RE: EVIDENCE OF PRIORITY, A47-13054

Dear Mr. Hohnhorst:

Your request for an extension of time in which to submit evidence for the date of first use of the water as describe in the above referenced claim is granted. Please be advised that failure to submit evidence may lead to a recommendation with a much later priority date or disallowal of the claim. Please work diligently toward providing the requested information at your earliest opportunity.

If you have any questions please contact us.

Sincerely,

Douglas Jones, P.E.

**Re: John C. and Raelene Hohnhorst
Claim No. A47-13054
Our File No. 880005**

Dear Mr. Jones:

I am in receipt of your letter of January 11, 1995, directing me to provide evidence relating to the priority of the water right claim under the above-referenced number. Unfortunately, I have not been able to contact the original owner of my property, and am requesting a 30-day extension to gather and submit the necessary information. Based upon the second-hand information available to me, and upon which the claim was based, I am reasonably confident of the priority date claimed, and am confident that given an opportunity, I will be able to obtain evidence in the form of an affidavit which supports the claim.

Although the Adjudication Claim Profile Report does not clearly indicate, the water is used for domestic drinking water purposes and the "irrigation" use is limited to watering a very large 4.3-acre yard which surrounds my home. Given these facts, is it imperative that I submit proof of the precise priority date? I wish to have this right adjudicated and recognized by the Court in order to assure that successor owners are entitled to continue this use.

Thank you in advance for your promptest response. If for any reason the request for extension of time is a problem, please contact me at my daytime telephone number (208)734-7510. My home telephone number is (208)734-2367.

Very truly yours,

Re: John C. and Raelene Hohnhorst
Claim No. A47-13054
Our File No. 880005

Dear Mr. Jones:

On March 10, 1995, I requested a 30-day extension of time to submit information pertaining to the priority of my claim. In the interim, I discovered that the two persons most knowledgeable about the matter are deceased. As a result, it will be necessary for me to obtain information from another predecessor in interest, and from several secondary sources. Unfortunately, this individual will be travelling outside the continental U.S. for the next 30 days.

I am writing to request an additional extension, and in order to assure adequate time, would request 90 days, to expire July 11, 1995. This should avoid the necessity of additional requests. It is my understanding that the probable filing date for the Director's Report for this basin is between one and two years away.

Thank you for your cooperation.

Very truly yours,

John C. Hohnhorst

RE: Evidence of Priority

Dear Claimant:

* RESPONSE DEADLINE *
* MARCH 15, 1995 *

The Notice of Claim identified with the number shown above your name on the mailing label has been filed in the Snake River Basin Adjudication (SRBA). The Notice indicates your water usage is based on "Beneficial Use" or a "Statutory Claim". Water rights of this type are established by the historical use of water, dating back to when water was first used for the purpose claimed. The date of first use, known as the priority date, has not been confirmed by a License, Decree or Permit. The Department will, at a later date, conduct reviews &/or field exams for the claims in your area. Since the priority date of a beneficial use water right can not be confirmed by field examination, **proof must be provided by the claimant** supporting the priority date claimed.

If you no longer own the property to which the claim is appurtenant please forward this correspondence to the present owner, or return it to the department. If you have received this correspondence from the previous owner of the property it is recommended that you file a Change of Ownership form with the Department in order to receive future mailings and to continue to be a party in the adjudication.

Please find enclosed a computer printout of your Notice of Claim and the pamphlet entitled "Evidence of Priority". The pamphlet describes the types of evidence required and suggests which documents will fulfill this requirement.

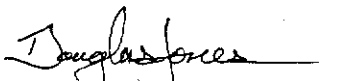

SPECIAL NOTE: The Department will not recommend the Notice be decreed by the court as claimed if no evidence of a priority date is submitted. It will be to your advantage to provide clear and convincing evidence. If you choose to submit statements from individuals as evidence, the statement must be in the form of a

notarized affidavit.

Please submit the required evidence supporting the priority date by March 15, 1995, referencing all documents with the corresponding Notice number. If you have any questions not covered by this letter or the enclosed pamphlet, please contact this office.

Sincerely,

Douglas Jones, P.E.

