1. Describe the portion of the proposed recommendation with which you disagree (e.g. priority date, period of use, source): *Quantity: 406.00 AF*

Total Combined volume of 960 AF
Combined total diversion of 3.72 CFS.

2. Describe the changes you wish to make in the proposed recommendation:

Quantity: Total combined diversion of 3.73 CFS.
Total Combined Volume?

3. Give a brief explanation as to why you disagree with these portions:

Need sufficient volume for "not prime" farm land with a majority of the soil type acreage tending to droughty.

☐ I AGREE with this proposed recommendation: no changes need to be made.

RE: Lois Willis files; 47-137B, 183, 184A, 2192A, 2474, 2486A, 2500A, 2523, 2533, 2545, 2484A, & 2487A

Meeting with Lois Willis and her daughter Colleen Lawler on Friday August 12, 2005. Kelly Christensen sat in on this meeting with me.

Rock Creek water is delivered to Willis property by the East Rock Creek Ditch (aka R.O.I ditch). The "little ditch" used to convey water but in 1991 they stopped using it b/c of poor maintenance, etc. Now all water goes down the ERC ditch. No longer gravity irrigating. All water (RC & GW) goes into a pond and is pumped from there.

Discussed creating a permissible place of use for system. Both Mrs. Willis and Ms. Lawler were in agreement that this would be the most beneficial means for them to use their water.

DECREE RIGHTS DISCUSSED

A47-184A

Ms. Lawler conceded that Mr. Daw (A47-184B) is to receive water for 10 acres of this decreed place of use.

LICENSES DISCUSSED

A47-2474

* claim was more than licensed for. A lot of the Willis licensed are the same scenario. We discussed and decided to go with a PPOU for everything related to this Willis property. Acres and cfs will be limited to license within the PPOU.

A47-2484A

* 8 acres of this licensed POU is appurtenant to property owned by Louis Bettencourt now. Was unsure whether when Willis bought the property if the water went with the property or if it needed to be split between the 2 owners of the licensed POU. Ms. Lawler produced documentation stating that the 8 acres in the SWSE were relinquished by original owner (Cynthia Turner) as part of a Desert Land Entry agreement... so those 8 are no longer available. Will recommend 60 acres for this license based on this information.

This loss of 8 acres also affects 47-2486A and 47-2487A. Recommend 60 acres to Willis for these licenses as well.

SAME POU licensed in 47-2484, 47-2486, & 47-2487

A47-2486A & A47-2487A

* Discussed differences between licensed and claimed pods. The original underflow wells (artesian) were pumped into Rock Creek and then redirected @ the pou. The artesian wells were used at least through 1940 but the change in location occurred before 1950. Decided that they needed to amend claims to reflect the 2 licensed wells that are now being used as pods for system. A47-2487A was left as claimed and A47-2486A was amended to reflect the pod in the SESW section 31.

A47-2192

* Licensed and Claimed POU and POD differ. POU is owned by 3 different people. Daw and Funk have not filed claims based on this license. Willis only owns @ 50 acres of licensed POU. The original pods are known as the "Norton" wells. They were pumped into Rock Creek and redirected at several points along the East Rock Creek ditch @ the licensed POU. These wells are no longer being used on this property. David Crockett could possibly file a claim for them under an accomplished transfer as they used to be on his property. But Ms. Lawler agreed that this claim can be disallowed as the wells are no longer in use and the 2 licensed wells on the property have no excess volume/rate available to accommodate the water that this license provided.

DISALLOWED!!

A47-2500A

* Questions re: POU being owned by 2 claimants as well as when changed on pods occurred. Ms. Lawler provided information proving that the wells were still being used on the licensed POU in 1950 but when her parents bought the place @ 1957 the pods had been moved. Can recognize this change as an accomplished transfer. Also agreed that the recommended cfs should be corrected to reflect the actual number of acres owned by Mrs. Willis.

However, I see no documentation indicating that the entire licensed 3.8 cfs should be app. to Willis' POU. Therefore, this claim will only be recommended 2.03 cfs of the licensed 3.8 cfs, based on 175 irrigated acres.
