he brought in Evidence of Priority for ~~A47-04108~~. He had an affidavit from a neighbor and some copies of contracts between the TFCC and adjoining properties of when tiles were put in to catch the seepage. He could find no contracts for his property, but the seeps from the adjoining properties flow into his property. He also filled out an ownership change form to remove his ex-wife names from the claim.

RE: Evidence of Priority

* RESPONSE DEADLINE *
* MARCH 15, 1995 *

Dear Claimant:

The Notice of Claim identified with the number shown above your name on the mailing label has been filed in the Snake River Basin Adjudication (SRBA). The Notice indicates your water usage is based on "Beneficial Use" or a "Statutory Claim". Water rights of this type are established by the historical use of water, dating back to when water was first used for the purpose claimed. The date of first use, known as the priority date, has not been confirmed by a License, Decree or Permit. The Department will, at a later date, conduct reviews &/or field exams for the claims in your area. Since the priority date of a beneficial use water right can not be confirmed by field examination, proof must be provided by the claimant supporting the priority date claimed.

If you no longer own the property to which the claim is appurtenant please forward this correspondence to the present owner, or return it to the department. If you have received this correspondence from the previous owner of the property it is recommended that you file a Change of Ownership form with the Department in order to receive future mailings and to continue to be a party in the adjudication.

Please find enclosed a computer printout of your Notice of Claim and the pamphlet entitled "Evidence of Priority". The pamphlet describes the types of evidence required and suggests which documents will fulfill this requirement.

SPECIAL NOTE: The Department will not recommend the Notice be decreed by the court as claimed if no evidence of a priority date is submitted. It will be to your advantage to provide clear and convincing evidence. If you choose to submit statements from individuals as evidence, the statement must be in the form of a

January 10, 1995

notarized affidavit.

Please submit the required evidence supporting the priority date by March 15, 1995, referencing all documents with the corresponding Notice number. If you have any questions not covered by this letter or the enclosed pamphlet, please contact this office.

Sincerely,

Douglas Jones, P.E.

This land has not been thoroughly drained. It will need two 6 inch tile drains in the draws to drain this land.

There has been no attempt to reclaim all this land.

The alkali is very heavy on most of this land and it might be of little value if drained as it is naturally greasewood land.

The west half is in alkali & clover and is a good stand.

Paris says there has been 1120 ft of 6 inch tile drains laid.

THAT WHEREAS the following described land, to-wit, the Northwest Quarter of the Northwest Quarter (NW $\frac{1}{4}$ NW $\frac{1}{4}$) Section Twenty-seven (27), Township Eleven (11) South, Range Eighteen (18) E. B. M. in Twin Falls County, Idaho, -being the property of the said J. W. Brandt, - has been injured heretofore by the rising and development of seepage and underground waters, and whereas it is the claim of the first parties that the second party is responsible therefor, and is liable to the first parties on account of the same; and whereas it is the desire of the parties to this agreement to mutually adjust and settle such controversy on the basis of this agreement; and whereas the said Walter D. Stark has been the lessee of the lands described hereinbefore as the property of the said J. W. Brandt and as such lessee claims damages against the second party for loss of crop by said seepage.

NOW, THEREFORE, it is agreed by and between the parties hereto that the second party shall upon the execution and delivery of this agreement pay to the said J. W. Brandt, by his agent H. L. Brandt, the sum of \$61.55, and shall pay to the said Walter D. Stark the sum of \$108.45, making a total of \$170.00, and that the said sums shall be and are hereby accepted as a full and complete settlement of all damages and claims for damages for the use or rental value of said land, to date of this agreement. It is understood and agreed that this settlement includes all claims for damages on account of said seepage excepting damage due or claimed on account of the permanent injury, if any, to the said land, and as to the matter of permanent injury, if any, the same is to be governed by the provisions of this agreement hereinafter set forth.

It is furthermore understood and agreed that the second party shall construct a system of drainage with the view of reclaiming and avoiding the seeping of the said land described above, such system of drainage to be outlined, determined upon and planned by the engineers of the second party, and the same to be commenced and constructed within a reasonable time hereafter, to be determined by the engineers of the second party. It is understood and agreed that if the second party should by said system of drainage reclaim the whole or any part of the said seeped land above described, either in whole or in part which are now seeped in whole or in part, the said J. W. Brandt will pay to the second party the sum of \$10.00 per acre for such lands as may be reclaimed and will release the second party from all damage or claims of damage on account of said seepage, which relates to the permanent injury or destruction of the said lands. It is understood and agreed that the greatest number of acres for which the said J. W. Brandt will be liable shall be 15 acres.