It is my understanding that this Affidavit will be submitted to the Idaho Department of Water Resources and/or the District Court, Fifth Judicial District, Twin Falls County, Idaho, in connection with the adjudication of a claim (Claim No. A47-13054) to a water right submitted by John and Raelene Hohnhorst with regard to a well located at a residence located on Falls Avenue East in Twin Falls, Idaho. This Affidavit is based upon matters within my personal knowledge, and to which I am competent to testify.
3. My husband, Bill Howard, and I were previously the owners of a parcel of land consisting of approximately four and one-half (4 1/2) acres located at 1937 Falls Avenue East, Twin Falls, Idaho. We acquired the property in mid-1972 from Mr. and Mrs. Bob Reese, and occupied and used it as our personal residence until we sold it to John and Raelene Hohnhorst in July, 1987.
4. At the time we purchased the property in 1972, potable water for drinking and domestic household use was furnished by a well located adjacent to the east side of the house. Based upon the information furnished to us by Mr. and Mrs. Reese, who had owned the property from the time the home was constructed in 1951 and 1952, and

based upon matters physically observable upon the property, the domestic water supply had been furnished by the well from the time the home was constructed. At the time the home was constructed, and even as of the time we acquired it in 1972, there was no alternative source of potable water other than that furnished by the well. We investigated the possibility of securing connection to the drinking system maintained by the City of Twin Falls, but determined that connecting to the Twin Falls city water system was not an available or feasible alternative. From the time we purchased the property in 1972, until we sold it in 1988, we continuously and beneficially used the well to supply our drinking and domestic water needs.

5. At the time we purchased the property, the home was equipped with external water spigots which were, and which had since the house was built been used to irrigate flower beds and portions of the yard in close proximity to the house with the use of hoses. The property was also equipped with an old buried sprinkler system comprised of galvanized metal piping and fixed above-ground sprinkler heads which had also been installed at the time the house was built in 1951 and 1952. The sprinkler system irrigated the portion of the property which was planted to grass, shrubs and trees around the house. I estimate that the area irrigated by the exterior spigots and old buried sprinkler system consisted of approximately the east one-half of the entire parcel. The well was the source of the water used to operate the spigots and old buried sprinkler system.

6. The remaining portion of the parcel, consisting of approximately the west one-half of the property, was planted to alfalfa, and was irrigated with water delivered

to the property by the Twin Falls Canal Company by means of a lateral ditch which ran along the front of the property, parallel to Falls Avenue.

7. In the summer of 1973, my husband and I planted the remaining west one-half of the parcel, which had previously been used to grow alfalfa, to grass, shrubs and trees. In addition, we installed a buried sprinkler system to replace the old system installed at the time the house was built, and which also watered the grass which had been planted upon the west half of the property, and which had previously been in alfalfa. We installed a slightly larger pump, and obtained water from the existing well to operate the new sprinkler system. The new sprinkler system was installed and became operational on or before July 1, 1973. We subsequently sold our shares of stock in the Twin Falls Canal Company to another party. From July 1, 1973, until we sold the property in 1988, we continuously and beneficially utilized the water from the well to supply both our drinking and domestic water needs, and to provide irrigation for our lawn, trees, shrubs and landscaping.

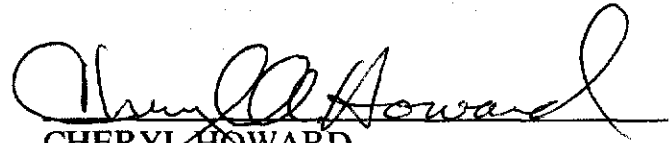

8. The time we would begin and stop using the water for irrigation of the lawn, trees and shrubs was dependent upon the weather conditions prevailing during the spring, summer and fall. We would not ordinarily begin using the water before March 15 of each year, and would stop watering by November 15, when cold weather conditions fully set in.

9. I believe that the appropriate priority date for the water right claimed for domestic use, and that portion of the irrigation use used to water the east one-half of

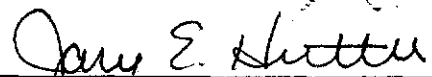

the property would be no later than October 1, 1952, after which the residence had been constructed and occupied, and July 1, 1973, when we began using the water to irrigate the west one-half of the property which had previously been in alfalfa.

10. Further your affiant sayeth not.

Dated this 13 day of July, 1995.
