I went down to Buhl and met Gary to review these files and acquire farm and POD info. I did give him a change of address form to update his address. On file 4126 Gary told me that all of his land is irrigated with CC water and Wilson Cr. Water co-mingled but the lands by the dry hill is irrigated with Wilson cr as shown on the photo the west lands are for CC water but thru the changes made of the system all lands are now irrigated with both waters by underground = above ground and gated pipes all of this lands are and have been changes by taking out the old ditch methods and replacing them with pipe= gated pipe methods of irrigation and conserving of water. The yellow line on the photo is a waste ditch for both lands as shown on photo.

File 4125 is from a pump which is no longer at the location but Gary is in the process of looking into another pump to pump from the pond into a main line to hand lines on approx. 5-6 acres as shown on photo. The pond is approx 7 foot deep and the N-S is approx. 100 feet, the E-W is approx. 50 to 60 feet

Re: Donald G Prouse Water Right
Claim #A47-04125

I, Robert Jaynes, state that my father Mark Jaynes owned the property from 1953 through 1963. The property was later sold to Gene Grill and later sold to Mr. Prouse in 1976. At the time my father owned the property we used the water to irrigate the 40 acre parcel. It was our understanding that the previous owners had filed on the water rights to the property. The previous owners filed on the water and I remember that it was mentioned that they had rights on the water dating back to 1936. I also recall seeing literature that showed the water rights.

If I can be of any further assistance please contact me at 543-5766.

RE: Evidence of Priority

Dear Claimant:

* RESPONSE DEADLINE *
* MARCH 15, 1995 *

The Notice of Claim identified with the number shown above your name on the mailing label has been filed in the Snake River Basin Adjudication (SRBA). The Notice indicates your water usage is based on "Beneficial Use" or a "Statutory Claim". Water rights of this type are established by the historical use of water, dating back to when water was first used for the purpose claimed. The date of first use, known as the priority date, has not been confirmed by a License, Decree or Permit. The Department will, at a later date, conduct reviews &/or field exams for the claims in your area. Since the priority date of a beneficial use water right can not be confirmed by field examination, proof must be provided by the claimant supporting the priority date claimed.

If you no longer own the property to which the claim is appurtenant please forward this correspondence to the present owner, or return it to the department. If you have received this correspondence from the previous owner of the property it is recommended that you file a Change of Ownership form with the Department in order to receive future mailings and to continue to be a party in the adjudication.

Please find enclosed a computer printout of your Notice of Claim and the pamphlet entitled "Evidence of Priority". The pamphlet describes the types of evidence required and suggests which documents will fulfill this requirement.

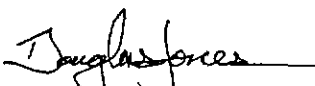

SPECIAL NOTE: The Department will not recommend the Notice be decreed by the court as claimed if no evidence of a priority date is submitted. It will be to your advantage to provide clear and convincing evidence. If you choose to submit statements from individuals as evidence, the statement must be in the form of a

January 10, 1995
page 2

notarized affidavit.

Please submit the required evidence supporting the priority date by March 15, 1995, referencing all documents with the corresponding Notice number. If you have any questions not covered by this letter or the enclosed pamphlet, please contact this office.

Sincerely,

Douglas Jones, P.E.
