The above mentioned waste water has been used for irrigation purposes since 1922.

The property South of the Helen M. Brake property was owned by my father, Charles Reichert, in the year 1922. The two properties were separated by an existing canal and made it impossible for Reichert to get rid of waste water on the lower end so he installed a pipe line under the canal causing the waste water to run onto the property in question. It has been used for irrigation purposes since that time with no objections from any owners of that property.

RE: Evidence of Priority

Dear Claimant:

* RESPONSE DEADLINE *
* MARCH 15, 1995 *

The Notice of Claim identified with the number shown above your name on the mailing label has been filed in the Snake River Basin Adjudication (SRBA). The Notice indicates your water usage is based on "Beneficial Use" or a "Statutory Claim". Water rights of this type are established by the historical use of water, dating back to when water was first used for the purpose claimed. The date of first use, known as the priority date, has not been confirmed by a License, Decree or Permit. The Department will, at a later date, conduct reviews &/or field exams for the claims in your area. Since the priority date of a beneficial use water right can not be confirmed by field examination, proof must be provided by the claimant supporting the priority date claimed.

If you no longer own the property to which the claim is appurtenant please forward this correspondence to the present owner, or return it to the department. If you have received this correspondence from the previous owner of the property it is recommended that you file a Change of Ownership form with the Department in order to receive future mailings and to continue to be a party in the adjudication.

Please find enclosed a computer printout of your Notice of Claim and the pamphlet entitled "Evidence of Priority". The pamphlet describes the types of evidence required and suggests which documents will fulfill this requirement.

SPECIAL NOTE: The Department will not recommend the Notice be decreed by the court as claimed if no evidence of a priority date is submitted. It will be to your advantage to provide clear and convincing evidence. If you choose to submit statements from individuals as evidence, the statement must be in the form of a

January 10, 1995

notarized affidavit.

Please submit the required evidence supporting the priority date by March 15, 1995, referencing all documents with the corresponding Notice number. If you have any questions not covered by this letter or the enclosed pamphlet, please contact this office.

Sincerely,

Douglas Jones, P.E.
Water Rights Supervisor

She mainly had questions on this wastewater right. In the past, she has used the tenants of her neighbors (from where the wastewater comes) to farm her place, but this year has hired someone else to do it for her. These tenants have now diverted the wastewater away from the pipe that has been in place for years and from which she watered her pasture. Wondered what she could do? I gave her a proof report for the claim and suggested she talk to her neighbors to try and resolve the problem. Explained that wastewater is not a very secure source and that if it is no longer wasted, she has no right to it. It does appear in this case that it may still be wastewater, but the tenants are now dumping it directly into the canal instead of letting it enter the pipe. Told her if she couldn't get the issue resolved, to contact us again and we would investigate the matter and try to resolve the problem...

A47-11958

This is her other claim. It was filed by her late husband in his name only. Told her we would need some sort of document showing that she was the heir to his estate in order to put it into her name. Gave her an ownership change form and she said she would find the paperwork or contact her attorney...

SUBJECT: UNABLE TO GET WASTEWATER RIGHT DELIVERED
phone call (X) walk-in (.)

Mrs. Brake called back again to say she still had been unable to solve her delivery problems with this waste water right. She said she had tried to contact Randy Kruse @326-4510, who used to farm her place in years past and remembers him telling her he didn't know how he'd be able to water her land without that waste water. He wouldn't return her calls... She then contacted one of the owner's, Sandra Claiborn @ 734-4614. Sandra indicated the reason they started dumping the wastewater into the canal was because the land down by the pipeline was puddling up so badly. She said Mrs. Brake needed to clean out and level the land on her side of the pipeline and that her father had spoken of these problems with Mrs. Brake's husband years ago; both of these parties are now deceased. Mrs. Brake asked if she cleaned out and leveled the area, would they put the wastewater back? Sandra told her not this year as they were going to plant crops there. I talked to both Allen Merritt and Brent King about this and we thought it looked like Mrs. Brake has a valid right to this waste water, but according to Idaho Code, the owner of the water is not required to waste water or has the right, in good faith, to change how or where it is wasted. We decided to have Mrs. Brake contact the other parties and set up a meeting next week so we can look at the situation and hopefully help them resolve it between themselves. She will call back when she has it set up...
