RE: CHANGE OF OWNERSHIP FOR A47-12325 AND 47-13823

Dear Robert

I was in the process of changing the ownership on the two claims and found that evidence of priority for A47-12325 was submitted showing a development date of July 19, 1918. I believe that the Wiersmas submitted the evidence and were going to amend the claim to match that date. Whatever the case, the claim has not been amended.

The claim currently has a 12-31-1925 priority date. If that date is acceptable you do not need to do anything. If however you want the claim to have the earlier date, then you will have to amend the claim. Basically what that means is that you have to sign an amended claim and have your signature notarized. On the ownership change form you submitted, you indicated that the claim was to be placed in your AND your wife's name. That requires both signatures on the claim for it to be valid. If you wish the name connector to read and/or we can change that at the same time. We can do that in this office in just a few minutes.

Right 47-13823 has been decreed and has been transferred to the allocations side of the department. The adjudication section no longer has control of the records and therefore I have forwarded a copy of the ownership change paperwork to allocations in order for them to complete that change.

Please call to confirm that I am in the office if you decide to come in to amend the claim.

Sincerely

Kelly K Christensen

RE: Evidence of Priority

Dear Claimant:

* RESPONSE DEADLINE *
* MARCH 15, 1995 *

The Notice of Claim identified with the number shown above your name on the mailing label has been filed in the Snake River Basin Adjudication (SRBA). The Notice indicates your water usage is based on "Beneficial Use" or a "Statutory Claim". Water rights of this type are established by the historical use of water, dating back to when water was first used for the purpose claimed. The date of first use, known as the priority date, has not been confirmed by a License, Decree or Permit. The Department will, at a later date, conduct reviews &/or field exams for the claims in your area. Since the priority date of a beneficial use water right can not be confirmed by field examination, **proof must be provided by the claimant supporting the priority date claimed.**

If you no longer own the property to which the claim is appurtenant please forward this correspondence to the present owner, or return it to the department. If you have received this correspondence from the previous owner of the property it is recommended that you file a Change of Ownership form with the Department in order to receive future mailings and to continue to be a party in the adjudication.

Please find enclosed a computer printout of your Notice of Claim and the pamphlet entitled "Evidence of Priority". The pamphlet describes the types of evidence required and suggests which documents will fulfill this requirement.

SPECIAL NOTE: The Department will not recommend the Notice be decreed by the court as claimed if no evidence of a priority date is submitted. It will be to your advantage to provide clear and convincing evidence. If you choose to submit statements from individuals as evidence, the statement must be in the form of a

January 10, 1995
page 2

notarized affidavit.

Please submit the required evidence supporting the priority date by March 15, 1995, referencing all documents with the corresponding Notice number. If you have any questions not covered by this letter or the enclosed pamphlet, please contact this office.

Sincerely,

Douglas Jones, P.E.
Water Rights Supervisor

Remarks:

They have a problem of sending enough TFCC water down a flat cement ditch to supply water to a pivot supply pond. So they supplement the pond with water from the well to keep the pivot running at 100%.

The well was drilled by the TFCC in the early 20's to pull water out of the water logged ground in the area.

The pump is a 15 hp pump with a 7 1/2 ID discharge.

Down to the northwest there numerous seep spots that will dry up when the well is running. Everytime they run the pivot they run the well.

The picture shows the pump in the foreground, and a power pole with the Tag attached to it, of course the pivot is in the back that it supplies water to.

Best regards,

Glen Gier
