SUBJECT: AMENDED CLAIMS A47-13934, A47-13937, A37-13938
phone call (.) walk-in (X)

She originally came in to amend these claims on 3/2/95. She was in a hurry so I told her I would prepare them and she could come back at a later date to sign them, which she did on 3/16/95. Then after she left I noticed that I hadn't changed Item #7 (Total Quantity Appropriated) on A47-13934 and A47-13937 as she had requested on the amendment. I changed them on the system on 3/17/95 and she finally made it back in on 5/1/95 to sign them again.

She also had some questions on A47-13938 regarding their coverage for the expanded Dairy Use. I did some research and it appears that when she filed the original claim on 1/4/89, she paid a \$25.00 fee, thus making it a D&S claim with a limit of 13,000 gpd. Then it appears she amended it on 7/10/89, adding Commercial Use and changing Item #9 (Non-irrigation uses). No additional fees were recorded at this time. Then on 8/8/89, the claim was changed again and some additional fees for Commercial Use (\$69.00) were receipted, but the claim did not reflect Commercial Use on Item #6 (?) and Item #9 was changed again (?). There is also a Permit at the State Office at this time waiting to be licensed (47-08228). It appears the Permit will cover the dairy expansion and this claim will probably be recommended as a D&S right...Told her to wait until license is issued and we will better be able to know the direction this claim will be recommended.

RE: Evidence of Priority

Dear Claimant:

* RESPONSE DEADLINE *
* MARCH 15, 1995 *

The Notice of Claim identified with the number shown above your name on the mailing label has been filed in the Snake River Basin Adjudication (SRBA). The Notice indicates your water usage is based on "Beneficial Use" or a "Statutory Claim". Water rights of this type are established by the historical use of water, dating back to when water was first used for the purpose claimed. The date of first use, known as the priority date, has not been confirmed by a License, Decree or Permit. The Department will, at a later date, conduct reviews &/or field exams for the claims in your area. Since the priority date of a beneficial use water right can not be confirmed by field examination, proof must be provided by the claimant supporting the priority date claimed.

If you no longer own the property to which the claim is appurtenant please forward this correspondence to the present owner, or return it to the department. If you have received this correspondence from the previous owner of the property it is recommended that you file a Change of Ownership form with the Department in order to receive future mailings and to continue to be a party in the adjudication.

Please find enclosed a computer printout of your Notice of Claim and the pamphlet entitled "Evidence of Priority". The pamphlet describes the types of evidence required and suggests which documents will fulfill this requirement.

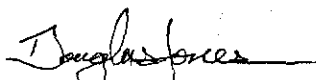

SPECIAL NOTE: The Department will not recommend the Notice be decreed by the court as claimed if no evidence of a priority date is submitted. It will be to your advantage to provide clear and convincing evidence. If you choose to submit statements from individuals as evidence, the statement must be in the form of a

January 10, 1995
page 2

notarized affidavit.

Please submit the required evidence supporting the priority date by March 15, 1995, referencing all documents with the corresponding Notice number. If you have any questions not covered by this letter or the enclosed pamphlet, please contact this office.

Sincerely,

Douglas Jones, P.E.
Water Rights Supervisor

G. VOLUME CALCULATIONS

1. Volume Calculations for Irrigation:

$V_{I.R.} = (\text{Acres Irrigated}) \times (\text{Irrigation Requirement}) = \underline{3/4 \times 4 = 3}$

$V_{D.R.} = [\text{Diversion Rate (cfs)}] \times (\text{Days in Irrigation Season}) \times 1.9835 = \underline{\hspace{2cm}}$

$V = \text{Smaller of } V_{I.R.} \text{ and } V_{D.R.} = \underline{3.0 \text{ AFA}}$

2. Volume Calculations for Other Uses:

Stock - 1000 hd x .0391 = 39.1 AFA - 8.5 AFA under stock = 30.6 AFA

Commercial - 32,000 gpd x 365 days/year = 35.8 AFA

H. REMARKS AND OVERLAP REVIEW ANALYSIS

Has ~~550~~¹⁰⁰⁰ milker & 0 dry stock. Milks 3 times a day. Facility is maxed out. Claim A47-13938 covers use of this dairy that began in 1979. However, the uses claimed exceed the 13,000 gallons per day allowed for domestic/stockwater use beginning after 1963. Claim should be reduced or denied altogether. Since outcome of claim is unknown, license recommendations are made as though claim didn't exist. The claim & license should be reconciled by SABA so that rights do not overlap. I have prepared the CWR for the claim (dom. use, 1/2 acre of lawn, 200 milkers, 50 dry stock), total 8.5 AFA & 0.14 cfs for stock. License recommendation is for uses not covered by claim recommendation. County ag. agent says barn uses 32,000 gallons per day. Is experimenting with washing methods that use water, so annual volume usage may be reduced in the future. Not to exceed 0.50 cfs when combined with A47-13938.

I. RECOMMENDATIONS Permit allowed 350 dry stock, but there are none. 350 hd would

1. Recommended Amounts use 4.7 AFA, whereas 3/4 ac. of irrig. use 3.0 AFA.
