**CONVERSATION MEMO RE: CHANGE OF OWNERSHIP
FOR A47-07412 AND A47-02159W**

Mr Dekleinhans submitted a change of ownership and a warranty deed in 1994 for parcel 1-A. The reviewing agent changed the entire rights for both claims into Mr Dekleinhans' name.

Upon a desk review and subsequent field visit, I found that the warranty deed only described a 3.3 acre parcel and that only 3 acres of that parcel are irrigated. Therefore, I split the original claim into parts A47-07412A and A47-02159AG for (FOWLER) and A47-07412B and A47-02159H for (DEKLEINHANS).

Ownership documentation is in files A47-07412 and A47-02159W.

**CONVERSATION MEMO RE: CHANGE OF OWNERSHIP
FOR A47-07412A**

Jeffery Pfaeffle submitted a change of ownership form along with a quitclaim deed from Fowler Jr to Fowler Sr for parcel 1-B and a warranty deed from Fowler Sr to Pfaeffle for a 6.69 parcel. The initial reviewing agent changed the entire right into Pfaeffle's name.

Upon further research and the previously mentioned field visit, I split A47-07412A into A47-07412C for Fowler Jr and A47-07412D for Pfaeffle.

Ownership documentation is in file A47-07412A.

RE: A47-02159AG AND A47-07412A, CHANGE OF OWNERSHIP FOR FOWLER JR,
FOWLER SR, AND PFAEFFLE

Dear Mr Felton

As you are currently listed as the attorney of record for the Fowlers I am including copies of the rights as split.

When you submitted the paperwork to change the ownership from Fowler Jr to Pfaeffle the documentation was correct but the department missed that the quit claim deed from Fowler Jr to Fowler Sr was only for parcel 1-B (1.6 acres). Both rights in their entirety were changed to Pfaeffle. During my review for another potential change of ownership, I discovered the error and have corrected it.

A Henry Doble may contact you as he purchased property covered by A47-07412A (now split into A47-07412C owned by Fowler Jr) and I indicated to him that you were and may still be the Fowler representative. I believe that Mr Doble purchased from Fowler Sr and if so, will have to go through approximately the same hoops as Mr Pfaeffle.

I have mailed Mr Pfaeffle's copies of the changes to him and he may also contact you. If you wish, you can give me a call and we can discuss the issues involved concerning that area as they currently stand.

Sincerely

Kelly K Christensen

MEMORANDUM

To: R. Keith Higgins
 From: C. Stephen Allred
 Re: License Permit 15841

Permit 15841 was licensed on October 19, 1923, to provide for diversion of 1.56 cubic feet of water per second for irrigation of 203 acres lying in Sections 17, 18, 19, and 20, Township 8 S., R. 14 E., B.M. The point of diversion was described as being in the NE 1/4 NE 1/4 Sec. 1, T. 9 S., R. 13 E., B.M. The examiner's report shows that diversion was accomplished by means of a timber and rock diversion dam approximately 75 feet wide.

On January 3, 1935, Mr. Nels Larson requested by letter that the point of diversion for 1.56 cubic feet of water under license 15841 be changed to the NW 1/4 Sec. 30, T. 8 S., R. 14 E., B.M. The department informed Mr. Nelson that since the license was issued to more than one individual that it would be necessary for him to obtain permission from those individuals to transfer the water. Mr. Nelson obtained that permission and, on June 8, 1935, the department recorded an affidavit changing the point of diversion and returned the original to Mr. Larson, Robert H. Ehl, H. Ho. However, the department did retain a plat showing the old and new points of diversion which was evidently filed with the affidavit.

On February 21 and again on March 14, 1940, Mr. Nels Larson requested information as to how to change the original point of diversion downstream. He again obtained permission from the remaining parties to the permit to do so. On June 21, 1940, another affidavit changing the point of diversion was recorded by the department on license 15841 to show that the point of diversion for the remaining 1.56 cubic feet per second of water still at the original point of diversion had been changed to the NW 1/4 SW 1/4 Sec. 31, T. 8 S., R. 14 E., B.M.

