RE: OWNERSHIP CHANGES A47-11559 AND A47-11567 (AMENDED)

Dear Kathleen,

Thank you for returning the affidavits regarding agreements to use your water right on others property. I have completed the ownership change process and enclosed copies for your records.

We also talked about you needing to amend A47-11567 to drop the 40 acres in the SWSW quarter, as they were never actually watered by the well. I have prepared a claim with that proposed amendment. If you agree with the amendment, please have either Brian or Tim sign the claim form and you can notarize and return it to me. I will then make it part of our permanent records and send a copy back to you. (If they wish to add any additional points of diversion because other wells are tied in and also irrigate these acres, please make the necessary corrections in "Item #4. Point of Diversion", initial and date it, and I will update our computer records accordingly.

If I can be of any further assistance, please feel free to give me a call at the office.

Sincerely,

Kathleen and Brian Olmstead came into the office and met with Kelly and myself. After going over their claims and how the system is used now, they elected to amend claims A47-11557 and A47-11558 in order to agree with the amendment they are doing on Permit # 47-08147, where all four wells are tied together into a common system. They also amended the Place of Use as it is slightly different now. They amended A47-07010A to add a second well in case the other one can't supply enough water. They will return with affidavits from relatives that own other parcels covered by A47-11567 stating they have agreements with B&T Farming to water their land with B&T's well. I can then process the ownership changes for A47-11559 and A47-11567. They also want to amend A47-11567 to drop the 40 acres in the SWSW of Section 35 since water has never actually been used there.

**SUBJECT:** OWNERSHIP ISSUES AND AMENDMENTS TO RIGHTS  
phone ( ) walk-in(X)

Along with Jeanie R., we discussed their irrigation systems and stock rights. In the discussions we determined that the SWSW quarter of the system was not irrigated from the groundwater source. They amended the claim to delete that quarter quarter. They indicated that the actual property is owned by 3 separate individuals rather than one although the irrigation practice treats the place of use as one system. I contacted Don Shaff and he recommended that we solicit affidavits from the other parties and leave the claim in the current ownership. We discussed the stockwater - feedlot operation. The system appears to be 4 wells supplying a system of pens laying in two quarter quarters. They indicated that there is no stockwater/feedlot use in sec 35. They amended the claims to delete sec 35 uses. Where necessary, claims were also amended to reflect all 4 p/ds. Discussions indicated that there were two early developments of 500 head each for the feedlot and then a series of developments represented by a permit which is pending licensing. The total capacity including all rights is 3,000 head.

**SUBJECT: OWNERSHIP CHANGE QUESTIONS??**

phone call (X) walk-in (.)

We had received an ownership change form and questions arose because the quit-claim deed from Triple O Farms to B&T Farms only mentioned about 46 or so acres while the irrigation claim A47-11567 was for 160 acres. I thought I probably needed to split the right but called to find out if that's what they meant. She said that Triple O never owned the entire 160 acres, it was just the Place of Use for their well. They have lease agreements with other family members for the other acreage. The well water is supplemental to canal shares and they use it if needed. She said she would talk to her husband and they would set up an appointment to come in and straighten things out.

**47-08147**

She also said they had received a letter from Shelley Keen about this permit stating they needed to amend it because the POD and POU were found to be different than the original application indicated. She also said they had sold the feed-lot. I told her if she had questions to call Shelley, but it would probably cost her to both amend and assign the permit...

Substance of Communication she brought in some Evidence of Priority on A47-11558 and A47-11567. She did address updates on all these claims. I also explained why she was only requested to prove priority on certain claims and not others (domestics are exempt and licenses already have priority dates in our records)

RE: Evidence of Priority

\*\*\*\*\*  
\* RESPONSE DEADLINE \*  
\* MARCH 15, 1995 \*  
\*\*\*\*\*

Dear Claimant:

The Notice of Claim identified with the number shown above your name on the mailing label has been filed in the Snake River Basin Adjudication (SRBA). The Notice indicates your water usage is based on "Beneficial Use" or a "Statutory Claim". Water rights of this type are established by the historical use of water, dating back to when water was first used for the purpose claimed. The date of first use, known as the priority date, has not been confirmed by a License, Decree or Permit. The Department will, at a later date, conduct reviews &/or field exams for the claims in your area. Since the priority date of a beneficial use water right can not be confirmed by field examination, **proof must be provided by the claimant** supporting the priority date claimed.

If you no longer own the property to which the claim is appurtenant please forward this correspondence to the present owner, or return it to the department. If you have received this correspondence from the previous owner of the property it is recommended that you file a Change of Ownership form with the Department in order to receive future mailings and to continue to be a party in the adjudication.

Please find enclosed a computer printout of your Notice of Claim and the pamphlet entitled "Evidence of Priority". The pamphlet describes the types of evidence required and suggests which documents will fulfill this requirement.

**SPECIAL NOTE:** The Department will not recommend the Notice be decreed by the court as claimed if no evidence of a priority date is submitted. It will be to your advantage to provide clear and convincing evidence. If you choose to submit statements from individuals as evidence, the statement must be in the form of a

January 10, 1995  
page 2

notarized affidavit.

Please submit the required evidence supporting the priority date by March 15, 1995, referencing all documents with the corresponding Notice number. If you have any questions not covered by this letter or the enclosed pamphlet, please contact this office.

Sincerely,

  
Douglas Jones, P.E.  
Water Rights Supervisor
