RE: Amendment of SRBA Claims #A47-02386A & B

Dear Mike:

Pursuant to the approval of Transfer No. 4818, the above referenced Notices of Claim in the Snake River Basin Adjudication have been amended to conform with the transfer. Please find enclosed a printout of the way your claim records have been modified. Please look the modified records over carefully to be sure they correctly reflect your intended change. If you have questions please feel free to contact this office.

Sincerely,

A handwritten signature in cursive script that reads "Jeanie".

Jeanie Robertson
Sr. Water Rights Agent

TRANSFER NO. 4818
WATER RIGHT NO. 47-02386B

1. This right when combined with all other rights shall provide no more than .02 cfs per acre nor more than 4.0 afa per acre for the lands above.
2. After specific notification by the department, the right holder shall install a suitable measuring device or shall enter into an agreement with the department to determine the amount of water diverted from power records and shall annually report the information to the department.

TRANSFER NO. 4818
WATER RIGHT NO. 47-02386B

CONDITIONS OF APPROVAL AND REMARKS

3. The change authorized by this transfer shall be accomplished within one (1) year of the date of this approval.
4. Failure to comply with the conditions of this transfer is cause for the director to issue an order to show cause why the approval of the transfer should not be rescinded.
5. Approval of this transfer does not preclude the opportunity for review of the validity of the water right(s) in the ongoing Snake River Basin Adjudication.

Dated this 19th day of November, 1996

Chief, Water Alloc. Bureau

MEMORANDUM

TO: FILE NO. 47-02386

FROM: PAM SKAGGS/STATE OFFICE

SUBJECT: AMENDED LICENSE & TRANSFER NO. 4818

DATE: October 25, 1996

=====

Transfer No. 4818 was filed to change the point of diversion and place of use for 130 acres under a portion of Right No. 47-02386. The transfer application was originally proposed to move all the water under the right and reduce the acres. The applicant questioned the accuracy of the original license and requested that the department reconsider the matter. The transfer approval was modified to reflect the resulting amended license.

The original license appeared to be flawed, allowing a small rate of diversion (0.005 cfs/acre) calculated under the assumption that only 4 lines were being used. The field exam was conducted later in the season when perhaps the irrigation need was reduced, but review of the exam information and photo reflect the total irrigation of licensed acres through the use of more than 4 lines. The rate of diversion was identified by the examiner for each well allowing the more realistic rate of diversion of 3.51 cfs or 0.017 cfs/acre and full volume for the irrigated acres.

An Amended License was prepared to more accurately reflect the historical use of this right. Since shortly after the field exam the acres in SW, S24, T08S, R12E have been irrigated under a circle pivot while the acres in the E1/2SE, S23, T08S, R12E have continued with minor adjustments. The previous owner agreed that this was a more accurate description of the use of this right.

The transfer subsequently moves the 130 acres from the pivot in Section 24 to the proposed place of use, an existing well and pivot located in NW, S36, T08S, R12E. The remaining unchanged portion of the right, Part A, consists of 76 acres in the E1/2SE, S23.

Season of use was adjusted to current standards. Recommended conditions include future measuring devices & annual reporting, irrigation overlap and standard transfer conditions.

AMENDED

WATER RIGHT NO. 47-02386

Priority: September 12, 1963

Maximum Diversion Rate:

3.51 CFS

Maximum Diversion Volume:

824.0 AF

This is to certify, that SALMON FALLS LAND & LIVESTOCK COMPANY

123 BELL RAPIDS RD

HAGERMAN ID 83332

has complied with the terms and conditions

of the permit, issued pursuant to Application for Permit dated September 12, 1963; and has submitted Proof of Beneficial Use on October 12, 1970. An examination indicates that the works have a diversion capacity of 0.000 cfs of water from a GROUNDWATER source, and a water right has been established as follows:

<u>BENEFICIAL USE</u>	<u>PERIOD OF USE</u>	<u>RATE OF DIVERSION</u>	<u>ANNUAL VOLUME</u>
IRRIGATION	03/01 to 11/01	3.51 CFS	824.0 AF

LOCATION OF POINT(S) OF DIVERSION: SWSE , Sec. 23, Township 08S, Range 12E
SWSW , Sec. 24, Township 08S, Range 12E
TWIN FALLS County

PLACE OF USE: IRRIGATION

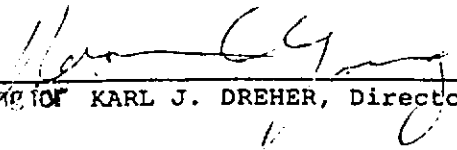

<u>TWN</u>	<u>RGE</u>	<u>SEC</u>	<u>ACRES</u>	<u>ACRES</u>	<u>ACRES</u>	<u>TOTAL</u>
08S	12E	23	NESE 38	SESE 38		76
		24	NESW 32	NWSW 32	SWSW 33	130
			SESW 33			

Total number of acres irrigated: 206

CONDITIONS OF APPROVAL AND REMARKS

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount that can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.

