Dear Water Right Holder:

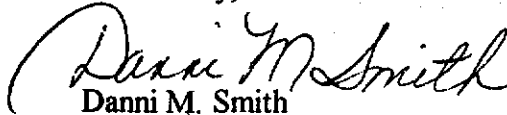

IDWR has been notified the address presently on our records is incorrect. Although we have reached you at the address above we need your written confirmation this is your correct mailing address before we can change our records. Future notices related to your water right can be sent only to the address on your claim or as otherwise changed by you.

Please sign your name at the bottom of this letter and return it to this office at your earliest convenience. Make corrections to your name and address if necessary before returning this letter. Thank you for your help.

If your mail delivery address changes in any form, please contact us in writing so we can update our records.

If there has been a change in ownership of any of the properties connected with the water right referenced above, please call this office toll-free at 1-800-451-4129 to obtain a form to make this required change to the water right records.

Yours truly,

Danni M. Smith
SRBA Sr. Secretary

The address is correct as shown above or as otherwise changed.

RE: Evidence of Priority

Dear Claimant:

* RESPONSE DEADLINE *
* MARCH 15, 1995 *

The Notice of Claim identified with the number shown above your name on the mailing label has been filed in the Snake River Basin Adjudication (SRBA). The Notice indicates your water usage is based on "Beneficial Use" or a "Statutory Claim". Water rights of this type are established by the historical use of water, dating back to when water was first used for the purpose claimed. The date of first use, known as the priority date, has not been confirmed by a License, Decree or Permit. The Department will, at a later date, conduct reviews &/or field exams for the claims in your area. Since the priority date of a beneficial use water right can not be confirmed by field examination, **proof must be provided by the claimant** supporting the priority date claimed.

If you no longer own the property to which the claim is appurtenant please forward this correspondence to the present owner, or return it to the department. If you have received this correspondence from the previous owner of the property it is recommended that you file a Change of Ownership form with the Department in order to receive future mailings and to continue to be a party in the adjudication.

Please find enclosed a computer printout of your Notice of Claim and the pamphlet entitled "Evidence of Priority". The pamphlet describes the types of evidence required and suggests which documents will fulfill this requirement.

SPECIAL NOTE: The Department will not recommend the Notice be decreed by the court as claimed if no evidence of a priority date is submitted. It will be to your advantage to provide clear and convincing evidence. If you choose to submit statements from individuals as evidence, the statement must be in the form of a

January 10, 1995
page 2

notarized affidavit.

Please submit the required evidence supporting the priority date by March 15, 1995, referencing all documents with the corresponding Notice number. If you have any questions not covered by this letter or the enclosed pamphlet, please contact this office.

Sincerely,

Douglas Jones, P.E.
Water Rights Supervisor

COMMUNICATION DOCUMENTATION

Claim No. A47-15266

This form is to be used to document public record information requests regarding any SRBA claim or claims. The form may also be used to document IDWR communications requesting information regarding any SRBA claim or claims when the request is not made in writing or the claim verification report is not readily available to document the request. This form is to be filed in all relevant claim files or a central office file.

IDWR Employee/Agent J. Jones Date 2/3/95Contact Person(s) Ree JonesNature of Contact E. P. Request

Substance of Communication Tenant Farmer - John Peterson
Filed a Sadavit in '92 stating that water use
occurred at least since 1944. Mrs Jones wanted
to know what else he had to do. I said that
if she wanted to find additional evidence to
put date earlier, she could. She asked "why,
isn't '44 good enough?" I said her claim
says '20 & we would ~~not~~ recommend '44 if nothing
else is submitted. "This is worse than O.S. thing"
she says.

She railed against Allred who is pumping
the coulee dry - under canal shares (according to
Jim Stanton in '94 letter). She couldn't accept
him pumping canal water when he doesn't turn
any in to coulee when she has "filed on it"

IDWR Employee/Agent Adm Date 6/22/94

Contact Person(s) Ree Jones

Nature of Contact She indicated she has water right
and is not getting her water since someone
above is taking it.

Substance of Communication _____

I told her that A47-15266 is an adjudication
claim (hers) and that ultimately the court
will determine her right. I told her
if someone is taking water without a right
above her that she could come in and
file a written complaint and we would
investigate. She said she would
come in.

6/22/94 She came in and file a complaint
about illegal use. Jim Stator- MICROFILMED

COMMUNICATION DOCUMENTATION

Claim No. A47-15266

This form is to be used to document public record information requests regarding any SRBA claim or claims. The form may also be used to document IDWR communications requesting information regarding any SRBA claim or claims when the request is not made in writing or the claim verification report is not readily available to document the request. This form is to be filed in all relevant claim files or a central office file.

IDWR Employee/Agent Adm Date 6/22/94

Contact Person(s) Ree Jones

Nature of Contact She indicated she has water right and is not getting her water since someone above is taking it.

Substance of Communication _____

I told her that A47-15266 is an adjudication claim (hers) and that ultimately the court will determine her right. I told her if someone is taking water without a right above her that she could come in and file a written complaint and we would investigate. She said she would come in.

6/22/94 She came in and file a complaint about illegal use. Jim Staton will investigate
6/23/94.

Dear Ms. Jones;

In response to your complaint concerning the pumps that Dean Allred installed in the wastewater ditch that you use, I visited the Allred property last week as we agreed. Your renter was there, as was Mr. Allred. My investigation indicated that Mr. Allred has a right to use this pumping plant, as he has transferred canal shares into the waste ditch. He does not, however, have a right to pump at a higher rate than the rate at which canal shares are delivered to him. Due to the reduction in delivery rates within the canal system this year, Mr. Allred should not operate more than five wheel lines at a time when 120 shares are being delivered to his pumps. In a normal year, he could run all six lines at once. This year, it would take 147 ^{shares} inches of canal water to provide enough water for the six wheel lines on the Allred property. I have advised Mr. Allred of this situation; a copy of my letter to him is enclosed. The Twin Falls Canal Co. has also received a copy of that letter.

If you have further questions, please feel free to contact this office.

Sincerely,

James E. Stanton
Sr. Water Resource Agent

Dear Mr. Allred;

I have discussed your irrigation system with the Twin Falls Canal Co., and they have confirmed that you have transferred your canal shares into the waste ditch that is claimed by Rea Jones. With 120 shares on 120 acres and a delivery rate of 5/8" per share, you are entitled to pump 75 inches (675 gpm) of water. With a 120% delivery rate, you would be entitled to pump 90 inches (810 gpm). Six lines of 4.3-gpm flow-control nozzles would put out about 92 inches (828 gpm). Two 20-hp pumps at 63 psi would theoretically pump 760 gpm.

When we spoke on your property, I was not sure if there would be any limitations on your pumping rate. I have since discussed this situation with Jim Johnson of our Boise office, who confirmed that your pumping rate cannot exceed the rate at which your canal shares are delivered. Our records do not show any separate wastewater rights on this property, so your use of wastewater is merely a convenience that is limited by your ownership of canal water. In a normal year with a 120% delivery rate, your two pumps could be run at full capacity without significantly exceeding your water right. But with the reduced share delivery occurring this year, your pumping rate should not exceed 75 inches (5 wheel lines in your system). Pumping at a higher rate would constitute a new appropriation of water, which is not allowed at this time due to the drought-related moratorium on new consumptive-use permits.

If you have any questions, please feel free to contact me.

Sincerely,

James E. Stanton
Sr. Water Resource Agent
