SUBJECT: New Claim

Harold was in last week and wanted to amend A47-02521, changing the P/U from the original license, as he claimed, to show how the system was actually used. He and his nephew, Bruce, came back in today and explained their system. They own 360 acres and have 280 canal shares (appurtenant to the NE quarter, the north half of the SE quarter, and the SESE quarter.) They bought the property in April of 1987 and put in the current system, which co-mingles the water in ponds and ditches. The wells in the NE quarter have been abandoned and they only use the well in the SWNESE. They stated the well pumps approximately 50". They decided to leave A47-02521 as claimed and file on the unclaimed well for A47-02531, but claiming the P/U in the SESW and the SWSE (instead of the NESE and NWSE as originally licensed). It would appear to be an Accomplished Transfer based on the dates as stated. It also appears the sytem is a PPU.

I gave Bruce an O/C form for A47-02521 as he bought his father's (Louis) interest.

[Licenses 47-02504 and 47-02506 were originally appurtenant to these 80 acres (SESW, SWSE) but are no longer.]