This license is issued pursuant to the provisions of Section 42-219, Idaho Code. Witness the seal and signature of the Director, affixed at Boise, this 5th day of November, 1996.

RECEIVED

OCT 15 1996

Department of Water Resources
Eastern District Office

Dear Ms. Scaggs:

I am writing this letter to you as the owner of Water Right No. 47-02386. This letter is also in reply to your letter dated September 12, 1996 to Salmon Falls Land and Livestock, Inc.

Salmon Falls and I have mutually agreed to withdraw the application to transfer the above mentioned water right to lands owned by Salmon Falls Land and Livestock, Inc. Secondly, I would like to use this letter to make a matter of record for the coming adjudication regarding the history of that particular water right. According to the well driller's report dated August 18, 1967, a 12 inch well was drilled to depth of 766 feet, was test pumped and found that the water level stood at 178 feet below ground. This well was located in the SW1/4 SE1/4 of Section 23, Township 8 South, Range 12 East. Clifton Smallwood of Twin Falls was the owner of the land at that time and I was involved in desert entry applications in that immediate area at the same period of time. Mr. Smallwood used this well and grew successful crops with it in the SE1/4 of Section 23. Approximately 100 acres was irrigated at that time according to my recollection.

A well was subsequently drilled in the SW1/4 SW1/4 of Section 24 and according to my notes, this well was 450 feet deep with a 20 inch hole and the water table stood at 230 feet. I do not have the well logs of this 450 foot well any longer so I don't know the date but the water license was issued on December 19, 1972 with a priority of September 12, 1963. Both of these wells were put on the same license which is inconceivable in the first place and secondly, we know that each well produced at least 1.2 cfs of water. In any event, the license did cover 229.8 acres and I have personally irrigated all of the designated acres at various times over the years.

Under the adjudication claim, Case No. 39576, I filed an

application for consumptive use of 690 acre feet per annum on this particular property. I know that it is difficult to change a licensed water right but a total consumptive use of 690 acre feet is not requesting much and we would like to maintain that as a final claim to our water right under state law.

Thank you for your consideration of this matter.

Very truly yours,

Harry F. LeMoyne
Harry F. LeMoyne

FROM: Allen Merritt

DATE: June 5, 1996

TO: Transfer File #4818

SUBJECT: Review and Recommendation

The transfer proposes to move an existing irrigation water right from one farm to another farm nearby. The current place of use is in CRP and the water has been leased to provide water to the second farm which was developed without a water right.

(See 4/16/96 memo from Corey Skinner) Review of overlapping rights finds that both farms have application 47-07165 overlapping, otherwise 47-02386 is the sole water source for the current P/U and the proposed P/U has no recorded rights.

Based on Corey's memo and review of memo from Georgia Satterlee regarding field review it appears that the proposed P/U has a diversion capacity of 900 gpm or 2.0 cfs. The right proposed to be transferred has a diversion rate of 1.21 cfs which appears to be insufficient. Review of the diversion volume limit of the right which is 588 afa would indicate that the volume is sufficient to irrigate the 130 acres (520 afa based on 4 afa/acre).

I am torn with approving this transfer since on the face there could be an expansion of the diversion rate. I have been a proponent of regulating groundwater diversions based on diversion volume rather than diversion rate and with this emphasis I make the following recommendation:

I recommend the transfer be approved with the following conditions:

- Subject to SRBA review.
- A measuring device with totalizing meter be installed on the well.
- The right is limited to 520 afa until such time as the right is moved back to the original P/U.
- The right is limited to a diversion rate of 1.21 cfs or applicant must provide a mitigation plan that must be approved by the department whereby a diversion rate of 2.0 cfs would be allowed on a timed basis if it is demonstrated other rights are not injured. As part of the plan reporting of the use to the department must be incorporated.*

*This condition should be reviewed by legal & administration.

