10180 and A47-10181

State of Idaho

County of Twin Falls

Theodore E. Dingman being first duly sworn and deposed and says:

This affidavit is prepared in response to the State of Idaho Department of Water Resources' Letter of January 4, 1995 which is notification of actions to be taken in the Snake River Basin Adjudication (SRBA).

Regarding the use of waste water to irrigate portions of land in the W1/2 of the SW 1/4 of section 34, T.10S., R.17E of the Boise Meridian. in Twin Falls County Idaho, This property was known to me as "The Old Hudleston Place" and was acquired by my brother David R. Dingman and his wife, DeVaun in the 1960's. I can attest that the waste water entering this property was used in part to irrigate the so called Hudleston property. Subsequently, a tile pipeline and a settling pond were installed to increase the amount of water available for irrigation of this property.

I am now the owner of part of our family farm to the north of the Hudleston place inherited from our mother. My property and my brothers property (with included the so called Hudleston place) are operated as a single entity know as "Dingman Farms".

Theodore Edward Dingman (signature)
on this the 24th day of Feb. in the year of 1995,
personally appeared Theodore Edward Dingman
known or identified to me to be the person whose name
is subscribed to the within instrument and acknowledged
to me that he executed the same.

RE: Evidence of Priority

* RESPONSE DEADLINE *
* MARCH 15, 1995 *

Dear Claimant:

The Notice of Claim identified with the number shown above your name on the mailing label has been filed in the Snake River Basin Adjudication (SRBA). The Notice indicates your water usage is based on "Beneficial Use" or a "Statutory Claim". Water rights of this type are established by the historical use of water, dating back to when water was first used for the purpose claimed. The date of first use, known as the priority date, has not been confirmed by a License, Decree or Permit. The Department will, at a later date, conduct reviews &/or field exams for the claims in your area. Since the priority date of a beneficial use water right can not be confirmed by field examination, **proof must be provided by the claimant** supporting the priority date claimed.

If you no longer own the property to which the claim is appurtenant please forward this correspondence to the present owner, or return it to the department. If you have received this correspondence from the previous owner of the property it is recommended that you file a Change of Ownership form with the Department in order to receive future mailings and to continue to be a party in the adjudication.

Please find enclosed a computer printout of your Notice of Claim and the pamphlet entitled "Evidence of Priority". The pamphlet describes the types of evidence required and suggests which documents will fulfill this requirement.

SPECIAL NOTE: The Department will not recommend the Notice be decreed by the court as claimed if no evidence of a priority date is submitted. It will be to your advantage to provide clear and convincing evidence. If you choose to submit statements from individuals as evidence, the statement must be in the form of a

January 10, 1995
page 2

notarized affidavit.

Please submit the required evidence supporting the priority date by March 15, 1995, referencing all documents with the corresponding Notice number. If you have any questions not covered by this letter or the enclosed pamphlet, please contact this office.

Sincerely,

Douglas Jones, P.E.
Water Rights Supervisor