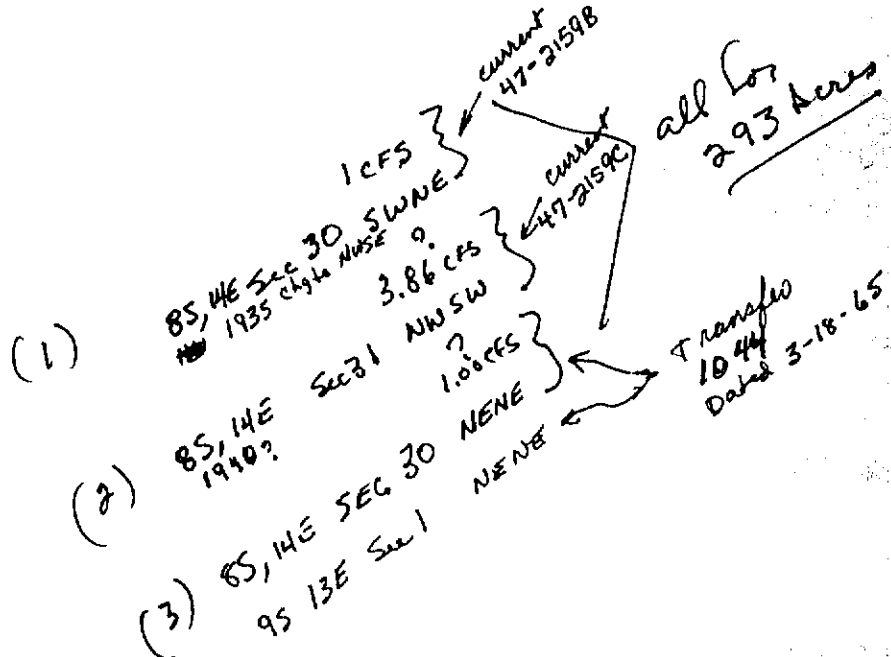

In 1965, the department received an application for transfer from the present to change the point of diversion of 1 cubic foot per second of water from that described in the license to the NE 1/4 NE 1/4 Sec. 30, T. 8 S., R. 14 E., B.M. The transfer application was assigned the number 1044 and was subsequently approved stating that the water under license 15841 was to be diverted in the NE 1/4 NE 1/4 Sec. 30, T. 8 S., R. 14 E., B.M., and the NE 1/4 NE 1/4 Sec. 1, T. 9 S., R. 13 E., B.M. It is apparent that transfer 1044 did not accurately describe the change which took place in the license the point of that change.

15371

47-2159

...the water was not so described in the statutes by which the water was transferred under a licensed water right or decree. But the act of the legislature in 1935 does give a person the authority to do so.

It appears that when transfer 1044 was considered, that the department was not aware of the previous two alterations of change and that they were not considered in the approval of the transfer 1044. In my opinion, transfer 1044 should be rescinded and replaced reflecting the changes that came about in 1935 and 1940, basically as follows: (1) to be diverted in the SW 1/4 Sec. 30, T. 8 S., (1) R. 24 E., 1/4 NE, and 1/4 SE, to be diverted in the NW 1/4 Sec. 31, T. 8 S., (2) R. 24 E., 1/4 NE, and 1/4 SE, to be diverted in the NE 1/4 Sec. 30, T. 8 S., R. 24 E., 1/4 NE, and 1/4 SE, to the 293 acres described in the license 15441.

THIS IS TO CERTIFY that said application for a permit to appropriate the
public water of the State of Idaho, filed July 18, 1923, that Permit No. 15841
was issued under said application that Certificate of Completion of works, with a carrying capacity of
3.56 cubic feet per second, was issued on September 5, 1923, showing that said works
were completed on the 23rd day of August, 1923; and that on the 29th
day of September, 1923.

Mrs. Rasmus Hansen, et al

of said State of Idaho, made proof to the satisfaction of the
Commissioner of Reclamation of Idaho, of the right to use the waters of Salmon River
, a tributary of Snake River, for the purpose of irrigation and
domestic use, under Use Permit No. 15841 of the Commissioner of Reclamation
and that said right to the use of said waters has been performed in accordance with the laws of
Idaho, and is hereby confirmed by the Commissioner of Reclamation of Idaho and entered of record in
Volume 6 of Licenses, at page 1294, on the 19th day of October, 1923;

The right hereby confirmed dates from July 18, 1923;

The Point of Diversion is located

in the NE 1/4, Sec. 14, Twp. 9 S., R. 13 E., N.M.

That the amount of water to which such right is entitled and hereby confirmed, for the purposes
aforesaid, is limited to an amount actually needed and beneficially used for said purposes, and shall not
exceed 3.56 cubic feet per second.

4. Describe any other water rights used for the same purpose as described above. _____
None
5. Draw a map indicating the new point(s) of diversion and/or the new land to be irrigated. Show clearly the land involved by section, township and range number.

D. REMARKS

All of this 5 acres has been dry for some unknown period of time. Old diverting works are completely unusable. Nearby ground is still being watered with this system.

I hereby assert that no one will be injured by such change and that the change does not constitute an enlargement in use of the original right. The information contained in this application is true to the best of my knowledge.

I understand that any willfull misrepresentations made in this application may result in voiding its approval.
