NOTES FROM A FIELD VISIT WITH ROBERT RING

JANUARY 16, 1996

I met with Robert Ring, his wife, and his son Neal and discussed the general history of water right 47-02159. We reviewed the first transfers that added Points of Diversion to the system and he indicated that they indeed were developed but that they all were abandoned by the 1984 flood except for his two pumps (a 5hp pump by the home and a 15hp pump north of the home by the bridge crossing), a 45hp pump at the mouth of Salmon Falls Creek (on the north shore) for ground claimed under A47-02159T, and any individual lot owners that may have installed a private pump for that specific lot. He indicated that very few lots had installed pumps.

A47-02159AC REVIEW

I specifically asked him about the history of the ground claimed under A47-02159AC and Mr Ring indicated that that ground was never part of the original irrigated ground. He did state that the original ditch did go through the northeast corner of that parcel but that the majority of the ground was west and uphill from the ditch. He did state that some water may have got on a small part of the northeast corner at one time but nothing in that area had been irrigated since the 1984 flood.

A47-02159V (AS SPLIT)

I then specifically asked about the ground in section 19 that is between the Snake River and Salmon Falls Creek. He stated that the original ditch did not reach that ground and that he had never irrigated it. He stated that he traded that property to George Lemmon in the late 1960s or early 1970s and that George subsequently sold that property to Monroe. He did not recall George of ever developing an irrigation system on that ground. This ground was claimed in the adjudication as A47-02159V and was subsequently split into A47-02159X A47-02159Y and A47-02159Z. A47-02159X has now been split into A47-02159AG and A47-02159AH.
