CUSTOMER

C BURR

SUBJECT: evidence of priority FOR A47-15264

He brought in an affidavit supporting the claim. The affidavit was somewhat weak in establishing an exact date and we discussed this. He thought that he could get a well log from the canal co. He also =thought that he could get another neighbor to complete an affidavit.

CUSTOMER

C BURR

SUBJECT: evidence of priority for A47-15264

He brought in well logs for two wells that indicated a completion date of 1-10-1952. We discussed the logs and he indicated that the wells were about 50 feet apart and that they are tied together. I suggested he complete an affidavit explaining the system.

Department of Water Resources

~~ASSEMBLY~~

RAY BURR

being first duly sworn, deposes and

says: Two wells were drilled, approximately 50 feet apart, in 1952.

The wells were tiled together to flow the water in a straight

line to a single outlet located at the base of a field. The

wells are covered by the field which was farmed before and

ever since the date of drilling. From the outlet, the water

flows through a series of irrigation ditches through the

property currently owned by Ray Burr. From the time the wells

were drilled, the water has been used strictly for farm

irrigation and livestock water. I intend to continue to use

the water from the wells for agricultural purposes.

RE: Evidence of Priority

Dear Claimant:

* RESPONSE DEADLINE *
* MARCH 15, 1995 *

The Notice of Claim identified with the number shown above your name on the mailing label has been filed in the Snake River Basin Adjudication (SRBA). The Notice indicates your water usage is based on "Beneficial Use" or a "Statutory Claim". Water rights of this type are established by the historical use of water, dating back to when water was first used for the purpose claimed. The date of first use, known as the priority date, has not been confirmed by a License, Decree or Permit. The Department will, at a later date, conduct reviews &/or field exams for the claims in your area. Since the priority date of a beneficial use water right can not be confirmed by field examination, **proof must be provided by the claimant** supporting the priority date claimed.

If you no longer own the property to which the claim is appurtenant please forward this correspondence to the present owner, or return it to the department. If you have received this correspondence from the previous owner of the property it is recommended that you file a Change of Ownership form with the Department in order to receive future mailings and to continue to be a party in the adjudication.

Please find enclosed a computer printout of your Notice of Claim and the pamphlet entitled "Evidence of Priority". The pamphlet describes the types of evidence required and suggests which documents will fulfill this requirement.

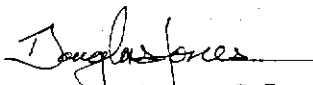

SPECIAL NOTE: The Department will not recommend the Notice be decreed by the court as claimed if no evidence of a priority date is submitted. It will be to your advantage to provide clear and convincing evidence. If you choose to submit statements from individuals as evidence, the statement must be in the form of a

January 10, 1995
page 2

notarized affidavit.

Please submit the required evidence supporting the priority date by March 15, 1995, referencing all documents with the corresponding Notice number. If you have any questions not covered by this letter or the enclosed pamphlet, please contact this office.

Sincerely,

Douglas Jones, P.E.
Water Rights Supervisor

EXCESSIVE FLOW SYSTEM ANALYSIS WORKSHEET

CLAIM NO. A47-15264
 DATE 11-10-92
 AGENT SC

GENERAL SYSTEM DESCRIPTION:

IRRIGATION WATER SOURCE ----- Artesian wellDELIVERY SYSTEM ----- Ditch & pipe

(e.g. canal company, ditch name, or sprinkler system)

ON FARM DELIVERY SYSTEM MAXIMUM CAPACITY -----
 (e.g. maximum capacity of ditch system or pumping capacity)

FIELD DATA:

photo reference	type of crop	irrigation method	dimensions width length	slope	total acres
	<u>Pasture</u>	<u>flood</u>			<u>15</u>

APPLICATION METHOD DATA:

FURROW: N/A

METHOD OF DELIVERY (e.g. gated pipe; syphon tube)

SPACING -----

GPM PER CORRUGATE/FURROW -----

BORDER:

DISTANCE COVERED PER SET -----

NUMBER OF SETS AT THE SAME TIME -----

LENGTH OF TIME OF EACH SET -----

IRRIGATION ROTATION:

IRRIGATION DAYS TO COVER P/U -----

DRY DAYS BETWEEN IRRIGATIONS -----

TOTAL ROTATION DAYS -----

Ditch system to flood irrigate pasture.* info per Ray Burr 11-10-92
