div rate licensed 0.45 cfs
Recommended @ 0.397 cfs

Recommendation rate of 0.397 is based upon a proportional rate per acre of the orig licensed P/U (8 acres turned back on DLE). Amanda calculated an associated rate for those acres & considered that portion also relinquished.

It appears to me that it is more likely that the entire licensed rate of 0.45 cfs remained on the balance of the licensed P/U (recognized by Amanda as 60 ac).

Therefore I am in agreement that the rate should be corrected to reflect the 0.45 cfs.

RE: Notice Of Error Reply SNAKE RIVER BASIN ADJUDICATION CLAIM(S): 47-2500A et all

Dear Ms. Lawler,

With regards to the SRBA Basin 47 Notice of Error reply for A47-2500A et all. You indicated that you would like to see the combined diversion rate for the groundwater claims changed from the recommended 3.72 cfs to 3.73 cfs. I went ahead and made that change for you. The combined volume for the groundwater claims will stay as 960 AFA, as IDWR can recommend no more than 4AFA per acre for groundwater rights. For 47-2486A you indicated that you would like the 8 acres that Cynthia Turner relinquished to be recommended as part of this right. IDWR cannot recognize those 8 acres as part of the licensed place of use because they were relinquished. Also, Twin Falls county tax lot information shows those 8 acres to be owned by Luis Bettencourt.

Rock creek decreed claims: 47-184A, you requested 80 acres of irrigation and 0.783 cfs. However, 1987 imagery found 55 acres located north of the ditch based on a submitted claim map identifying those same 55 acres. Also per our meeting on August 12, 2005 it was agreed that Leonard Daw was entitled to 20" (0.40 cfs) of water under 47-184B...the decree was for 1.175 cfs so 0.40 cfs less equals your recommended diversion of 0.775 cfs. For 47-137B, 47-183, 47-2484A, and 47-2474 you indicated that you would like the combined diversion rate to be 4.6 cfs, however IDWR can only recommend 1 miner's inch per acre (0.02 cfs). Since the Rock Creek rights are limited to 175 acres this is equivalent to 3.5 cfs.

I have included the memo from our meeting last year for your reference. With regards to the NRCS information you submitted, for the department to recognize the need for excess flow rates a specific soils analysis, based on specific irrigation practices as related to your individual property, would be necessary to document the need for such changes in your recommendation.

Sincerely,

Amanda J Kriwox

1. Describe the portion of the proposed recommendation with which you disagree (e.g. priority date, period of use, source):

Quantity: 0.397 CFS, 79.40 AFY
Total Combined Diversion rate: 3.72 CFS.
Total Combined Annual Volume of 960 AF.

2. Describe the changes you wish to make in the proposed recommendation:

Quantity: 0.45 CFS
Total Combined Diversion Rate of 3.73 CFS.
Total Combined Annual Volume?

3. Give a brief explanation as to why you disagree with these portions:

Cynthia Turner relinquished her DHE claim to any portion of SE 1/4 Sect 31 (8acres). The water was delivered and used on the land she received title to (the SW 1/4).
Need sufficient volume for "not prime" farmland, with a majority of the soil types/accreages tending to droughty.

I AGREE with this proposed recommendation: no changes need to be made.

RE: Lois Willis files; 47-137B, 183, 184A, 2192A, 2474, 2486A, 2500A, 2523, 2533, 2545, 2484A, & 2487A

Meeting with Lois Willis and her daughter Colleen Lawler on Friday August 12, 2005. Kelly Christensen sat in on this meeting with me.

Rock Creek water is delivered to Willis property by the East Rock Creek Ditch (aka R.O.I ditch). The "little ditch" used to convey water but in 1991 they stopped using it b/c of poor maintenance, etc. Now all water goes down the ERC ditch. No longer gravity irrigating. All water goes into a pond and is pumped from there.

Discussed creating a permissible place of use for system. Both Mrs. Willis and Ms. Lawler were in agreement that this would be the most beneficial means for them to use their water.

DECREE RIGHTS DISCUSSED

A47-184A

Ms. Lawler conceded that Mr. Daw (A47-184B) is to receive water for 10 acres of this decreed place of use.

LICENSES DISCUSSED

A47-2474

* claim was more than licensed for. A lot of the Willis licensed are the same scenario. We discussed and decided to go with a PPOU for everything related to this Willis property. Acres and cfs will be limited to license within the PPOU.

A47-2484A

* 8 acres of this licensed POU is appurtenant to property owned by Louis Bettencourt now. Was unsure whether when the property was bought by Willis if the water went with the property or if it needed to be split between the 2 owners of the licensed POU. Ms. Lawler produced documentation stating that the 8 acres in the SWSE were relinquished by original owner (Cynthia Turner) as part of a Desert Land Entry agreement... so those 8 are no longer available. Will recommend 60 acres for this license based on this information.

This loss of 8 acres also affects 47-2486A and 47-2487A. Recommend 60 acres to Willis for these licenses as well.

SAME POU licensed in 47-2484, 47-2486, & 47-2487

A47-2486A & A47-2487A

* Discussed differences between licensed and claimed pods. The original underflow wells (artesian) were pumped into Rock Creek and then rediverted @ the pou. The artesian wells were used at least through 1940 but the change in location occurred before 1950. Decided that they needed to amend claims to reflect the 2 licensed wells that are now being used as pods for system. A47-2487A was left as claimed and A47-2486A was amended to reflect the pod in the SESW section 31.

A47-2192

* Licensed and Claimed POU and POD differ. POU is owned by 3 different people. Daw and Funk have not filed claims based on this license. Willis only owns @ 50 acres of licensed POU. The original pods are known as the "Norton" wells. They were pumped into Rock Creek and rediverted at several points along the East Rock Creek ditch @ the licensed POU. These wells are no longer being used on this property. David Crockett could possibly file a claim for them under an accomplished transfer as they used to be on his property. But Ms. Lawler agreed that this claim can be disallowed as the wells are no longer in use and the 2 licensed wells on the property have no excess volume/rate available to accommodate the water that this license provided.

DISALLOWED!!

A47-2500A

* Questions re: POU being owned by 2 claimants as well as when changed on pods occurred. Ms. Lawler provided information proving that the wells were still being used on the licensed POU in 1950 but when her parents bought the place @ 1957 the pods had been moved. Can recognize this change as an accomplished transfer. Also agreed that the recommended cfs should be corrected to reflect the actual number of acres owned by Mrs. Willis.