47-02386, T # 4818

MEMORANDUM

TO: Salmon Falls Land & Livestock Transfer (47-02386) File

FROM: Corey Skinner *CS*

DATE: April 16, 1996

SUBJECT: Pertinent Information

I assisted Mike Henslee, Vice President of Salmon Falls Land & Livestock, with the enclosed transfer application for right 47-02386. Mr. Henslee desires to irrigate 130 acres of ground in the NW $\frac{1}{4}$ of Section 36 (T08S, R12E) out of an existing unlicensed well and pivot irrigation system. He was able to lease some property about a mile north of the 130 acres that he desires to irrigate. This leased property, a portion of which is currently under CRP, has an appurtenant Water Right, license 47-02386. It is Mr. Henslee's intention to transfer this license to the 130 acres of land in Section 36.

Water Right 47-02386 was originally licensed for 1.21 cfs for 229 acres and limited to a 588 acre foot diversion volume out of two separate wells. Mr. Henslee's Section 36 irrigation system consists of an existing well and center pivot sprinkler. In January while preparing the transfer, I told Mr. Henslee that the diversion rate for license 47-02386, 1.21 cfs = 544.5 gpm, was not enough to run his center pivot system and that he would need additional water. He decided that he would attempt to locate an additional water right to transfer along with 47-02386.

On February 22nd, Mr. Henslee and Harry LeMoyne (the gentleman Mr. Henslee is leasing the property from) came by the office to discuss the transfer application. It was brought to Mr. LeMoyne's attention that water right 47-02386 was not licensed for a large enough flow rate to run a center pivot system. Mr. LeMoyne argued that the property he is leasing to Mr. Henslee was irrigated with a pivot system before it was put into CRP. The orthophoto quads here in our office (BB18 & BB19, 1974) support this contention. He also said that the flow rate on the original license was too low and possibly measured incorrectly, or at the wrong time of the year (original field exam was conducted July 29, 1971).

After some interoffice discussions, Mr. Henslee agreed to proceed with the transfer application, despite the inadequate flow rate. It was explained to Mr. Henslee and Mr. LeMoyne that the department can not allow an expansion of the flow rate, number of acres irrigated, or the diversion volume in the transfer process. Mr. Henslee's proceeding with the transfer application was based on the idea that the entire original license was for 229 acres and a 588 acre foot diversion volume. Mr. Henslee intends to irrigate 130 acres (which would work out to a 520 acre foot diversion

Page 2
Transfer (47-02386) Memo
April 16, 1996

volume) both of these numbers are less than the respective numbers on the original license, so maybe the department might approve the application.

No promises were made to the applicant and he was told that the department would probably view the transfer as an expansion, but he decided to go ahead and submit the application and proceed with the transfer process.

Because this transfer application involves land in the Blue Gulch CGWA, and is a probable expansion of diversion rate...

It is imperative that the necessary limit and approval conditions are addressed and complied with if this application is approved.

