RE: SPLITTING OF A47-02159V INTO THREE PARTS

Dear Mr Block

Enclosed is a copy of your portion of the original claim as split and data entered. Please review this claim to verify that all information is correct and if you find a problem please notify the department of the errors. The split was based upon information supplied by Mr Fowler.

I have mailed copies of their respective portions of the base claim to Mr Dale and Mr Fowler.

If you have any further questions please contact this office and someone here can discuss them with you.

Sincerely

Kelly K. Christensen
Sr. Water Resource Agent

CLAIM A47-021594 INIT KKC

T. R. S. Q/Q

P/D BS 14E 30

PHOTO ID. ASCS E-7

DT.&ID. 1987 Flight

ANALYSIS OF A47-02159V AS SPLIT INTO:

The original right and the splits there-from was for a parcel of ground in TNS 08S; RNG 14E; SEC 19; GOVT LOT 7; B.M. that is at the mouth of and between Salmon Falls Creek and the Snake River. There is a pump that has been placed in the Salmon Falls Creek that irrigates a portion of that ground claimed by the above individuals and other parties that do not have an adjudication claim filed.

Based upon a conversation with Robert Ring, June Ring and Neal Ring on January 16, 1996 at their home, the water use on this property was never part of the original licensed right 47-02159 or part of the place of use identified in any subsequent allocations transfers.

Mr Ring further stated that the original ditch system for the ground east of Salmon Falls Creek could not reach the ground in section 19. He stated that he traded that ground to George Lemmon for a Desert Land Entry parcel in the late 1960s or early 1970's and had never irrigated that ground. To the best of their knowledge (Robert, June, and Neal) George Lemmon never developed an irrigation project on that parcel prior to the sale to Monroe.

RECOMMENDATION

As the above claims are based upon 47-02159G and that right was never appurtenant to that ground and no unrecorded transfer has been identified I am recommending these claims for:

NOTES FROM A FIELD VISIT WITH ROBERT RING

JANUARY 16, 1996

I met with Robert Ring, his wife, and his son Neal and discussed the general history of water right 47-02159. We reviewed the first transfers that added Points of Diversion to the system and he indicated that they indeed were developed but that they all were abandoned by the 1984 flood except for his two pumps (a 5hp pump by the home and a 15hp pump north of the home by the bridge crossing), a 45hp pump at the mouth of Salmon Falls Creek (on the north shore) for ground claimed under A47-02159T, and any individual lot owners that may have installed a private pump for that specific lot. He indicated that very few lots had installed pumps.

A47-02159AC REVIEW

I specifically asked him about the history of the ground claimed under A47-02159AC and Mr Ring indicated that that ground was never part of the original irrigated ground. He did state that the original ditch did go through the northeast corner of that parcel but that the majority of the ground was west and uphill from the ditch. He did state that some water may have got on a small part of the northeast corner at one time but nothing in that area had been irrigated since the 1984 flood.

A47-02159V (AS SPLIT)

I then specifically asked about the ground in section 19 that is between the Snake River and Salmon Falls Creek. He stated that the original ditch did not reach that ground and that he had never irrigated it. He stated that he traded that property to George Lemmon in the late 1960s or early 1970s and that George subsequently sold that property to Monroe. He did not recall George of ever developing an irrigation system on that ground. This ground was claimed in the adjudication as A47-02159V and was subsequently split into A47-02159X A47-02159Y and A47-02159Z. A47-02159X has now been split into A47-02159AG and A47-02159AH.