12 APRIL 1996

TO: FILE-TRANSFER #47-02386
SALMON FALLS LAND & LIVESTOCK

FROM: GEORGIA SATTERLEE

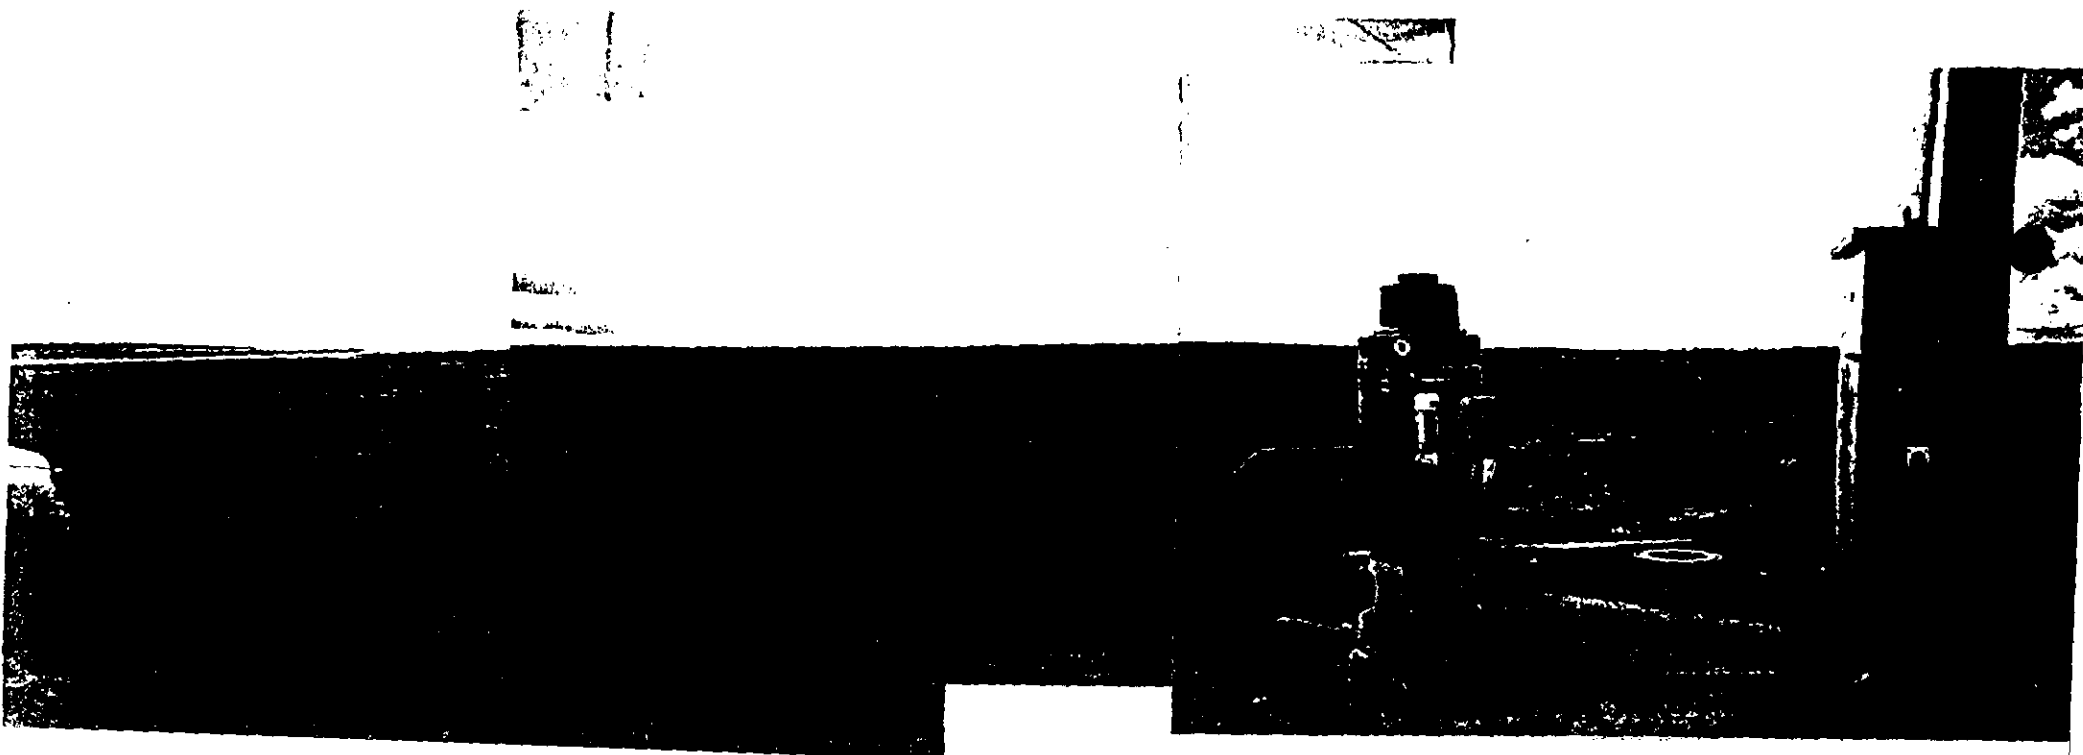

TODAY AT 1500 HRS., I MET WITH MIKE HENSLEE. MR. HENSLEE SHOWED ME THE POINT OF DIVERSION AND PLACE OF USE FOR THE AREA THE APPLICATION FOR TRANSFER IS GEARED TOWARDS. ALSO, HE SHOWED ME THE AREA (THE POINT OF DIVERSION(S) AND PLACE(S) OF USE) HE IS WANTING TO TRANSFER FROM. THE PLACE OF USE THAT IS IN CRP UNTIL 1997 IS THE SE $\frac{1}{4}$ IN SECTION 23. PHOTOS WERE TAKEN OF ALL AREAS AND ALL POINTS OF DIVERSIONS. SEE ATTACHED PHOTOS WITH REMARKS.

CONTRACT TO LEASE WATER

On the 8th day of September 1995, S & L Company of Twin Falls, Idaho entered into a lease and option agreement with Salmon Falls Land & Livestock of Hagerman, Idaho.

Now the Lessee under the aforementioned agreement wishes to transfer the water right which is appurtenant to S & L lands from those lands to lands owned by the Lessee. S & L Company hereby agrees to let Salmon Falls transfer said water right to lands described as the NW1/4 of Section 36, Township 8 South, Range 12 EBM with the express provision and agreement that if Salmon Falls does not exercise the option to purchase S & L lands under the September agreement by December 31, 1996, that they will transfer the water back to the SE1/4 of Section 23 and the SW1/4 of Section 24, all in Township 8 South, Range 12 EBM. Salmon Falls to pay all expenses of said transfer to their lands and expenses of any retransfer to S & L lands.

S & L Company agrees to execute all necessary papers to effect the original transfer and Salmon Falls hereby agrees to execute transfer agreements to retransfer said water which agreements shall be held by LeMoyne Development, Inc. pending the exercise of option. If said option is not exercised, LeMoyne Development, Inc. will deliver said transfer payments to S & L Company to be recorded with the Department of Water Resources.

IN WITNESS WHEREOF the parties hereto have set their hands and seals this 22 day of ~~January~~ February 1996.

LEASE AND OPTION AGREEMENT

This lease and option made and entered into this 4th day of September, 1995, by and between S & L Company of Twin Falls, Idaho, Lessor, and Salmon Falls Land & Livestock of Hagerman, Idaho, Lessee.

NOW THEREFORE, and in consideration of the premises and of the payment of the sum of \$2,000.00, receipt of which is hereby acknowledged, it is hereby agreed that the Lessors do hereby lease, let, and remise to the Lessee the following described real property situated in Twin Falls County, State of Idaho, to wit:

SE1/4 of Section 23 and SW1/4 of Section 24, all in Township 8 South, Range 12 EBM, together with all wells, pumps and water rights appurtenant thereto, including the Mel Brown pivot located on the SW1/4 of Section 24.

This lease and agreement is made and entered into upon the further terms, conditions, provisions and agreements hereinafter set forth, to wit:

(1) That this lease shall be for a period from September 10, 1995 to December 31, 1996 unless sooner terminated by mutual agreement, or by a breach of the terms and conditions contained herein.

(2) That Lessor during the term of said lease shall pay all taxes and legal assessments on the said described property.

(3) That as a part of the consideration hereof vendor hereby gives and grants unto the Lessee and its successors in interest, an exclusive option to purchase the above described property for a total sum of \$100,000. The option to purchase must be exercised on or before December 31, 1996. If said option is exercised the lease payment will be applied to the purchase price. The closing date will be 15 days after notification of exercise of option is given to seller. The sum of \$20,000 cash will be made on closing and the balance of \$78,000 is to be paid on a note secured by a mortgage at 9% interest with the payment amortized over a 20 year period with the full balance of the remaining principal due and payable on or before January 15, 2007. There will be no prepayment penalty on any amounts paid on the annual due dates.

Title to the seller is to be conveyed by warranty deed and is to be marketable and insurable. TitleFact, Inc. of Twin Falls, Idaho will provide a title policy and will be the closing agent. Buyer and seller will split all closing costs except seller will pay for the title insurance and the real estate commission of 6%.

It is understood by the parties to this agreement that the S & L property is subject to a lease agreement dated October 1, 1986 between S & L Company as Lessor and Faulkner Land & Livestock as

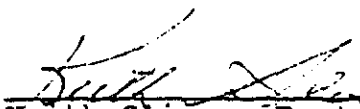

Lessee. This lease agreement is for the right to use a well located in the SE1/4 of Section 23 through the 31st day of October 2006. A copy of said lease agreement is attached hereto.

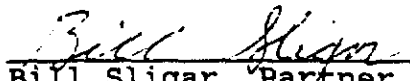

The parties hereto are also aware that the SE1/4 of Section 23 is subject to a CRP lease through 1996. If the S & L Company is given an opportunity by the United States government to participate in another CRP contract on said SE1/4 of Section 23, the lessors herein shall notify the lessee of the terms and conditions of the proposed CRP contract. Lessee can then approve of said terms and conditions and upon exercise of option will succeed to the full use and benefit of said contract. If Lessee does not wish to approve of said terms and conditions, he must then exercise his option to purchase and close within 15 days from the time of notification of the terms and conditions as submitted by Lessor.

IN WITNESS WHEREOF, the parties hereto have set their hands and seals this 8th day of September 1995.
